**Biography of Choudhary Rahmat Ali, 1893-1951, foreign-based political activist who was the first to propose the name 'Pakstan', later named Pakistan, for a separate and independent homeland for the Indian Muslims. Packed with images, first-person accounts, short stories, historical documents, speeches, treaties, essays, poems, and songs, this Reader is an unprecedented introduction to the historical, cultural, and political permutations that have created contemporary Bangladesh. Seventy years ago, as India and Pakistan gained their independence, the region of Jammu & Kashmir also found itself divided, with parts of the territory administered by Pakistan ever since. Located by the volatile Line of Control and caught in the middle of artillery barrages from both ends, Pakistan-administered Kashmir was until over a decade ago one of the most closed-off territories of the world. In a first book of its kind, award-winning Pakistani writer Anam Zakaria travels through Pakistan-administered Kashmir to hear its people - their sufferings, hopes and aspirations. She talks to women and children living near the Line of Control, bearing the brunt of ceasefire violations; journalists and writers braving all odds to document events in remote areas; political and military representatives championing the cause of Kashmir; former militants still committed to the cause; nationalists struggling for a united independent Kashmir; and refugees yearning to reunite with their families on the other side. In the process, Zakaria breaks the silence surrounding a people who are often ignored in discussions on the present and future of Jammu &**

***Kashmir even though they are important stakeholders in what happens in the region. What she unearths during her deeply empathetic journeys is critical to understanding the Kashmir conflict and will surprise and enlighten Indians and Pakistanis alike. In the past decade Pakistan has become a country of immense importance to its region, the United States, and the world. With almost 200 million people, a 500,000-man army, nuclear weapons, and a large diaspora in Britain and North America, Pakistan is central to the hopes of jihadis and the fears of their enemies. Yet the greatest short-term threat to Pakistan is not Islamist insurgency as such, but the actions of the United States, and the greatest long-term threat is ecological change. Anatol Lieven's book is a magisterial investigation of this highly complex and often poorly understood country: its regions, ethnicities, competing religious traditions, varied social landscapes, deep political tensions, and historical patterns of violence; but also its surprising underlying stability, rooted in kinship, patronage, and the power of entrenched local elites. Engagingly written, combining history and profound analysis with reportage from Lieven's extensive travels as a journalist and academic, Pakistan: A Hard Country is both utterly compelling and deeply revealing. This book is the main text for post-graduate courses on South Asia's development, economic history and on its political economy. For researchers on Pakistan's economy, it is the key source for reference, and covers a huge and diverse array of data, literature reviews, commentary and analysis. The Journey of Partition itself -- after Partition. The Partition of British India and the subsequent creation of two antagonist countries is a phenomenon that we are still trying to comprehend. Millions displaced, thousands slaughtered, families divided and redefined, as home became alien land and the unknown became home. So much has been said about it but there is still no writer, storyteller or poet who has been able to explain the madness of Partition. Using the oral narratives of four generations of people -- mainly Pakistanis but also some Indians -- Anam Zakaria, a Pakistani researcher, attempts to understand how the perception of Partition and the 'other' has evolved over the years. Common sense dictates that the bitter***

*memories of Partition would now be forgotten and new relationships would have been forged over the years, but that is not always the case. The memories of Partition have been repackaged through state narratives, and attitudes have only hardened over the years. Post-Partition events -- wars, religious extremism, terrorism -- have left new imprints on 1947. This book documents the journey of Partition itself -- after Partition. After centuries of British rule, nobody expected Indian Independence and the birth of Pakistan to be so bloody - they were supposed to be the answer to the dreams of Muslims and Hindus. Jawaharlal Nehru, Gandhi's protégé and the political leader of India, believed Indians were an inherently nonviolent, peaceful people. Pakistan's founder, Mohammad Ali Jinnah, was a secular lawyer, not a firebrand. But in August 1946, exactly a year before Independence, Calcutta erupted in street-gang fighting. A cycle of riots - targeting Hindus, then Muslims, then Sikhs - spiraled out of control. As the summer of 1947 approached, all three groups were heavily armed and on edge, and the British rushed to leave. Hell let loose. Trains carried Muslims west and Hindus east to their slaughter. Some of the most brutal and widespread ethnic cleansing in modern history erupted on both sides of the new border, carving a gulf between India and Pakistan that remains a root cause of many evils. From jihadi terrorism to nuclear proliferation, the searing tale told in *Midnight's Furies* explains all too many of the headlines we read today. Moving from the elegant drawing rooms of Lahore to the mud villages of rural Multan, a powerful collection of short stories about feudal Pakistan. An impoverished young woman becomes a wealthy relative's mistress; an electrician on the make confronts his desperate assailant to protect his most prized possession; a farm manager rises far in the world—but his family discovers after his death the transience of power; a maid, who advances herself through sexual favours, unexpectedly falls in love. In these linked stories about the family and household staff of the ageing KK Harouni, we meet masters and servants, landlords and supplicants, politicians and electricians, village women, and Karachi housewives. Part Chekhov, part RK Narayan, these stories are dark and light, complex and humane; at heart about*

***the relationship between the powerful and powerless, bound together in life—and in death. Together they make up a vivid portrait of a feudal world rarely brought alive in the English language. Sensuous, graceful, melancholy, In Other Rooms, Other Wonders gives you Pakistan as you have never seen it. It marks the debut of an amazing new talent. The relationship between America and Pakistan is based on mutual incomprehension and always has been. Pakistan—to American eyes—has gone from being a quirky irrelevance, to a stabilizing friend, to an essential military ally, to a seedbed of terror. America—to Pakistani eyes—has been a guarantee of security, a coldly distant scold, an enthusiastic military enabler, and is now a threat to national security and a source of humiliation. The countries are not merely at odds. Each believes it can play the other—with sometimes absurd, sometimes tragic, results. The conventional narrative about the war in Afghanistan, for instance, has revolved around the Soviet invasion in 1979. But President Jimmy Carter signed the first authorization to help the Pakistani-backed mujahedeen covertly on July 3—almost six months before the Soviets invaded. Americans were told, and like to believe, that what followed was Charlie Wilson's war of Afghani liberation, with which they remain embroiled to this day. It was not. It was General Zia-ul-Haq's vicious regional power play. Husain Haqqani has a unique insight into Pakistan, his homeland, and America, where he was ambassador and is now a professor at Boston University. His life has mapped the relationship of the two countries and he has found himself often close to the heart of it, sometimes in very confrontational circumstances, and this has allowed him to write the story of a misbegotten diplomatic love affair, here memorably laid bare. 'All those interested in South Asia and its complex politics and culture should read this book' - Pankaj Mishra***

***The demise of Pakistan - a country with a reputation for volatility, brutality and radical Islam - is regularly predicted. But things rarely turn out as expected, as renowned journalist Declan Walsh knows well. Over a decade covering the country, his travels took him from the raucous port of Karachi to the gilded salons of Lahore to the lawless frontier of Waziristan, encountering Pakistanis whose lives offer a compelling portrait of this land of***

**contradictions. He meets a crusading lawyer who risks her life to fight for society's most marginalised, taking on everyone including the powerful military establishment; an imperious chieftain spouting poetry at his desert fort; a roguish politician waging a mini-war against the Taliban; and a charismatic business tycoon who moves into politics and seems to be riding high - till he takes up the wrong cause. Lastly, Walsh meets a spy whose orders once involved following him, and who might finally be able to answer the question that haunts him: why the Pakistanis suddenly expelled him from their country. Intimate and complex, unravelling the many mysteries of state and religion, this formidable book offers an arresting account of life in a country that, often as not, seems to be at war with itself.'Thrilling, big-hearted' - Memphis Barker, Daily Telegraph'Sets a new benchmark for non-fiction about the complex palace of mirrors that is Pakistan' - William Dalrymple**

**Salman Rushdie once described Pakistan as a 'poorly imagined country'. Indeed, Pakistan has meant different things to different people since its birth seventy years ago. Armed with nuclear weapons and dominated by the military and militants, it is variously described around the world as 'dangerous', 'unstable', 'a terrorist incubator' and 'the land of the intolerant'. Much of Pakistan's dysfunction is attributable to an ideology tied to religion and to hostility with the country out of which it was carved out -- India. But 95 per cent of Pakistan's 210 million people were born after Partition, as Pakistanis, and cannot easily give up on their home. In his new book, Husain Haqqani, one of the most important commentators on Pakistan in the world today, calls for a bold re-conceptualization of the country. Reimagining Pakistan offers a candid discussion of Pakistan's origins and its current failings, with suggestions for reconsidering its ideology, and identifies a national purpose greater than the rivalry with India. This Is The First Scholarly Biography Of One Of The Most Important Political Figure Of The Modern World. The volume emphasizes the need to effectively address emerging antimicrobial resistance, strengthen health systems, and increase access to care. The attainable goals are to reduce incidence, develop innovative approaches, and optimize existing tools in resource-constrained settings. When East Meets West is another book in the series by K. K. Sudan, who had earlier made a debut with his book Face to Face with Destiny in the professional world of authors. Written with a depth and sincerity, the book engrosses the reader from the first page to the last. It shows the intense insight of the human spirit which can triumph over the odds, which life is subjected to. The story of a girl who had to live in the disguise of a boy to hide her identity and reared by a man, becoming himself a eunuch by accident at the cruel hands of fate, feelings of love, romance, struggle, and tenderness. It is a fantastic and remarkable read professing enlightenment. Pakistan is a strategic ally of the US in the 'war on terror'. It is the third largest recipient of US aid in the world. Yet Pakistan is a state run by its army and intelligence service. Operating in the shadows, Pakistan's military industrial complex owns and controls swathes of the economic and political landscape of the country. Military Inc. dares to illuminate the military as an oppressive holding company possessing not just security-related businesses, but also hotels, shopping malls, insurance companies, banks, farms and even an airline. The result is a deeply undemocratic society, where money is funnelled towards the military's economic enterprises, leaving those in need of it impoverished and effectively disenfranchised. With an empirical richness, and a view to Pakistan's recent history, Ayesha Siddiqa offers a detailed and powerful case study of a global phenomenon: corruption, hollow economic growth and elitism. This new edition includes a chapter on the recent developments of the military's foray into the media, and a new preface. Among U.S. allies in the war against terrorism, Pakistan cannot be easily characterized as either friend or foe.***

***Nuclear-armed Pakistan is an important center of radical Islamic ideas and groups. Since 9/11, the selective cooperation of president General Pervez Musharraf in sharing intelligence with the United States and apprehending al Qaeda members has led to the assumption that Pakistan might be ready to give up its longstanding ties with radical Islam. But Pakistan's status as an Islamic ideological state is closely linked with the Pakistani elite's worldview and the praetorian ambitions of its military. This book analyzes the origins of the relationships between Islamist groups and Pakistan's military, and explores the nation's quest for identity and security. Tracing how the military has sought U.S. support by making itself useful for concerns of the moment—while continuing to strengthen the mosque-military alliance within Pakistan—Haqqani offers an alternative view of political developments since the country's independence in 1947. About the Book India and Pakistan, the two important countries of the South Asian Sub-continent, have had a far from cordial relationship. It was in sum a love-hate relationship in which one is compelled to unwillingly coexist with the other and retain a constant but correct relationship on account of geography and historical circumstances. This state of affairs between the two countries could be traced to the very beginning of the birth of the two nations in 1947. The problems that existed in the initial years of their independence have survived in the seventh decade with no signs yet of any enduring solution. This study deals with India-Pakistan relations from 2003 to the present time. This period has been chosen because it signifies the culmination of certain trends in the relationship between the two nations after the start of the process of Confidence Building Measures (CBMs). This book provides a theoretical understanding of the South Asian region in general and India-Pakistan relations in particular. It analyses not only India's interests and policy options towards Pakistan but also evaluates the real nature of their bilateral relations. It has discussed not only the key issues between them, such as Kashmir, Terrorism, Siachen, Sir Creek, Drug Trafficking but also provides their likely solutions to these problems. Besides this, the process of CBMs and the steps taken by both nations are also discussed in it. Hence this book***

***presents an overview of the contemporary nature of India-Pakistan relations after the start of the process of CBMs. The book may be beneficial for students, teachers, policymakers, diplomats, as well as, common readers engaged in understandings the current discourses on India-Pakistan relations in this changed international milieu. Winner of the 2021 Overseas Press Club of America Cornelius Ryan Award The former New York Times Pakistan bureau chief paints an arresting, up-close portrait of a fractured country. Declan Walsh is one of the New York Times's most distinguished international correspondents. His electrifying portrait of Pakistan over a tumultuous decade captures the sweep of this strange, wondrous, and benighted country through the dramatic lives of nine fascinating individuals. On assignment as the country careened between crises, Walsh traveled from the raucous port of Karachi to the salons of Lahore, and from Baluchistan to the mountains of Waziristan. He met a diverse cast of extraordinary Pakistanis—a chieftain readying for war at his desert fort, a retired spy skulking through the borderlands, and a crusading lawyer risking death for her beliefs, among others. Through these “nine lives” he describes a country on the brink—a place of creeping extremism and political chaos, but also personal bravery and dogged idealism that defy easy stereotypes. Unbeknownst to Walsh, however, an intelligence agent was tracking him. Written in the aftermath of Walsh's abrupt deportation, The Nine Lives of Pakistan concludes with an astonishing encounter with that agent, and his revelations about Pakistan's powerful security state. Intimate and complex, attuned to the centrifugal forces of history, identity, and faith, The Nine Lives of Pakistan offers an unflinching account of life in a precarious, vital country. The report Pakistan at 100 discusses options to accelerate and sustain growth in Pakistan so that the country becomes an upper middle-income country when it turns 100 years old in 2047. This policy note discusses Pakistan leveraging the benefits from trade by taking advantage of its geostrategic location in South Asia.**
