Over this time 9,772 GPs provided details of 977,200 GP-patient encounters. The report highlights changes that have occurred over the decade in the characteristics of GPs and the patients they see, the problems managed, and the treatments provided. This report is the International Development Committee's annual review of UK aid programmes and the administration of the Department for International Development (DFID). The Committee finds that field work overseas should be given greater priority and Ministers must explain UK spending on humanitarian projects more clearly. DFID should not provide funds to support disasters in middle income countries by raiding bilateral development programmes in low income countries. Other wealthy OECD countries must play their part in providing humanitarian assistance. DFID should set out annually its provisional budget for humanitarian relief, what is held as contingencies for unpredictable events and how it will be deployed if not called upon. There has also been a decline in DFID's spending on budget support, the consequences of which should be assessed. £1,075 million of DFID's bilateral expenditure is spent through multilaterals and private contractors. DFID has put in place a number of changes to improve the value for money provided by spending through and should report on their effectiveness. The Committee is also worried that the Department actually spends 40% of its budget in the last two months of the year, which raises questions about the smooth running of management and planning processes. DFID staff should have longer postings overseas (normally a minimum of four years) so that they can develop a deeper understanding of the culture and politics of the country they are working in and engage more effectively with the country's politicians. The Cambridge Yearbook of European Legal Studies provides a forum for the scrutiny of significant issues in EU Law, the law of the European Convention on Human Rights, and Comparative Law with a 'European'**

dimension, and particularly those issues which have come to the fore during the year preceding publication. The contributions appearing in the collection are commissioned by the Centre for European Legal Studies (CELS) Cambridge, a research centre in the Law Faculty of the University of Cambridge specialising in European legal issues. The papers presented are at the cutting edge of the fields which they address, and reflect the views of recognised experts drawn from the University world, legal practice, and the institutions of both the EU and its Member States. Inclusion of the comparative dimension brings a fresh perspective to the study of European law, and highlights the effects of globalisation of the law more generally, and the resulting cross fertilisation of norms and ideas that has occurred among previously sovereign and separate legal orders. The Cambridge Yearbook of European Legal Studies is an invaluable resource for those wishing to keep pace with legal developments in the fast moving world of European integration.

The city is the home of prosperity. It is the place where human beings find satisfaction of basic needs and access to essential public goods. The city is also where ambitions, aspirations and other material and immaterial aspects of life are realized, providing contentment and happiness. It is a locus at which the prospects of prosperity and individual and collective well-being can be increased. However, when prosperity is restricted to some groups, when it is used to pursue specific interests, or when it is a justification for financial gains for the few to the detriment of the majority, the city becomes the arena where the right to shared prosperity is claimed and fought for. As people in the latter part of 2011 gathered in Cairo's Tahrir Square, in Madrid's Puerta del Sol, in front of London's St Paul's cathedral, or in New York's Zuccotti Park, they were not only demanding more equality and inclusion; they were also expressing the need for prosperity to be shared across all segments of society. What this new edition of State of the World's Cities shows is that prosperity for all has been compromised by a narrow focus on economic growth. UN-Habitat suggests a fresh approach to prosperity beyond the solely economic emphasis, including other vital dimensions such as quality of life, adequate infrastructures, equity and environmental sustainability. The Report proposes a new tool – the City Prosperity Index – together with a conceptual matrix, the Wheel of Prosperity, both of which are meant to assist decision makers to design clear policy interventions. The Report advocates for the need of cities to enhance the public realm, expand public goods and consolidate rights to the 'commons' for all as a way to expand prosperity. This comes in response to the observed trend of enclosing or restricting these goods and commons in enclaves of prosperity, or depleting them through unsustainable use. The Report maps out major policy steps to promote a new type of city – the city of the twenty-first century – that is a 'good', people-centred city. One that is capable of integrating the tangible and more intangible aspects of prosperity, and in the process shedding off the inefficient, unsustainable forms and functionalities of the city of the previous century. By doing this, UN-Habitat plays a pivotal role in ensuring that urban planning, legal, regulatory

and institutional frameworks become instruments of prosperity and well-being. Since its first release in 2008, the official book of the Superbike World Championship has been an indispensable resource for all fans of the championship reserved for production derived bikes, the championship for bikes you can buy from your local dealer. Plenty of space has been devoted to reports on the 12 scheduled races of the 2016 season, and to the bikes and riders that constitute the fundamental pieces in the complex SBK jigsaw. The "strong suit" of the official book, one of the parts that will delight fans of the series, is without doubt the one dealing with the engineering of these authentic jewels, described in the most minute detail - thanks to the contributions of specialists working for the various teams - and illustrated with numerous photos revealing all the secrets of the championship's leading players. The chapters on the "other world championships", Supersport and Superstock 1000 and 600 complete a book that should be on the shelves of every true fan.

Between 2012 and 2013, Mali has gone through the most challenging period of its history as a nation-state. From a praised democracy, the country almost collapsed after the onset of a complex set of rebellions that threatened to divide or completely erase it from the map. This book provides a three-dimensional analysis of the conflict drivers as well a deep assessment of the conflict resolution mechanisms that were set up to restore Mali control over its territory. From the outbreak of MNLA insurgent attacks in early 2012, the crafting of AZAWAD, the fluidity of MNLA alliance with ANSAR DINE, MUJAO and AQIM, the coup d'état of Sanogo and downfall of Amani Toumani Touré, the responses of ECOWAS, the 'core countries' (Algeria, Mauritania), the African Union, the role of France to the re-hatting of AFISMA and launch of MINUSMA, all crusty details and facets of the crisis are meticulously scrutinized. This book is a must-have for academics, diplomats and strategists interested the new conflict dynamics in Mali and West Africa in a global era.
