Steve Jobs: A Biographic Portrait Jul 26 2023 A visual guide to the life and works of the world-changing entrepreneur told through text, photos, and original graphics. Easily one of the most influential innovators of the twentieth and twenty-first century, Steve Jobs fundamentally shaped the way in which we communicate and, even more broadly, live our lives. In this information-packed graphic biography, Steve Jobs' remarkable talent and genius are explored through bold design and original graphics. Kevin Lynch explores Jobs' journey from savvy salesman, to his rivalry and market

competition with Bill Gates, to his shift toward radical innovations in later life. This technological innovator led a fascinating, astounding and ultimately too short life that irreversibly impacted our world. *Steve Jobs: A Biographic Portrait* is a visual celebration and comprehensive study of “The Maverick” and his work; and a must-have for any fan of Apple products.

Swarm Intelligence and Deep Evolution Nov 25 2020 The book provides theoretical and practical knowledge about swarm intelligence and evolutionary computation. It describes the emerging trends in deep learning that involve the integration of swarm intelligence and evolutionary computation with deep learning, i.e., deep neuroevolution and deep swarms. The study reviews the research on network structures and hyperparameters in deep learning, and attracting attention as a new trend in AI. A part of the coverage of the book is based on the results of practical examples as well as various real-world applications. The future of AI, based on the ideas of swarm intelligence and evolution is also covered. The book is an introductory work for researchers. Approaches to the realization of AI and the emergence of intelligence are explained, with emphasis on evolution and learning. It is designed for beginners who do not have any knowledge of algorithms or biology, and explains the basics of neural networks and deep learning in an easy-to-understand manner. As a practical exercise in neuroevolution, the book shows how to learn to drive a racing car and a helicopter using MindRender. MindRender is an AI educational software that allows the readers to create and play with VR programs, and provides a variety of examples so that the readers will be able to create and understand AI.
