Learn about the first ruling queen of England. This title was first published in 2002: An intensive study of Shakespeare's most ambitious and complex achievement in the historical mode. The book offers an account of the play's critical history from 1700 until the 1980s, deals with the aspects of Tudor history relevant to an understanding, and offers close readings of the text structured around what the author believes to be the play's three dominant concepts: time; truth; and grace. In an attempt to correct what he sees as a certain falsification of critical history, the author aligns his account of the play's reception with one of its major preoccupations - the inescapable and informing presence of the past. Mary Tudor is often written off as a hopeless, twisted queen who tried desperately to pull England back to the Catholic Church that was so dear to her mother, and sent many to burn at the stake in the process. In this radical re-evaluation of the first 'real' English queen regnant, Judith M. Richards challenges her reputation as 'Bloody Mary' of popular historical infamy, contending that she was closer to the more innovative, humanist side of the Catholic Church. Richards argues persuasively that Mary, neither boring nor basically bloody, was a much more hard-working, 'hands on', and decisive queen than is commonly recognized. Had she not died in her early forties and failed to establish a Catholic succession, the course of history could have been very different, England might have remained Catholic and Mary herself may even have been treated more kindly by history. This illustrated and accessible biography is essential reading for all those with an interest in one of England's most misrepresented monarchs. A striking and sympathetic portrait of England's first Queen, Mary I - whose character has been vilified for over 400 years. Instead of the bloodthirsty bigot of Protestant mythology, Mary Tudor emerges from the pages of this deeply-researched biography as a cultured renaissance princess, a courageous survivor of the violent power struggles that characterised the reigns of her father, Henry VIII, and brother Edward VI. The author does not belittle Mary's burning of heretics, which earned her the subriquet 'Bloody Mary', but she also had many endearing personal qualities and talents, not least the courage of leadership she showed in facing down Northumberland's rebellion. A well-balanced and readable biography of Mary I is long overdue. Annotation This volume reconstructs the lives of Henry VII's new men - low-born ministers with legal, financial, political, and military skills who enforced the king's will as he sought to strengthen government after the Wars of the Roses, examining how they exercised power, gained wealth, and spent it to sustain their new-found status. The Tudors are England's most dramatic royal family-Henry VIII notoriously divorced his queen and broke with the church of Rome, and Elizabeth I became the greatest English queen in history. But they are a dynasty still more extraordinary than the one we thought we knew. In an epic narrative sweeping from 1437 to the first decade of the seventeenth century, Tudor traces the rise and rule of the dynasty. Brutal political instability dominated England, and Leanda de Lisle reveals the personalities, passions, and obsessions of the men and women at its epicenter. This groundbreaking story opens at the unlikely beginning of the Tudor dynasty-with Owen Tudor, a handsome Welsh commoner who, with a pirouette and a trip, landed squarely in the lap of the English Monarchy. The struggle of Owen's grandson Henry VII and his heirs to secure the line of succession-and the hopes, loves, and losses of the claimants-are the focus of this book. The universal appeal of the Tudors also lies in the family stories: of a mother's love for her son, of the husband who kills his wives, of siblings who betray one another, of reckless love affairs, of rival cousins, of an old spinster whose heirs hope to hurry her to her end. Thrilling to read and bristling with religious and political intrigue, Tudor tells the true story behind the myths, throwing a fresh, new light on this perennially fascinating era.

Porter offers this groundbreaking new biography of Mary Tudor, a queen best remembered for burning hundreds of Protestant heretics at the stake, but whose passion, will, and sophistication have for centuries been overlooked. 16-page b&w photo insert. The co-monarchy of Mary I and Philip II put England at the heart of early modern Europe. This positive reassessment of their joint reign counters a series of parochial, misogynist and anti-Catholic assumptions, correcting the many myths that have grown up around the marriage and explaining the reasons for its persistent marginalisation in the historiography of sixteenth-century England. Using new archival discoveries and original sources, the book argues for Mary as a great Catholic queen, while fleshing out Philip's important contributions as king of England. It demonstrates the many positive achievements of this dynastic union in everything from culture, music and art to cartography, commerce and exploration. An important corrective for anyone interested in the history of Tudor England and Habsburg Spain. (Vocal Selections). Six has received rave reviews around the world for its modern take on the stories of the six wives of Henry VIII and it's finally opening on Broadway! From Tudor queens to pop princesses, the six wives take the mic to remix five hundred years of historical heartbreak into an exuberant celebration of 21st century girl power! Songs include: All You Wanna Do * Don't Lose Ur Head * Ex-Wives * Get Down * Haus of Holbein * Heart of Stone * I Don't Need Your Love * No Way * Six. Explore a fascinating look at the three pretenders to the Tudor throne - Simnel, Warbeck, and Warwick. The reign of Mary Tudor has been remembered as an era of sterile repression, when a reactionary monarch launched a doomed attempt to reimpose Catholicism on an unwilling nation. Above all, the burning alive of more than 280 men and women for their religious beliefs seared the rule of "Bloody Mary" into the protestant imagination as an alien aberration in the onward and upward march of the English-speaking peoples. In this controversial reassessment, the renowned reformation historian Eamon Duffy argues that Mary's regime was neither inept nor backward looking. Led by the queen's cousin, Cardinal Reginald Pole, Mary's church dramatically reversed the religious revolution imposed under the child king Edward VI. Inspired by the values of the European Counter-Reformation, the cardinal and the queen reinstated the papacy and launched an effective propaganda campaign through pulpit and press. Even the most notorious aspect of the regime, the burnings, proved devastatingly effective. Only the death of the childless queen and her cardinal on the same day in November 1558 brought the protestant Elizabeth to the throne, thereby changing the course of English history. Profiles Henry VII as an enigmatic and ruthless king of a country ravaged by decades of conspiracy and civil war, discussing the costs of establishing a Tudor monarchy and the ways he set the stage for Henry VIII's reign. In this groundbreaking new biography of "Bloody Mary," Linda Porter brings to life a queen best remembered for burning hundreds of Protestant heretics at the stake, but whose passion, will, and sophistication have for centuries been overlooked. Daughter of Henry VIII and Katherine of Aragon, wife of Philip of Spain, and sister of Edward VI, Mary Tudor was a cultured Renaissance princess. A Latin scholar and outstanding musician, her love of fashion was matched only by her zeal for gambling. It is the tragedy of Queen Mary that today, 450 years after her death, she remains the most hated, least understood monarch in English history. Linda Porter's pioneering new biography—based on contemporary documents and drawing from recent scholarship—cuts through the myths to reveal the truth about the first queen to rule England in her own right. Mary learned politics in a hard school, and was cruelly treated by her father and bullied by the strongmen of her brother, Edward VI. An audacious coup brought her to the throne, and she needed all her strong will and courage to keep it. Mary made a grand marriage to Philip of Spain, but her attempts to revitalize England at home and abroad were cut short by her premature death at the age of forty-two. The first popular biography of Mary in thirty years, *The First Queen of England* offers a fascinating, controversial look at this much-maligned queen. She was the first woman to inherit the throne of England, a key player in one of Britain's stormiest eras, and a leader whose unwavering faith and swift retribution earned her the nickname "Bloody Mary." Now, in this impassioned and absorbing debut, historian Anna Whitelock offers a modern perspective on Mary Tudor and sets the record straight once and for all on one of history's most compelling and maligned rulers. Though often overshadowed by her long-reigning sister, Elizabeth I, Mary lived a life full of defiance, despair, and triumph. Born the daughter of the notorious King Henry VIII and the Spanish Katherine of Aragon, young Mary was a princess in every sense of the word—schooled in regal customs, educated by the best scholars, coveted by European royalty, and betrothed before she had reached the age of three. Yet in a decade's time, in the wake of King Henry's break with the pope, she was declared a bastard, disinherited, and demoted from "princess" to "lady." Ever her deeply devout mother's daughter, Mary refused to accept her new status or to recognize Henry's new wife, Anne Boleyn, as queen. The fallout with her father and his counselors nearly destroyed the teenage Mary, who faced imprisonment and even death. It would be an outright battle for Mary to work herself back into the king's favor, claim her rightful place in the Tudor line, and ultimately become queen of England, but her coronation would not end her struggles. She flouted the opposition and married Philip of Spain, sought to restore Catholicism to the nation, and fiercely punished the resistance. But beneath her brave and regal exterior was a dependent woman prone to anxiety, whose private traumas of phantom pregnancies, debilitating illnesses, and unrequited love played out in the public glare of the fickle court. Anna

Whitelock, an acclaimed young British historian, chronicles this unique woman's life from her beginnings as a heralded princess to her rivalry with her sister to her ascent as ruler. In brilliant detail, Whitelock reveals that Mary Tudor was not the weak-willed failure as so often rendered by traditional narratives but a complex figure of immense courage, determination, and humanity. 'Weir perfectly combines the dramatic colour and timing of an historical novelist with the truth to fact of a scrupulous historian' The Times Britain's foremost female historian reveals the true story of this key figure in the Wars of the Roses and the Tudor dynasty who began life a princess, spent her youth as a bastard fugitive, but who finally married the first Tudor king and was the mother of Henry VIII. Elizabeth of York would have ruled England, but for the fact that she was a woman. Heiress to the royal House of York, she schemed to marry Richard III, the man who had deposed and probably killed her brothers, and it is possible that she then conspired to put Henry Tudor on the throne. Yet after marriage to Henry VII, which united the royal houses of Lancaster and York, a picture emerges of a model consort - mild, pious, generous and fruitful. It has been said that Elizabeth was distrusted by Henry VII and her formidable mother-in-law, Margaret Beaufort, but contemporary evidence shows that Elizabeth was, in fact, influential. Alison Weir builds an intriguing portrait of this beloved queen, placing her in the context of the magnificent, ceremonious, often brutal, world she inhabited, and revealing the woman behind the myth. "Elizabeth of York would have ruled England, but for the fact that she was a woman. The eldest daughter of Edward IV, at seventeen she was relegated from pampered princess to bastard fugitive, but the probable murders of her brothers, the Princes in the Tower, left Elizabeth heiress to the royal House of York, and in 1486, Henry VII, first sovereign of the House of Tudor, married her, thus uniting the red and white roses of Lancaster and York. Elizabeth is an enigma. She had schemed to marry Richard III, the man who had deposed and probably killed her brothers, and it is likely that she then intrigued to put Henry Tudor on the throne. Yet after marriage, a picture emerges of a model consort, mild, pious, generous and fruitful. It has been said that Elizabeth was distrusted and kept in subjection by Henry VII and her formidable mother-in-law, Margaret Beaufort, but contemporary evidence shows that Elizabeth was, in fact, influential, and may have been involved at the highest level in one of the most controversial mysteries of the age. Alison Weir builds an intriguing portrait of this beloved queen, placing her in the context of the magnificent, ceremonious, often brutal, world she inhabited, and revealing the woman behind the myth, showing that differing historical perceptions of Elizabeth can be reconciled."--

Publisher's description. Shortlisted for the Wolfson History Prize 2018 A Book of the Year for the Evening Standard and the Observer A black porter publicly whips a white Englishman in the hall of a Gloucestershire manor house. A Moroccan woman is baptised in a London church. Henry VIII dispatches a Mauritanian diver to salvage lost treasures from the Mary Rose. From long-forgotten records emerge the remarkable stories of Africans who lived free in Tudor England... They were present at some of the defining moments of the age. They were christened, married and buried by the Church. They were paid wages like any other Tudors. The untold stories of the Black Tudors, dazzlingly brought to life by Kaufmann, will transform how we see this most intriguing period of history. The shocking and extraordinary story of the most-conniving, manipulative Tudor family you've never heard of—the dashing and daring House of Dudley. Each Tudor monarch made their name with a Dudley by their side—or by crushing one beneath their feet. The Dudleys thrived at the court of Henry VII, but were sacrificed to the popularity of Henry VIII. Rising to prominence in the reign of Edward VI, the Dudleys lost it all by advancing Jane Grey to the throne over Mary I. That was until the reign of Elizabeth I, when the family was once again at the center of power, and would do anything to remain there. . . . With three generations of felled favorites, what was it that caused this family to keep rising so high and falling so low? Here, for the first time, is the story of England's Borgias, a noble house competing in a murderous game for the English throne. Witness cunning, adultery, and sheer audacity from history's most brilliant, bold, and deceitful family. Welcome to the House of Dudley. An introduction to the life of Mary I, who earned the name Bloody Mary after she adopted the habit of burning Protestants at the stake. The Nymph from Heaven tells the story of possibly the most famous love triangle of all time, the results of which still ring down the centuries to us today; that of Henry VIII, Katharine of Aragon and Anne Boleyn. This intriguing story is juxtaposed with the captivating tale of Henry's younger sister, Mary Tudor. Almost everyone knows that King Henry VIII of England had six wives and two daughters, but many do not realize that he also had two sisters. Both of King Henry's sisters became queens through dynastic marriages, but their fates were very different. Margaret, King Henry's elder sister, became Queen of Scotland, while Mary, his younger sister, became Queen of France. The Nymph from Heaven is a historical novel based on the life of Henry's younger sister, Mary Tudor. Mary, not to be confused with her niece, "Bloody" Mary, graced the stage of European politics for only a few short years, but her story is a fascinating one. Born a beautiful princess into Tudor England in the late Middle Ages, Mary's hand was sought in marriage from the age of three. But bound to duty by her high position, Mary knew that any match arranged for her would almost certainly take her out of England for marriage with a stranger in a foreign land. But Mary falls in love with a poor English knight, and is determined to marry him. Through many trials and tribulations, and against all odds, Mary marries her one true love. But the price may prove too high. Queen Elizabeth I - A

Biography of a Very Important Queen In World History From the moment she was conceived, Queen Elizabeth I of England was the subject of controversy. The daughter of King Henry VIII and his second wife Anne Boleyn, Elizabeth was accused of being illegitimate by English Catholics before she was even born, as they refused to acknowledge the annulment of Henry's first marriage. Elizabeth's childhood was tumultuous, as her mother was executed when she was two and a half years old, and she was raised as Henry's daughter but not Henry's heir. Elizabeth became Queen in 1558, succeeding her half-sister Mary Tudor to the throne. Elizabeth refused to marry immediately and rule as co-regent with her husband, as Mary had done, and her decision to remain single and rule alone became a defining feature of her reign. However, Elizabeth knew that by entertaining the notion of marriage to a foreign prince she could maintain control of her own political authority. Naming an heir, whether from her own body or not, would destabilize her position and leave her vulnerable to a coup. Elizabeth's voluntary decision to never marry inspired a cult of virginity where the Queen's decision to remain a virgin gradually became regarded as her greatest virtue. Poets, writers, and artists fueled the public's worship of her virtue by creating recognizable iconography that created a legend around Elizabeth, even while she was still alive. Elizabeth's loyal subjects often pointed out that her reign fulfilled one of the... To be continued... Here is a Preview of What You Will Get: ? A Full Book Summary ? An Analysis ? Fun quizzes ? Quiz Answers ? Etc. Get a copy of this summary and learn about the book. This probing yet sympathetic account reveals a personality no less fascinating than Elizabeth in its contradictions Forty-five gruesome but not gratuitous accounts from the Tudor reign, including the death of Richard III and the botched execution of Mary Queen of Scots. This decidedly darker take on the Tudors, from 1485 to 1603, covers a whole host of horrors from the Tudor reign. Particular attention is paid to the various gruesome ways in which the Tudors despatched their various villains and lawbreakers, from simple beheadings, to burnings and of course the dreaded hanging, drawing and quartering. Other chapters cover the various diseases prevalent during Tudor times, including the dreaded "Sweating Sickness"—rather topical at the moment, unfortunately—as well as the cures for these sicknesses, some of which were considered worse than the actual disease itself. The day-to-day living conditions of the general populace are also examined, as well as various social taboos and the punishments that accompanied them, i.e. the stocks, as well as punishment by exile. Tudor England was not a nice place to live by twenty-first-century standards, but the book will also serve to explain how it was still nevertheless a familiar home to our ancestors. "He does not shy away from the gory details, which adds another element to stories that are familiar to those who are Tudor fans. If you want something spooky to read in October or know more about the darker side of Tudor history, I recommend reading House of Tudor." —Adventures of a Tudor Nerd "It really does cover so many different things that there will be something for everyone whatever your interests are; political, personal, medical, or death. A brilliant gory discourse on my favourite period of history!" —Tudor Blogger Daughter of Henry VIII, half-sister to the future Elizabeth I, the turbulent life of the first woman to rule England and the cruel fate of those who opposed her iron will. **NEW YORK TIMES BESTSELLER** • For the first time in decades comes a fresh look at the fabled Tudor dynasty, comprising some of the most enigmatic figures ever to rule a country. "A thoroughly readable and often compelling narrative . . . Five centuries have not diminished the appetite for all things Tudor."—Associated Press In 1485, young Henry Tudor, whose claim to the throne was so weak as to be almost laughable, crossed the English Channel from France at the head of a ragtag little army and took the crown from the family that had ruled England for almost four hundred years. Half a century later his son, Henry VIII, desperate to rid himself of his first wife in order to marry a second, launched a reign of terror aimed at taking powers no previous monarch had even dreamed of possessing. In the process he plunged his kingdom into generations of division and disorder, creating a legacy of blood and betrayal that would blight the lives of his children and the destiny of his country. The boy king Edward VI, a fervent believer in reforming the English church, died before bringing to fruition his dream of a second English Reformation. Mary I, the disgraced daughter of Catherine of Aragon, tried and failed to reestablish the Catholic Church and produce an heir. And finally came Elizabeth I, who devoted her life to creating an image of herself as Gloriana the Virgin Queen but, behind that mask, sacrificed all chance of personal happiness in order to survive. The Tudors weaves together all the sinners and saints, the tragedies and triumphs, the high dreams and dark crimes, that reveal the Tudor era to be, in its enthralling, notorious truth, as momentous and as fascinating as the fictions audiences have come to love. Praise for *The Tudors* "A rich and vibrant tapestry."—The Star-Ledger "A thoroughly readable and often compelling narrative . . . Five centuries have not diminished the appetite for all things Tudor."—Associated Press "Energetic and comprehensive . . . [a] sweeping history of the gloriously infamous Tudor era . . . Unlike the somewhat ponderous British biographies of the Henrys, Elizabeths, and Boleyns that seem to pop up perennially, *The Tudors* displays flashy, fresh irreverence [and cuts] to the quick of the action."—Kirkus Reviews "[A] cheeky, nuanced, and authoritative perspective . . . brims with enriching background discussions."—Publishers Weekly "[A] lively new history."—Bloomberg Jerry Weinberger reinterprets the meaning of Francis Bacon's *History* and defines its importance to the rise of modern republicanism, liberalism and the politics of progress. His introduction describes

the background of Bacon's History placing it in the context of Bacon's work and the sources he may have used. Weinberger comments on the changing reputation and interpretation of The History and discusses its significance as a work of early modern political philosophy. The text of The History follows, accompanied by extensive explanatory footnotes. Weinberger's annotations establish the relationship of text to the surviving manuscript, the first printed edition, and the Latin translation. In addition, they show Bacon's differences from the earlier historians on whom he relied, explaining obsolete words, and clarifying matters of historical chronology and fact. In his interpretive essay, Weinberger discusses contemporary debates on how best to approach and understand The History. He suggests that Bacon's apparently contradictory work is a subtle and seamless picture of the modern state. The History is not just an account of the first Tudor monarch, Weinberger claims; it also presents Bacon's teachings about the moral and political ends of modern progress. At its deepest level, Bacon's work addresses the justification of modern times and reopens the ageless questions of political philosophy. Discover the Remarkable Lives of the Tudors... Henry VII Henry VII was not destined to be the well-known (or perhaps better described as infamous) king that his son was after him, but his place in history remains important. With his victory over Richard III in 1485, Henry brought England out of the Middle Ages and ushered it into the modern era. His reign ended decades of bloody civil wars and provided the wealth and stability necessary for commerce and art to thrive in England. When Henry's son, Henry VIII, ascended the throne in 1509, it marked England's first uncontested transfer of power in almost 90 years. This fact alone is a testament to Henry's achievements. Henry VIII Since his death in the year 1547, King Henry VIII has been celebrated as a chivalrous pioneer and reviled as a brutal tyrant, but he has never been ignored. Henry was responsible for the separation of the Church of England from the Roman Catholic Church, the ramifications of which reverberated through subsequent centuries of European history. Domestically, Henry revolutionized the English Constitution, elevating his own status to that of a God. Edward VI Edward VI, the only legitimate male heir of King Henry VIII, took his seat on the throne at the age of nine. His life would come to an end when he was only fifteen years old, but the mark he would come to leave on England's history has endured to this day. This part of the Tudor period was chock-full of social unrest and economic struggles as well as turmoil over religious reforms, which the young king and his advisors often made worse by imposing substantial changes on their subjects. Mary I Mary I, perhaps best known by the moniker Bloody Mary, was England's first female monarch who ruled in her own right. A fighter from birth, she was the only surviving child of Henry VIII and his wife Catherine of Aragon. Mary would make her way back to her father's good graces after being cast out by him in favor of his numerous wives and would eventually undo her father's religious reforms by restoring Roman Catholicism in England. The fourth Tudor to rule England, Mary is remembered for burning around three hundred Protestants at the stake on her quest for religious reform. Elizabeth I There are many versions of Queen Elizabeth I of England; the beautiful young Tudor Queen courted by all the princes of Europe; a fearless virgin warrior in white velvet, rousing her troops on the battlefield; an irascible old woman in a powdered wig, surrounded by fawning young men. A formidable woman, Elizabeth I ruled alone at a time when Europe was a hotbed of conflict, dominated by empire-seeking Kings with opposing religious beliefs. Peter Ackroyd, one of Britain's most acclaimed writers, brings the age of the Tudors to vivid life in this monumental book in his The History of England series. Tudors is the story of Henry VIII's relentless pursuit of both the perfect wife and the perfect heir; of how the brief reign of the teenage king, Edward VI, gave way to the violent reimposition of Catholicism and the stench of bonfires under "Bloody Mary." It tells, too, of the long reign of Elizabeth I, which, though marked by civil strife, plots against her, and even an invasion force, finally brought stability. Above all, it is the story of the English Reformation and the making of the Anglican Church. At the beginning of the sixteenth century, England was still largely feudal and looked to Rome for direction; at its end, it was a country where good governance was the duty of the state, not the church, and where men and women began to look to themselves for answers rather than to those who ruled them. An unadulterated look at "Bloody Mary"--Elder daughter of Henry VIII, Catholic zealot, and England's first and most murderous queen--argues that history has treated the much-maligned monarch unfairly. "Henry ruled over a splendid court never stinting expense. His greatest sorrow was the premature death of his son Prince Arthur and after his wife Elizabeth's death (1503) Henry's character deteriorated. He became mean and niggardly. Succeeding to an impoverished kingdom, his ambition was to make England important in the Europe of the time and in that he succeeded, leaving a prosperous kingdom to Henry VIII."--BOOK JACKET. The tragic history of Queen Mary I and her brief reign of terror against Protestants in sixteenth century England--includes illustrations. When Mary Tudor, eldest daughter of Henry VIII, succeeded to the throne of England in 1553, she enjoyed a degree of popularity rarely seen on the accession of a British monarch. Yet at her death only five years later, she was so reviled by her people that she was posthumously awarded the sobriquet Bloody Mary. The change of public opinion was not without reason. During her short reign, Mary restored the Catholic faith to England and had over 280 Protestant martyrs burned at the stake.

Noblemen like the Duke of Northumberland, would-be queens like Lady Jane Grey, churchmen like Thomas Cranmer and bishops Latimer and Ridley, all fell victim to Mary's fires or the executioner's axe. In *Bloody Mary*, historian Phil Carradice investigates the backstory behind the queen's violent loathing for the religion her father established, the unfulfilled potential of her reign, and the needless bloodshed that became her tragic legacy. Peter Ackroyd, one of Britain's most acclaimed writers, brings the age of the Tudors to vivid life in this monumental book in his *The History of England* series, charting the course of English history from Henry VIII's cataclysmic break with Rome to the epic rule of Elizabeth I. Rich in detail and atmosphere, Peter Ackroyd's *Tudors* is the story of Henry VIII's relentless pursuit of both the perfect wife and the perfect heir; of how the brief reign of the teenage king, Edward VI, gave way to the violent reimposition of Catholicism and the stench of bonfires under "Bloody Mary." It tells, too, of the long reign of Elizabeth I, which, though marked by civil strife, plots against the queen and even an invasion force, finally brought stability. Above all, however, it is the story of the English Reformation and the making of the Anglican Church. At the beginning of the sixteenth century, England was still largely feudal and looked to Rome for direction; at its end, it was a country where good governance was the duty of the state, not the church, and where men and women began to look to themselves for answers rather than to those who ruled them. 'A great tale... the golden thread that led to the crown of England' Conn Iggulden 'An outstanding work of historical artistry, a brilliantly woven and pacy story of the men who surrounded, influenced and sometimes plagued Henry VIII.' Alison Weir Henry VIII is well known for his tumultuous relationships with women, and he is often defined by his many marriages. But what do we see if we take a different look? When we see Henry through the men in his life, a new perspective on this famous king emerges. Henry's relationships with the men who surrounded him reveal much about his beliefs, behaviour and character. They show him to be capable of fierce, but seldom abiding loyalty; of raising men only to destroy them later. He loved to be attended and entertained by boisterous young men who shared his passion for sport, but at other times he was more diverted by men of intellect, culture and wit. Often trusting and easily led by his male attendants and advisers during the early years of his reign, he matured into a profoundly suspicious and paranoid king whose favour could be suddenly withdrawn, as many of his later servants found to their cost. His cruelty and ruthlessness would become ever more apparent as his reign progressed, but the tenderness that he displayed towards those he trusted proves that he was never the one-dimensional monster that he is often portrayed as. In this fascinating and often surprising new biography, Tracy Borman reveals Henry's personality in all its multi-faceted, contradictory glory. He founded perhaps the most famous dynasty in history: the Tudors. Yet, in 1485 when Henry Tudor defeated Richard III to become King Henry VII, he possessed the most anemic claim to the throne since William the Conqueror. In defiance of the norms of medieval rule, he transformed England from an insolvent, often divided country in the waning years of the Wars of the Roses into an emerging modern state upon his death in 1509, a legacy inherited by his larger-than-life heir, Henry VIII. How did this happen? Through impressive archival research over several decades and a provocative perspective, *Daring Dynasty* illuminates what occurred by exploring key aspects of Henry's reign, which included a dark side to royal policy. It will provide historians, students, history enthusiasts and devotees of "all things Tudor" with an understanding of how the populace and political players melded into a nation through the efforts of its king and his government. While her father is in hiding after attempts on his life, twelve-year-old Cleopatra records in her diary how she fears for her own safety and hopes to survive to become Queen of Egypt someday. **NEW YORK TIMES BESTSELLER •** Bestselling historian Alison Weir tells the poignant, suspenseful and sometimes tragic story of Elizabeth, eldest daughter of the Yorkist King Edward IV and sister of the Princes in the Tower, a woman whose life was inextricably caught up in the turmoil of the Wars of the Roses and the establishment of the usurping Tudor dynasty. She was the wife of Henry VII and mother of Henry VIII. Many are familiar with the story of the much-married King Henry VIII of England and the celebrated reign of his daughter, Elizabeth I. But it is often forgotten that the life of the first Tudor queen, Elizabeth of York, Henry's mother and Elizabeth's grandmother, spanned one of England's most dramatic and perilous periods. Now New York Times bestselling author and acclaimed historian Alison Weir presents the first modern biography of this extraordinary woman, whose very existence united the realm and ensured the survival of the Plantagenet bloodline. Her birth was greeted with as much pomp and ceremony as that of a male heir. The first child of King Edward IV, Elizabeth enjoyed all the glittering trappings of royalty. But after the death of her father; the disappearance and probable murder of her brothers—the Princes in the Tower; and the usurpation of the throne by her calculating uncle Richard III, Elizabeth found her world turned upside-down: She and her siblings were declared bastards. As Richard's wife, Anne Neville, was dying, there were murmurs that the king sought to marry his niece Elizabeth, knowing that most people believed her to be England's rightful queen. Weir addresses Elizabeth's possible role in this and her covert support for Henry Tudor, the exiled pretender who defeated Richard at the Battle of Bosworth and was crowned Henry VII, first sovereign of the House of Tudor. Elizabeth's subsequent marriage to Henry united the houses of York and Lancaster and signaled the end of the Wars of the Roses. For centuries historians have asserted that, as queen, she was kept under Henry's firm grasp, but Weir shows

that Elizabeth proved to be a model consort—pious and generous—who enjoyed the confidence of her husband, exerted a tangible and beneficial influence, and was revered by her son, the future King Henry VIII. Drawing from a rich trove of historical records, Weir gives a long overdue and much-deserved look at this unforgettable princess whose line descends to today’s British monarch—a woman who overcame tragedy and danger to become one of England’s most beloved consorts. Praise for Elizabeth of York “Weir tells Elizabeth’s story well. . . . She is a meticulous scholar. . . . Most important, Weir sincerely admires her subject, doing honor to an almost forgotten queen.”—The New York Times Book Review “In [Alison] Weir’s skillful hands, Elizabeth of York returns to us, full-bodied and three-dimensional. This is a must-read for Tudor fans!”—Historical Novels Review “This bracing biography reveals a woman of integrity, who . . . helped [her husband] lay strong groundwork for the success of the new Tudor dynasty. As always in a Weir book, the tenor of the times is drawn with great color and authenticity.”—Booklist “Weir once again demonstrates that she is an outstanding portrayer of the Tudor era, giving us a fully realized biography of a remarkable woman.”—Huntington News A new and comprehensive overview of the complete Tudor dynasty taking in the most recent scholarship.
