Lenny the Turtle and the Great Escape By: Brandi Carr Lenny the Turtle and the Great Escape tells the story of a young turtle that was born and raised in a pet shop. Lenny's friends were brought to the pet shop by good people that saw them being abused or were in distress. As Lenny hears his friend's stories about the outside world, he develops a plan to escape. Lenny goes on a wonderful adventure and meets many new friends; he also meets other animals that are not so nice. Lenny gets to see all the wonderful things that his friends in the pet shop told him about. In the aquarium at the London Zoo, three sea turtles swim endlessly in 'their little bedsitter of ocean'. Two lonely people, William G and Neaera H, become obsessed with the turtles' captivity, and resolve to rescue them and release them in to the sea. William's and Neaera's diaries tell the story of how they achieve the turtles' freedom, and in the process re-define their own lives. Sea turtles have existed since the time of the dinosaurs. But now, suddenly, the turtles are dying, ravaged by a mysterious plague that some biologists consider the most serious epidemic now raging in the natural world. Perhaps most important, sea turtles aren't the only marine creatures falling prey to deadly epidemics. Over the last few decades diseases have been burning through nearshore waters around the world with unprecedented lethality. What is happening to the sea turtle, and how can it be stopped? In this fascinating scientific detective story, Osha Gray Davidson tracks the fervent efforts of the extraordinary and often quirky scientists, marine biologists, veterinarians, and others racing against the clock to unravel a complicated biological and environmental puzzle and keep the turtles from extinction. He follows the fates of particular turtles, revealing their surprisingly distinct personalities and why they inspire an almost spiritual devotion in the humans who come to know them. He also explores through vivid historical anecdotes and examples the history of man's relationship to the sea, opening a window onto the role played by humans in the increasing number of marine die-offs and extinctions. Beautifully written, intellectually provocative, *Fire in the Turtle House* reveals how emerging diseases wreaking havoc in the global ocean pose an enormous, direct threat to humanity. This is science journalism at its best. **\*\*WINNER OF THE INTERNATIONAL 2013-2014 MORNING CALM MEDAL\*\*** This multicultural children's book presents a heartwarming Korean fairy tale about a little girl and a fortunate encounter. Poverty is all Maya has ever known, but she doesn't allow it to stop her from caring for her father, and others, as best she can. Kind and gentle, she is a lovely young girl who always puts others first. One day, she finds a little turtle and takes him home, raising and loving him, never knowing that he will play an instrumental part in her destiny. Similar to *The Korean Cinderella*, *Maya and the Turtle*, is an original Korean fairy tale by authors John Stickler and Soma Han that teaches children that the road to greatness lies in selflessness and that the loving kindness of a pure heart can awaken great love and power in another. Beautifully illustrated by Han, this book contains fascinating bits of information about Korean culture and is a poignant tale about the rewards of kindness, patience and courage. The story of an ancient sea turtle and what its survival says about our future, from the award-winning writer and naturalist Though nature is indifferent to the struggles of her creatures, the human effect on them is often premeditated. The distressing decline of sea turtles in Pacific waters and their surprising recovery in the Atlantic illuminate what can go both wrong and right from our interventions, and teach us the lessons that can be applied to restore health to the world's oceans and its creatures. As *Voyage of the Turtle*, Carl Safina's compelling natural history adventure makes clear, the fate of the astonishing leatherback turtle, whose ancestry can be traced back 125 million years, is in our hands. Writing with verve and color, Safina describes how he and his colleagues track giant pelagic turtles across the world's oceans and

onto remote beaches of every continent. As scientists apply lessons learned in the Atlantic and Caribbean to other endangered seas, Safina follows leatherback migrations, including a thrilling journey from Monterey, California, to nesting grounds on the most remote beaches of Papua, New Guinea. The only surviving species of its genus, family, and suborder, the leatherback is an evolutionary marvel: a "reptile" that behaves like a warm-blooded dinosaur, an ocean animal able to withstand colder water than most fishes and dive deeper than any whale. In his peerless prose, Safina captures the delicate interaction between these gentle giants and the humans who are finally playing a significant role in their survival. "Magnificent . . . A joyful, hopeful book. Safina gives us ample reasons to be enthralled by this astonishing ancient animal—and ample reasons to care." -- The Los Angeles Times

Learn to channel your inner zen and enjoy the simple things in life with this beautiful, inspirational book from the author of *Paradise Girls*. Long ago, Sandy Gingras read "The Tortoise and the Hare," a fable that teaches "slow and steady wins the race." But she didn't learn the lesson! Instead she lived the race of hurry-up and do-it-all every day. And it was tiring. But now, Gingras presents readers with a different kind of lesson from a different kind of turtle in the charming book *Lessons of a Turtle*. And it's a good lesson: Go with the slow! Life is about enjoying what's around you now and finding your own path. It's about the beauty of the journey more than the achievement of the finish line. So be like the turtle . . . notice, savor, bask, risk, grow. Put some life back in your life! Gingras helps readers get through life by using charming "turtlisms" that complement her just-as-cute turtle illustrations. She teaches us about life's little lessons with little treats like, "You can't move forward until you stick your neck out." and "The slower you go, the more you see." The author's little observations make a big difference on the journey through life. This book makes a lovely and inspiring gift. Two sworn enemies learn that they have more in common than meets the eye, and it's never too late to make a new friend—even if it takes decades! Ever since they were little hatchlings, Turtle and Tortoise decided that they'd forever be separated due to their different shells. As years and years go by, the two reptiles stay on opposites side of the pen and embark on their own adventures, while holding an everlasting grudge.

Until one day, Turtle and Tortoise get into a bit of pickle and need each other's help! A thick fog has found its way up north to the lighthouse family, surrounding the cliffs and waters below. For a creature that spends most of its time in the ocean, sometimes staying submerged for up to five hours at a time, it becomes a matter of life and death. It cannot feed off the algae and sea grasses that grow on the ocean floor. So the reptile swims round and round on the surface, unable to get the nutrients it needs. Getting weaker and weaker, it finally dies a lingering death. Workers in Sohar Port find Tina (literally, 'Turtle in Need of Assistance'), a mature female green turtle, suffering from this 'floating syndrome'; a common cause of death among sea turtles. She could have picked up an infection that made her sick. But most likely she swallowed a plastic bag that looked like a tasty jellyfish - her favourite treat. This is her story. While walking in the forest, the Turtle and the Snail hear footsteps . . . many footsteps! Who is coming? A poignant tale of environmental pollution and recovery with beautiful watercolor illustrations. On a bluff at the bend in the river stood a turtle carved of stone. For many years he was the eyes of Manitou, watching over and blessing the Delaware people who visited him every summer. But as time passed, fewer children came to greet the turtle. Now he watches with sadness and fear as strangers arrive, destroy the land, and threaten his very existence. Can the turtle, once a symbol of hope and renewal, be saved? "In thoughtful prose frequently imbued with a poetic tone, MacGill-Callahan chronicles the devastating environmental changes that befall this stone guardian with the passage of time. The text's quiet wisdom is reflected in Moser's exquisite watercolors."—Publishers Weekly \* "Moser's beautifully balanced book design and powerful paintings ably contribute to the story's dignity and purpose."—Kirkus Reviews, starred review The author tells how he received Diane, his pet turtle, when he was ill as a child and how they shared their lives thereafter.
