*Microsofts Webeditor "Expression Web 2" ist wohl der meistgenutzte Bestandteil der Produktfamilie "Microsoft Expression Studio 2" zur Erstellung und Verwaltung auch größerer Websites. Der Nachfolger des früheren Editors "Microsoft FrontPage" wird hier von Chris Leeds vorgestellt, der eng mit Microsoft verbunden ist und auch die Voraufgabe dieses Buchs unter dem Titel "Microsoft Expression Web Step by Step" (hier nicht besprochen) geschrieben hat. Er betont: "Das alles überragende Ziel von Expression Web 2 besteht darin, Code*

zu erzeugen, der den W3C-Richtlinien entspricht und der einen barrierefreien Zugang zu den Inhalten ermöglicht". Dank großzügigem Layout des Buchs mit vielen (einfarbigem) Bildschirmabbildungen kann man die einzelnen Trainingsabschnitte gut verfolgen. Außerdem hilft die beigelegte CD-ROM, die alle Übungsdateien enthält, aber auch den Inhalt des gut strukturierten Bandes als E-Book. - Eine notwendige Warnung: Für das Training und dann natürlich auch für den Editor selbst muss Windows Vista oder Windows XP mit Servicepack 2 oder 3 verfügbar sein. (2) *Laminated quick reference guide showing step-by-step instructions and shortcuts for how to use Microsoft Expression Web 3. This guide is suitable as a training handout, or simply an easy to use reference guide, for any type of user. Topics covered: Opening a Web Site; Creating a New Site; Managing Sites from Multiple Locations; Using Panels; File and Folder Management; Deleting a Site; Opening a Web Page; Changing the Page Title; Creating a New Web Page; Entering Text in a Page; Working with HTML Tags; Inserting an Image from a File; Cropping an Image; Editing an Image; Resizing an Image; Creating a Hyperlink; Cascading Style Sheets - Formatting Text Using Styles, Layout Using DIVs and CSS, Creating a New Web Page Using a Predefined CSS Layout, Creating Default Styles for HTML Tags, Moving Styles to an External CSS, Centering the Page in the Browser; Replacing Text Globally; Previewing in a Web Browser; Using SuperPreview; Setting up a Remote Site; Publishing Your Site. Includes a list of keyboard shortcuts. Provides information on creating designs and illustrations using Microsoft Expression Design.* The Wrox SharePoint 2010 SharePoint911 Three-Pack combines the contents of three full e-books written by the experts from SharePoint911. That's over 1800 pages of hands-on advice from Todd Klindt, Shane Young, Laura Rogers, Randy Drisgill, Jennifer Mason, John Ross, and Larry Riemann, among others. In *Beginning SharePoint 2010: Building Business Solutions with SharePoint (ISBN 978-0-470-61789-2)* by Amanda Perran, Shane Perran, Jennifer Mason, and Laura Rogers, readers learn the core concepts, terminology, and features of SharePoint 2010. In *Professional SharePoint 2010 Branding and User Interface Design (ISBN 978-0-470-58464-4)* by Randy Drisgill, John Ross, Jacob J. Sanford, Paul Stubbs, and Larry Riemann, the reader gets a deep dive into branding a SharePoint site. In the third book of the set, the SharePoint bestseller *Professional SharePoint 2010 Administration (ISBN 978-0-470-53333-8)* by Todd Klindt, Shane Young, and Steve Caravajal, the authors provide a detailed look at the administration tools available in SharePoint 2010. The Shelly Cashman Series has effectively introduced computer skills to millions of students. With Expression Web, we're continuing our history of innovation by enhancing our proven pedagogy to reflect the learning styles of

today's students. In *MICROSOFT EXPRESSION WEB 3: COMPLETE* you'll find features that are specifically designed to engage students, improve retention, and prepare them for future success. Our trademark step-by-step, screen-by-screen approach now encourages students to expand their understanding of the Expression Web software through experimentation, exploration, and planning ahead. Brand new end of chapter exercises prepare students to become more capable software users by requiring them to use critical thinking and problem-solving skills to create real-life documents. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. This is the eBook version of the printed book. If the print book includes a CD-ROM, this content is not included within the eBook version.

*Beyond the Basics ... Beneath the Surface ... In Depth Microsoft Expression Web 3 Advice and techniques that you need to get the job done. *Expression Web 4 SP2—in less time! This is the world's most expert, complete, and practical guide to succeeding with Expression Web 4 SP2! Microsoft insider Jim Cheshire presents today's best solutions for everything you need to do with Expression Web 4 SP2 and its brand-new HTML5, CSS3, and jQuery tools! Create, edit, and manage content... implement leading-edge designs... integrate dynamic content... add powerful features with no custom coding... leverage SP2's latest time-saving features...do the job right, and do it fast! "In the trenches" solutions, big-picture insights, real examples, time-saving shortcuts Boost productivity with custom workspaces, Snapshot & Snippet panels, Universal Commenting, and other SP2 improvements Optimize every phase of development, from site creation through reporting Use Expression Web 4 features together to solve real web design problems and achieve real business goals Build HTML5/CSS3 standards-compliant sites that work properly in any modern browser Learn high-efficiency techniques for using tables, forms, and QuickTags Add more dynamic, interactive content with Behaviors and Layers Differentiate your site with dynamic components and client-side JavaScript Use ASP.NET's simple tools to display, edit, and manage data without custom code Develop accessible, Section 508- or WCAG-compliant sites Efficiently test sites and apps with SP2's enhanced SuperPreview and remote browsing Easily password-protect content with ASP.NET Login controls and membership features Leverage Expression Web's updated PHP 5.3 support, including module IntelliSense and "Open as PHP" Efficiently troubleshoot any site development problem Register your book at [www.quepublishing.com/title/9780789749192](http://www.quepublishing.com/title/9780789749192) to get the entire book in searchable PDF format, including all examples and sample files, plus a bonus four-chapter mini book on creating add-ins with JavaScript and HTML! Introduces regular expressions and how they are used, discussing topics including metacharacters, nomenclature, matching and modifying text, expression processing, benchmarking, optimizations, and loops. NEW PERSPECTIVES ON MICROSOFT EXPRESSION DESIGN 4.0 will help your students create graphics and illustrations to polish Web sites or to enrich desktop applications. The New Perspectives Series asks students to learn by applying concepts to practical business problems, ensuring students understand why they're learning what they're learning. The Shelly Cashman Series has effectively introduced computer skills to millions of students. With Expression Web 3, we're continuing our history of innovation by enhancing our proven pedagogy to reflect the learning styles of today's students. In Microsoft Expression Web 3: Comprehensive you'll find features that are specifically designed to engage students, improve retention, and prepare them for future success. Our trademark step-by-step, screen-by-screen approach now encourages students to expand*

their understanding of the Expression Web software through experimentation, exploration, and planning ahead. Brand new end of chapter exercises prepare students to become more capable software users by requiring them to use critical thinking and problem-solving skills to create real-life documents. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. "Yes I can use this!" Written for undergraduate and graduate students, the goal of this book is for the reader to be able to say this as they grasp the basics of key software applications. Completely revised for the upgrade to the new Microsoft Office 2007, this book retains its three level approach to learning. Level 1: Designed for the true beginner or novice this level gives step by step instructions as well as a good review of key concepts for a more experienced user. Level 2: Guides the reader through more advanced features of the software and gives instructions on how to find help if it is needed. Level 3: Moves the student on to address integration of the software. Gives examples and the students practice designing and developing technology integrated learning experiences. Teachers have more demands on them now than before and the available software has more to offer them than ever before. The authors wrote this book to quickly get students up and running with the basic Office software suite of programs, to provide examples relevant to teachers, and to help them develop the skills to integrate these tools into their own classrooms in a way that would enhance the learning experiences of their students. The text focuses on Microsoft Windows Vista, Office 2007, and Expression Web, but MS Office for Mac users will also be highlighted throughout. In just 24 sessions of one hour or less, you'll learn how to build flexible, easy-to-maintain, standards-based websites with Microsoft Expression Web 3. Using this book's straightforward, step-by-step approach, you'll master the entire process, from concept through delivery. You'll learn powerful ways to plan, design, construct, and even redesign websites that are simple to manage and easy to repurpose. Each lesson builds on what you've already learned, giving you a strong real-world foundation for success, no matter what kind of site you're building! Step-by-step instructions carefully walk you through the most common Expression Web 3 tasks. Quizzes and Exercises at the end of each chapter help you test your knowledge. By the Way notes present interesting information related to the discussion. Did You Know? tips offer advice or show you easier ways to perform tasks. Watch Out! cautions alert you to possible problems and give you advice on how to avoid them Learn how to... Build your first Expression Web 3 website in just five minutes Establish work processes for building standards-based sites faster, with far less work Write error-free code quickly and easily with Code view and IntelliSense Create hyperlinks that simplify navigation, perform actions, and

*send commands Understand, create, and modify CSS style sheets with unprecedented speed and accuracy Use Dynamic Web Templates to consistently format (or reformat) hundreds of pages Implement state-of-the-art interactivity with buttons, behaviors, and Cascading Style Sheets (CSS) Publish simple Silverlight applications and add multimedia content from Flash and other sources Build advanced drop-down and other CSS-based menus from scratch Learn how and when to use each of Expression Web's six publishing options Integrate web application code written in ASP.NET or PHP The smart way to learn Microsoft Expression Web 4 -- one step at a time! Experience learning made easy -- and quickly teach yourself how to create dynamic, standards-based Web sites. With Step by Step, you set the pace -- building and practicing the skills you need, just when you need them! Build your site with customizable templates -- or create your own Adjust settings in Expression Web 4 to create different sites Add Photoshop files, Microsoft Silverlight video, and .wmv files Use CSS, HTML, and XHTML to manage site style and accessibility Connect to servers using Microsoft ASP.NET and PHP Choose the right publishing method for your scenario Your Step by Step digital content includes: All the books practice files -- ready to download and put to work. Fully searchable online edition of this book -- with unlimited access on the Web. Video tutorials illustrating important procedures and concepts Expression Web is Microsoft's newest tool for creating and maintaining dynamic Web sites. This FrontPage replacement offers all the simple "what-you-see-is-what-you-get" tools for creating a Web site along with some pumped up new features for working with Cascading Style Sheets and other design options. Microsoft Expression Web For Dummies arrives in time for early adopters to get a feel for how to build an attractive Web site. Author Linda Hefferman teams up with longtime FrontPage For Dummies author Asha Dornfest to show the easy way for first-time Web designers, FrontPage vets, or users of other Web design tools how to get results from Expression Web. In MICROSOFT EXPRESSION WEB 3: INTRODUCTORY you'll find features that are specifically designed to engage students, improve retention, and prepare them for future success. Our trademark step-by-step, screen-by-screen approach now encourages students to expand their understanding of the Expression Web software through experimentation, exploration, and planning ahead. Brand new end of chapter exercises prepare students to become more capable software users by requiring them to use critical thinking and problem-solving skills to create real-life documents. *streamline your work so that you can focus on maximizing your time? In Depth provides specific, tested, and proven solutions to the problems you run into every day—things other books ignore or oversimplify. This is the one book that you can rely on to answer all the questions you have now and will have in the future. In Depth offers: Comprehensive coverage, with detailed solutions Breakthrough techniques and shortcuts that are unavailable elsewhere Practical, real-world examples with nothing glossed over or left out Troubleshooting help for tough problems you can't fix on your own Outstanding authors recognized worldwide for their expertise and teaching style Quick information via sidebars, tips, reminders, notes, and warnings In Depth is the only tool you need to get more done in less time! Publisher's Note: Products purchased from Third Party sellers are not guaranteed by the publisher for quality, authenticity, or access to any online entitlements included with the product. Move beyond basic Web design by learning to create dynamic Web content To create a dynamic page on which content changes in response to events requires programming and the potential use of databases. Dynamic Web Programming: A Beginner's Guide starts by covering HTML, XHTML, and CSS. You will then learn to use JavaScript to implement elements such as rollover events, popups, and calculations. The book explains how to use PHP to create guest books, blogs, and page transitions, as well as how to implement a database-driven Web site with MySQL. The ultimate guide to creating and managing websites using Microsoft Expression Web 4. "In the trenches" guidance, big-picture insights, and exclusive troubleshooting help for building standards-compliant, cross-browser web sites Case studies draw on the author's extensive experience building Web solutions with Microsoft technologies Leverage ASP.NET's power without writing code - and use the free Visual Web Developer Express Edition to develop robust ASP.NET apps Four bonus chapters located online! Download Part 7: Creating Add-ins Using JavaScript and HTML including: 36.Expression Web 4 Add-in Basics 37.Creating a Basic Add-in 38.Packaging, Testing, and Debugging Add-ins 39.Expression Web 4 JavaScript API Reference In just 24 sessions of one hour or less, you'll learn how to build state-of-the-art websites with Microsoft Expression Web 4 (Service Pack 2), HTML5, CSS3, and jQuery! Using this book's straightforward, step-by-step approach, you'll master the entire web development process, from concept through delivery. You'll learn how to plan, design, and construct sites that are easy to manage and update, work perfectly on every browser, and get noticed by every search engine! Each lesson builds on what you've already learned, giving you a strong real-world foundation for success, no matter what kind of site you're building! Step-by-step instructions carefully walk you through the most common Expression Web 4 SP2 tasks. Quizzes and Exercises at the*

end of each chapter help you test your knowledge. By the Way, Did You Know?, and Watch Out! boxes offer advice and solutions. Learn how to... Make the most of the new features, updated interface, and advanced standards support in Expression Web 4 SP2 Implement custom processes, toolbars, and workspaces for building sites faster Use the new SEO Checker to consistently optimize pages for search engines Write error-free code quickly with Code view and IntelliSense Rapidly format (or reformat) hundreds of pages with Dynamic Web Templates Use new jQuery UI widgets to create accordions, tabbed boxes, and interactive calendars Embed HTML5 video apps from YouTube or other sites Find and fix cross-browser inconsistencies with SP2's improved SuperPreview Test protected functionality or live sites that require login Use new publishing options to go live more quickly

Microsoft Expression Web 3: Comprehensive, International Edition teaches students the essentials of web design using the latest design software, Microsoft Expression Web 3. NEW PERSPECTIVES ON MICROSOFT EXPRESSION WEB 3.0 offers a critical-thinking approach to teaching Web design within the Expression Studio suite. This text explains and reinforces Expression Web concepts through the New Perspectives' signature case-based, problem-solving pedagogy. Students will learn how to design and maintain Web pages with Microsoft's WYSIWYG Expression Web 3.0 software.

**Important Notice:** Media content referenced within the product description or the product text may not be available in the ebook version. Web sites are an essential tool that every business must have in today's economy. Only 15 years ago, you could count the number of Web sites in the world with five or six digits; today there are between 15 and 30 billion active Web sites and millions more being added every day. Creating a Web site can be a great way to market a new product, promote your business plan, promote yourself, or simply share a few details about your life with the world. The cost of creating a Web site has risen right alongside the number of Web sites created though and many people are nervous about being able to utilize this revolutionary medium without breaking the bank. This book has been created for just such people, outlining for you in perfect detail everything you need to know to create a traffic attracting Web site, while spending little or no money at all. There are countless resources available, and when you put them all together, they provide a complete toolkit that can make anyone a top notch Web site in no time flat. You will learn how to buy a domain name and host your Web site for less than \$15, with no additional fees charged to your account. You will learn how to use open source software like Wordpress, Joomla, and Mambo to create a platform on which you can build anything you want. You will learn how blogging has made Web site creation easier than ever and how sites like Squidoo, Facebook, and MySpace allow you

more freedom to build traffic and draw more attention to what you are advertising at any given time. You will learn how to use common software to edit and tweak your Web sites and how to read the basic code that all Web sites are created in. In addition, an entire chapter is devoted to teaching you how to promote your Web site and draw traffic to it, without spending a dime in the process. You will learn why information is the most valuable asset on the market and how you can become an expert in a niche of your choosing, making money to cover any fees associated with your Web site. With the added resource of hours of interviews with web professionals you will learn which free resources not to use and which ones to outright avoid, as well as how to find and install open source modules and tools to enhance the look and feel of your site. You will learn where you can find copyright-free images to use on your Web sites and how to get free copy that will draw traffic and entertain your visitors. You will learn how to keep a free Web site from falling into the traps the major search engines set to stop spam and ultimately how to leverage new friends, business contacts, and interactions out of your Web site. If you are now, or have ever, considered starting your own Web site before, this book will map the way for you. Designed to meet the needs of users from a broad range of experience levels, *MICROSOFT EXPRESSION WEB 3 – ILLUSTRATED COMPLETE, International Edition* equips your students with Expression Web basics--and well beyond--using the signature Illustrated two-page spread format. Covering the nuts and bolts, new cutting-edge features, and everything in between, the text presents each skill on a succinct, easy-to-understand, two-page spread--making for focused and thorough instruction. Designed to meet the needs of users from a broad range of experience levels, *MICROSOFT EXPRESSION WEB 3 ILLUSTRATED INTRODUCTORY* equips your students with Expression Web basics--and well beyond--using the signature Illustrated two-page spread format. *The only real tool for developing cross-platform rich Internet applications (RIAs) for that last 11 years has been Flash; until now! Silverlight 3 allows you to develop cross-platform rich Internet applications in a fraction of the time because of the extensive and very powerful .NET 3.5 libraries, the powerful, design friendly Blend 3 IDE, and an enhanced workflow that allows designers and developers to work on the same set of files at the same time. Develop stunning RIAs in a short time. Learn some basic object-oriented programming principles. Get familiar with the Blend 3 development environment. This is the eBook version of the printed book. If the print book includes a CD-ROM, this content is not included within the eBook version. To create compelling interactive experiences, design and development teams need far better tools and processes for prototyping, wireframing, and creating demos - and for transforming those artifacts into finished sites and applications. Microsoft Expression Blend 3's breakthrough SketchFlow tool has been designed from the ground up to simplify, streamline, and accelerate every aspect of the prototyping process, enabling design organizations to come together. Web3 is a term which refers to the third generation of the World Wide Web; it is a decentralized internet architecture that uses blockchain technology, smart contracts, and other decentralized technologies to create a more secure and transparent internet. Concepts, Technologies, Challenges, and the Future of Web 3 is led by researchers with a valuable mix of industry and academic experience. The book delves into the concepts of decentralization, trustlessness, and interoperability and explores the challenges of Web3, including scalability, security, and regulatory compliance. It examines the current and potential future use cases of Web3, such as decentralized finance, supply chain management, identity verification, and decentralized social networks. "The core building blocks of Web3" is not just for researchers, academics, and students in computer science and related fields but also for developers, entrepreneurs, and businesses looking to build applications and services in the Web3 space. It offers a clear understanding of the technical and conceptual frameworks underpinning Web3 and the challenges and opportunities in the decentralized web. Moreover, the book is valuable for policymakers, regulators, and legal professionals interested in understanding the regulatory frameworks and legal implications of Web3. It provides insights into the potential impact of Web3 on governance, regulation, and law, highlighting the need for new policy frameworks to address the challenges and opportunities presented by the decentralized web. Build standards-based Web sites with Expression Web: a step-by-step tutorial that helps you do it right the first time The easy-to-read, hands-on introduction to Microsoft's new Expression Web 4 Establish work processes for building standards-based web code faster and with*

*much less work Covers all the new features in version 4, including HTML5 A complete tutorial: step-by-step instructions, examples, Q and As, quizzes, exercises, tips, shortcuts, and more Expression Web 4 offers a fundamentally different, more powerful approach to web authoring. To make the most of it, both beginners and seasoned web professionals will benefit from a thorough, simple introduction that covers both the programs program's features and its new workflows. Sams Teach Yourself Microsoft Expression Web 4 in 24 Hours is that book. In just 24 lessons of one hour or less, it will help readers gain true mastery, so they can build state-of-the-art standards-based Web sites and applications with far less work. In this book's straightforward approach, each lesson builds on everything that's come before, helping readers learn all of Expression Web 4's core features from the ground up - including breakthrough features like Dynamic Web Templates and SuperPreview. Friendly, accessible, and conversational, it takes readers from concept through delivery, teaching powerful techniques for designing, constructing, and even re-designing web sites for easier management and repurposing. By the time they're finished with these lessons, readers won't just understand Expression Web 4: they'll be comfortable using it in real-world projects.*
