Je, vyombo vya habari vimeathiri maadili, kubadilika kutoka kwa yale ambayo Mungu aliagiza hapo mwanzo? Tunafundishwa: kwamba ushoga unakubalika; kwamba kuua mtoto mchanga sio mauaji; Biblia ni mkusanyo wa hekaya; akaunti ya uumbaji haiwezekani; kwamba dhana kwamba dunia ina umri wa miaka 6,500 tu ni ya kucheka; tulitokana na nyani wadogo, na hatukuumbwa; hapakuwa na mafuriko duniani kote; hadithi ya Sodoma na Gomora kuharibiwa na kiberiti ni hekaya; Kutoka kwa Wayahudi kutoka Misri hakujawahi kutokea; Sanduku la Agano eti ni baadhi ya "sanduku la uchawi" ambalo lilifanya kuta za Yeriko kuanguka-haiwezekani; Mfalme Daudi na mwanawe Mfalme Sulemani hawakuwapo kamwe; Yesu hakufufuliwa kutoka kwa wafu; Maria Magdalene alikuwa kahaba; Yesu na Maria Magdalene walikuwa na mtoto; mtoto huyu na ukoo wa damu ya Yesu ni "grail takatifu," na; Maria Magdalene alikuwa "mwanafunzi mpendwa." Haya yanatokana na ujinga au ni uwongo ulio tayari kutuondoa katika imani zetu. Biblia bado ni ukweli! By closely following Goethe's explanations of the color phenomena, the reader may become so divorced from the wavelength theory—Goethe never even mentions it—that he may begin to think about color theory relatively unhampered by prejudice, ancient or modern. By the time Goethe's Theory of Colours appeared in 1810, the wavelength theory of light and color had been firmly established. To Goethe, the theory was the result of mistaking an incidental result for an elemental principle. Far from pretending to a knowledge of physics, he insisted that such knowledge was an actual hindrance to understanding. He based his conclusions exclusively upon exhaustive personal observation of the phenomena of color. Of his own theory, Goethe was supremely confident: "From the philosopher, we believe we merit thanks for having traced the phenomena of colours to their first sources, to the circumstances under which they appear and are, and beyond which no further explanation respecting them is possible." Goethe's scientific conclusions have, of course, long since been thoroughly demolished, but the intelligent reader of today may enjoy this work on quite different grounds: for the beauty and sweep of his conjectures regarding the connection between color and philosophical ideas; for an insight into early nineteenth-century beliefs and modes of thought; and for the flavor of life in Europe just after the American and French Revolutions. The book does not have to be studied to be appreciated. Goethe's subjective theory of colors permits him to speak most persuasively of color harmony and aesthetics. In some readers these notions will evoke a positive response on their merits. Others may regard them as pure fantasy, but savor the grace and style of their exposition. The work may also be read as an accurate guide to the study of color phenomena. Goethe's conclusions have been repudiated, but no one quarrels with his reporting of the facts to be observed. With

simple objects—vessels, prisms, lenses, and the like—the reader will be led through a demonstration course not only in subjectively produced colors, but also in the observable physical phenomena of color. By closely following Goethe's explanations of the color phenomena, the reader may become so divorced from the wavelength theory—Goethe never even mentions it—that he may begin to think about color theory relatively unhampered by prejudice, ancient or modern. This volume provides a systematic comparative treatment of urban contact dialects in the Global North and South, examining the emergence and development of these dialects in major cities in sub-Saharan Africa and North-Western Europe. The book's focus on contemporary urban settings sheds light on the new language practices and mixed ways of speaking resulting from large-scale migration and the intense contact that occurs between new and existing languages and dialects in these contexts. In comparing these new patterns of language variation and change between cities in both Africa and Europe, the volume affords us a unique opportunity to examine commonalities in linguistic phenomena as well as sociolinguistic differences in societally multilingual settings and settings dominated by a strong monolingual habitus. These comparisons are reinforced by a consistent chapter structure, with each chapter presenting the linguistic and social context of the region, information on available data (including corpora), sociolinguistic and structural findings, a discussion of the status of the urban contact dialect, and its stability over time. The discussion in the book is further enriched by short commentaries from researchers contributing different theoretical and geographical perspectives. Taken as a whole, the book offers new insights into migration-based linguistic diversity and patterns of language variation and change, making this ideal reading for students and scholars in general linguistics and language structure, sociolinguistics, creole studies, diachronic linguistics, language acquisition, anthropological linguistics, language education and discourse analysis. Africa is a marriage of cultures: African and Asian, Islamic and Euro-Christian. Nowhere is this fusion more evident than in the formation of Swahili, Eastern Africa's lingua franca, and its cultures. Swahili Beyond the Boundaries: Literature, Language, and Identity addresses the moving frontiers of Swahili literature under the impetus of new waves of globalization in the twentieth and twenty-first centuries. These momentous changes have generated much theoretical debate on several literary fronts, as Swahili literature continues to undergo transformation in the mill of human creativity. Swahili literature is a hybrid that is being reconfigured by a conjuncture of global and local forces. As the interweaving of elements of the colonizer and the colonized, this hybrid formation provides a representation of cultural difference that is said to constitute a "third space," blurring existing boundaries and calling into question established identitarian categorizations. This cultural dialectic is clearly evident in the Swahili literary experience as it has evolved in the crucible of the politics of African cultural production. However, Swahili Beyond the Boundaries demonstrates that, from the point of view of Swahili literature, while hybridity evokes endless openness on questions of home and identity, it can simultaneously put closure on specific forms of subjectivity. In the process of this contestation, a new synthesis may be emerging that is poised to subject Swahili literature to new kinds of challenges in the politics of identity, compounded by the dynamics and counterdynamics of post-Cold War globalization. on the edge writer of many classics and best sellers introspective writing for the brilliant mind, uandishi wa kujichunguza kwa watu wenye akili tinamu ukingoni mwandishi ua vitabu vingi vya asili na wauzaji bora zaidi SWAHILI: Katika Nyayo za Obama msomaji atasoma juu ya mambo makuu matatu: maisha ya rais Barack Husein Obama kuanzia kwa wazazi wake na jinsi walivyokutana, hitilafu zilizowatenganisha, utoto wake na hadi hapo aliko kwenye kilele cha siasa ; nchi ya Marekani iliyompa fursa, hasa kuhusu uanuwai wa watu wake, siasa yake, na sifa zake mashuhuri za masoko makubwa ya kimataifa na hisani yake kwa nchi zingine; na msomaji atamaizi nafasi pekee lugha ya Kiswahili iliyo nayo katika kufungamanisha jumua za mataifa ya Afrika ambayo mengi bado yanatumia lugha geni kwenye fasihi rasmi za kisiasa na kisheria, na pia ni lugha pekee ambayo vyanzo vyake ni anuwai ya kutosha kuzungumzwa

ENGLISH: Nyayo za Obama is a literary piece of work that tells the story of US president Barack Obama, starting with his ancestral connections in Africa to the nation of liberty, opportunity and justice for all- the United States of America. It is a compilation of anecdotes that tracks his life through a variety of socioeconomic and geographic influences which shaped his vision of himself and that of the world around him, and how he walked a tight rope of racial diversity he found in his life. It discusses his early career as a community organizer and how that experience led him to a meteoric political career and seemingly insurmountable challenges he had to face, first in his own state of Illinois and eventually on the national scene. The book discusses the Obama's political success in the context of a nation that, though still suffers the social-economic scars of slavery and racial preferences, has been steadily changing in many ways for the better, enough to allow the election of its president from a race that was once doomed to slavery and human indignities. It highlights the salient qualities of its kind of democracy predicated on the founding documents and economic freedom which makes it the market of the world; it informs about the nation's history as the most charitable nation in the world and the champion of the rule of law and equal opportunity for all. It is written in the Swahili language, which is the lingua franca of several nations in Eastern and Central Africa regions of the continent, and the most important African language south of the Sahara desert. It will be among few books in Swahili that provides expositions about the United States and its history and the changing face of its people, economy and its role in the global village. The book comes with a list of vocabulary of English translations of some of the words that have been used but may not be common in the available Swahili literature. On theoretical considerations in the learning of Swahili and other African languages. Although gender and non-gender scholars have studied men, such an academic exercise requires a critical and focused study of masculine subjects in particular social contexts, which is what this book attempts to do. This empirically rich collection of essays, the seventh of the CODESRIA Gender Series, deals with critical examinations of various shades and ramifications of Africa's masculinities and what these portend for the peoples of Africa and for gender relations in the continent. So much has changed in terms of notions and expressions of masculinities in Africa since ancient times, but many aspects of contemporary masculinities were fashioned during and since the colonial period. The papers in this volume were initially discussed at the 2005 month-long CODESRIA Gender Institute in Dakar. The contributors are gender scholars drawn from various disciplines in the wide fields of the humanities and the social sciences with research

interests in the critical study of men and masculinities in Africa. The CODESRIA Gender Series aims at keeping alive and nourishing the African social science knowledge base with insightful research and debates that challenge conventional wisdom, structures and ideologies that are narrowly informed by caricatures of gender realities. The series strives to showcase the best in African gender research and provide a platform for emerging new talents to flower.
