Of all of the possible curriculum choices used for the education of our children, the most important textbook of all is that which God Himself presented in the book of Proverbs. This book is the core curriculum. It is God's book on how to live life on planet earth. To disregard this book in the education of our children would be a colossal error. With this Study Guide on the book of Proverbs, you will learn God's basic truths as they speak to the classical philosophical divisions of epistemology, metaphysics, and ethics. You will grapple with the tensions of determinism and human responsibility. You will find an entire system of priorities for life's ethics and purposes. You will find the basic constituents of a biblical social system, as well as principles for sound economics, government, and general business management. The book includes both a proper theology, anthropology, and human psychology. Every education program will give you a system of categories by which you understand life, history, truth, ethics, and reality. Some systems have a semblance of truth, but they are fundamentally compromised because they do not begin with the book of Proverbs or the fear of God (Prov. 1:7). This study guide is the fruit of seven years of daily instruction in the book of Proverbs on the part of homeschooling father, pastor, and author, Kevin Swanson. She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken without her knowledge—became one of the most important tools in medicine: The first "immortal" human cells grown in culture, which are still alive today, though she has been dead for more than sixty years. HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb's effects; helped lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta's family did not learn of her "immortality" until more than twenty years after her death, when scientists investigating HeLa began using her

husband and children in research without informed consent. And though the cells had launched a multimillion-dollar industry that sells human biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of experimentation on African Americans, the birth of bioethics, and the legal battles over whether we control the stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta’s daughter Deborah. Deborah was consumed with questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so important to medicine, why couldn’t her children afford health insurance? Intimate in feeling, astonishing in scope, and impossible to put down, *The Immortal Life of Henrietta Lacks* captures the beauty and drama of scientific discovery, as well as its human consequences. What happens when a woman looks at herself in the mirror, lingering just a little longer than usual and realizes that she no longer recognizes the person staring back at her? What does she do when she sees that, somehow, her life has drifted away from all her original hopes, dreams, or plans? Speaker, blogger, and writer Chrystal Evans Hurst wrote this book because she was that woman. One day she realized that she had somehow wandered from the life she was meant to live. Chrystal since discovered that this moment of awareness happens to lots of women at different seasons of their lives. Poor decisions, a lack of intentionality or planning, or a long-term denial of deep hopes and dreams can leave a woman, old or young, reeling from the realization that she is lost, disappointed, or simply numb. And she just needs encouragement. This woman simply needs someone to hold her hand, cheer her on, and believe with her that she is still capable of being the person she intended to be. Chrystal uses her poignant story of an early and unexpected pregnancy, as well as other raw and vulnerable moments in her life, to let readers know she understands what it's like to try and

find your way after some missteps or decisions you didn't plan on. In *She's Still There* Chrystal emphasizes the importance of the personal process and the beauty of authentically sharing your journey one girlfriend to another. I would place an insert into the bulletin each Sunday that would take the congregation on a daily study of passages in the Old Testament related to the prophecies of the coming Messiah or passages in the New Testament that told the story of Jesus

coming to earth as Immanuel, God with Us. Then on the following Sunday morning I would preach on the passages people had studied throughout the week. It became a great learning tool for those who used it and it kept everyone thinking about the same aspects of the Advent and Christmas season. In this book you will find one study guide that has 28 different passages and sets of questions which you can divide up however you would like; four weeks at seven days per week; or four and one half weeks at six days a week; or just taking the month of December and beginning at day 1 and working through until day 28, three days following Christmas. The second set of study guides include seven sets of questions revolving around the prophecies of Isaiah and Micah, the visit of the angel to Mary and Joseph, the Birth of Jesus, the vision of the Shepherds and the visit of the Wise Men. These seven weeks of studies can be used over a period of years while you preach on each of these passages during the Advent season. You can also use these guides as small group topics for the Advent season or your Bible Study, Sunday school classes can use this as the curriculum for the season.
