Peking University and the Origins of Higher Education in China Aug 08 2021 Renowned as one of the most distinguished universities in the world, Peking University (PKU or, colloquially, "Beida") has been at the forefront of higher education in China since its inception. Its roots arguably date to the origin of Chinese higher education. Hao Ping traces the intricate evolution of the university, beginning with the preceding institutions that contributed to its establishment, and stretching from the first Opium War of 1839 through the first of several eye-opening defeats for the then-isolated Middle Kingdom to the Xinhai Revolution and the early days of the Republic of China. Hao Ping chronicles the contentious debates between reform-minded leaders who championed Western models of learning and conservatives who favored the traditional schooling and examination system, providing readers with details about the workings of the imperial court as well as the individual officials and scholars involved in Chinese educational reform. This authoritative history of the founding of Peking University defends the university's claim to be the first modern university in China and offers insight into the formation of higher education as it exists in China today.

Memories of Peking Jan 25 2023 In five stories with a continuing cast of characters and many of the qualities of a novel, Memories of Peking: South Side Stories portrays Peking of the 1930s as seen through the eyes of a little girl. These stories differ greatly from many other books on life in

China -- whether about past times or the present day -- in that they neither dwell on politics nor try to propound beliefs of any kind. The stories are simple, direct, and personal. The reader experiences life in Peking through the eyes and innocent mind of the child. The author is well known for her perception and humor. She handles with great sensitivity and lyricism the sense of loss and bewilderment that arouses the child's awareness of the uncertainties of human relationships, even of life itself, and which finally catapults her away from childhood joys into the sorrows of the adult world.

Chinatown Family Apr 27 2023 Lin Yutang (1895-1976), author of more than thirty-five books, was arguably the most distinguished Chinese American writer of the twentieth century. In *Chinatown Family*, he brings humor and wisdom to issues of culture, race, and religion as he tells the engrossing and heart-warming story of an immigrant, working-class Chinese American family that settled in New York City during the 1930s and 1940s. Tracing their sometimes troubled and sometimes rewarding journey, Lin paints a vivid portrait of the wonder and the woe of settling into a new land. In an era when interracial marriages were frowned upon and it was forbidden for working-class Chinese men to bring their families to America, this story shows how one family struggled to become new Americans by applying their Taoist philosophy to resist peacefully the discriminatory laws and racism they encountered. Beyond the quest for acceptance and economic success, *Chinatown Family* also probes deep into the heart of the immigration experience by presenting the perils of assimilation. The burgeoning tension between the desire for material wealth and the traditional Chinese belief in the primary importance of family poses the question: Is it possible to attain the American dream without damaging these primary ties? For each family member, the answer to this question turns out to be different. Through the varied paths that each character takes, the novel dramatizes the ways that Chinese immigrants have negotiated between the competing interests of economic opportunity and traditional values.

Looking Beyond Jul 27 2020 WITH HUMOR AND COMMON SENSE A MODERN PHILOSOPHER SHOWS MANKIND A WAY TO THE GREATER ENJOYMENT OF LIVING... In the year 2004 the heroine, an anthropologist, lands on an unknown and isolated Pacific island. Her plane is destroyed, so the renamed Eurydice finds herself compelled to join the Ruined Earth Utopian islanders. In this gripping novel, which was first published in 1955, Chinese-U.S. author, essayist and academic Dr. Lin Yutang ' s appears to formulate his conception of a world beyond the muddling of today in a world that has survived two more world wars, and inaugurated a new Democratic World Commonwealth, outside the limitations of national sovereignty. He makes the contact between this groping old world and an island community, dedicated to peace, isolation and immunity from world ills, exalting the virtues of culture, and surviving in a state of suspended animation with little or no government.

Modern China's Ethnic Frontiers Oct 29 2020 The purpose of this book is to examine the strategies and practices of the Han Chinese Nationalists vis-à-vis post-Qing China ' s ethnic minorities, as well as to explore the role they played in the formation of contemporary China ' s Central Asian frontier territoriality and border security. The Chinese Revolution of 1911, initiated by Sun Yat-sen, liberated the Han Chinese from the rule of the Manchus and ended the Qing dynastic order that had existed for centuries. With the collapse of the Qing dynasty, the Mongols and the Tibetans, who had been dominated by the Manchus, took advantage of the revolution and declared their independence. Under the leadership of Yuan Shikai, the new Chinese Republican government in Peking in turn proclaimed the similar "five-nationality Republic" proposed by the Revolutionaries as a model with which to sustain the deteriorating Qing territorial order. The shifting politics of the multi-ethnic state during the regime transition and the role those politics played in defining the identity of the modern Chinese state were issues that would haunt the new Chinese Republic from its inception to its downfall. Modern China's Ethnic Frontiers will be of interest to students and scholars of Chinese history, Asian history and modern history.

Lost in Translation Apr 03 2021 A novel of searing intelligence and startling originality, Lost in Translation heralds the debut of a unique new voice on the literary landscape. Nicole Mones creates an unforgettable story of love and desire, of family ties and human conflict, and of one woman's struggle to lose herself in a foreign land--only to discover her home, her heart, herself. At dawn in Beijing, Alice Mannegan pedals a bicycle through the deserted streets. An American by birth, a translator by profession, she spends her nights in Beijing's smoke-filled bars, and the Chinese men she so desires never misunderstand her intentions. All around

her rushes the air of China, the scent of history and change, of a world where she has come to escape her father's love and her own pain. It is a world in which, each night as she slips from her hotel, she hopes to lose herself forever. For Alice, it began with a phone call from an American archaeologist seeking a translator. And it ended in an intoxicating journey of the heart—one that would plunge her into a nation's past, and into some of the most rarely glimpsed regions of China. Hired by an archaeologist searching for the bones of Peking Man, Alice joins an expedition that penetrates a vast, uncharted land and brings Professor Lin Shiyang into her life. As they draw closer to unearthing the secret of Peking Man, as the group's every move is followed, their every whisper recorded, Alice and Lin find shelter in each other, slowly putting to rest the ghosts of their pasts. What happens between them becomes one of the most breathtakingly erotic love stories in recent fiction. Indeed, *Lost in Translation* is a novel about love—between a nation and its past, between a man and a memory, between a father and a daughter. Its powerful impact confirms the extraordinary gifts of a master storyteller, Nicole Mones.

A Spark in the Smokestacks Jun 25 2020 Environmental organizing in Beijing emerged in an unlikely place in the 2000s: new gated residential communities. After rapid population growth and housing construction led to a ballooning trash problem and overflowing landfills, many first-time homeowners found their new neighborhoods facing an unappetizing prospect—waste incinerator projects slated for their backyards. Delving

into the online and offline conversations of communities affected by the proposed incinerators, *A Spark in the Smokestacks* demonstrates how a rising middle class acquires the capacity for organizing in an authoritarian context. Jean Yen-chun Lin examines how urban residents create civic life through everyday associational activities—learning to defend property rights, fostering participation, and mobilizing to address housing-related grievances. She shows that homeowners cultivated petitioning skills, informational networks, and community leadership, which they would later deploy against incinerator projects. To interact with government agencies, they developed citizen science-based tactics, a middle-class alternative to disruptive protests. Homeowners drew on their professional connections, expertise, and fundraising capabilities to produce reports that boosted their legitimacy in city-level dialogue. Although only one of the three incinerator projects Lin follows was ultimately canceled, some communities established durable organizations that went on to tackle other environmental problems. Drawing on interviews, participant observation, and ethnography, *A Spark in the Smokestacks* casts urban Chinese communities as “schools of democracy,” in which residents learn civic skills and build capacity for collective organizing. Through compelling case studies of local activism, this book sheds new light on the formation of civil society and social movements more broadly.

*Memories of Peking* Jul 31 2023 Through the keen eyes and curious mind of a young girl, Ying-tzu, we are given a glimpse into the adult world of Peking in the 1920s. The five sequential stories in this collection can be read as either stand-alone pieces, or as a novel, due to the cleverly constructed themes and character development. Exploring ideas of loss and bewilderment, Lin Hai-yin carefully captures the transition from childhood to adulthood. Shielded by a child's innocence, we are taken on a journey of discovery as Ying-tzu grapples with the uncertainties of human relationships as well as her developing awareness of the world around her. Poignant and poetic, it is hard not to be moved by *Memories of Peking: South Side Stories*."

*Blood Letters* Dec 12 2021 The staggering story of the most important Chinese political dissident of the Mao era, a devout Christian who was imprisoned, tortured, and executed by the regime *Blood Letters* tells the astonishing tale of Lin Zhao, a poet and journalist arrested by the

authorities in 1960 and executed eight years later, at the height of the Cultural Revolution. The only Chinese citizen known to have openly and steadfastly opposed communism under Mao, she rooted her dissent in her Christian faith -- and expressed it in long, prophetic writings done in her own blood, and at times on her clothes and on cloth torn from her bedsheets. Miraculously, Lin Zhao's prison writings survived, though they have only recently come to light. Drawing on these works and others from the years before her arrest, as well as interviews with her friends, her classmates, and other former political prisoners, Lian Xi paints an indelible portrait of courage and faith in the face of unrelenting evil.

Lin Yutang and China ' s Search for Modern Rebirth Feb 23 2023 This book provides a comprehensive examination of the socio-cultural and political context of modern China in terms of its interaction with America and the West, focusing on the influence of the well-known Chinese writer and intellectual Lin Yutang (1895-1976). Liang and Lin Jan 13 2022 Wilma Fairbank documents, from both a

historical and a uniquely personal perspective, the professional and personal achievements of Lin Whei-yin and Liang Sicheng. Liang and Lin were born in early twentieth-century China, a time when the influences of modernism were slowly bearing down on the traditional culture. In the 1920s, they traveled together to the Beaux Arts universe of Philadelphia, where they both graduated with honors from the architecture department of the University of Pennsylvania. Married in 1928, they returned to their native land and became the first two professors at the newly founded school of architecture in Shenyang's Tung Pei University. Wilma Fairbank and her husband, John King Fairbank, Harvard University's eminent historian of modern China, were lifelong friends of Liang and Lin. This relationship allows the author, herself a noted researcher of art and architecture, to paint a vivid picture of the couple within the context of China's turbulent past. Fairbank recounts how Liang and Lin used their Western training to initiate the study of China's architectural evolution. She also documents—as seen through the eyes of Liang and Lin—the tragic events that ravaged the Chinese homeland and its people: the 1937 invasion and bombings by the Japanese military and the ensuing illness and poverty; World War II and the civil war; the rise to power of the Communist government in 1949; and the victimization of the scholar class during the Cultural Revolution of 1966-76. Fairbank provides a highly readable, emotionally charged personal account of the couple's lives, and the numerous and sometimes horrific torments and humiliations they suffered. And, finally, when it was all too late, the posthumous praise and recognition.

Hetta and William Mar 03 2021 This is an account of being brought up a household established by two bohemians of their age. Hetta and William met as fellow students at the liars school, an induction course for new recruits to the BBC Foreign Service during World War 2. He was an established poet and literary critic, an academic whose career had been blighted in the UK. She was an orphaned South African, an aspiring

sculptor, and a member of the Communist Party. Their marriage was to last over 40 years. Soon after the end of the war they took their two sons with them to Peking, where the civil war was resuming, and the Chinese Communist Party was to establish the new Peoples Republic. Oddly enough, their open marriage worked very well in the expatriate community. On their return to England William was able to resume an academic career in the north of England. Hetta stayed in London. The vicissitudes of their relationship made for an interesting life for the boys, who were sometimes being looked after by childless relations, sometimes roughing it on their own in the huge house that their parents had bought in Hampstead during the war. It was a life of privilege as well as neglect, but never dull.

Tsui Hark's Peking Opera Blues Aug 27 2020 Part historical drama, part thriller, and part comedy, Tsui Hark's Peking Opera Blues (1986) invites--if not demands--examinations from multiple perspectives. Tan See Kam rises to the challenge in this study by first situating Tsui in a Sinophone context. The diasporic director explores different dimensions of "Chineseness" in the film by depicting competing versions of Chinese nationalism and presenting characters speaking two Chinese languages, Cantonese and Mandarin. In the process he compels viewers to recognize the multiplicities of the Chinese identity and rethink what constitutes cultural Chineseness. The challenge to a single definition of "Chinese" is also embodied by the playful pastiches of diverse materials. In a series of intertextual readings, Tan reveals the full complexity of Peking Opera Blues by placing it at the center of a web of texts consisting of Tsui's earlier film Shanghai Blues (1984), Hong Kong's Mandarin Canto-pop songs, the "three-women" films in Chinese-language cinemas, and of course, traditional Peking opera, whose role-types, makeup, and dress code enrich the meaning of the film. In Tan's portrayal, Tsui Hark is a filmmaker who makes masterly use of postmodernist techniques to address postcolonial concerns. More than a quarter of a century after its release, Tan shows, Peking Opera Blues still reverberates in the present time.

The Vigil of a Nation Oct 10 2021 For the second time Lin Yutang has gone deep into wartime China and has come out with much to tell. No foreign writer, and few Chinese, could have had such a chance to see past the smoke of war, through the clouds of gossip, and beneath the heaving surface of economic and political change. And Lin Yutang, as always, is

unafraid of the truth. His sense of history, joined with his spirit of eager inquiry, led him to watch for the old China along with the new. Only China presents such a study in contrasts, rich alike with romance and with hope for the future. Sitting on the ruins of a Tang palace and telling us tales of ancient times, Lin Yutang looks down at an Industrial Co-operative group working in the gully below and dreams of the China that is to be. He describes a cotton mill, all underground, three miles of whirring machines in tunnels bored beneath the protecting hills; and further west, a vast irrigation system built two thousand years ago and still working perfectly.
