**Valentino Rossi** Nov 23 2022 Valentino Rossi's retirement brings down the curtain on an incredible career in the MotoGP motorcycle world championships. With his nine titles, including seven in the premier class, he is widely regarded as the greatest motorcycle racer ever, and his 26 seasons of Grand Prix racing make him unique across both motorcycling and Formula 1. Rossi has been captivating fans since he won his first Grand Prix at the age of 17 and even in his final season, at the age of 42, he has been riding faster than ever. In *Valentino Rossi: All His Races*, by top journalist Mat Oxley, each and every one of these races comes under the microscope, complete with perspectives about Rossi's achievements, the controversies, his character, and analysis of his bikes. This is a Valentino Rossi book like no other, with photos by Henk Keulemans, who was shooting grand prix racing when Rossi's father Graziano was winning races. Early days, from karting and minimoto bikes to a first GP win, on a 125 Aprilia in the 1996 Czech GP, then onwards to claim the 125cc world title in 1997. Moving up to the 250cc class in 1998 brought four consecutive end-of-season wins riding for Aprilia, followed by a decisive title in 1999 with nine victories. Grabbed by Honda to race its super-successful NSR500, Rossi graduated to the 'class of kings' for 2000, almost becoming champion that season -- but the following year he sealed MotoGP, for 990cc four-stroke bikes, took over and Rossi immediately reigned supreme aboard his Honda RC211V, securing back-to-back titles in 2002 and 2003, before a surprise departure to uncompetitive Yamaha. Rossi rates his first year with Yamaha, 2004, as his best: defying expectation, he won first time out on the YZR-M1 and took a fourth successive title with nine wins. In six more seasons with Yamaha, 2005-10, Rossi collected three more championship crowns, his 2008 success especially sweet because it involved a fightback after two leaner years. Rossi's move to Ducati looked to be an appetising all-Italian prospect but his two winless seasons there, 2011 and 2012, were disastrous. A return to Yamaha never quite recaptured his greatest glories, but Rossi was championship runner-up three times and came very close to another title in 2015. Beautifully designed and

comprehensively illustrated, this book is the complete record of Valentino Rossi's remarkable career in motorcycle racing. The World According to Foggy May 18 2022 Published to coincide with the thirtieth anniversary of the Superbike World Championship, The World According to Foggy will delight the legions of motor sport fans in the UK and beyond, and will be lapped by those who have enjoyed books by Valentino Rossi, Guy Martin, Michael Dunlop, John McGuinness, Ian Hutchinson and Freddie Spencer. This is a full-throttle, rip-roaring, white-knuckle pillion ride with motorcycle racing icon Carl Fogarty, a man the nation took to their hearts as 'King of the Jungle' in the 2014 series of I'm a Celebrity...Get Me Out of Here! The World According to Foggy is packed with hilarious tales from inside and outside the sport. Racers past and present, including Valentino Rossi, Marc Marquez, Steve Hislop and Guy Martin, all come under Foggy scrutiny. He dips into the memory banks to relive those special moments of his career in World Superbikes and at his 'spiritual home', the Isle of Man TT, and talks candidly for the first time about his venture into team ownership, as well as his inner demons. Carl lifts the lid on his madcap mates and their daft antics and shares his quirky wisdom on topics as diverse as cricket, hikers, News at Ten, fainting goats, traffic lights and the full English breakfast on trains. Ultimately, The World According to Foggy reveals the real man behind the visor: cheeky, witty, down-to-earth ... and every-so-slightly bonkers.

**Guy Martin: When You Dead, You Dead** Sep 29 2020 'The maddest 12 months of my life. The journey starts with an oddball race up an American mountain and ends with me checking myself out of hospital with a broken back. Again ...' As Guy's Latvian grandfather frequently reminded him, 'When you dead, you dead'. So before it's all over, Guy Martin is making the most of the time he's got. In this past year alone, Guy has raced the Isle of Man TT and finished on the podium; bike trekked through India; competed in solo 24-hour bicycles races; flown a stunt plane; broken a go-kart speed record down a French mountain and attempted to break the motorcycle land-speed record at Bonneville Salt Flats. And he's done all this around his day job as a truck mechanic. But let Guy tell you about it himself: 'This book starts in a Transit, ends in a Transit, and in between I've raced a few pushbikes, raced a few motorbikes and got a fair few stories to tell you.' Spot on.

One Hundred Years of Solitude Apr 04 2021 One of the twentieth century's enduring works, *One Hundred Years of Solitude* is a widely beloved and acclaimed novel known throughout the world and the ultimate achievement in a Nobel Prize-winning career. The novel tells the story of the rise and fall of the mythical town of Macondo through the history of the Buendía family. Rich and brilliant, it is a chronicle of life, death, and the tragicomedy of humankind. In the beautiful, ridiculous, and tawdry story of the Buendía family, one sees all of humanity, just as in the history, myths, growth, and decay of Macondo, one sees all of Latin America. Love and lust, war and revolution, riches and poverty, youth and senility, the variety of life, the endlessness of death, the search for peace and truth—these universal themes dominate the novel. Alternately reverential and comical, *One Hundred Years of Solitude* weaves the political, personal, and spiritual to bring a new consciousness to storytelling. Translated into dozens of languages, this stunning work is no less than an account of the history of the human race.

Feel Apr 28 2023 *Feel* is the story of how a small-time boy from humble beginnings in Louisiana rose to the pantheon of greats, to win the 500cc and 250cc GP Championship in the same year – an historic achievement over three decades ago which has never been repeated. Growing up at the time of the assassination of Malcolm X and Martin Luther King, Freddie judged by feel, not by colour. Blind to prejudice and discrimination, he formed dynamic connections with people and events, but only years later during his racing afterlife could Freddie come to understand the true power of the things he learned. Spencer is an articulate and compassionate guide as he describes the thrill and horror of racing in an era when death was a perennial threat. He recalls in pin-sharp detail the frenetic high-octane racing duels with the 'King' Kenny Roberts, but also

describes a parallel internal journey as he struggled to make sense of it all. Driven by a search for the personal fulfilment that comes through finding your purpose, Freddie's story is a universal one. In its message of hope, *Feel* transcends its genre to offer a story for everyone. Part thriller, part philosophical self-exploration, it is a remarkably insightful account of what it is like to have it all, but wonder why. "For the first time I will talk about the traumas of my childhood, the contrast between the leaf fire burns, the mistrust and discomfort and the peace and purpose I felt when riding my bike. I didn't tell my parents about something that happened to me. Why? I felt ashamed, but when I rode I felt connected to everything and the pain in my hand and heart would go away. It gave me the feeling of hope".

Riding in the Zone Sep 21 2022 Riding motorcycles is fun, but author Ken Condon maintains that there is a state of consciousness to be achieved beyond the simple pleasure of riding down the road. *Riding in the Zone* helps riders find that state of being. It's the experience of being physically and mentally present in the moment, where every sense is sharply attuned to the ride. Your mind becomes silent to the chatter of daily life, and everyday problems seem to dissolve. You feel a deeper appreciation for life. Your body responds to this state of being with precise, fluid movements, you feel in balance, your muscles are relaxed, and it seems as though every input you make is an expression of mastery. This is "the Zone." Condon identifies all of the factors that affect entering the Zone and addresses each one individually, from the development of awareness and mental skills to mastering physical control of the motorcycle. At the end of each chapter are drills designed to transform the book's ideas into solid, practical riding skills. *Riding in the Zone* takes riders to the next level in their skill set.

*Motocourse 2020-2021* Mar 04 2021 MOTOCOURSE 2020-2021 celebrates its 45th year of publication - and despite the World pandemic throwing the sport into chaos, what a year it was for motorcycle racing! In a thrilling MotoGP season, Marc Marquez and Honda were expected to be the dominant force once more, but an accident in the opening round saw him sidelined for much of the season and left him with but a slim chance of retaining his MotoGP crown. Other riders stepped up in his absence and shared out victories. Ducati's Andrea Dovizioso, and Yamaha's trio of Maverick Vinales, Fabio Quartararo and Franco Morbidelli all took to the top step of the podium. The emergence of KTM as a race winning machine saw both Brad Binder and Miguel Oliveira join the list of first time winners, in a close fought battle for supremacy throughout the whole of the MotoGP field. Once again, Valentino Rossi defied the years to remain at the sharp end of the grid, whilst the Suzuki pair of Alex Rins and Joan Mir both looked equally capable of adding to the list of winners in an enthralling contest for the title. Editor Michael Scott provides a no-holds-barred assessment of all the aspects of a compelling season's action. MOTOCOURSE alone has full coverage of the support classes, Moto2 and Moto3, where Italian riders Luca Marini, Estea Bastinanini, Marco Bezzecchi were contenders to clinch the Moto2 crown, whilst Albert Arenas, Ai Ogura and John McPhee hotly disputed the Moto3 title. In World Superbikes, Kawasaki's dominance was challenged by Ducati's Scott Redding, with Jonathan Rea looking to retain his championship title for the sixth successive year, ahead of the chasing pack including Alavaro Bautista, Chaz Davies and Yamaha's Michael van der Mark. No book covers the motorcycle racing world in as much detail as MOTOCOURSE, which, in addition to the two major world series covers The World Supersport

Championship, The British Superbike Championship and the AMA USA Superbike series. **The Athlete as National Symbol** Jun 18 2022 ? Examining the phenomenon of nationalism in the world of sport, this collection of new essays identifies moments when athletes became national symbols through their actions on and off the field. Since the break-up of the Soviet Union and Yugoslavia, and related global events of the 1980s and 1990s, scholars have explored how race, ethnicity, gender and sexuality shape and are shaped by nationalism and national participation. Topics include: race, golf and the struggle for social justice in South Africa; sport as a battleground within the Israel/Palestine conflict; multiculturalism and the Olympic Games; and white privilege in sport. These case studies explore the strength (and fragility) associated with national identity, and how athletes become icons for their nations.

**Never Say Never** Dec 25 2022 'The unmistakable voice of Moto GP' - Valentino Rossi As 'The Voice' of motorcycle racing for forty years, commentator Nick Harris became the biggest star not on two wheels in the paddock, and this is his mostly eye-witness, white-knuckle account of MotoGP's scorching seventy-year history. The story starts on the Isle of Man in 1949, when Geoff Duke, with his slicked-back hair and one-piece black leathers, became the nation's hero, defying the odds and winning the most dangerous race in the world on a British-built Norton. Just over a decade later at Mallory Park, another British champion and one of the greatest riders of all time Mike Hailwood screamed past a young Nick Harris on his 250cc Honda, and a life-long passion was born. Harris has been at the centre of the sport for decades, getting to know the riders as individuals, seeing feuds unfold, champions made, careers and sometimes lives ended. We'll see the biggest podium stars up close, from Barry Sheene and Kenny Roberts to Valentino Rossi, and we'll meet the mechanics behind them, the manufacturers who poured millions into the teams, and the organisers who, in the early days, ruthlessly compromised rider safety for profits. The drama has often been as tense off the track as on it. This is the book the motorcycling world has been waiting for.

*The Ride So Far* Aug 28 2020 Few paint a more vivid or varied picture of the joys of riding than this collection of stories from a motorcycling life by Lance Oliver, who has spent more time than most of us thinking about and writing about the art and practicalities of motorcycling.

More than Cricket and Football May 25 2020 Given the presumed dominance of American sport, many fans throughout the hemisphere find it difficult to envision the role of sport beyond the confines of their own continent. And yet, world sport consists of so much more than the games Americans play and so much more than the stereotype of cricket for the elite and football for the working class. As worldwide sport continues to gain in popularity, we also see parallels to many aspects visible in North American sport, particularly celebrity and all its trappings and pitfalls. The success of athletes from other countries in basketball and ice hockey, and the proliferation of stars imported and now exported to and from North America, provides some better examples of sport's international power. It also creates a very new kind of sport celebrity, albeit one that often shows a rather limited reach beyond that star's own country or continent. Thus, rather than focusing on the Western Hemisphere, this collection of some of world sport's most heralded celebrities (including stars of Motocross, surfing, distance running, and more) serves as a sort of passport to many places that make up our global sporting environment.

**Mobilising Design** Jul 20 2022 This book brings together research working at the boundary between design knowledges and mobilities, offering a novel collection for both theorists and practitioners. Drawing upon detailed case studies, it demonstrates the diverse roles of design in shaping mobility at different spaces and scales: across cities; within different types of buildings and infrastructures; and through commuting, work and leisure activities. A range of international scholars illustrate the designed mobilities of car parks, traffic lights, street benches, pedestrian wayfinding systems and accessible design in the urban environment; they examine spaces within hospitals, airports and train stations and investigate design practices for bicycles, future urban vehicles and MotoGP motorcycle racing. Other contributions explore overlooked mobile artefacts such as television and video game remote controls, 3D printing and the types of packaging which enable objects themselves to move around. This book demonstrates how the tools, assumptions and processes of design shape spaces of mobility, and also illuminates how shifts in the fluidity and circulation of people, practices and materials in turn reconfigure

practices of design. Mobilising Design develops multi-disciplinary understandings of design, drawing upon diverse literatures including design history, product design, architecture and cultural geography. By highlighting often invisible artefacts and associated knowledges and controversies, the book foregrounds the taken-for-granted ways in which everyday mobility is designed. It will be of interest to scholars in geography, sociology, economic history, architecture, design and urban theory.
