Here is a book that was neither written by a human nor dictated by the Holy Spirit to a human from the perspective of an angel, a disinterested third party who is neither human nor divine. Augie is a working angel who, like most angels, troubleshoots and serves God as a messenger, guardian, avenger, chaperone—you name it, Augie has it. For reasons unknown, Augie's superiors select him to write a book, giving him no reason and no guidelines. Augie figures it must be to help humans understand the spirit world a little better. It was strange that Augie was selected because he takes a rather dim view of the human species. He feels that the sacrifice of Jesus to purchase mankind was like a human who spent a fortune to buy the Brooklyn Bridge. Being a good angel, however, he takes to his task willingly and digs into his case files—reports that all angels must submit following encounters with humans. He includes an after-action summary as a sort of debrief in which he records the important details that he feels humans are

ignorant to see on their own. The result is this book. Since heaven submitted for publication, I guess they think Augie did an okay job. **RELENTLESS!** Mega City One - a nightmarish enclosure located along the Eastern Seaboard of America. Backmatter showcases period photographs and primary source material in FBI archives. He's the most prolific, enigmatic, and dangerous offender the State of California has ever known... yet he remains unidentified and unpunished to this day. With over one hundred burglaries, rapes, and possibly a dozen murders, the "East Area Rapist" / "Golden State Killer" / "Original Night Stalker" was truly one of history's most vile and heinous criminals. He seemed to appear out of nowhere in the mid-1970s near Sacramento, California, where he began a series of rapes and murders that police baffled and communities on-edge. He couldn't be tracked, he couldn't be found, and he couldn't be stopped. Over a ten-year period, towns like Modesto, Davis, Concord, San Ramon, San Jose, Danville, Fremont, Walnut Creek, Goleta, Ventura, Dana Point, Irvine, and the neighborhoods of Sacramento were all violated by this monster. He left behind thousands of clues spread throughout over a dozen jurisdictions but still somehow outmaneuvered efforts to capture him at every turn. This book culls together information from every source possible to present a comprehensive rundown of each and every attack. Everything is explained, myths are debunked, and viable leads are presented. Other cases which might be related like the Visalia Ransacker, the Ripon Court shooting, Maggiore murders, and the Eva Davidson Taylor murder are explored. Never before has such a detailed and thorough chronological volume been published about this case. Going over the nuances and evidence with such granularity is a worthwhile exercise. This case is solvable, and the offender is probably still out there. The clues to his identity are in here. Because, as they say... The Devil is in the details.
