**A Good Talk** Nov 17 2022 A GOOD TALK is an analysis of and guide to that most exclusively human of all activities-- conversation. Drawing on over forty years of experience in American letters, Menaker pinpoints the factors that drive and enliven every good conversation: the vagaries (and joys) of subtext; the deeper structure and meaning of conversational flow; the subliminal signals that guide our disclosures and confessions; and the countless other hurdles we must clear along the way. Moving beyond self-help musings and "how to" advice, he has created a stylish, funny, and surprising book: a celebration of "the most excusively human of all activities." In a time when conversation remains deeply important-- for building relationships, for relaxing, even for figuring out who we are-- and also increasingly imperiled (with Blackberries and texting increasingly in vogue), A GOOD TALK is a refreshing celebration of the subtle adventures of a good conversation.

*You're an Animal*, Viskovitz Jun 19 2020 In this wickedly hilarious collection of fables, Alessandro Boffa introduces us to Viskovitz and his never-ending search for his true love, Ljuba. As he changes from a lovelorn lion to a jealous finch, from a confused dung beetle to an enlightened police dog, Viskovitz embraces his metamorphoses with wry humor and an oftentimes painful sense of self. As an ant, Viskovitz fights his way to the top where his egotism calls on the colony to create a monument to his greatness out of a piece of bread. As a sponge, he is horrified by the inbreeding in his family—"I'm my own mother-in-law!!!"—and yearns for a change in current so he can mate with Ljuba, who lies downstream. As a mantis, he asks his mother what his father was like, only to hear, "Crunchy. A bit salty. High in fiber." Unfortunately, when he meets Ljuba shortly thereafter, he follows his father's fate. And as a scorpion, his uncontrollably deadly efficiency meets its match in Ljuba and finds "no way to escape this intolerable, sinister happiness."

**Works Well with Others** Jul 13 2022 A hilarious and indispensable guide to the weirdness of the workplace from Esquire editor and Entrepreneur etiquette columnist Ross McCammon Ten years ago, Ross McCammon made an incredible and unexpected transition from working at an in-flight magazine in suburban Dallas to landing his dream job at Esquire in New York. What followed was a period of almost debilitating anxiety and awkwardness—interspersed with minor instances of professional glory—as McCammon learned how to navigate the workplace while feeling entirely ill-equipped for achieving success in his new career. Works Well with Others is McCammon's "relentlessly funny and soberingly insightful"\* journey from impostor to authority, a story that reveals the workplace for what it is: an often absurd landscape of ego and fear guided by social rules that no one ever talks about. By mining his own experiences at the magazine, McCammon provides advice on everything from firm handshakes to small talk in elevators to dealing with jerks and underminers. Here is an inspirational new way of looking at your job, your career, and success itself; an accessible guide for those of us who are smart, talented, and ambitious but who aren't well-"leveraged" and don't quite feel prepared for success . . . or know what to do once we've made it.

**The African Svelte** Feb 20 2023 "For language lovers, this book, with all its verbal tangles and wit, is sure to, in its own words, 'pass mustard'" (Poets & Writers). Inspired by Daniel Menaker's tenure at the *New Yorker*, this collection of comical, revelatory errors foraged from the wilds of everyday English comes with commentary by the author, illustrations by Roz Chast, and a foreword from Billy Collins. During his time at the renowned magazine, Menaker happened across a superb spelling mistake: "The zebras were grazing on the African svelte." Fascinated by the idea of unintentionally meaningful spelling errors, he began to see that these gaffes—neither typos nor auto-corrects—are sometimes more interesting than their straight-laced counterparts. Through examples he has collected over the course of his decades-long career as an editor and writer, he brings us to a new understanding of language—how it's used, what it means, and what fun it can be. Illustrated by the inimitable Roz Chast, with a foreword by former poet laureate Billy Collins, *The African Svelte* offers thoughtful and intelligent exit Jesus. With both uniquely happy accidents and familiar fumbles like "for all intensive purposes" and "doggy-dog world," readers delighted by language will find themselves turning the pages with baited breath to discover fresh howlers that have them laughing off their dairy airs.

**The Lost Prince** Feb 25 2021 "In *The Lost Prince* Michael Mewshaw sets down one of the most gripping stories of friendship I've ever read." —Daniel Menaker, author of *My Mistake: A Memoir* Pat Conroy was America's poet laureate of family dysfunction. A larger-than-life character and the author of such classics as *The Prince of Tides* and *The Great Santini*, Conroy was remembered by everybody for his energy, his exuberance, and his self-lacerating humor. Michael Mewshaw's *The Lost Prince* is an intimate memoir of his friendship with Pat Conroy, one that involves their families and those days in Rome when they were both young—when Conroy went from being a popular regional writer to an international bestseller. Family snapshots beautifully illustrate that time. Shortly before his forty-ninth birthday, Conroy telephoned Mewshaw to ask a terrible favor. With great reluctance, Mewshaw did as he was asked—and never saw Pat Conroy again. Although they never managed to reconcile their differences completely, Conroy later urged Mewshaw to write about "me and you and what happened . . . i know it would cause much pain to both of us. but here is what that story has that none of your others have." *The Lost Prince* is Mewshaw's fulfillment of a promise.

**The Gospel of the Flying Spaghetti Monster** Aug 22 2020 Can I get a "ramen" from the congregation?! Behold the Church of the Flying Spaghetti Monster (FSM), today's fastest growing carbohydrate-based religion. According to church founder Bobby Henderson, the universe and all life within it were created by a mystical and divine being: the Flying Spaghetti Monster. What drives the FSM's devout followers, a.k.a. Pastafarians? Some say it's the assuring touch from the FSM's "noodly appendage." Then there are those who love the worship service, which is conducted in pirate talk and attended by congregants in dashing buccaneer garb. Still others are drawn to the Church's flimsy moral standards, religious holidays every Friday, or the fact that Pastafarian heaven is way cooler: Does your heaven have a Stripper Factory and a Beer Volcano? Intelligent Design has

finally met its match—and it has nothing to do with apes or the Olive Garden of Eden. Within these pages, Bobby Henderson outlines the true facts—dispelling such malicious myths as evolution (“only a theory”), science (“only a lot of theories”), and whether we’re really descended from apes (fact: Humans share 95 percent of their DNA with chimpanzees, but they share 99.9 percent with pirates!) See what impressively credentialed top scientists have to say: “If Intelligent Design is taught in schools, equal time should be given to the FSM theory and the non-FSM theory.” –Professor Douglas Shaw, Ph.D. “Do not be hypocritical. Allow equal time for other alternative ‘theories’ like FSMism, which is by far the tastier choice.” –J. Simon, Ph.D. “In my scientific opinion, when comparing the two theories, FSM theory seems to be more valid than classic ID theory.” –Afshin Beheshti, Ph.D. Read the book and decide for yourself!

Acclaimed science writer James Gleick presents an eye-opening vision of how our relationship to information has transformed the very nature of human consciousness. A fascinating intellectual journey through the history of communication and information, from the language of Africa’s talking drums to the invention of written alphabets; from the electronic transmission of code to the origins of information theory, into the new information age and the current deluge of news, tweets, images, and blogs. **Made to Stick** Jul 21 2020 NEW YORK TIMES BESTSELLER • The instant classic about why some ideas thrive, why others die, and how to make your ideas stick. “Anyone interested in influencing

others—to buy, to vote, to learn, to diet, to give to charity or to start a revolution—can learn from this book.”—The Washington Post Mark Twain once observed, “A lie can get halfway around the world before the truth can even get its boots on.” His observation rings true: Urban legends, conspiracy theories, and bogus news stories circulate effortlessly. Meanwhile, people with important ideas—entrepreneurs, teachers, politicians, and journalists—struggle to make them “stick.” In *Made to Stick*, Chip and Dan Heath reveal the anatomy of ideas that stick and explain ways to make ideas stickier, such as applying the human scale principle, using the Velcro Theory of Memory, and creating curiosity gaps. Along the way, we discover that sticky messages of all kinds—from the infamous “kidney theft ring” hoax to a coach’s lessons on sportsmanship to a vision for a new product at Sony—draw their power from the same six traits. *Made to Stick* will transform the way you communicate. It’s a fast-paced tour of success stories (and failures): the Nobel Prize-winning scientist who drank a glass of bacteria to prove a point about stomach ulcers; the charities who make use of the Mother Teresa Effect; the elementary-school teacher whose simulation actually prevented racial prejudice. Provocative, eye-opening, and often surprisingly funny, *Made to Stick* shows us the vital principles of winning ideas—and tells us how we can apply these rules to making our own messages stick.

**Wonderful Town** Jan 27 2021 New York City is not only *The New Yorker* magazine's place of origin and its sensibility's lifeblood, it is the heart of American literary culture. *Wonderful Town*, an anthology of superb short fiction by many of the magazine's most accomplished contributors, celebrates the seventy-five-year marriage between a preeminent publication and its preeminent context with this collection of forty-four of its best stories from (so to speak) home. East Side? Philip Roth's chronically tormented alter ego Nathan Zuckerman has just moved there, in "Smart Money." West Side? Isaac Bashevis Singer's narrator mingles with the customers in "The Cafeteria" (who debate politics and culture in four or five different languages) and becomes embroiled in an obsessional romance. And downtown, John Updike's Maples have begun their courtship of marital disaster, in "Snowing in Greenwich Village." *Wonderful Town* touches on some of the city's famous places and stops at some of its more obscure corners, but the real guidebook in and between its lines is to the hearts and the minds of those who populate the metropolis built by its pages. Like all good fiction, these stories take particular places, particular people, and particular events and turn them into dramas of universal enlightenment and emotional impact. Each life in it, and each life in *Wonderful Town*, is the life of us all. Including these stories from the magazine's most iconic writers: "The Five-Fourty-Eight" by John Cheever "Distant Music" by Ann Beattie "Sailor off the Bremen" by Irwin Shaw "Physics" by Tama Janowitz "The Whore of Mensa" by Woody Allen "What it was Like,

Seeing Chris” by Deborah Eisenberg “Drawing Room B” by John O’Hara “A Sentimental Journey” by Peter Taylor “The Balloon” by Donald Barthelme “Another Marvellous Thing” by Laurie Colwin “The Failure” by Jonathan Franzen “Apartment Hotel” by Sally Benson “Midair” by Frank Conroy “The Catbird Seat” by James Thurber “I See You, Bianca” by Maeve Brennan “You’re Ugly, Too” by Lorrie Moore “Signs and Symbols” by Vladimir Nabokov “Poor Visitor” by Jamaica Kincaid “In Greenwich, There Are Many Gravelled Walks” by Hortense Calisher “Some Nights When Nothing Happens Are the Best Nights in this Place” by John McNulty “Slight Rebellion Off Madison” by J. *The Chapo Guide to Revolution* Aug 14 2022 Instant New York Times bestseller “Howard Zinn on acid or some bullsh\*t like that.” —Tim Heidecker The creators of the cult-hit podcast Chapo Trap House deliver a manifesto for everyone who feels orphaned and alienated—politically, culturally, and economically—by the lanyard-wearing Wall Street centrism of the left and the lizard-brained atavism of the right: there is a better way, the Chapo Way. In a guide that reads like “a weirder, smarter, and deliciously meaner version of The Daily Show’s 2004 America (The Book)” (Paste), Chapo Trap House shows you that you don’t have to side with either sinking ships. These self-described “assholes from the internet” offer a fully ironic ideology for all who feel politically hopeless and prefer broadsides and tirades to reasoned debate. Learn the “secret” history of the world, politics, media, and everything in-between that THEY don’t want you to know and chart a course from our wretched present to a utopian future where one can post in the morning, game in the afternoon, and podcast after dinner without ever becoming a poster, gamer, or podcaster. A book that’s “as intellectually serious and analytically original as it is irreverent and funny” (Glenn Greenwald, New York Times bestselling author of *No Place to Hide*) *The Chapo Guide to Revolution* features illustrated taxonomies of contemporary liberal and conservative characters, biographies of important thought leaders, “never before seen” drafts of Aaron Sorkin’s Newsroom manga, and the ten new laws that govern Chapo Year Zero (everyone gets a dog, billionaires are turned into Soylent, and logic is outlawed). If you’re a fan of sacred cows, prisoners being taken, and holds being barred, then this book is NOT for you. However, if you feel disenfranchised from the political and cultural nightmare we’re in, then Chapo, let’s go...

**The Glass Cage** Dec 06 2021 In *The Glass Cage*, Pulitzer Prize nominee and bestselling author Nicholas Carr shows how the most important decisions of our lives are now being made by machines and the radical effect this is having on our ability to learn and solve problems. In May 2009 an Airbus A330 passenger jet equipped with the latest ‘glass cockpit’ controls plummeted 30,000 feet into the Atlantic. The reason for the crash: the autopilot had routinely switched itself off. In fact, automation is everywhere – from the thermostat in our homes and the GPS in our phones to the algorithms of High Frequency Trading and self-driving cars. We now use it to diagnose patients, educate children, evaluate criminal evidence and fight wars. But psychological studies show that we perform best when fully involved in a task, while the principle of automation – that humans are inefficient – is self-fulfilling. The glass cockpit is becoming a glass cage. In this utterly engrossing exposé, bestselling writer Nicholas Carr reveals how automation is affecting our ability to solve problems, forge memories and acquire skills. Rather than rejecting technology, Carr argues that we must urgently rethink its role in our lives, using it to enhance rather than diminish the extraordinary abilities that make us human.

**The Shallows: What the Internet Is Doing to Our Brains** Mar 21 2023 Finalist for the 2011 Pulitzer Prize in General Nonfiction: "Nicholas Carr has written a Silent Spring for the literary mind."—Michael Agger, Slate "Is Google making us stupid?" When Nicholas Carr posed that question, in a celebrated Atlantic Monthly cover story, he tapped into a well of anxiety about how the Internet is changing us. He also crystallized one of the most important debates of our time: As we enjoy the Net's bounties, are we sacrificing our ability to read and think deeply? Now, Carr expands his argument into the most compelling exploration of the Internet's intellectual and cultural consequences yet published. As he describes how human thought has been shaped through the centuries by "tools of the mind"—from the alphabet to maps, to the printing press, the clock, and the computer—Carr interweaves a fascinating account of recent discoveries in neuroscience by such pioneers as Michael Merzenich and Eric Kandel. Our brains, the historical and scientific evidence reveals, change in response to our experiences. The technologies we use to find, store, and share information can literally reroute our neural pathways. Building on the insights of thinkers from Plato to McLuhan, Carr makes a convincing case that every information technology carries an intellectual ethic—a set of assumptions about the nature of knowledge and intelligence. He explains how the printed book served to focus our attention, promoting deep and creative thought. In stark contrast, the Internet encourages the rapid, distracted sampling of small bits of information from many sources. Its ethic is that of the industrialist, an ethic of speed and efficiency, of optimized production and consumption—and now the Net is remaking us in its own image. We are becoming ever more adept at scanning and skimming, but what we are losing is our capacity for concentration, contemplation, and reflection. Part intellectual history, part popular science, and part cultural criticism, *The Shallows* sparkles with memorable vignettes—Friedrich Nietzsche wrestling with a typewriter, Sigmund Freud dissecting the brains of sea creatures, Nathaniel Hawthorne contemplating the thunderous approach of a steam locomotive—even as it plumbs profound questions about the state of our modern psyche. This is a book that will forever alter the way we think about media and our minds.

**The Treatment** Nov 24 2020 Jake Singer, an anxious young English teacher at a prestigious New York prep school, is heading for a life of personal despair and professional mediocrity. Recently abandoned by his girlfriend, disgusted with his own neurasthenic idling, and emotionally paralysed by a case of the vapors, he embarks on a course of psychoanalysis with a black-bearded, bodybuilding Cuban-Catholic Freudian whose accent and tactics are worthy of the Spanish Inquisition. Dr Ernesto Morales is a therapist from hell, a man who wields his sarcasm like a machete in the slash-and-burn process he call interpretation - otherwise known as the Treatment. Then Jake meets socialite-widow Allegra Marshall, and as he bounces from the couch to Allegra's bed in the allegedly real world and back again, his life takes on the eerie, overdetermined quality of an analytic session. Daniel Menaker's comic genius is matched and deepened by profound compassion, and by the wistful sadness that animates his wit. *The Treatment* is a stunning first novel.

*Can't We Talk about Something More Pleasant?* May 19 2020 #1 New York Times Bestseller 2014 NATIONAL BOOK AWARD FINALIST In her first memoir, New Yorker cartoonist Roz Chast brings her signature wit to the topic of aging parents. Spanning the last several years of their lives and told through four-color cartoons, family photos, and documents, and a narrative as rife with laughs as it is with tears, Chast's memoir is both comfort and comic relief for anyone experiencing the life-altering loss of elderly parents. When it came to her elderly mother and father, Roz held to the practices of denial, avoidance, and distraction. But when Elizabeth Chast climbed a ladder to locate an old souvenir from the "crazy closet"-with predictable results-the tools that had served Roz well through her parents' seventies, eighties, and into their early nineties could no longer be deployed. While the particulars are Chast-ian in their idiosyncrasies-an anxious father who had relied heavily on his wife for stability as he slipped into dementia and a former assistant principal mother whose overbearing personality had sidelined Roz for decades-the themes are universal: adult children accepting a parental role; aging and unstable parents leaving a family home for an institution; dealing with uncomfortable physical intimacies; managing logistics; and hiring strangers to provide the most personal care. An amazing portrait of two lives at their end and an only child coping as best she can, *Can't We Talk about Something More Pleasant* will show the full range of Roz Chast's talent as cartoonist and storyteller.

*Becoming Myself* May 11 2022 'Wonderful, compelling and as insightful about its subject and about the times he lived in as you could hope for. A fabulous read' Abraham Verghese, author of *Cutting for Stone* Irvin D. Yalom has made a career of investigating the lives of others. In *Becoming Myself*, his long-awaited memoir, he turns his therapeutic eye on himself, delving into the relationships that shaped him and the groundbreaking work that made him famous. The first-generation child of immigrant Russian Jews, Yalom grew up in a lower-class neighbourhood in Washington DC. Determined to escape its confines, he set his sights on becoming a doctor. An incredible ascent followed: we witness his start at Stanford Medical School amid the cultural upheavals of the 1960s, his turn to writing fiction as a means of furthering his exploration of the human psyche and his rise to international prominence. Yalom recounts his revolutionary work in group psychotherapy and how he became the foremost practitioner of existential psychotherapy, a method that draws on the wisdom of great thinkers over the ages. He reveals the inspiration for his many seminal books, including *Love's Executioner* and *When Nietzsche Wept*, which meld psychology and philosophy to arrive at arresting new insights into the human condition. Interweaving the stories of his most

memorable patients with personal tales of love and regret, *Becoming Myself* brings readers close to Yalom's therapeutic technique, his writing process and his family life.

**Terminalia** Apr 22 2023 In January, Daniel Menaker-former New Yorker fiction editor, Random House editor-in-chief, and author of *The Treatment*, among many other books-received a terminal diagnosis of pancreatic cancer, and the twenty-four poems collected in *TERMINALIA* were written over the course of Menaker's diagnosis and treatment. The collection chronicles his "long contention with the truth": that "The illness you're fighting / And to which you will lose was Written, like this. / But uneditable, inevitable."

My Mistake Jul 25 2023 A New York Times Book Review Editors' Choice "At the epicenter of literary New York, Menaker is an irreverent guide to the publishing world's inner workings . . . His own journey, compelled by his self-knowledge and sense of humor, elevates this memoir into more than witty chatter." — Chicago Tribune "Impossible to resist." — Jennifer Egan, author of *A Visit from the Goon Squad* In these pages Daniel Menaker brings us a "ruefully funny insider's tour of the publishing world" (Vogue.com). Haunted by a self-doubt sharpened by his role in his brother's unexpected death, he offers wry, hilarious observations on publishing, child-rearing, parent-losing, and the writing life. But as time passes, we witness a moving, thoughtful meditation on years well lived, well read, and well spent. Full of mistakes, perhaps. But full of effort, full of accomplishment, full of life. "Tender, smart and witty, this book is truly unputdownable." — Real Simple "Energetic and exhilarating . . . [Menaker's] clever, fast-paced prose makes you stop and think and wonder." — New York Times Book Review "At once jaunty and erudite . . . The writing simply shines." — San Francisco Chronicle

The Selfishness of Others Feb 08 2022 They're among us, but they are not like us. They manipulate, lie, cheat, and steal. They are irresistibly charming and accomplished, appearing to live in a radiance beyond what we are capable of. But narcissists are empty. No one knows exactly what everyone else is full of--some kind of a soul, or personhood--but whatever it is, experts agree that narcissists do not have it. So goes the popular understanding of narcissism, or NPD (narcissistic personality disorder). And it's more prevalent than ever, according to recent articles in *The New York Times*, *The Atlantic*, and *Time*. In bestsellers like *The Narcissism Epidemic*, *Narcissists Exposed*, and *The Narcissist Next Door*, pop psychologists have armed the normal with tools to identify and combat the vampiric influence of this rising population, while on websites like *narcissismsurvivor.com*, thousands of people congregate to swap horror stories about relationships with "narcs." In *The Selfishness of Others*, the essayist Kristin Dombek provides a clear-sighted account of how a rare clinical diagnosis became a fluid cultural phenomenon, a repository for our deepest fears about love, friendship, and family. She cuts through hysteria in search of the razor-thin line between pathology and common selfishness, writing with robust skepticism toward the prophets of NPD and genuine empathy for those who see themselves as its victims. And finally, she shares her own story in a candid effort to find a path away from the cycle of fear and blame and toward a more forgiving and rewarding life.

**Brothers** Apr 10 2022 "The next best thing to not having a brother (as I do not) is to have Brothers." —Gay Talese Here is a tapestry of stories about the complex and unique relationship that exists between brothers. In this book, some of our finest authors take an unvarnished look at how brothers admire and admonish, revere and revile, connect and compete, love and war with each other. With hearts and minds wide open, and, in some cases, with laugh-out-loud humor, the writers tackle a topic that is as old as the Bible and yet has been, heretofore, overlooked. Contributors range in age from twenty-four to eighty-four, and their stories from comic to tragic. *Brothers* examines and explores the experiences of love and loyalty and loss, of altruism and anger, of competition and compassion—the confluence of things that conspire to form the unique nature of what it is to be and to have a brother. "Brother." One of our eternal and quintessential terms of endearment. Tobias Wolff writes, "The good luck of having a brother is partly the luck of having stories to tell." David Kaczynski, brother of "The Unabomber": "I'll start with the premise that a brother shows you who you are—and also who you are not. He's an image of the self, at one remove . . . You are a 'we' with your brother before you are a 'we' with any other." Mikal Gilmore refers to brotherhood as a "fidelity

born of blood.” We’ve heard that the apple doesn’t fall far from the tree. But where do the apples fall in relation to each other? And are we, in fact, our brothers’ keepers, after all? These stories address those questions and more, and are, like the relationships, full of intimacy and pain, joy and rage, burdens and blessings, humor and humanity.

**Mindset** Apr 17 2020 From the renowned psychologist who introduced the world to “growth mindset” comes this updated edition of the million-copy bestseller—featuring transformative insights into redefining success, building lifelong resilience, and supercharging self-improvement. “Through clever research studies and engaging writing, Dweck illuminates how our beliefs about our capabilities exert tremendous influence on how we learn and which paths we take in life.”—Bill Gates, GatesNotes “It’s not always the people who start out the smartest who end up the smartest.” After decades of research, world-renowned Stanford University psychologist Carol S. Dweck, Ph.D., discovered a simple but groundbreaking idea: the power of mindset. In this brilliant book, she shows how success in school, work, sports, the arts, and almost every area of human endeavor can be dramatically influenced by how we think about our talents and abilities. People with a fixed mindset—those who believe that abilities are fixed—are less likely to flourish than those with a growth mindset—those who believe that abilities can be developed. Mindset reveals how great parents, teachers, managers, and athletes can put this idea to use to foster outstanding accomplishment. In this edition, Dweck offers new insights into her now famous and broadly embraced concept. She introduces a phenomenon she calls false growth mindset and guides people toward adopting a deeper, truer growth mindset. She also expands the mindset concept beyond the individual, applying it to the cultures of groups and organizations. With the right mindset, you can motivate those you lead, teach, and love—to transform their lives and your own.
