In the backwoods of Mississippi, a land of honeysuckle and grapevine, Jewel and her husband, Leston, are truly blessed; they have five fine children. When Brenda Kay is born in 1943, Jewel gives thanks for a healthy baby, last-born and most welcome. Jewel is the story of how quickly a life can change; how, like lightning, an unforeseen event can set us on a course without reason or compass. In this story of a woman's devotion to the child who is both her burden and God's singular way of smiling on her, Bret Lott has created a mother-daughter relationship of matchless intensity and beauty, and one of the finest, most indomitable heroines in contemporary American fiction. Ford tractors owe their development to the famous gentleman's handshake agreement between Henry Ford and Harry Ferguson, combining Ford's tractor with Ferguson's revolutionary equipment system. About the Author/Photographer Robert N. Pripps and Andrew Morland toured Illinois, Wisconsin, and Minnesota to collect the color photos for this book. Morland also provided photographs of Ford tractors at work in his home country of England. He lives in Somerset, and Pripps resides in Park Falls, Wisconsin. In 1964 Ford replaced its separate British and American tractor lines with the new 6X range, a "worldwide" family of tractors designed for manufacture in Basildon, Antwerp and the USA. It marked the beginning of an exciting new period in the history of Ford tractors. The next 30 years saw a host of new models and features as the line expanded and evolved towards the machines of the late 1990s with their computer-age technology. It was also a time during which Ford's agricultural business grew into an organization of global proportions, taking over both the New Holland and Versatile equipment companies. In 1994, Fiat acquired Ford's agricultural machinery interests and merged them with Fiatagri to form a new company under the New Holland name. In the late 1990s, New Holland is the leading manufacturer in Europe and many of the World's markets. In this book, the companion to the first part, the author gives an account of all the main Ford and New Holland models as well as the company changes and the personalities involved. It provides a comprehensive resource on this period of tractor history.

bricks kicking about the floor for Nurse to clear up—but then the news was rather remarkable news. You see, there was a knock at the front door and voices talking downstairs, and Lionel thought it was the man come to see about the gas, which had not been allowed to be lighted since the day when Lionel made a swing by tying his skipping rope to the gas bracket. And then, quite suddenly, Nurse came in and said, "'Master Lionel, dear, they've come to fetch you to go and be King.'" When my son Mickey, requested the author write the stories and put them on his blog, both were surprised at the number who read them and the favorable comments and praise. From there they were put in book form for all three of the author's children. Thus, a series of about six books was born. Book One, The Cardinal Song is published, by Xlibris and now Book Two, Along The Wabash.
