My Desire for History Mar 28 2021 This anthology pays tribute to Allan Berube (1946-2007), a self-taught historian and MacArthur Fellow who was a pioneer in the study of lesbian and gay history in the United States. Best known for his Lambda Literary Award-winning book *Coming Out Under Fire: The History of Gay Men and Women in World War II* (1990), Berube also wrote extensively on the history of sexual politics in San Francisco and on the relationship between sexuality, class, and race. John D'Emilio and Estelle Freedman, who were close colleagues and friends of Berube, have selected sixteen of his most important essays, including hard-to-access articles and unpublished writing. The book provides a retrospective on Berube's life and work while it documents the emergence of a grassroots lesbian and gay community history movement in the 1970s and 1980s. Taken together, the essays attest to the power of history to mobilize individuals and communities to create social change.

Pile A Goodreads Pride Month Pick An epic, heartfelt romance about a boy torn between two loves, one in his present ... and one in the past. A story of Black queer history, love, loss, and learning to stay in the moment before it passes you by. Weeks ago, Andre Cobb received a much-needed liver transplant. He's ready for his life to finally begin, until one night, when he passes out and wakes up somewhere totally unexpected...in 1969, where he connects with a magnetic boy named Michael. And then, just as suddenly as he arrived, he slips back to present-day Boston, where the family of his donor is waiting to explain that his new liver came with a side effect—the ability to time travel. And they've tasked their youngest son, Blake, with teaching Andre how to use his unexpected new gift. Andre splits his time bouncing between the past and future. Between Michael and Blake. Michael is everything Andre wishes he could be, and Blake, still reeling from the death of his brother, Andre's donor, keeps him at arm's length despite their obvious attraction to each other. Torn between two boys, one in the past and one in the present, Andre has to figure out where he belongs—and more importantly who he wants to be—before the consequences of jumping in time catch up to him and change his future for good. "Fast-paced, fun, and perfect."—Laurie Halse Anderson, NYT bestselling author of *Speak* "This book was absolutely incredible."—Creya, Goodreads reviewer "Tears, man. So. Many. Tears."—Marci, Goodreads reviewer "Oh my goodness. This book y'all.

I'm a mess."—Netgalley reviewer * A Junior Library Guild Selection! "A stellar novel that today's teens needed yesterday."—Booklist, STARRED review
"Charming and captivating."—Phil Stamper, bestselling author of *The Gravity of Us* "A clever and honestly brilliant novel."—Julian Winters, award-winning author of *Running With Lions* "A skillful and engrossing time-travel adventure."—Kirkus Reviews "Compelling and memorable...[a] gem of a novel."—The Bulletin of the Center for Children's Books "In his YA debut, Jackson has a great gimmick as well as a likeable protagonist who faces sociocultural realities across time."—Publishers Weekly

Origin Story Oct 03 2021 This New York Times bestseller "elegantly weaves evidence and insights...into a single, accessible historical narrative" (Bill Gates) and presents a captivating history of the universe -- from the Big Bang to dinosaurs to mass globalization and beyond. Most historians study the smallest slivers of time, emphasizing specific dates, individuals, and documents. But what would it look like to study the whole of history, from the big bang through the present day -- and even into the remote future? How would looking at the full span of time change the way we perceive the universe, the earth, and our very existence? These were the questions David Christian set out to answer when he created the field of "Big History," the most exciting new approach to understanding where we have been, where we are, and where we are going. In *Origin Story*, Christian takes

readers on a wild ride through the entire 13.8 billion years we've come to know as "history." By focusing on defining events (thresholds), major trends, and profound questions about our origins, Christian exposes the hidden threads that tie everything together -- from the creation of the planet to the advent of agriculture, nuclear war, and beyond. With stunning insights into the origin of the universe, the beginning of life, the emergence of humans, and what the future might bring, Origin Story boldly reframes our place in the cosmos.

New York History Jun 18 2020

Madness and Civilization Oct 23 2020 Michel Foucault examines the archeology of madness in the West from 1500 to 1800 - from the late Middle Ages, when insanity was still considered part of everyday life and fools and lunatics walked the streets freely, to the time when such people began to be considered a threat, asylums were first built, and walls were erected between the "insane" and the rest of humanity.

The History Book Aug 25 2023 Travel thousands of years into our past and discover the significant events that shaped the world as we know it. This book includes short, descriptive explanations of key ideas, themes, and events of world history that are easy to understand. West Virginia Dec 17 2022 " An essential resource for

scholars, students, and all lovers of the Mountaineer State. From bloody skirmishes with Indians on the early frontier to the Logan County mine war, the story of West Virginia is punctuated with episodes as colorful and rugged as the mountains that dominate its landscape. In this first modern comprehensive history, Otis Rice and Stephen Brown balance these episodes of mountaineer individualism against the complexities of industrial development and the growth of social institutions, analyzing the events and personalities that have shaped the state. To create this history, the authors weave together many strands from the past and present. Included among these are geological and geographical features; the prehistoric inhabitants; exploration and settlement; relations with the Indians; the land systems and patterns of ownership; the Civil War and the formation of the state from the western counties of Virginia; the legacy of Reconstruction; politics and government; industrial development; labor problems and advances; and cultural aspects such as folkways, education, religion, and national and ethnic influences. For this second edition, the authors have added a new chapter, bringing the original material up to date and carrying the West Virginia story through the presidential election of 1992. Otis K. Rice is professor emeritus of history and Stephen W. Brown is professor of history at West Virginia Institute of Technology.

A World at Arms Oct 15 2022 A truly global account of WWII - the war that encompassed six continents.

The Black History Book May 22 2023 Discover the rich and complex history of the peoples of Africa, and the struggles and triumphs of Black cultures and communities around the world. With profiles of key people, movements, and events, The Black History Book brings together accounts of the most significant ideas and milestones in Black history and culture. This vital and thought-provoking ebook presents a bold and accessible overview of the history of the African continent and its peoples - from the earliest human migrations to modern Black communities and the African diaspora. Powerful images and innovative infographics bring to life the stories of the early kingdoms of Ancient Egypt, Nubia, and Carthage; the powerful empires of the Medieval and Early Modern eras; and the struggle against European colonizers. Black history and culture beyond the African continent is also explored in detail - including the Atlantic Slave Trade; the quilombos (slave resistance camps) of Brazil; the Harlem Renaissance and Jazz Age; the "Windrush" migration; Civil Rights and Black feminist movements; and Black Lives Matter. Using the "Big Ideas" series' trademark combination of authoritative, accessible text and bold graphics, The Black History Book examines the achievements and struggles of Black communities across the world up to the modern day, as well as the influence of Black cultures on art, literature, and music the world over.

National Geographic History Book Mar 20 2023 A chronological journey through world history from the beginnings of man becomes interactive with reproductions of historical documents, including pages from the Gutenberg Bible, William Shakespeare's will, and blueprints for the Titanic.

History of Boothbay, Southport and Boothbay Harbor, Maine. 1623-1905 Jan 26 2021 History of Boothbay, Southport and Boothbay Harbor, Maine. 1623-1905. With Family Genealogies by Francis Byron Greene, first published in 1906, is a rare manuscript, the original residing in one of the great libraries of the world. This book is a reproduction of that original, which has been scanned and cleaned by state-of-the-art publishing tools for better readability and enhanced appreciation. Restoration Editors' mission is to bring long out of print manuscripts back to life. Some smudges, annotations or unclear text may still exist, due to permanent damage to the original work. We believe the literary significance of the text justifies offering this reproduction, allowing a new generation to appreciate it.

Chinese and Americans Nov 23 2020 Using culture rather than politics or economics as a reference point, Xu Guoqi highlights significant yet neglected cultural exchanges in which China and America have contributed to each other's national development, building the foundation of what Zhou Enlai called a relationship of "equality and mutual benefit."

Biographical and Genealogical History of the State of

Delaware May 18 2020

The American College and University Nov 16 2022

First published in 1962, Frederick Rudolph's groundbreaking study, *The American College and University*, remains one of the most useful and significant works on the history of higher education in America. Bridging the chasm between educational and social history, this book was one of the first to examine developments in higher education in the context of the social, economic, and political forces that were shaping the nation at large. Surveying higher education from the colonial era through the mid-twentieth century, Rudolph explores a multitude of issues from the financing of institutions and the development of curriculum to the education of women and blacks, the rise of college athletics, and the complexities of student life. In his foreword to this new edition, John Thelin assesses the impact that Rudolph's work has had on higher education studies. The new edition also includes a bibliographic essay by Thelin covering significant works in the field that have appeared since the publication of the first edition. At a time when our educational system as a whole is under intense scrutiny, Rudolph's seminal work offers an important historical perspective on the development of higher education in the United States.

The New York Times Book Review Feb 24 2021 A "delightful" (Vanity Fair) collection from the longest-running, most influential book review in America, featuring its best, funniest, strangest, and most

memorable coverage over the past 125 years. Since its first issue on October 10, 1896, *The New York Times Book Review* has brought the world of ideas to the reading public. It is the publication where authors have been made, and where readers first encountered the classics that have enriched their lives. Now the editors have curated the Book Review's dynamic 125-year history, which is essentially the story of modern American letters. Brimming with remarkable reportage and photography, this beautiful book collects interesting reviews, never-before-heard anecdotes about famous writers, and spicy letter exchanges. Here are the first takes on novels we now consider masterpieces, including a long-forgotten pan of Anne of Green Gables and a rave of *Mrs. Dalloway*, along with reviews and essays by Langston Hughes, Eudora Welty, James Baldwin, Nora Ephron, and more. With scores of stunning vintage photographs, many of them sourced from the Times's own archive, readers will discover how literary tastes have shifted through the years—and how the Book Review's coverage has shaped so much of what we read today.

What is the History of the Book? Feb 19 2023 James Raven, a leading historian of the book, offers a fresh and accessible guide to the global study of the production, dissemination and reception of written and printed texts across all societies and in all ages. Students, teachers, researchers and general readers will benefit from the book's investigation of the subject's origins, scope and future direction. Based on

original research and a wide range of sources, *What is the History of the Book?* shows how book history crosses disciplinary boundaries and intersects with literary, historical, media, library, conservation and communications studies. Raven uses examples from around the world to explore different traditions in bibliography, palaeography and manuscript studies. He analyses book history's growing global ambition and demonstrates how the study of reading practices opens up new horizons in social history and the history of knowledge. He shows how book history is contributing to debates about intellectual and popular culture, colonialism and the communication of ideas. The first global, accessible introduction to the field of book history from ancient to modern times, *What is the History of the Book?* is essential reading for all those interested in one of society's most important cultural artefacts.

The Cambridge Companion to the History of the Book
Jul 12 2022 An accessible and wide-ranging study of the history of the book within local, national and global contexts.

American Architectural History
Mar 08 2022 This book presents a collection of recent writings on architecture and urbanism in the United States, with topics ranging from colonial to contemporary times.

The Book of Amazing History
Dec 25 2020 The *Amazing Book of History* is a 708-page collection of hundreds of articles, lists, quotes, and anecdotes that explore a lively range of human history, from the

ancient world to the recent past to pop culture. The hardcover volume looks at history from an anything-goes perspective, with nearly 300 dynamic tales of people, places, and events. Its innovative approach and witty style should appeal to a wide range of readers.

Big Book of History Aug 13 2022 BIG BOOK OF HISTORY Learning Just Became BIG FUN! Families, schools, and churches can unfold 15 feet of the most interesting history of the world. This easy to follow, color-coded, multi-stream timeline teaches six thousand years of world history to children ages seven through thirteen. These exciting facts and so much more wait inside: who were the first emperors of China and Rome what discovery unlocked the secrets of a forgotten language how modern robotics had its roots in the tea dolls of Japan where Christians faced death for the entertainment of thousands why the languages of Greek and Hebrew were used to write the Bible and how the Age of Discovery meant wealth some, and the destruction of civilization for others. Understanding how the past has shaped our future will inspire young learners to make history for themselves!

Russia and the Russians Apr 09 2022 Chronicles the history of the Russian Empire from the Mongol Invasion, through the Bolshevik Revolution, to the aftereffects of the Cold War.

[The 13 British Colonies in the United States - US History for Kids Grade 3 | Children's History Books](#) May 30 2021 Is your third grader having trouble in US

history? Then maybe the traditional textbooks are too heavy in facts. Use alternative learning materials to boost interest and learning. This book will include details on The 13 British Colonies in the United States. Encourage your child to read and learn independently. Grab a copy today!

Liberty for All? Sep 14 2022 Presents the history of America from the earliest times of the Native Americans to the Clinton administration.

The Book History Reader Jan 18 2023 The editors illustrate how book history studies have evolved into a broad approach which incorporates social and cultural considerations governing the production, dissemination and reception of print and texts.

History of the United States of America, from the Discovery of the Continent [to 1789]. Jan 06 2022

The History of Herodotus Sep 21 2020

History of Shit Jun 23 2023 "A brilliant account of the politics of shit. It will leave you speechless." Written in Paris after the heady days of student revolt in May 1968 and before the devastation of the AIDS epidemic, History of Shit is emblematic of a wild and adventurous strain of 1970s' theoretical writing that attempted to marry theory, politics, sexuality, pleasure, experimentation, and humor. Radically redefining dialectical thought and post-Marxist politics, it takes an important—and irreverent—position alongside the works of such postmodern thinkers as Foucault, Deleuze, Guattari, and Lyotard. Laporte's eccentric style and ironic sensibility combine in an inquiry that is

provocative, humorous, and intellectually exhilarating. Debunking all humanist mythology about the grandeur of civilization, *History of Shit* suggests instead that the management of human waste is crucial to our identities as modern individuals—including the organization of the city, the rise of the nation-state, the development of capitalism, and the mandate for clean and proper language. Far from rising above the muck, Laporte argues, we are thoroughly mired in it, particularly when we appear our most clean and hygienic. Laporte's style of writing is itself an attack on our desire for "clean language." Littered with lengthy quotations and obscure allusions, and adamantly refusing to follow a linear argument, *History of Shit* breaks the rules and challenges the conventions of "proper" academic discourse.

[What is History?](#) Apr 21 2023 A philosophical interpretation of history, examining the significance of historical study as a science and a reflection of social values.

[Occasional Papers of the Boston Society of Natural History](#) Aug 01 2021

[U.S. History](#) Jul 24 2023 Printed in color. U.S. History is designed to meet the scope and sequence requirements of most introductory courses. The text provides a balanced approach to U.S. history, considering the people, events, and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up

(eyewitness accounts, lived experience). U.S. History covers key forces that form the American experience, with particular attention to issues of race, class, and gender.

End of History and the Last Man Apr 16 2020 Ever since its first publication in 1992, *The End of History and the Last Man* has provoked controversy and debate. Francis Fukuyama's prescient analysis of religious fundamentalism, politics, scientific progress, ethical codes, and war is as essential for a world fighting fundamentalist terrorists as it was for the end of the Cold War. Now updated with a new afterword, *The End of History and the Last Man* is a modern classic.
