*Age Is Just a Number* Jun 23 2023 Emily Saunders, an eighty-five-year-old widow of means, lives in an affluent suburb of Brisbane and has everything she needs, but she is lonely. Her family does not have the time to check on her because of their busy lives. She phones her friend Audrey Thomas, also a widow, and asks her to accompany her on a cruise, and she is delighted. They had been through high school together and are still the best of friends. During the cruise, there is a talent quest; and as Audrey, also eighty-five, always wanted to be a singer, she entered and won the first and second contests, then was requested by the audience to do concerts, which were well-attended on the ship. On the cruise, they stopped at a small island that was very little, and the two ladies went to visit the school, which had very little tools, books, and things needed to run any school. Audrey and Emily decided to start a charity for the school. It was doing really well, and some big company names generously gave their products just for a mention in their advertisement. The women did well and soon outfitted the school from the donations received. After their second cruise, requested by the company for Audrey to do more concerts on board, they delivered all the goods, and the children did a concert on the ship for thanks and built up a good rapport with the passengers who all wanted to help this poor island school and joined the charity. They arrived back in Brisbane to the television news showing that a huge cyclone had washed away the homes of the children of the Vitu School and all the terrible devastation. Many families living in the school and hospital on the hill are the only buildings standing fully intact. The cruise ships couldn't go in for the debris everywhere, so there was no income from the islander's wares. It was full steam ahead with the charity. Audrey's two sons came and voluntarily managed the funds coming in through the charity. Audrey does a huge concert in Brisbane with other supporting acts in a stadium for seventy-five thousand people and kept the charity money building. There were fifty-six tradesmen of all persuasions who went voluntarily and did an amazing job, all being filmed to show the people where their hard-earned donations had been used for. From this, Audrey, who has dreamed of having her own concert all her life, made DVDs and CDs that

sold out and won awards. They both got humanitarian awards and, after a full-on three years, decided to slow down and take it easy. This is a wonderful story of love, friendship, family, and human kindness and proves that age is just a number.

**Seven Games: A Human History** May 18 2020 A group biography of seven enduring and beloved games, and the story of why—and how—we play them. Checkers, backgammon, chess, and Go. Poker, Scrabble, and bridge. These seven games, ancient and modern, fascinate millions of people worldwide. In *Seven Games*, Oliver Roeder charts their origins and historical importance, the delightful arcana of their rules, and the ways their design makes them pleasurable. Roeder introduces thrilling competitors, such as evangelical minister Marion Tinsley, who across forty years lost only three games of checkers; Shusai, the Master, the last Go champion of imperial Japan, defending tradition against “modern rationalism”; and an IBM engineer who created a backgammon program so capable at self-learning that NASA used it on the space shuttle. He delves into the history and lore of each game: backgammon boards in ancient Egypt, the Indian origins of chess, how certain shells from a particular beach in Japan make the finest white Go stones. Beyond the cultural and personal stories, Roeder explores why games, seemingly trivial pastimes, speak so deeply to the human soul. He introduces an early philosopher of games, the aptly named Bernard Suits, and visits an Oxford cosmologist who has perfected a computer that can effectively play bridge, a game as complicated as human language itself. Throughout, Roeder tells the compelling story of how humans, pursuing scientific glory and competitive advantage, have invented AI programs better than any human player, and what that means for the games—and for us. Funny, fascinating, and profound, *Seven Games* is a story of obsession, psychology, history, and how play makes us human.

**Biology Of Enlightenment** Aug 21 2020 In this book we meet with the modern sage, U.G. Krishnamurti, and listen to his penetrating voice describing life and reality as it is. What is body and what is mind? Is there a soul? Is there a beyond, a God? What is enlightenment? Is there a life after death? Never before have these questions been tackled with such simplicity, candour and clarity. In these unpublished early conversations with friends (1967-71), U.G. discusses in detail his search for the truth and how he underwent radical biological changes in 1967. Preferring to call it the natural state over enlightenment, he insists that whatever transformation he

has undergone is within the structure of the human body and not in the mind at all. It is the natural state of being that sages like the Buddha, Jesus and, in modern times, Sri Ramana, stepped into. And U.G. never tires of pointing out that 'this is the way you, stripped of the machinations of thought, are also functioning.'

**Life Is Just a Dance!** Sep 14 2022 BOOK DESCRIPTION Growing up in a small Southern town in the 50s and 60s was to have truly enjoyed the atmosphere of neighborhoods and large family gatherings. It was a simpler time when neighbors would get together under the shade trees and visit as they performed daily tasks. Children were free to frolic on the grass and build castles in the sand boxes. Raising children in the 70s and 80s was a very different experience. My husband and I both worked outside the home and our sons became latch key kids. The time we did spend together as a family was quality time. We worked hard and played hard together. We took our two sons everywhere with us: on business trips, on all vacations, and outings. They brought so much pleasure to our lives with their imaginations, observations and innocence. They taught us many lessons of life, and I, for one, am so much wiser having experienced things through their eyes and interpretations. During the 90s life seemed harder. There was so much to do and so many problems to solve. The financial situation of having both sons in college was an eye opener. The empty nest was bitter sweet at first. However, it didn't take long to learn to actually love it! But I realized that something was missing from my life. It was joy: the kind of joy that only children can provide. With no hopes of grandchildren in the near future, I reached into my memory cache and found myself recalling the wit and wisdom of days gone by from my own childhood and that of my children. The new millennium brought opportunities to socialize and to strengthen and build friendships. I kept in touch with old friends; and developed new friendships

through mutual interests, organizations and situations. Our activities migrated from business meetings and organized social gatherings to dinner parties and girl only get togethers. We celebrated birthdays and generally learned how to have fun again. It was at a dinner party at a friend's home that I was baffled when she posed the question: If I were an artichoke plate, where would I be? Of all the questions I had been asked in my life, this truly was the most unusual. It was one of those things that comes right out of left field and hits one on the head. It is these haphazard mysteries of life that come and go so quickly that if we don't latch on to them, they are gone forever. The same goes for hidden treasures at Christmas, imaginary friends, and things considered sacred. As we reach middle age things do start to fall apart; for some it's marriage, for some it's health, and for others it's financial. Men go through midlife crisis, women go through menopause. It is easy to get cynical and lose sight of what is important. But, if we learn to value our friends, to have compassion for others, and to enjoy the serendipity of each day, then Life Is Just a Dance!

**Life is Just a Ride!** Mar 20 2023 “Who are we and why are we here?” “Is life an illusion and are we mere characters in this movie we call life?” “What are the themes and patterns of your life story?” “What beliefs have shaped your life, and are you still holding on to them?” These are some of the questions to which Jocelyne Grzela has spent her life looking for answers. *Life is Just a Ride!* is the author's journey of searching for the Truth. Many of us have been searching for answers, especially in today's world. We're all trying to make sense of it all, and it can be confusing and overwhelming. This book brings together methodologies and practical tools that have been there for us since we incarnated, but may have forgotten. When we arrive in this world, many tools are made available to us to guide us as we set out on our journey. Once we find these tools, and use them to connect the pieces, we begin to create a map to help us see through the illusion of the ego in order to understand who we are, and what we're doing here. We are provided with what we need to begin enjoying the game we have chosen to partake in. Through her own strenuous challenges of loss, divorce, trauma, and a brush with death, the author demonstrates how to stop taking life so seriously, and enjoy the ride. First you will learn how to recognize the patterns that keep showing up in your life, which will lead you to unmask what beliefs you are still holding on to, that continue shaping your life. Then you'll learn the difference between desiring and allowing, and what the purpose of karma is really all about. This path will take you from one of self-improvement to one of self-acceptance. Lastly, you'll learn how to see through the game of the ego by using the tools and exercises provided, and develop a clear map of your true identity and purpose in this life story. This inspirational memoir is meant to encourage you to find your own truth, to help you realize that you have a choice to live in fear, or live free as you were meant to be. The practical information and suggestions provided will help you remember who you are, and demonstrate that you can start over at any age, and live a life filled with joy and self-acceptance, a true heaven on earth.

Age Is Just a Number Nov 23 2020 From legendary Olympic gold medalist Dara Torres comes a motivational, inspirational memoir about staying fit, aging gracefully, and pursuing your dreams. Dara Torres captured the hearts and minds of Americans of all ages when she launched her Olympic comeback as a new mother at the age of forty-one—years after she had retired from competitive swimming and eight years since her last Olympics. When she took three silver medals in Beijing—including a heartbreaking .01-second finish behind the gold medalist in the women's 50-meter freestyle—America loved her all the more for her astonishing achievement and her good-natured acceptance of the results. Now, in *Age Is Just a Number*, Dara reveals how the dream of an Olympic comeback first came to her—when she was months into her first, hard-won pregnancy. With humor and candor, Dara recounts how she returned to serious training—while nursing her infant daughter and contending with her beloved father's long battle with cancer. Dara talks frankly about diving back in for this comeback; about being an older athlete in a younger athletes' game; about competition, doubt, and belief; about working through pain and uncertainty; and finally—about seizing the moment and, most important, never giving up. A truly self-made legend, her story will resonate with women of all ages—and with anyone daring to entertain a seemingly impossible dream.

**42 Is Not Just a Number** Oct 23 2020 Baseball, basketball, football — no matter the game, Jackie Robinson excelled. His talents would have easily landed another man a career in pro sports, but in America in the 1930s and '40s, such opportunities were closed to athletes like Jackie for one reason: his skin was the wrong color. Settling for playing baseball in the Negro Leagues, Jackie chafed at the inability to prove himself where it mattered most: the major leagues. Then in 1946, Branch Rickey, manager of the Brooklyn Dodgers, decided he was going to break the “rules” of segregation: he recruited Jackie Robinson. Fiercely determined, Jackie faced cruel and sometimes violent hatred and discrimination, but he proved himself again and again, exhibiting courage, restraint, and a phenomenal ability to play the game. In this compelling biography, award-winning author Doreen Rappaport chronicles the extraordinary life of Jackie Robinson and how his achievements won over — and changed — a segregated nation.

*Old Age Is Just "A Play on Words"* Feb 07 2022 Old Age is Just A Play on Words is providing me a grand opportunity to perform a literary song and dance in honor of people whom I have admired and respected throughout the years. Many of these people have been older relatives, friends, and acquaintances who have been a great influence in my life and in the lives of others. I have endeavored to honor them against a thematic backdrop of agelessness which they all represent. They deserve to be celebrated because of their wisdom, knowledge, wit, and zeal for living wholesome and exuberant lives, in spite of the social, environmental, and health related obstacles that they encountered. The poem, "Lonnie", is based on the actual words spoken by an older gentleman who proudly expressed to me his leisure-time activities. I immediately thought, These are age old occurrences because old age is just a play on words. My fondness for good southern living was the inspiration for the section entitled "Call Me Country All You Wanna".

Furthermore, my appreciation of my southern upbringing is woven in the other three sections of the book, Age of Contradictions, Old Fashioned Genuine Love, and Let Every Tongue Confess.(Ron Parker) Ron Parkers spirited collection of poems shows us how universal a celebration of the human experience can be. This body of work gives real-life people an opportunity to re-experience their hopes, dreams, ups, and downs which are so familiar to mankind. Each poem will touch where the crux of passion and zeal for life dwells. This modern day Wordsworth pens a style that is direct, pointed, and committed to delineating the vivid mental images that will strike a chord of I Remember in the minds of every reader.(Dr.Azalie B. Hightower)

**The End of the World is Just the Beginning** Jan 26 2021 A New York Times Bestseller! 2019 was the last great year for the world economy. For generations, everything has been getting faster, better, and cheaper. Finally, we reached the point that almost anything you could ever want could be sent to your home within days - even hours - of when you decided you wanted it. America made that happen, but now America has lost interest in keeping it going. Globe-spanning supply chains are only possible with the protection of the U.S. Navy. The American dollar underpins internationalized energy and financial markets. Complex, innovative industries were created to satisfy American consumers. American security policy forced warring nations to lay down their arms. Billions of people have been fed and educated as the American-led trade system spread across the globe. All of this was artificial. All this was temporary. All this is ending. In *The End of the World is Just the Beginning*, author and geopolitical strategist Peter Zeihan maps out the next

world: a world where countries or regions will have no choice but to make their own goods, grow their own food, secure their own energy, fight their own battles, and do it all with populations that are both shrinking and aging. The list of countries that make it all work is smaller than you think. Which means everything about our interconnected world - from how we manufacture products, to how we grow food, to how we keep the lights on, to how we shuttle stuff about, to how we pay for it all - is about to change. A world ending. A world beginning. Zeihan brings readers along for an illuminating (and a bit terrifying) ride packed with foresight, wit, and his trademark irreverence.
