The Bridge Painter Passbook(R) prepares you for your test by allowing you to take practice exams in the subjects you need to study. Awakening in a haze of confusion one night a few weeks before the birth of his first son, Mark leaned over to his wife and said, "I'm not quite sure it's a good idea that we are having a kid, are you?" It was then his mind began to spin uncontrollably about all of the things he didn't know how to explain... and, if he couldn't explain things as basic as wind, television and gasoline pump shut-off valves, how in the hell was he going to be able to answer questions in a way that would not irreversibly damage a moldable mind during critical childhood development years. He immediately began to formulate a plan... just like when starting a new

project at work. It was a plan to establish strategic guardrails to follow based on the complexity of the question(s) asked by his children. In his writing, Mark gives some tongue & cheek "advice" to others finding themselves in a similar quandary while sharing some personal anecdotes lending to the baseless conclusions he has put down on paper to share with whomever cares to take a read and hopefully enjoy some laughs too. Mark is a N. Little Rock, AR native who has spent the past 20+ years navigating a career in marketing and management consulting working with some of the world's largest companies. During his career he has relocated to multiple cities and traveled domestically and internationally quite extensively. As a pastime during the seemingly never-ending work travel, Mark began to revisit a passion from younger years and started putting his thoughts and stories from childhood on paper. Always enjoying pictures in books, he began scribbling down sketches to assist in the storytelling... He quickly realized he was no illustrator, so he recruited his brother-in-law (a very talented graphic designer and artist) to help in the effort. Mark currently lives in Charlotte, NC with his two children, Grant (8) & Nolan (5) and his fiancé Sara. In addition to experiencing all that comes with his boys growing up, his favorite pastime is to laugh & learn while enjoying the company of both new people and lifelong friends. The Esophageal Cancer Education Foundation (ECEF) www.fightec.org was formed in 2003 by Bart and Virginia Frazzitta. The initial purpose in establishing this 501 C 3 non-profit Organization was to help solicit funds for a CD ROM Project they had committed to fund for Memorial Sloan-Kettering Cancer Center. The project had a cost of \$75,000. This was achieved and it served as the beginning of this Foundation geared to focus on a mission statement that covered three goals, namely: • To bring awareness and educate the public and medical community about this disease • To walk the journey with caregivers and with patients who have this disease • To support research projects that will lead to a test for early detection of this disease and also to hopefully cure this disease. ECEF has always kept its focus of not having a major expense factor and as such it does not now have any employees and its only major expense has been its web site development and CPA costs to certify our Financial Statements. We needed to do this to handle the members and patients who have joined ECEF and have availed themselves of the services we provide. We will continue this approach as long as we have the volunteers needed to run an effective and efficient operation. Should this change our goal will be

to keep all administrative expenses to no more than 20% of the revenue we have generated. Bart Frazzitta a co-founder and a stage III adenocarcinoma esophageal cancer survivor has been the driving force behind ECEF. He was diagnosed in 1999 and went through chemotherapy, radiation therapy and ultimately Ivor Lewis surgery. He has co-authored a book called 100 Questions & Answers About Esophageal Cancer which provides patients and caregivers with not only the medical response to these selected 100 questions but also a response, from a patients perspective, which has proven helpful to the people who have read the book. Since this book is, in part, an introduction to this disease, he felt it necessary to produce this guide so that patients who have gone through this surgery can have a reference guide to help them navigate the issues they may face as they journey beyond this disease. It is intended to help with quality of life issues and should be looked at, with all the suggestions presented, as a guide to talk to the patient's physician. Please visit our web site www.fightec.org and see the services and information we provide to patients and caregivers and join us as we journey through this disease. An interview is key part of a job search, and an applicant skilled in dealing with interviews is the most likely candidate to receive the job offer. While the resume and the cover letter are the basic components of a job application, the interview is the final stage of screening and offers you a chance to show employers that you are more than just your education and job history. An interview is not the time to see how well you can answer questions on the spot, and preparation is key to ensuring

the interview is a success. This is the time to convince the employer that your strengths, qualifications, and achievements make you the right person for the job. Preparation involves researching the organization and job, planning appropriate answers to the most commonly asked questions, and polishing your skills-especially the ones needed for good communication. This book explains everything you need to know about interviewing. It covers every detail from body language to attire and first interview to second interview. It also includes comprehensive list of questions along with suggestions on how to answer them the right way. Several techniques, including the STAR and CAR methods, are discussed at length. Above all, it provides sample answers to all the most popular job interview questions in 2019.
