Presented are separate chapters about individual women who all served from the 1970s to today. This is the story of modern American women who have shattered the

glass ceiling and performed extraordinary feats while serving their country. The author writes about their perspectives and recollections in hopes that by sharing their aspirations and accomplishments it will lead to a greater appreciation of the contributions made by women in the military and inspire others to follow their example and dream a bigger dream: that tenacious and courageous women can achieve the unimaginable. Norval Morriseau's revered work has been honoured, copied and recognized throughout the art world and beyond. Less widely known but equally captivating is the artist's personal life story, which poet and biographer Armand Garnet Ruffo related in his powerful narrative biography, *Norval Morriseau: Man Changing into Thunderbird* (Douglas & McIntyre, 2014). Ruffo immersed himself in the life and work of the artist, gaining insight into the struggles and sources of inspiration underlying Morriseau's greatest works through research and interviews with the artist himself—a connection further strengthened by their shared Ojibway heritage. His lengthy study of Morriseau inspired Ruffo to write poems reflecting on both the works of art and the emotional context in which Morriseau painted

them. *Thunderbird Poems* complements the highly evocative and poetic biography, delving into Morriseau's creative life through compressed, imagistic language, while untangling the complex and powerful threads of meaning, tradition and emotional power that resonate throughout Morriseau's strong lines and vibrant colours. Significant themes in Morriseau's work are mirrored in *Thunderbird Poems*: Ojibway legends, Morriseau's conflicted religious beliefs, political tensions between white and aboriginal Canadians. Significant moments in Morriseau's life are also traced along with the development of his artistic career. Deeply immersed in Morriseau's life story, and possessing thorough knowledge of the Ojibway storytelling traditions which grounded so much of the artist's beliefs and creativity, Ruffo provides fresh poetic interpretations of the most renowned and striking works of one of Canada's most celebrated painters. In the crowded field of climate change reports, 'WDR 2010' uniquely: emphasizes development; takes an integrated look at adaptation and mitigation; highlights opportunities in the changing competitive landscape; and

proposes policy solutions grounded in analytic work and in the context of the political economy of reform. Two common questions asked in archaeological investigations are: where did a particular culture come from, and which living cultures is it related to? In this book, Robert A. Cook brings a theoretically and methodologically holistic perspective to his study on the origins and continuity of Native American villages in the North American Midcontinent. He shows that to affiliate archaeological remains with descendant communities fully we need to unaffiliate some of our well-established archaeological constructs. Cook demonstrates how and why Native American villages formed and responded to events such as migration, environment and agricultural developments. He focuses on the big picture of cultural relatedness over broad regions and the amount of social detail that can be gleaned from archaeological and biological data, as well as oral histories. An Englishman with the imagination and the arrogance to pose as a North American Indian, a fur trapper who kept beaver as pets, a drunken brawling bigamist who embraced the wilderness to escape his ghosts, a compelling champion of that wilderness who travelled much of the world speaking to huge audiences about the fate of the natural world - who was the real Archie Belaney, known to many as Grey Owl? Grey Owl, the Mystery of Archie Belaney is a unique, accessible

collection of narrative poetry and journal entries which examines this dynamic, often contradictory, always fascinating man who reconstructed his identity and delivered a message of conservation to the world. How gangsta rap shocked America, made millions, and pulled back the curtain on an urban crisis. How is it that gangsta rap—so dystopian that it struck aspiring Brooklyn rapper and future superstar Jay-Z as “over the top”—was born in Los Angeles, the home of Hollywood, surf, and sun? In the Reagan era, hip-hop was understood to be the music of the inner city and, with rare exception, of New York. Rap was considered the poetry of the street, and it was thought to breed in close quarters, the product of dilapidated tenements, crime-infested housing projects, and graffiti-covered subway cars. To many in the industry, LA was certainly not hard-edged and urban enough to generate authentic hip-hop; a new brand of black rebel music could never come from La-La Land. But it did. In *To Live and Defy in LA*, Felicia Viator tells the story of the young black men who built gangsta rap and changed LA and the world. She takes readers into South Central, Compton, Long Beach, and Watts two decades after the long hot summer of 1965. This was the world of crack cocaine, street gangs, and Daryl Gates, and it was the environment in which rappers such as Ice Cube, Dr. Dre, and Eazy-E came of age. By the end of the 1980s, these self-styled

“ghetto reporters” had fought their way onto the nation’s radio and TV stations and thus into America’s consciousness, mocking law-and-order crusaders, exposing police brutality, outraging both feminists and traditionalists with their often retrograde treatment of sex and gender, and demanding that America confront an urban crisis too often ignored. The days are gone when seemingly limitless numbers of canvasbacks, mallards, and Canada geese filled the skies above the Texas coast. Gone too are the days when, in a single morning, hunters often harvested ducks, shorebirds, and other waterfowl by the hundreds. The hundred-year period from the mid-nineteenth to the mid-twentieth centuries brought momentous changes in attitudes and game laws: changes initially prompted by sportsmen who witnessed the disappearance of both the birds and their spectacular habitat. These changes forever affected the state’s storied hunting culture. Yet, as R. K. Sawyer discovered, the rich lore and reminiscences of the era’s hunters and guides who plied the marshy haunts from Beaumont to Brownsville, though fading, remain a colorful and essential part of the Texas outdoor heritage. Gleaned from interviews with sportsmen and guides of decades past as well as meticulous research in news archives, Sawyer’s vivid documentation of Texas’ deep-rooted waterfowl hunting tradition is accompanied by a superb collection of historical

and modern photographs. He showcases the hunting clubs, the decoys, the duck and goose calls, the equipment, and the unique hunting practices of the period. By preserving this account of a way of life and a coastal environment that have both mostly vanished, *A Hundred Years of Texas Waterfowl Hunting* also pays tribute to the efforts of all those who fought to ensure that Texas' waterfowl legacy would endure. This book will aid their efforts, along with those of coastal residents, birders, wildlife biologists, conservationists, and all who are interested in the state's natural history and in championing the preservation of waterfowl and wetland resources for the benefit of future generations. Words like *Thunder: New and Used Anishinaabe Prayers* is a collection of poetry by award-winning Ojibwe author Lois Beardslee. Much of the book centers around Native people of the Great Lakes but has a universal relevance to modern indigenous people worldwide. Beardslee tackles contemporary topics like climate change and socioeconomic equality with a grace and readability that empowers readers and celebrates the strengths of today's indigenous peoples. She transforms the mundane into the sacred. Similar in style to Nikki Giovanni, Beardslee might lure in readers with the promise of traditional cultural material, even stereotypes,

before quickly pivoting toward a direction of respect for the contemporaneity and adaptability of indigenous people's tenacious hold on traditions. Made up of four sections, the book is like a piece of artwork. Parts of the word-canvas are quiet so the reader can rest and other parts lead the reader quickly from one place to another, while always maintaining eye contact. More than anything, Beardslee emphasizes the notion that indigenous peoples are competent and wonderful, worthy of praise, and whose modernity is a function of their survival. She writes unapologetically with a strong ethnic identity as a woman of color who witnessed and experienced community loss of resources that defined her culture. Her stories transcend generations, time, and geographical boundaries—varying in voice between first person or that of her elders or children—resulting in a collective appeal. Beardslee continues to break the mold and push the boundaries of contemporary Native American poetry and prose. This book will appeal to a general readership, to people who want to learn more about indigenous peoples of the Great Lakes, and to people who care about the environment and socioeconomic equality. Even young readers, especially students of color, will find parts of this book to which they can relate. *The International Rescue Thunderbirds* is an inventive, informative and entertaining guide to the

world's foremost rescue organization. Featuring cutaway drawings, detailed diagrams, color illustrations and photographs, the book provides the ultimate visual insight into the secrets of the fabulous International Rescue team. Presented as if it were to be used by International Rescue field agents, *The International Rescue Thunderbirds* includes an introduction by Jeff Tracy and operational procedures for agents' missions. Play's *Subjects: Intellectual matters; Social issues. "Mythologizing Norval Morrisseau"* examines the complex identities assigned to Anishinaabe artist Norval Morrisseau. Was he an uneducated artist plagued by alcoholism and homelessness? Was Morrisseau a shaman artist who tapped a deep spiritual force? Or was he simply one of Canada's most significant artists? Carmen L. Robertson charts both the colonial attitudes and the stereotypes directed at Morrisseau and other Indigenous artists in Canada's national press. Robertson also examines Morrisseau's own shaping of his image. An internationally known and award-winning artist from a remote area of northwestern Ontario, Morrisseau founded an art movement known as Woodland Art developed largely from Indigenous and personal creative elements. Still, until his retrospective exhibition at the National Gallery of Canada in 2006, many Canadians knew almost nothing about Morrisseau's work. Using discourse analysis

methods, Robertson looks at news stories, magazine articles, and film footage, ranging from Morrisseau's first solo exhibition at Toronto's Pollock Gallery in 1962 until his death in 2007 to examine the cultural assumptions that have framed Morrisseau. Describes a method of negotiation that isolates problems, focuses on interests, creates new options, and uses objective criteria to help two parties reach an agreement. Sarah Kurchak is autistic. She hasn't let that get in the way of pursuing her dream to become a writer, or to find love, but she has let it get in the way of being in the same room with someone chewing food loudly, and of cleaning her bathroom sink. In *I Overcame My Autism* and *All I Got Was This Lousy Anxiety Disorder*, Kurchak examines the Byzantine steps she took to become "an autistic success story," how the process almost ruined her life and how she is now trying to recover. Growing up undiagnosed in small-town Ontario in the eighties and nineties, Kurchak realized early that she was somehow different from her peers. She discovered an effective strategy to fend off bullying: she consciously altered nearly everything about herself—from her personality to her body language. She forced herself to wear the denim jeans that felt like being enclosed in a sandpaper iron maiden. Every day, she dragged herself through the door with an elevated pulse and a churning stomach, nearly crumbling under the effort of the performance. By the time

she was finally diagnosed with autism at twenty-seven, she struggled with depression and anxiety largely caused by the same strategy she had mastered precisely. She came to wonder, were all those years of intensely pretending to be someone else really worth it? Tackling everything from autism parenting culture to love, sex, alcohol, obsessions and professional pillow fighting, Kurchak's enlightening memoir challenges stereotypes and preconceptions about autism and considers what might really make the lives of autistic people healthier, happier and more fulfilling. A forgotten Haudenosaunee social song beams into the cosmos like a homing beacon for interstellar visitors. A computer learns to feel sadness and grief from the history of atrocities committed against First Nations. A young Native man discovers the secret to time travel in ancient petroglyphs. Drawing inspiration from science fiction legends like Arthur C. Clarke, Isaac Asimov and Ray Bradbury, Drew Hayden Taylor frames classic science-fiction tropes in an Aboriginal perspective. The nine stories in this collection span all traditional topics of science fiction--from peaceful aliens to hostile invaders; from space travel to time travel; from government conspiracies to connections across generations. Yet Taylor's First Nations perspective draws fresh parallels, likening the cultural implications of alien contact to those of the arrival of Europeans in the Americas,

or highlighting the impossibility of remaining a "good Native" in such an unnatural situation as a space mission. Infused with Native stories and variously mysterious, magical and humorous, *Take Us to Your Chief* is the perfect mesh of nostalgically 1950s-esque science fiction with modern First Nations discourse. For five decades, the Ford Thunderbird has been a car that has taken America

on a wonderful ride through the changes of its time. From the sporty classic two-seater that people still go nuts for over half a century after it was first built, to the retro reincarnation of today and everything in between from sleek convertibles and suicide-doored sedans to supercharged coupes, the T-bird has been an enthusiast's car for all seasons. Thunderbird 50 Years takes a look at the golden history of every generation of this American classic, and details the development and evolution of one of Ford's best-known models year-by-year, in text and 200 photographs. Chapter by chapter, each generation of the T-bird is placed within the context of its time to help illustrate why the car evolved as it did. From the ever-desirable finned two-seaters of the 1950s, stylish and sporty convertibles of the late 1950s and early 1960s, suicide-door cruisers of the late 1960s, land yachts of the 1970s, aerodynamic turbo- and supercharged coupes of the 1980s and 1990s, and today's retro-influenced reincarnations, all are covered from an enthusiast's viewpoint. Seeing Red is a groundbreaking study of how

Canadian English-language newspapers have portrayed Aboriginal peoples from 1869 to the present day. It assesses a wide range of publications on topics that include the sale of Rupert's Land, the signing of Treaty 3, the North-West Rebellion and Louis Riel, the death of Pauline Johnson, the outing of Grey Owl, the discussions surrounding Bill C-31, the "Bended Elbow" standoff at Kenora, Ontario, and the Oka Crisis. The authors uncover overwhelming evidence that the colonial imaginary not only thrives, but dominates depictions of Aboriginal peoples in mainstream newspapers. The colonial constructs ingrained in the news media perpetuate an imagined Native inferiority that contributes significantly to the marginalization of Indigenous people in Canada. That such imagery persists to this day suggests strongly that our country lives in denial, failing to live up to its cultural mosaic boosterism. A global mindset is 'a set of individual attributes that enable an individual to influence individuals, groups, and organizations from diverse socio/cultural/institutional systems'. This book intends to explore the content of a global mindset, how it is developed, when and how it should be applied, and what its consequences are. 'Leading Global Projects' builds on the foundation of project management skills and clearly connects project management to the strategic objectives and leadership needs of an organization. The authors draw from examples of project

leadership in numerous countries and regions, as well as a variety of corporate and organizational contexts. Beliefs, tales and legends of the great Ojibway nation of Lake Nipigon and the Thunder Bay district. Thunderbird Two lives are forever changed by a car crash on a dark Colorado highway. Trace Blackwell can't believe his brother is dead, and Amy Elliott, driver of the ill-fated car, is so critically injured, she wonders how she will make her living. How could God let this happen? Was this a simple accident? Trace doesn't think so, especially after he discovers that his brother, Harold, had been working undercover for the DEA to locate and destroy fields of marijuana growing in the nearby mountains. A local sheriff claims that Harold was one of the drug dealers, and Trace plunges headlong into a dangerous quest to prove him wrong. One startling discovery changes the focus of his investigation and draws him closer to Amy, while she finds it difficult to accept that he could care for her. Then he makes a false step that tests their new-found love. Can Trace and Amy find the faith to claim the future God has planned for them? Hockey stars Mike "Crazy" Keats and his new friend, Dakota, are caught in a web of violence which makes winning a championship the least of their concerns. Dakota Smith is in trouble. But Mike "Crazy" Keats doesn't care. He is new to the Seattle Thunderbirds, and Dakota seems like a good guy to have for a friend. Unfortunately, not everyone accepts Dakota's

Native North American heritage so easily. His unique vision first came to public attention more than forty years ago. The life's work of Norval Morrisseau, founder of the "Woodland" or "Legend" style of painting—now known as Anishnaabe painting—is showcased in some sixty works drawn from public and private collections across Canada. From the author of the brilliant poetic biography *Grey Owl: The Mystery of Archie Belaney* comes this follow-up collection of powerful, touching poems about aboriginal realities and consciousness. Geronimo is probably the second-best-known native American name, after Pocahontas. But the reality of the great Apache warrior's ultimate fate is little remembered. In *At Geronimo's Grave*, Armand Ruffo uses the Apache warrior's life as a metaphor for the lives of many of the abandoned native people on this continent. Feared for his once-great prowess, the warrior horseman was reduced, as the cover shows, to wearing a top hat and riding in an early Ford Model T car, a grim caricature of assimilation into the dominant culture. The bitter irony of this fate echoes through the personal poems in *At Geronimo's Grave* as well. With affection and concern, Armand Ruffo uses blunt, direct, language to examine the lives and experiences of people who struggle to make their way in a world that has no place for them. Or who have already given up that struggle. *At Geronimo's Grave* is a love letter to a people trapped in the slow-moving vehicle of

another culture which is taking them nowhere. The Nebula Award-winning author of the Alex Benedict novels and the Priscilla Hutchins novels returns to the world of Ancient Shores in a startling and majestic epic. A working stargate dating back more than ten thousand years has been discovered in North Dakota, on a Sioux reservation near Devils Lake. Travel through the gate currently leads to three equally mysterious destinations: (1) an apparently empty garden world, quickly dubbed Eden; (2) a strange maze of underground passageways; or (3) a space station with a view of a galaxy that appears to be the Milky Way. The race to explore and claim the stargate quickly escalates, and those involved divide into opposing camps who view the teleportation technology either as an unprecedented opportunity for scientific research or a disastrous threat to national—if not planetary—security. In the middle of the maelstrom stands Sioux chairman James Walker. One thing is for certain: Questions about what the stargate means for humanity's role in the galaxy cannot be ignored. Especially since travel through the stargate isn't necessarily only one way... Use your day job to make a difference in the world, with this step-by-step guide to building a successful and fulfilling purpose-driven career. Thunderbirds, Stingray, Fireball XL5, Captain Scarlet and the Mysterons, UFO and Space:1999 just some of the TV series produced by Gerry and

Sylvia Anderson that have thrilled generations of people worldwide from the 1960s right into the 21st Century. As the new series *Thunderbirds Are Go!* updates the exploits of International Rescue for a new era, Ian Fryer, film historian and editor of *Gerry Anderson's* official appreciation society magazine, brings an in-depth look into the making of the iconic television shows that inspired it. The background to the making of the *Supermarionation* series, and the live action science fiction classics that followed, is brought to life along with the turbulent times for British film making in which they were made. A fascinating read for fans of the Anderson puppet and live action series and for anyone interested in film and television history." Andrea Jung, the glamorous former head of Avon, was arguably the world's most charismatic and effective CEO, credited with the astonishing turnaround of the venerable brand. Avon's board was filled with tough-minded, successful CEOs and other high achievers, but when Jung walked into a room wearing her Chanel suit, custom-blended lipstick and signature pearls, every head turned and she had them eating out of her hand. She seemed incapable of making a wrong move, until, amid declining sales, an investigation by the SEC, and a brand in crisis she stepped down in late 2012. In *Beauty Queen*, former Avon VP Deborah Himsel uses Jung's story as a case study for two timeless leadership questions:

What makes great leaders great? And what makes them fail? She explores both Jung's early years of success as well as the combination of missteps that led to her downfall, including her failure to nurture Avon's direct selling channel, the erosion of trust that occurred as a result of frequent decision reversals, and her ignorance of operational details, including how her people secured a license to conduct door-to-door sales in China, that led to a federal investigation. Through interviews with other CEOs, Avon executives past and present, and leadership experts, Himsel explores the unique challenges Jung faced as a female Fortune 500 CEO; the thin line between pride and hubris; and the danger of the so-called "halo effect" in our high-stakes times. Over the past fifteen years, Canada's Aboriginal healing community has emerged as a vital and visible force. Creative recovery programs have been established across the country, and international initiatives such as the "Healing Our Spirit Worldwide" gatherings have originated here. The Canadian government has thrown millions of dollars at the issue of addictions, yet alcoholism, fetal alcohol spectrum disorder, drug abuse and gambling are epidemic today in the lives of Aboriginal people. Where the Pavement Ends is filled with inspiring stories gathered from journalist Marie Wadden's discussions with activists across Canada who are involved in the Aboriginal healing movement. But the

book is also a passionate wake-up call aimed at all Canadians. Existing government policies, Wadden argues, perpetuate the problems that are tearing Aboriginal families and communities apart. We must make social healing in Aboriginal communities an immediate national priority. We must also demand public policy that guarantees First Nations, Inuit and Métis people the right to live as full and equal citizens. In these ways, we can offer true support to these marginalized communities. For the past 160 years, giant birds have been reported in the skies above the Black Forest region of northern Pennsylvania. Now, it's up to one man and one woman, to find out where they came from, and where they've gone. Failed Ph.D. candidate and assistant museum curator Ian McQuade is rescued by cartographer Alma Del Nephites, after an ill-fated expedition into the Amazon Basin. They travel to meet the enigmatic CEO of a secretive organization, where the two are given the opportunity to seek out proof of the existence of thunderbirds. A madman's journal will lead them into the heart of a 700 year-old mystery, where cutting edge technology designed to locate and identify such creatures will collide with an ancient power that has hidden and protected them for centuries. Ian must face his past, in order to believe in a future that couldn't possibly exist. With lightning in their eyes and thunder in their wings, who will control the fate and destiny of the thunderbirds? 50 years of an

iconic classic! This international bestseller and inspiration for a beloved movie is a heroic story of friendship and belonging. Cover may vary. No one ever said life was easy. But Ponyboy is pretty sure that he's got things figured out. He knows that he can count on his brothers, Darry and Sodapop. And he knows that he can count on his friends—true friends who would do anything for him, like Johnny and Two-Bit. But not on much else besides trouble with the Socs, a vicious gang of rich kids whose idea of a good time is beating up on “greasers” like Ponyboy. At least he knows what to expect—until the night someone takes things too far. *The Outsiders* is a dramatic and enduring work of fiction that laid the groundwork for the YA genre. S. E. Hinton's classic story of a boy who finds himself on the outskirts of regular society remains as powerful today as it was the day it was first published. "The Outsiders transformed young-adult fiction from a genre mostly about prom queens, football players and high school crushes to one that portrayed a darker, truer world." —The New York Times "Taut with tension, filled with drama." —The Chicago Tribune "[A] classic coming-of-age book." —Philadelphia Daily News A New York Herald Tribune Best Teenage Book A Chicago Tribune Book World Spring Book Festival Honor Book An ALA Best Book for Young Adults Winner of the Massachusetts Children's Book Award A narrative like no other: a cultural history that

explores how cars have both propelled and reflected the American experience— from the Model T to the Prius. From the assembly lines of Henry Ford to the open roads of Route 66, from the lore of Jack Kerouac to the sex appeal of the Hot Rod, America's history is a vehicular history—an idea brought brilliantly to life in this major work by Pulitzer Prize-winning journalist Paul Ingrassia. Ingrassia offers a wondrous epic in fifteen automobiles, including the Corvette, the Beetle, and the Chevy Corvair, as well as the personalities and tales behind them: Robert McNamara's unlikely role in Lee Iacocca's Mustang, John Z. DeLorean's Pontiac GTO, Henry Ford's Model T, as well as Honda's Accord, the BMW 3 Series, and the Jeep, among others. Through these cars and these characters, Ingrassia shows how the car has expressed the particularly American tension between the lure of freedom and the obligations of utility. He also takes us through the rise of American manufacturing, the suburbanization of the country, the birth of the hippie and the yuppie, the emancipation of women, and many more fateful episodes and eras, including the car's unintended consequences: trial lawyers, energy crises, and urban sprawl. Narrative history of the highest caliber, *Engines of Change* is an entirely edifying new way to look at the American story.
