Ecological Sustainability Sep 28 2020 Complex systems is a new field of science studying how parts of a system give rise to the collective behaviors of the system, and how the system interacts with its environment. This book examines the complex systems involved in environmental sustainability, and examines the technologies involved to help mitigate human impacts, such as renewable energy, desalination, carbon capture, recycling, etc. It considers the relationships and balance between environmental engineering and science, economics, and human activity, with regard to sustainability.

Paper Stories - Paper and Book History in Early Modern Europe May 17 2022 This peer-reviewed conference volume examines paper and material aspects of the written word in early modern Europe. The collection is designed around three thematic strands, based on the lifecycle of handwritten documents and manuscripts and printed books: first, production of paper, second production of books and manuscripts and third, trade and exchange, and ownership of manuscripts and books. By tracing the history of paper, books and collections through case studies of historically important objects, the authors identify agents and hotspots of production, trade and ownership from both centres and peripheries of Europe from the late Middle Ages until the beginning of industrialisation. They thereby address material aspects of documents, manuscripts and books, as well as object biography, from an interdisciplinary viewpoint. By doing so this volume provides insight into actual practices of the past and the material history of written texts.

Internal Revenue Bulletin Jun 25 2020

OECD Economic Surveys: China 2013 Nov 10 2021 OECD's 2013 Economic Survey of China examines recent economic developments, policies and prospects. Special chapters cover inclusive urbanisation and reforms for a healthier environment.

The 2012 Dominican Tax Reform in Historical and Regional Context May 24 2020 In November 2012, publicly worried about a large fiscal deficit, the new government of President Danilo Medina passed a tax reform. The move was preceded by technical discussions with the International Monetary Fund (IMF), consultations with various social and economic interests, and the convocation, for just over two weeks, of the new Economic and Social Council. Many factors pointed to the success of a major reform. The President's party, the Dominican Liberation Party (Partido de la Liberación Dominicana, pld), enjoyed an overwhelming majority in the Senate, and (along with its allies) a clear majority in the House of Representatives. The 2030 National Development Strategy, publicly discussed at length during the period 2010-11 and signed into law on the first day of 2012 by the previous government, also of the PLD, had set fiscal revenue levels above those recorded in 2011-12. However, despite the obvious need, the international support, the fresh mandate of the President, and the undisputed control of almost all the formal seats of power in the country, the reform was rightly called "half of a reform," or even "a missed

opportunity." Why? Is another large reform possible in the coming years? This paper attempts to answer these questions through an analysis of the political economy of the tax reforms, with reference to Dominican history as well as to the regional context. Finally, the paper focuses on the relationship between the executive and the interests of the private sector, and its possible mediation through the political parties and, as was done too hastily in October 2012, civil society forums such as the CES. The first part outlines the major tax reforms that took place in the Dominican Republic between its democratic opening in 1978 and the 2012 efforts, along with the political and economic conditions in each case, with a special focus on the 1992 reform. Next, the document describes the rigidities that accumulated during that period, which were the legacy of crisis, international commitments, and the goals of the ambitious tax revenue goals of the National Development Strategy. The second and longest section describes the regional debate on tax policy and redistribution, while showing how the Dominican Republic is situated in this scenario, with statistics on the fiscal performance of the Dominican Republic and other Caribbean and Central American countries. From there, with the ground prepared, the paper narrates the process of the 2012 reform and investigates the question posed above by comparing different episodes of fiscal reform. Finally, the paper discusses the challenges and possibilities for future reforms, from narrow technical ones to those that would involve a broad and reciprocal process, with a focus on the role that could be played by fiscal pacts.

The History of the Nokia Company Feb 11 2022 Seminar paper from the year 2012 in the subject Business economics - Economic and Social History, grade: 1, University of Vienna (Institut für Betriebswirtschaftslehre), course: Innovations- und Technologiemanagement, language: English, abstract: The aim of this seminar paper was to describe the history of Nokia company, which is a well-known Finnish manufacturer of mobile devices. Nokia employs around 139.000 people across 120 countries and it is present in more than 150 countries around the world. This is actually an admirable achievement for a company that started its business as a small riverside paper mill in Finland. As well as this Nokia is doing business for more than 135 years. Although Nokia is a leading multinational enterprise, a major part of its business is located in Finland, where the company has its headquarters in Keilaniemi of Espoo. As a result, Nokia's success or failure is crucial for Finnish economy. Besides Nokia's electronics, the company is also worldwide known for its „Nokia- Connecting People“ slogan, its Nokia Tune ringtone or its spectacular Snake game. This seminar paper handles the business history of Nokia, its impact on Finnish economy and employees, the most important personalities of Nokia and factors that have been responsible for Nokia's success and the general contribution of Nokia company to business history.

The People's Paper Jan 30 2021 This much-awaited volume uncovers the long-lost pages of the major African multilingual newspaper, Abantu-Batho. Founded in 1912 by African National Congress (ANC) convenor Pixley Seme, with assistance from the Swazi Queen, it was published up until 1931, attracting the cream of African politicians, journalists and poets Mqhayi, Nontsisi Mqgweh, and Grendon. In its pages burning issues of the day were articulated alongside cultural by-ways. The People's Paper - comprising both essays and an anthology - explores the complex movements and individuals that emerged in the almost twenty years of its publication. The essays contribute rich, new material to provide clearer insights into South African politics and intellectual life. The anthology unveils a judicious selection of never-before published columns from the paper spanning every year of its life and drawn from repositories on three continents. Abantu-Batho had a regional and international focus, and by examining all these dynamics across boundaries and disciplines, The People's Paper transcends established historiographical frontiers to fill a lacuna that scholars have long lamented.

Middle Grades Social Studies 2012 History Student Edition Survey Dec 12 2021 Once your child has completed his or her primary education, you'll have to seek curriculum for homeschool that covers History in greater detail. Your child is ready to face a bigger challenge when learning, and myWorld History is there to provide it. This middle school curriculum bundle breaks the barrier between History as a living thing and the subject as it's presented on paper. Not only will your child learn relevant dates over the course of the program, he or she will also experience the stories that make up the entirety of History. myWorld History provides you and your child with project-based activities and interesting tales that take you on a journey through time. Your child will get to read about other people who lived all over the world and in different time periods, helping the lesson resonate. With all the engaging content provided by myWorld History, your child will develop a strong knowledge of History and the cultures of which it is comprised. Ideally, such exposure to different cultures will help your child become more empathetic and a better critical thinker. Furthermore, each chapter of myWorld History kicks off with an Essential Question. This question guides your child through the material, causing him or her to analyze the lesson's content as he or she progress through the chapter. Your child will have to ask questions and search for answers while addressing the Essential Question. Stories, activities, games, the student journal and projects relate back to the Essential Question, the main idea of the chapter. The myWorld History curriculum for homeschooling is the next step after the myWorld Social Studies series and can be used before or after myWorld Geography. The Bundle includes the Student Edition, Student Journal, Student Journal Answer Key and Parent Guide materials. The content in each lifts History off the page to keep your child engaged in the learning process. myWorld History proves that homeschool is full of exciting

experiences and invaluable lessons. For more information about the specific materials included in myWorld History, visit the Features and Benefits page. Take your child on a journey through time without leaving home. With innovative resources, project-based activities, and unprecedented support for all learners, myWorld History takes students beyond the printed page to actively experience the history of the world in which they live.

The Silk Road Jun 17 2022 The Silk Road is as iconic in world history as the Colossus of Rhodes or the Suez Canal. But what was it, exactly? It conjures up a hazy image of a caravan of camels laden with silk on a dusty desert track, reaching from China to Rome. The reality was different--and far more interesting--as revealed in this new history. In *The Silk Road*, Valerie Hansen describes the remarkable archeological finds that revolutionize our understanding of these trade routes. For centuries, key records remained hidden--sometimes deliberately buried by bureaucrats for safe keeping. But the sands of the Taklamakan Desert have revealed fascinating material, sometimes preserved by illiterate locals who recycled official documents to make insoles for shoes or garments for the dead. Hansen explores seven oases along the road, from Xi'an to Samarkand, where merchants, envoys, pilgrims, and travelers mixed in cosmopolitan communities, tolerant of religions from Buddhism to Zoroastrianism. There was no single, continuous road, but a chain of markets that traded between east and west. China and the Roman Empire had very little direct trade. China's main partners were the peoples of modern-day Iran, whose tombs in China reveal much about their Zoroastrian beliefs. Silk was not the most important good on the road; paper, invented in China before Julius Caesar was born, had a bigger impact in Europe, while metals, spices, and glass were just as important as silk. Perhaps most significant of all was the road's transmission of ideas, technologies, and artistic motifs. The Silk Road is a fascinating story of archeological discovery, cultural transmission, and the intricate chains across Central Asia and China.

An Ecosystem Approach to Sustainable Agriculture Apr 23 2020 Modern industrial agriculture is not sustainable because of its heavy reliance on petroleum, a non-renewable source of the energy used in farming, and because of pollution caused by petroleum products such as fertilizers and pesticides. A systems analysis of farming suggests that agriculture will be more sustainable when services of nature, such as nutrient recycling by soil micro-organisms and natural controls of insects, replace the services now provided by energy from petroleum. Examples are drawn from the Southeastern USA, but lessons learned can be applied worldwide.

The Demon of Writing Dec 24 2022 A history and theory of the powers, the failures, and even the pleasures of paperwork. Since the middle of the eighteenth century, political thinkers of all kinds—radical and reactionary, professional and amateur—have been complaining about “bureaucracy.” But what, exactly, are they complaining about? In *The Demon of Writing*, Ben Kafka offers a critical history and theory of one of the most ubiquitous, least understood forms of media: paperwork. States rely on records to tax and spend, protect and serve, discipline and punish. But time and again, this paperwork proves to be unreliable. Examining episodes that range from the story of a clerk who lost his job and then his mind in the French Revolution to an account of Roland Barthes's brief stint as a university administrator, Kafka reveals the powers, the failures, and even the pleasures of paperwork. Many of its complexities, he argues, have been obscured by the comic-paranoid style that characterizes much of our criticism of bureaucracy. Kafka proposes a new theory of what Karl Marx called the “bureaucratic medium.” Moving from Marx to Freud, he argues that this theory of paperwork must include both a theory of praxis and of parapraxis.

Measured Constructs Jun 05 2021 This volume establishes how English language constructs were measured in Cambridge English examinations over the period 1913 to 2012. An addition to the Studies in Language Testing series, this volume provides an overview of English language testing over the last century, with coverage of key theoretical and practical aspects of the assessment of reading, listening, writing and speaking skills. It includes examples of the Cambridge English exams, old and new, and is the first volume to describe in a systematic way the different theoretical influences which have shaped the development of the constructs underlying Cambridge English exams in the last 100 years.

Information Design May 29 2023 Information Design provides citizens, business and government with a means of presenting and interacting with complex information. It embraces applications from wayfinding and map reading to forms design; from website and screen layout to instruction. Done well it can communicate across languages and cultures, convey complicated instructions, even change behaviours. Information Design offers an authoritative guide to this important multidisciplinary subject. The book weaves design theory and methods with case studies of professional practice from leading information designers across the world. The heavily illustrated text is rigorous yet readable and offers a single, must-have, reference to anyone interested in information design or any of its related disciplines such as interaction design and information architecture, information graphics, document design, universal design, service design, map-making and wayfinding.

The Global Water System in the Anthropocene Oct 29 2020 The Global Water System in the Anthropocene provides the platform to present global and regional perspectives of world-wide experiences on the responses of water management to global change in order to address issues such as variability in supply, increasing demands for water, environmental flows and land use change. It helps to build links between science and policy and practice in the area

of water resources management and governance, relates institutional and technological innovations and identifies in which ways research can assist policy and practice in the field of sustainable freshwater management. Until the industrial revolution, human beings and their activities played an insignificant role influencing the dynamics of the Earth system, the sum of our planet's interacting physical, chemical, and biological processes. Today, humankind even exceeds nature in terms of changing the biosphere and affecting all other facets of Earth system functioning. A growing number of scientists argue that humanity has entered a new geological epoch that needs a corresponding name: the Anthropocene. Human activities impact the global water system as part of the Earth system and change the way water moves around the globe like never before. Thus, managing freshwater use wisely in the planetary water cycle has become a key challenge to reach global environmental sustainability.

History of mechanical technology and mechanical design 2012 : selected, peer reviewed papers from the 9th International Conference on History of Mechanical Technology and Mechanical Design (ICHMTMD2012), March 23 - 25, 2012, Taiwan Jul 31 2023 The present volume consists of selected papers from the proceedings of the International Conference on History of Mechanical Technology and Mechanical Design -2012 (ICHMTMD2012). This conference evolved from the China-Japan International Conference on History of Mechanical Technology (CJICHMT). More than 100 papers, from Mainland China, Taiwan and Japan were submitted, to the present conference. All of the papers were subjected to peer review by at least two expert referees, and the best papers were selected for publication in this volume. Review from Book News Inc.: This work presents 56 selected papers from a March 2012 conference. Material is not divided into separate chapters or sections. Some paper topics include a cascade controller design for compliant actuators, meshing efficacy analysis of a gear reducer for a gear motor, operation sequencing using a genetic algorithm, and the application of a thermoelectric cooling module in a vehicle braking system. Other topics include curvature analysis of conjugate surfaces via a tensor approach, dynamic analysis of an extendible support structure, determining optimal sizes for a ball-valve micropump channel, development of flapping ornithopters by precision injection molding, and a multi-dimensional model and version control method for small-batch production.

A Short Guide to Writing about History: Pearson New International Edition Jan 13 2022 A Short Guide to Writing about History is an ideal complement for any history course intended to teach students to think and write like historians. This engaging and practical text will teach students how to go beyond reporting the basic dates and facts of their history books and show them how to infuse their writing with their own ideas and unique perspective. Covering brief essays and the documented resource paper, the text explores the writing and researching processes, different modes of historical writing (including argument), and offers guidelines for improving style as well as documenting sources.

New Perspectives on Corporate Social Responsibility Oct 10 2021 Providing a timely contribution to the ongoing questions surrounding topics which are by definition subject to varying stakeholder interpretations, this book addresses "the missing link" between theoretical CSR concepts and everyday management practice. It acts as a guide to awaken managers to the advantages of adopting a CSR "mindset" when developing sustainable business strategies. The book consists of three parts: 1) A theoretical realm which establishes the key concepts and rationale for the adoption of a sustainable CSR approach, 2) A practical realm which addresses putting CSR and sustainability into business practice, 3) An educational realm which proposes how to incorporate the concepts into teaching and training.

The Euro Experiment May 05 2021 A clear, analytical and balanced guide to the euro experiment and subsequent crisis that will appeal to a wide readership.

A History of Nineteenth-Century American Women's Poetry Mar 03 2021 A History of Nineteenth-Century American Women's Poetry is the first book to construct a coherent history of the field and focus entirely on women's poetry of the period. With contributions from some of the most prominent scholars of nineteenth-century American literature, it explores a wide variety of authors, texts, and methodological approaches. Organized into three chronological sections, the essays examine multiple genres of poetry, consider poems circulated in various manuscript and print venues, and propose alternative ways of narrating literary history. From these essays, a rich story emerges about a diverse poetics that was once immensely popular but has since been forgotten. This History confirms that the field has advanced far beyond the recovery of select individual poets. It will be an invaluable resource for students, teachers, and critics of both the literature and the history of this era.

Ethical Capitalism Jan 01 2021 Shibusawa Eiichi (1840–1931) was a Japanese banker and industrialist who spearheaded the modernization of Japanese industry and finance during the Meiji Restoration. He founded the first modern bank in Japan and his reforms introduced double entry accounting and joint-stock corporations to the Japanese economy. Today, he is known as the "father of Japanese capitalism." Ethical Capitalism is a volume of

essays that tackles the thought, work, and legacy of Shibusawa Eiichi and offers international comparisons with the Japanese experience. Eiichi advocated for *gapponshugi*, a principle that emphasized developing the right business, with the right people, in service to the public good. The contributors build a historical perspective on morality and ethics in the business world that, unlike corporate social responsibility, concentrates on the morality inside firms, industries, and private-public partnerships. *Ethical Capitalism* is not only a timely work; it is a necessary work, in a rapidly globalizing world where deregulation and lack of oversight risk repeating the financial, environmental, and social catastrophes of the past.

Supplement 2012 to Brief History of Puerto Rico 1800 To 2008 Jul 27 2020 UPDATES TO 2012 ! If your are one of the thousands of readers throughout the world of "Brief History of Puerto Rico 1800 to 2008", now you can keep it up to date with a minimum investment. This supplement is available in paper (Amazon) or electronic form (Kindle).

Philanthropy and the National Park Service Sep 20 2022 As the National Park Service prepares for its 2016 centennial, this book provides an in-depth analysis of the role of philanthropy and the national parks - exploring the challenges faced when working with non-profit philanthropic partners.

Doing History: Research and Writing in the Digital Age Mar 27 2023 DOING HISTORY: RESEARCH AND WRITING IN THE DIGITAL AGE presents a soup to nuts approach to researching and writing about history, with an eye for making the most of current technology. The authors begin their straightforward approach with an overview of the discipline. Then, they lay out a systematic approach to research, including how to locate and analyze sources (both primary and secondary), how to write the paper and cite research properly, and how to present the work in conferences. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The Role of Telehealth in an Evolving Health Care Environment Aug 08 2021 In 1996, the Institute of Medicine (IOM) released its report *Telemedicine: A Guide to Assessing Telecommunications for Health Care*. In that report, the IOM Committee on Evaluating Clinical Applications of Telemedicine found telemedicine is similar in most respects to other technologies for which better evidence of effectiveness is also being demanded. Telemedicine, however, has some special characteristics-shared with information technologies generally-that warrant particular notice from evaluators and decision makers. Since that time, attention to telehealth has continued to grow in both the public and private sectors. Peer-reviewed journals and professional societies are devoted to telehealth, the federal government provides grant funding to promote the use of telehealth, and the private technology industry continues to develop new applications for telehealth. However, barriers remain to the use of telehealth modalities, including issues related to reimbursement, licensure, workforce, and costs. Also, some areas of telehealth have developed a stronger evidence base than others. The Health Resources and Service Administration (HRSA) sponsored the IOM in holding a workshop in Washington, DC, on August 8-9 2012, to examine how the use of telehealth technology can fit into the U.S. health care system. HRSA asked the IOM to focus on the potential for telehealth to serve geographically isolated individuals and extend the reach of scarce resources while also emphasizing the quality and value in the delivery of health care services. This workshop summary discusses the evolution of telehealth since 1996, including the increasing role of the private sector, policies that have promoted or delayed the use of telehealth, and consumer acceptance of telehealth. *The Role of Telehealth in an Evolving Health Care Environment: Workshop Summary* discusses the current evidence base for telehealth, including available data and gaps in data; discuss how technological developments, including mobile telehealth, electronic intensive care units, remote monitoring, social networking, and wearable devices, in conjunction with the push for electronic health records, is changing the delivery of health care in rural and urban environments. This report also summarizes actions that the U.S. Department of Health and Human Services (HHS) can undertake to further the use of telehealth to improve health care outcomes while controlling costs in the current health care environment.

The Proceedings of the 21st Annual History of Medicine Days Conference 2012 Aug 20 2022 The Proceedings of the Calgary History of Medicine Days can be seen as a Series in the History of Medicine and Health Care that publishes the work of young and emerging researchers in the field, hence providing a unique publishing format. The annual Calgary History of Medicine Days Conference, established in 1991, brings together undergraduate and early graduate students from across Canada, the United States, the United Kingdom and Europe to give paper and poster presentations on a wide variety of topics from the history of medicine and health care from an interdisciplinary perspective. The History of Medicine Days offers an annual platform for discussions and exchanges between participants over recent research findings, methodological perspectives, or work-in-progress descriptions of ongoing historiographical projects. This book brings together a number of reviewed and edited conference papers, comprising topics from the history of health care systems, medical sciences, psychiatry and neuroscience, public health, and historical issues of gender in medicine. Furthermore, it includes the paper given by the conference's

internationally-renowned keynote speaker, Dr. Theodore M. Brown, Professor of History and Medical Humanities and Charles E. & Dale L. Phelps Professor of Public Health and Policy, University of Rochester, New York. It also comprises all of the abstracts of the conference for documentation purposes and is well illustrated with diagrams and images pertaining to the history of medicine.

American Book Prices Current Apr 03 2021 A record of literary properties sold at auction in the United States.

Why Did Europe Conquer the World? Jul 19 2022 The startling economic and political answers behind Europe's historical dominance Between 1492 and 1914, Europeans conquered 84 percent of the globe. But why did Europe establish global dominance, when for centuries the Chinese, Japanese, Ottomans, and South Asians were far more advanced? In *Why Did Europe Conquer the World?*, Philip Hoffman demonstrates that conventional explanations—such as geography, epidemic disease, and the Industrial Revolution—fail to provide answers. Arguing instead for the pivotal role of economic and political history, Hoffman shows that if certain variables had been different, Europe would have been eclipsed, and another power could have become master of the world. Hoffman sheds light on the two millennia of economic, political, and historical changes that set European states on a distinctive path of development, military rivalry, and war. This resulted in astonishingly rapid growth in Europe's military sector, and produced an insurmountable lead in gunpowder technology. The consequences determined which states established colonial empires or ran the slave trade, and even which economies were the first to industrialize. Debunking traditional arguments, *Why Did Europe Conquer the World?* reveals the startling reasons behind Europe's historic global supremacy.

US Defense Budget Outcomes Aug 27 2020 This book offers a systematic guide to the allocation of American taxpayer dollars used to provide for the common defense. With engaging and illustrative examples like the narrative of a helicopter purchase, it reveals an unexpectedly chaotic political process that produces a conversely stable aggregate defense budget. The book explores specific attempts to control or influence these turbulent funding outcomes as Congress reviews the Presidential budget request. Containing data and sources largely unavailable to researchers without access to the Department of Defense, the book should be of interest to anyone looking for a direct, current, and methodical analysis of defense budget outcomes that preserves the informal and nuanced mechanics of a political and complicated process.

Missouri Historical Review Nov 30 2020

Holocaust Representations in History Mar 15 2022 *Holocaust Representations in History* is an introduction to critical questions and debates surrounding the depiction, chronicling and memorialization of the Holocaust through the historical analysis of some of the most provocative and significant works of Holocaust representation. In a series of chronologically presented case studies, the book introduces the major themes and issues of Holocaust representation across a variety of media and genres, including film, drama, literature, photography, visual art, television, graphic novels, and memorials. The case studies presented not only include well-known, commercially successful, and canonical works about the Holocaust, such as the film *Shoah* and Elie Wiesel's memoir *Night*, but also controversial examples that have drawn accusations of profaning the memory of the genocide. Each work's specific historical and cultural significance is then discussed to provide further insight into the impact of one of the most devastating events of the 20th century and the continued relevance of its memory. Complete with illustrations, a bibliography and suggestions for further reading, key terms and discussion questions, this is an important book for any student keen to know more about the Holocaust and its impact.

Middle Grade Social Studies 2012 History Homeschool Bundle Sep 08 2021 Once your child has completed his or her primary education, you'll have to seek curriculum for homeschool that covers History in greater detail. Your child is ready to face a bigger challenge when learning, and myWorld History is there to provide it. This middle school curriculum bundle breaks the barrier between History as a living thing and the subject as it's presented on paper. Not only will your child learn relevant dates over the course of the program, he or she will also experience the stories that make up the entirety of History. myWorld History provides you and your child with project-based activities and interesting tales that take you on a journey through time. Your child will get to read about other people who lived all over the world and in different time periods, helping the lesson resonate. With all the engaging content provided by myWorld History, your child will develop a strong knowledge of History and the cultures of which it is comprised. Ideally, such exposure to different cultures will help your child become more empathetic and a better critical thinker. Furthermore, each chapter of myWorld History kicks off with an Essential Question. This question guides your child through the material, causing him or her to analyze the lesson's content as he or she progress through the chapter. Your child will have to ask questions and search for answers while addressing the Essential Question. Stories, activities, games, the student journal and projects relate back to the Essential Question, the main idea of the chapter. The myWorld History curriculum for homeschooling is the next step after the myWorld Social Studies series and can be used before or after myWorld Geography. The Bundle includes the Student Edition, Student Journal, Student Journal Answer Key and Parent Guide materials. The content in each lifts History off the page to keep your child engaged in the learning process. myWorld History proves that homeschool is full of exciting

experiences and invaluable lessons. For more information about the specific materials included in myWorld History, visit the Features and Benefits page. Take your child on a journey through time without leaving home. With innovative resources, project-based activities, and unprecedented support for all learners, myWorld History takes students beyond the printed page to actively experience the history of the world in which they live.

The Music History Classroom Apr 15 2022 The Music History Classroom brings together essays written by recognized and experienced teachers to assist in the design, implementation, and revision of college-level music history courses. This includes the traditional music history survey for music majors, but the materials presented here are applicable to other music history courses for music majors and general education students alike, including period classes, composer or repertory courses, and special topics classes and seminars. The authors bring current thought on the scholarship of teaching and learning together with practical experience into the unique environment of the music history classroom. While many of the issues confronting teachers in other disciplines are pertinent to music history classes, this collection addresses the unique nature of musical materials and the challenges involved in negotiating between historical information, complex technical musical issues, and the aesthetics of performing and listening. This single volume provides a systematic outline of practical teaching advice on all facets of music history pedagogy, including course design, classroom technology, listening and writing assignments, and more. The Music History Classroom presents the 'nuts-and-bolts' of teaching music history suitable for graduate students, junior faculty, and seasoned teachers alike.

South Sudan Feb 23 2023 In July 2011, South Sudan was granted independence and became the world's newest country. Yet just two-and-a-half years after this momentous decision, the country was in the grips of renewed civil war and political strife. Hilde F. Johnson served as Special Representative of the Secretary-General and Head of the United Nations Mission in the Republic of South Sudan from July 2011 until July 2014 and, as such, she was witness to the many challenges which the country faced as it struggled to adjust to its new autonomous state. In this book, she provides an unparalleled insider's account of South Sudan's descent from the ecstatic celebrations of July 2011 to the outbreak of the disastrous conflict in December 2013 and the early, bloody phase of the fighting. Johnson's frequent personal and private contacts at the highest levels of government, accompanied by her deep knowledge of the country and its history, make this a unique eyewitness account of the turbulent first three years of the world's newest – and yet most fragile – country.

An Empire of Print Jan 25 2023 Home to the so-called big five publishers as well as hundreds of smaller presses, renowned literary agents, a vigorous arts scene, and an uncountable number of aspiring and established writers alike, New York City is widely perceived as the publishing capital of the United States and the world. This book traces the origins and early evolution of the city's rise to literary preeminence. Through five case studies, Steven Carl Smith examines publishing in New York from the post-Revolutionary War period through the Jacksonian era. He discusses the gradual development of local, regional, and national distribution networks, assesses the economic relationships and shared social and cultural practices that connected printers, booksellers, and their customers, and explores the uncharacteristically modern approaches taken by the city's preindustrial printers and distributors. If the cultural matrix of printed texts served as the primary legitimating vehicle for political debate and literary expression, Smith argues, then deeper understanding of the economic interests and political affiliations of the people who produced these texts gives necessary insight into the emergence of a major American industry. Those involved in New York's book trade imagined for themselves, like their counterparts in other major seaport cities, a robust business that could satisfy the new nation's desire for print, and many fulfilled their ambition by cultivating networks that crossed regional boundaries, delivering books to the masses. A fresh interpretation of the market economy in early America, *An Empire of Print* reveals how New York started on the road to becoming the publishing powerhouse it is today.

Handbook of East and Southeast Asian Archaeology Jul 07 2021 The Handbook of East and Southeast Asian Archaeology focuses on the material culture and lifeways of the peoples of prehistoric and early historic East and Southeast Asia; their origins, behavior and identities as well as their biological, linguistic and cultural differences and commonalities. Emphasis is placed upon the interpretation of material culture to illuminate and explain social processes and relationships as well as behavior, technology, patterns and mechanisms of long-term change and chronology, in addition to the intellectual history of archaeology as a discipline in this diverse region. The Handbook augments archaeologically-focused chapters contributed by regional scholars by providing histories of research and intellectual traditions, and by maintaining a broadly comparative perspective. Archaeologically-derived data are emphasized with text-based documentary information, provided to complement interpretations of material culture. The Handbook is not restricted to art historical or purely descriptive perspectives; its geographical coverage includes the modern nation-states of China, Mongolia, Far Eastern Russia, North and South Korea, Japan, Taiwan, Vietnam, Cambodia, Laos, Thailand, Burma, Malaysia, Indonesia, the Philippines and East Timor.
