Developing a Protocol for Observational Comparative Effectiveness Research: A User's Guide Nov 14 2022 This User's Guide is a resource for investigators and stakeholders who develop and review observational comparative effectiveness research protocols. It explains how to (1) identify key considerations and best practices for research design; (2) build a protocol based on these standards and best practices; and (3) judge the adequacy and completeness of a protocol. Eleven chapters cover all aspects of research design, including: developing study objectives, defining and refining study questions, addressing the heterogeneity of treatment effect, characterizing exposure, selecting a comparator, defining and measuring outcomes, and identifying optimal data sources. Checklists of guidance and key considerations for protocols are provided at the end of each chapter. The User's Guide was created by researchers affiliated with AHRQ's Effective Health Care Program, particularly those who participated in AHRQ's DEcIDE (Developing Evidence to Inform Decisions About Effectiveness) program. Chapters were subject to multiple internal and external independent reviews. More more information, please consult the Agency website:

Infrastructure Investment Bank Aug 11 2022

The Asian Infrastructure Investment Bank, first opened in 2016, is a 100 billion dollar multilateral development bank purpose-built to support infrastructure projects that enhance regional economic productivity. Its arms reach far: in its first two years, AIIB has financed transport systems such as national motorways in Pakistan, railways in Oman, and rural roads in India; energy projects including natural gas pipelines in Azerbaijan and hydropower plants in Tajikistan; and the redevelopment of impoverished areas in Indonesia. Initiated by China, its membership is global, with regional powers from Korea to Saudi Arabia, and key players from Europe, Africa, and Latin America. In a text that will appeal to general readers and legal specialists alike, Natalie Lichtenstein examines the Bank's mandate, investment operations, finance, governance, and institutional set up, as well as providing detailed analyses of the similarities and differences it has with other development banks - charting AIIB's story so far and anticipating its future.

Merger Control in the EU and Turkey Mar 26

2021 As a country on the way to integration with the European Union (EU), Turkey has been following EU principles in establishing and improving its merger control regime, as well as overall competition law, keeping pace with changes in relevant EU legislation and case law. However, as is to be expected, specific adjustment needs engender significant differences in the two regimes. This book presents, for the first time, a description and analysis of the relationship between the EU and Turkish merger control law and practice. The authors—all three both practicing lawyers and academicians in Turkey—focus on comparing substantive, procedural and jurisdictional issues and draw parallels on their regulation in the two jurisdictions. These matters include the following: determining whether a transaction shall be regarded as a notifiable merger, hence be subject to control; financial thresholds used for allocating jurisdictions; extraterritoriality of merger control; relationship between the significant impediment to effective competition (SIEC) test and the dominance test; determination of the relevant market; techniques used for assessment of horizontal and non-horizontal mergers; notification requirements; procedural duties of competition authorities in relation to remedies; third-party

rights; gun-jumping fines and other sanctions for failure to comply with merger control requirements; and peculiarities of assessment of mergers in the big data world. Each chapter provides an overview of the respective issues in the EU and Turkey, projecting a clear understanding of the main similarities and differences in the two regimes. A notable feature is an in-depth analysis of applicable case law concerning each issue, with most of the Turkish decisions available in English for the first time. In addition to these practical issues, the book's comparative approach will prove to be of great value. With its clear answers to questions about what transactions are subject to merger control, what criteria are used in assessing those transactions, and the main issues that a foreign company should be aware of while merging with another foreign company with effect in Turkey and/or EU, the book will be of immeasurable value for lawyers and their business clients dealing with multijurisdictional merger cases. Interested academics and policymakers will also find much here to attract their attention.
