Imagine lying awake in bed, waiting to hear the front door open so you'll know your teen is home safely. But instead, tonight, the doorbell rings. Your heart stops when you see the police officers in the doorway, and you know instantly that your life will never be the same again. Wouldn't you do ANYTHING to go back and change things? By then it will be too late. The time to prepare your teen to drive and survive is NOW! "3 Keys to Keeping Your Teen Alive" provides a simple step-by-step plan to prepare teens to become safe, responsible drivers. Parents can use it to teach their teens to drive or to make sure they cover all the bases in their practice sessions after the teen has taken a professional driver training course. "3 Keys to Keeping Your Teen Alive" includes: 25 structured driving lessons, great advice from top experts, checklists to follow and other useful tools. There are true stories, quizzes and puzzles to keep your teen interested and reinforce the learning. The companion website (TeensLearntoDrive.com) has

While most kids want to be a basketball player or a police officer when they grow up, LAFAYETTE wanted to be a hustler. He became just that too, but he finds out that it isn't what it's cracked up to be. Sick of slinging nickel and dime crack rocks, Lafayette can't wait for his shot at being Top Dawg. He gets his chance when his plug, SHAMEEK, blesses him with his first kilo. Lafayette wastes no time parlaying the key into his own budding operation and solidifying his reputation in the streets. But with money and power comes jealousy, hate, envy and wolves who want the young dopeman's spot. With his homies turning against him and his woman's loyalty coming into question, Lafayette realizes he may very well be...THE LAST REAL NIGGA ALIVE. "All the sizzle, chaos, noise and scariness of war is clay in the hands of ace storyteller Lynch." -- Kirkus Reviews Theo has always looked up to his older brother, Hank, but never more so than the day Hank enlisted in the US Navy. Not to be outdone, Theo followed his older brother's lead in joining the war effort -- but preferring the wide open sky to the untamed ocean, Theo

chose to serve with the Army Air Force. As a gunner on a B-24 Liberator, Theo is enthusiastic about his crew's mission to save all of Europe from the Nazis. Fearlessness is a requirement for dog fights at 50,000 feet. But when Theo's brother goes missing in the Pacific, fear start creeping in. Can Theo keep his head in the game while he awaits word of his brother's fate? "In a riveting debut novel that reads like Prep meets Gone Girl, a young woman is determined to create the perfect life-- husband, home, and career-- until a violent incident from her past threatens to unravel everything and expose her most shocking secret of all. Twenty-eight-year-old New Yorker Ani FaNelli seems to have it all: she's a rising star at The Women's Magazine, impossibly fit, perfectly groomed, and about to marry Luke Harrison, a handsome blueblood. But behind that veneer of perfection lies a vulnerability that Ani holds close and buries deep--a very violent and public trauma from her past that has left her constantly trying to reinvent herself. And only she knows how far she would go to keep her secrets safe. When a documentary producer invites Ani to tell her side of the chilling incident that took place when she was a teenager at the prestigious Bradley School, she hopes it will be an opportunity for public vindication. Armed with the trappings of success-- expensive clothes, high-powered byline, a massive engagement ring--she is determined to silence the

whispers of suspicion and blame from her past, and prove once and for all how far she's come since Bradley. She'll even let them film her lavish wedding on Nantucket, the final step in her transformation. But perfection doesn't come without cost. As the wedding and filming converge, Ani's meticulously crafted facade begins to buckle and crack--until an explosive revelation offers her a final chance at redemption, even as it rocks her picture-perfect world. Equal parts glitz and darkness, and with a singular voice and twisting plot, Luckiest Girl Alive reads like Sex & the City--if Carrie Bradshaw had a closet full of skeletons instead of shoes. In Ani FaNelli, Jessica Knoll has created a complex and vulnerable heroine who you'll be rooting for to the very last page"-- Poll after poll has confirmed that an astonishing number of workers are disengaged from their work. Why is this happening? And how can we fix the problem? In this bold, enlightening book, social psychologist and professor Daniel M. Cable takes leaders into the minds of workers and reveals the surprising secret to restoring their zest for work. Disengagement isn't a motivational problem, it's a biological one. Humans aren't built for routine and repetition. We're designed to crave exploration, experimentation, and learning--in fact, there's a part of our brains, which scientists have coined "the seeking system," that rewards us for taking part in these

activities. But the way organizations are run prevents many of us from following our innate impulses. As a result, we shut down. Things need to change. More than ever before, employee creativity and engagement are needed to win. Fortunately, it won't take an extensive overhaul of your organizational culture to get started. With small nudges, you can personally help people reach their fullest potential. Alive at Work reveals: How to encourage people to bring their best selves to work and use their greatest strengths to help your organization flourish How to build creative environments that motivate people to share ideas, work smarter, and embrace change How to enhance people's connection to their work and your customers How to create personalized experiences that help people feel a deeper sense of purpose Filled with fascinating stories from the author's extensive research, Alive at Work is the inspirational guide that you need to tap into the passion, creativity, and purpose fizzing beneath the surface of every person who falls under your leadership. Earth Alive Social Studies is a social studies course for classes 3 to 5. The books aim to familiarise primary students with history, geography and civics in an easy-to-understand and child-friendly manner. "Soon we will eat the frozen cattle.... And then, when that is gone, what shall we eat? Shall we eat the snow? Shall we eat the ice? Shall we eat the bark on the frozen trees? What shall we eat?" Spring, 1846: Douglas

Allen Deeds dreams of starting a new life out West. When the opportunity to join the Donner Party Expedition arises, he leaves the life he's known behind to set out on the nearly 2,000-mile trek from Independence, Missouri to sunny California. But progress is slow. Brutal heat, poisoned water, and rough terrain slows the expedition down. Soon they have a choice: continue on the known but grueling trail, or take a shortcut that would cut 350 miles from their journey--but take them through unknown territory. Is it worth the risk? Winter comes quickly in the mountains, and the wrong choice could leave them stranded in the Sierra Mountains when the snow comes, with no shelter, supplies, or even food. Newbery Honor-winning author Rodman Philbrick brings to life the excitement, danger, and horrors of the Donner Party's journey west. "The tools Barry and Phil teach in Coming Alive gave me the courage and clarity to align myself with the truth—no matter how hard or painful it seemed at the time."—Gwyneth Paltrow Tap into the Life Force with this

critical and contemporary guide to unlocking our most powerful selves—from the bestselling authors of The Tools (and Goop's resident shrinks). Phil Stutz and Barry Michels's tools will be featured in an upcoming Netflix original documentary directed by Jonah Hill and co-produced by Joaquin Phoenix In The Tools, Michels and Stutz revolutionized the world of personal growth. Now, in Coming Alive, they guide readers toward a wellspring of positive energy: the source of creativity, renewal, and engagement. The first step in gaining mastery over one's life—in deepening both emotional and spiritual experiences—is identifying the enemy within, which Michels and Stutz have named Part X. This formidable adversary is a shape-shifter: it may be the voice in your head that is a torrent of negativity; it may take the form of outside forces that conspire against you. In whatever guise it appears, Part X aims to derail your progress, keep you small and stuck, and defeat hope. The four vital tools in Coming Alive help you connect to the Life Force—a wellspring of positive energy that is the source of creativity, renewal, confidence, and engagement—and harness the energy and will to combat Part X. Drawing insights from their decades of psychotherapeutic practice, their lived experience, and their moving and generous understanding of our interconnectedness, Michels and Stutz have created a paradigm-shifting guide to achieving optimal mental

health and spiritual well-being. Praise for Coming Alive "What a gift! A riveting exploration of four (bone-chillingly relatable) modern ailments and their thrillingly practical solutions . . . Singular in its approach and deeply spiritual in its concerns, Coming Alive is a book I'll be pressing on friends and foes alike."—Maria Semple, author of Where'd You Go, Bernadette Stranded in the middle of nowhere, you have to fight to survive! When the bus carrying a group of kids home from summer camp breaks down on an abandoned road during a heatwave, things go from bad to worse very quickly. There's nobody around to help. Sixty miles back the way they came in camp. Sixty miles the opposite direction is the highway. Neither direction is the source of much hope. With no way to call for help, this group must ride it out and survive the elements. Will they make it through? From the celebrated imagination of Dean Koontz comes a powerful reworking of one of the classic stories of all time. If you think you know the legend, you know only half the truth. Now the mesmerizing saga concludes. . . . As a devastating hurricane approaches, as the benighted creations of Victor Helios begin to spin out of control, as New Orleans descends into chaos and the future of humanity hangs in the balance, the only hope rests with Victor's first, failed attempt to build the perfect human. Deucalion's centuries-old history began as the original manifestation of a soulless vision—and it is fated to end in the ultimate

confrontation between a damned creature and his mad creator. But first they must face a monstrosity not even Victor's malignant mind could have conceived—an indestructible entity that steps out of humankind's collective nightmare with powers, and a purpose, beyond imagining. Frankenstein's creation, now calling itself Deucalion, faces the final confrontation with its creator, but first they must face an indestructible nightmare entity, as all of the mad scientist's creations return to destroy him. story. It will keep you captivated until the end.” —Reader review for *His Other Wife* Last Seen Alive is the fifth book in Joanna Schaffhausen's heartpounding Ellery Hathaway mystery series. Boston detective Ellery Hathaway met FBI agent Reed Markham when he pried open a serial killer's closet to rescue her. Years on, their relationship remains defined by that moment and by Francis Coben's horrific crimes. To free herself from Coben's legacy, Ellery had to walk away from Reed, too. But Coben is not letting go so easily. He has an impossible proposition: Coben will finally give up the location of the remaining bodies, on one condition—Reed must bring him Ellery. Now the families of the missing victims are crying out for justice that only Ellery can deliver. The media hungers for a sequel and Coben is their camera-ready star. He claims he is sorry and wants to make amends. But Ellery is the one living person who has seen the monster behind the mask and she doesn't believe he can be redeemed. Not after everything he's done. Not after what she's been through. And certainly not after a fresh body turns up with Coben's signature all over it. We live in a highly connected world with multiple self-interested agents interacting and myriad opportunities for conflict and cooperation. The goal of game theory is to understand these opportunities. This book presents a rigorous introduction to the mathematics of game theory without losing sight of the joy

of the subject. This is done by focusing on theoretical highlights (e.g., at least six Nobel Prize winning results are developed from scratch) and by presenting exciting connections of game theory to other fields such as computer science (algorithmic game theory), economics (auctions and matching markets), social choice (voting theory), biology (signaling and evolutionary stability), and learning theory. Both classical topics, such as zero-sum games, and modern topics, such as sponsored search auctions, are covered. Along the way, beautiful mathematical tools used in game theory are introduced, including convexity, fixed-point theorems, and probabilistic arguments. The book is appropriate for a first course in game theory at either the undergraduate or graduate level, whether in mathematics, economics, computer science, or statistics. The importance of game-theoretic thinking transcends the academic setting—for every action we take, we must consider not only its direct effects, but also how it influences the incentives of others. “This is the book where self-help turns into helping the world—and then turns back into helping yourself find a better life. Fascinating and timely!”—Bill McKibben, author of *Eaarth: Making a Life on a Tough New Planet* What does it take to achieve a successful and satisfying life? Not long ago, the answer seemed as simple as following a straightforward path: college, career, house, marriage, kids, and a secure retirement. Not

anymore. Staggering student loan debt, sweeping job shortages, a chronically ailing economy—plus the larger issues of global unrest, poverty, and our imperiled environment—make the search for fulfillment more challenging. And, as Colin Beavan, activist and author of *No Impact Man*, proclaims, more exciting. In this breakthrough book, Beavan extends a hand to those seeking more meaning and joy in life even as they engage in addressing our various world crises. *How to Be Alive* nudges the unfulfilled toward creating their own version of the Good Life—a life where feeling good and doing good intersect. He urges readers to reexamine the “standard life approaches” to pretty much everything and to experiment with life choices that are truer to their values, passions, and concerns. How do you stop placing limits on your potential impact? How do you make your choices really matter in everything from your clothing purchases to your career? How do you find the people who will most support you in your quest for a good life? To answer these questions and more, Beavan draws on classic literature and philosophy; surprising new scientific findings; and the uplifting personal stories of real-life “lifequesters”—people who are breaking away from those old broken paths, blazing fresh trails, and reveling in every step along the way. “There is a movement afoot for a better life and Colin Beavan is its prophet, with a new book as powerful as his already

classic No Impact Man.”—John de Graaf, coauthor of *Affluenza Language Alive* is a three-book workbook series designed to boost student understanding of grammar and language structures. "English Alive! is a series designed specifically to meet the needs of English students in Caribbean secondary schools. The book covers the key areas of reading comprehension, listening and speaking, writing grammar and language usage and vocabulary development. Particular attention is given to the often challenging area of poetry. The book also covers common errors made by students. A reference section contains verb tables, including a section on tenses (notoriously difficult for learners), irregular verbs and a

glossary of language words and literary terms,"--page [4] of cover. Classics Alive Book 1 offers teachers and students a wide selection of literature to help pace musical and technical development evenly and with ease. The book presents 72 pieces of standard teaching literature by 12 composers---familiar and not so familiar---who wrote exceptionally well for the late-elementary/early-intermediate student. Studying these works will give students a solid foundation in the best literature available at their level, and will prepare them to proceed to more advanced music. The pieces are easy to learn, rewarding to play and sound great! The Language Alive 1 Teacher Support Book is designed to support the student workbook. In classrooms here students are not required to purchase the student workbook, teachers can use the teacher support book to photocopy to worksheets for students. Features All the photocopiable worksheets from the student book Teacher notes on the worksheets Answers Extension material Appendices with useful templates, such as student record sheets The Language Alive series also includes student workbooks 2

and 3 and teacher support books 2 and 3. The series is a useful complement to Jacaranda's English Alive series. The Frankenstein story is updated to the 21st century by the great American storyteller Dean Koontz. Now someone new is playing god. Frankenstein lives! And so too does his monstrous creation ... but this creature of legend is a monster no more and his scarred face bears witness to his maker's wrath. His name is Deucalion. As a devastating hurricane approaches New Orleans, Victor Helios, once know as Frankenstein, has unleashed his benighted creatures onto the streets. As New Orleans descends into chaos, his engineered killers spin out of control, and the only hope rests with Victor's first and failed attempt to build the perfect human, whose damned path has led him to the ultimate confrontation with his pitiless creator. But first, Deucalion must destroy a monstrosity not even Victor's malignant mind could have imagined - an indestructible entity that steps out of humankind's collective nightmare with one purpose: to replace us. This is a powerful reworking of one of the classic stories of all time.
