The Academic Encounters Second edition series uses a sustained content approach to teach skills necessary for taking academic courses in English. There are two books for each content area. Academic Encounters Level 4 Student's Book Listening and Speaking with DVD Human Behavior engages students through interviews and academic lectures on stimulating topics from the fields of psychology and communications. Topics include stress and the immune system, intelligence testing, friendship, and love. Students develop crucial listening and note-taking skills, discuss content, conduct interviews, and make presentations. A Student DVD includes all of the academic lectures. Topics correspond with those in Academic Encounters Level 4 Student's Book Reading and Writing Human Behavior. The books may be used independently or together. Books in the Westminster Bible Companion series assist leaders and students in their study of the Bible as a guide to Christian faith and practice. Each volume presents the text under discussion, explains the biblical book in its original historical context, and explores the text's significance for faithful living today. These books are ideal resources for preparing text-based sermons and a worthy addition to seminary courses and advanced Bible study groups. In this volume, John Proctor provides an accessible study on First and Second Corinthians. Paul's first letter to the Corinthians addresses the basic components of human life, such as leadership, marriage, hospitality, and bereavement. The second letter mostly revolves around the pains and joys of a pastoral relationship. Proctor's volume provides insightful commentary that examines how the letters spoke to the people of Corinth and how they are received today. The winds of change are whipping through Sauslind. Malduran officials are headed for the capital to discuss diplomacy, and although it was Eliâ€™s actions that spurred these talks, she has a different errand to attend to. The kingâ€™s younger brother, Bernard, has fallen ill. Since itâ€™s customary for someone from the royal family to visit in such times, Eli is sent in the princeâ€™s stead. Along the way, devastating secrets are unearthed that threaten to rock the very foundation upon which Eli stands. Is everything she thought she knew a lie? Or does the truth even matter when the worst comes to pass and Sauslind finds itself on the brink of disaster? Perfect: aids memory encoding through drilling of vocabulary and grammar topics. It helps with incubation of concepts. Perform: functions as a confidence check for learners and ensures verification of their performative skills. This stage of summing up allows a functional integration of acquired concepts, leading to a celebration of learning. 6. Subject Integration (SI) tasks weave cross-curricular references through the chapters. 7. Task-Based Learning (TBL) activities present learners with real-life situations within the classroom. 8. Life Skills (LS) are enhanced through challenging texts and value-based concept checking questions (CCQs). 9. Many bilingual Spanish-English preschool aged children are impacted by speech sound disorders; and research has shown that bilingual speech sound systems develop differently than monolinguals'. Research has also shown that, for monolingual English and Spanish speakers, parent reports can be a valid tool for identification and single-word assessments can effectively diagnose speech disorder, yet little, if any, normative data or information about the validity of parent reports as an identification tool exists for bilingual Spanish-English speakers. The purpose of the present study was to create bilingual speech normative data for English single-word assessment scores for percent consonants correct (PCC), percent vowels correct (PVC), and the index of phonetic complexity (IPC). It also sought to determine correlations of speech scores and parent reports, which was done as an extension of Stertzbach's 2005 study with monolingual Spanish speakers. Fifty-six bilingual Spanish-English 4-year-olds were administered a single-word assessment in English and normative data was generated from the PCC, PVC, and IPC scores. That normative data was correlated with Likert values from the parent surveys to establish the validity of the report as an identification tool, and finally, the disordered scores (as determined by the normative data) were explored in relation to previous suspicion or diagnosis of disorder. The normative data showed 89% of speech scores falling within the typical range for both PCC and PVC and 93% for IPC. Pearson coefficients were computed by regression analysis and parent reports were deemed a valid tool for identification based on statistically significant correlations (at the .05 level) for 6 of 10 questions. Previous suspicions of disorder, based on parent report or examiner questionnaire, were 87.5% and 91% accurate, respectively, while current diagnosis, based on the presence of an existing Individualized Family Service Plan (IFSP), was 93% accurate. The results were consistent with previous research showing the prevalence of speech disorder as well as the validity of the parent report. The final unit consists of four listening tests that can be used to monitor progress. Each unit includes: dictation practice using dialogues listening skill development speaking practice listening to simple conversations sound practice with minimal pairs listening to simple lectures more speaking and discussion practice. After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. "We cannot change the cards we are dealt, just how we play the

hand." —Randy Pausch A lot of professors give talks titled "The Last Lecture." Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—"Really Achieving Your Childhood Dreams"—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because "time is all you have . . . and you may find one day that you have less than you think"). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.
