This book provides role models of perseverance worthy of emulation through profiles of individuals who displayed perseverance at one phase of their life or throughout their lifetime. The 35 biographical sketches represent 7 areas of endeavor. They enlighten us by their example. We can learn from them. One of my favorite stories: Once upon a time a friend of mine died. She told me God received her into heaven where she met Peter. He welcomed her and showed her around heaven. It was the most beautiful place you can imagine! They came upon an area with the most beautiful boxes you have ever seen. My friend asked, "What are those beautiful boxes?" Peter answered, "Those belong to all of God's children." She was so excited to find out if she had one. "Yes," Peter said, "Over there - that's yours with the blue and rainbow colors." "Wow," said my friend, "May I open it?" "I would not," Peter advised. But my friend insisted. When she opened it, inside she saw everything she had never asked God for, but had always wanted. Overwhelmed, she exclaimed, "All I had to do was ask God and believe and wait on Him for all of this?!" "Yes," Peter replied, "God was waiting for you to ask, believe, and persevere for these with Him and He would have given you the Power to Persevere until it was His Divine Timing." God reminded me that we all have desires in our hearts. We have longings, wants, prayers, and questions that He alone can answer! His desire is to answer us and give us the desires of our hearts. God reminded me that in Jeremiah 33:3, He says to call upon Him and He will answer. I decided right then and there,

when I get to heaven, I want my box to be empty! How about you?! If you are having a hard time persevering through your trials, circumstances, situations, and matters of the heart, then this book is for you. It will help you learn how to receive God's power to persevere so you too will find your beautiful box empty! P.S. My friend was returned to earth to tell us this story so we may have the opportunity to choose to learn how to find the Power of Perseverance with God. Polly Sanders-Peterson Is it possible for a true believer in Christ to apostatize? If so, how? Also, how can professing believers know if they are truly born again? What assurance can they have that they will never renounce their faith? These questions have been asked for centuries as Christians have wrestled with what Scripture says about these matters. The search for answers has instilled strong disagreements among Christian traditions. In this book, we navigate the terrain of this debate by examining the pertinent biblical data, surveying the history of major views that have been advocated by various denominations, and offering a synthesis of all this material in the hopes that readers can see how Scripture assures believers of their security in Christ. Learning new things can be a challenge. Roby learns to keep on trying and practicing until he finally makes it. Suggested for ages 6 and younger. Shares the stories of those who overcame great odds or persevered to make their dreams come true while offering a seven-step plan for developing purpose, passion, belief, teams, creativity, and determination. A story about not giving up! Join a little SPOT of Perseverance as he shows two young kids all the times they were able to succeed when they just kept trying. -- What drove three young black men, each from America's most urban environments, to achieve their dreams of becoming doctors? The answer is in the Pulse of Perseverance. In 1998, Max Madhere, Pierre Johnson, and Joe Semien were three young, black, premedical students at Xavier University of Louisiana. Each was struggling with the demands of Xavier's rigorous curriculum, yet each was determined to succeed, even if the statistics, or the stereotypes about black men, said otherwise. By drawing on each other's determination and individual strengths, they forged a brotherhood and created a bond so strong that it would carry them through college,

medical school, and well beyond. Now they've come together in Pulse to share their stories and encourage young people of color to pursue high-level careers. Max grew up in New York City and Washington D.C., Pierre in Chicago, and Joe in New Orleans. Underperforming schools, instability in the home, the trappings of street life, or simply being "expected" to fail could have derailed their aspirations, yet all three men refused to accept failure as an option. No obstacle was too great, no ambition too high. Today, Dr. Maxime Madhere, Dr. Pierre Johnson, and Dr. Joseph W. Semien Jr. are each board-certified physicians, as well as fathers and community mentors. Their message in Pulse is both simple and complex: no matter where you're from, no matter what "society" tells you, you can realize your dreams with hard work, determination, and God's guidance. Learning new things can be a challenge. Roby learns to keep on trying and practicing until he finally makes it. A story on values and virtues that is told from a child's perspective, encouraging kids to work out their problems by thinking of positive solutions. Suggested for ages 6 and under. For more kids products and free downloads, visit our website at www.kidible.eu In March 2020, as a pandemic began to ravage our world, writer and professor B. J. Hollars started a collaborative writing project to bridge the emotional challenges created by our physical distancing. Drawing upon Emily Dickinson's famous poem "'Hope' is the thing with feathers," Hollars called on Wisconsinites to reflect on their own glimpses of hope in the era of COVID-19. The call resulted in an avalanche of submissions, each reflecting on hope's ability to persist and flourish, even in the darkest times. As the one hundred essays and poems gathered here demonstrate, hope comes in many forms: a dad dance, a birth plan, an unblemished banana, a visit from a neighborhood dog, the revival of an old tradition, empathy. The contributors are racially, geographically, and culturally diverse, representing a rough cross section of Wisconsin voices, from truck driver to poet laureate, from middle school student to octogenarian, from small business owner to seasoned writer. The result is a book-length exploration of the depth and range of hope experienced in times of crisis, as well as an important record of what Wisconsinites were facing and

feeling through these historic times. Perseverance is the courage, desire, drive, faith, strength and will to keep going even when there's a delay, when you're not sure of the end result and when you have no idea if you'll achieve the goal. You just keep going, believing that you will see success! ~ Tameka L. Chapman When faced with an obstacle, what do you do? When life throws you daggers, how do you shift? No matter how you decide to handle the circumstances in life, you must never give up on going for your greater! I'm grateful for each lady that shared her journey in this book to show you that if she can face the obstacle, overcome the obstacle and live to share the journey about her obstacle with you, you can too! When I think of perseverance, I feel the power that comes with that word as I have lived a life that required me to persevere through many challenges. The one thing that stands out is my ability to know that there is greater on the other side. I encourage you, as you read this book and the many transformational journeys shared within, to know that no matter what you are facing or going through right now, you will get through it and walk into your greater! This book is filled with transformational journeys of women who have overcome life-changing circumstances that led to each woman learning to once again have HOPE, COURAGE, WILL, DRIVE and PERSEVERANCE to keep going. These wonderful souls shared their tests and trials and the path that led to overcoming the obstacles they faced for the purpose of inspiring you to learn how to tap into the power of your perseverance! In this instant New York Times bestseller, Angela Duckworth shows anyone striving to succeed that the secret to outstanding achievement is not talent, but a special blend of passion and persistence she calls "grit." "Inspiration for non-genius everywhere" (People). The daughter of a scientist who frequently noted her lack of "genius," Angela Duckworth is now a celebrated researcher and professor. It was her early eye-opening stints in teaching, business consulting, and neuroscience that led to her hypothesis about what really drives success: not genius, but a unique combination of passion and long-term perseverance. In *Grit*, she takes us into the field to visit cadets struggling through their first days at West Point, teachers working in some of the toughest schools, and young finalists in the National Spelling Bee. She also mines fascinating insights from history and shows what can be gleaned from modern experiments in peak performance. Finally, she shares what she's learned from interviewing dozens of high achievers—from JP Morgan CEO Jamie Dimon to New Yorker cartoon editor Bob Mankoff to Seattle Seahawks Coach Pete Carroll. "Duckworth's ideas about the cultivation of tenacity have clearly changed some lives for the better" (The New York Times Book Review). Among *Grit*'s most valuable insights: any effort you make ultimately counts twice toward your goal; grit can be learned, regardless of IQ or circumstances; when it comes to child-rearing, neither a warm embrace nor high standards will work by themselves; how to trigger lifelong

interest; the magic of the Hard Thing Rule; and so much more. Winningly personal, insightful, and even life-changing, *Grit* is a book about what goes through your head when you fall down, and how that—not talent or luck—makes all the difference. This is “a fascinating tour of the psychological research on success” (The Wall Street Journal). In *Showing Perseverance*, beginning readers will learn about all the ways they can be strong in spite of difficulty. Vibrant, full-color photos and carefully leveled text engage young readers as they discover how they can build character by showing perseverance. 100 meditations from the Book of Job. A Poetry Book of the Year at The Guardian, The Sunday Times, and Poetry School Winner of the Ted Hughes Award, Rathbones Folio Prize, and Somerset Maugham Award; shortlisted for the Griffin Poetry Prize In the wake of his father's death, the speaker in Raymond Antrobus' *The Perseverance* travels to Barcelona. In Gaudi's Cathedral, he meditates on the idea of silence and sound, wondering whether acoustics really can bring us closer to God. Receiving information through his hearing aid technology, he considers how deaf people are included in this idea. "Even though," he says, "I have not heard / the golden decibel of angels, / I have been living in a noiseless /

palace where the doorbell is pulsating / light and I am able to answer.”

The Perseverance is a collection of poems examining a d/Deaf experience alongside meditations on loss, grief, education, and language, both spoken and signed. It is a book about communication and connection, about cultural inheritance, about identity in a hearing world that takes everything for granted, about the dangers we may find (both individually and as a society) if we fail to understand each other. In this exploration of the biblical theology of perseverance and assurance, Thomas R. Schreiner and Ardel B. Caneday weigh all of the relevant New Testament texts and provide a foundational study that offers a clear Reformed perspective on salvation. During any rapidly changing situation, loss of daily routine, isolation, and uncertainty can lead to anxiety, fear, depression, and loneliness. Dr. Stephen Bond, a Social Studies teacher at Wilson Preparatory Academy in Wilson, North Carolina, spoke with his students via email and text during the COVID-19 crisis that ended the 2020 school year and discovered many were feeling these emotions. Dr. Bond let them know that it was OK to be upset. He encouraged them to come to him and their parents with any new questions about the virus, and he asked his students to express their feelings. This phenomenal book, jam-packed with challenging activities like word searches, crossword puzzles, and colorful drawings by the talented Illustrator Anthony Mercer, covers what Dr. Bond's students had to say and more. Scripture's commands to persevere, and warnings of the consequences if we fail, have been met with apathy by some, and led others to doubt the state of their salvation. The fearful and eternal nature of these issues warrants careful examination of what the Bible says about perseverance. Thomas Schreiner once again tackles this difficult topic in *Run to Win the Prize*. Clarifying misunderstandings stemming from his more detailed treatment in *The Race Set Before Us* (IVP 2001), Schreiner draws together an illuminating overview of biblical teaching on the doctrine of perseverance. Schreiner details how God directs the collective warnings and exhortations of Scripture toward believers as a means of preservation. We are to think of the call to persevere in light of the initial call to faith, both agents by which God leads us to final salvation. Those

looking for a general treatment of the doctrine of perseverance will profit from the challenges and assurances in *Run to Win the Prize*. A collection of poems, paintings and inspiring words on perseverance. What is a Golden Moment? This is an autobiography of my life, in which I have shared different segments of

time in order to reach out to those that may relate to my experiences. The idea of this book was heavy on my heart for a few years, due to the continued reports of sexual abuse that has been broadcast around our country. The reality that the total number of registered sex offenders in this nation has increased to staggering numbers, beckons for someone to try something to reverse this frightening trend. It is clear that a cycle of perversion has swept our country from generation to generation, harming many innocent victims along the way. It is my goal to create a tool that the Holy Spirit of God can use to change the wicked hearts of those caught in this cycle of perversion. My focus through this book is to share how I was freed from the bondages of sexual immorality. This book describes to the reader how the Lord Jesus worked in my heart and life. Using the wisdom of His Word to re-direct the choices I made on a daily basis. I was changed both mentally and spiritually and I have complete faith that the Lord can too change others overtaken in sexual immorality. This change is laid out in detail in hopes that those affected will learn from my mistakes in order to deter them from making the same mistakes. Learning new things can be a challenge. By the bestselling author of *Leadership* and the *New Science* and *Turning to One Another* Thoughtful, compassionate reflections on how we can carry on with joy despite difficulties, challenges, and disappointments Illuminated by both beautiful original paintings and by poems and quotations from a variety of traditions and cultures In this inspiring and beautifully illustrated book, bestselling author Margaret Wheatley offers guidance to people everywhere for how to persevere through challenges in their personal lives, with their families, at their workplaces, in their communities, and in their struggles to make a better world. She provides hope, wisdom, and perspective for

learning the discipline of perseverance. Wheatley does not offer the usual feel-good, rah-rah messages. Instead, she focuses on the situations, feelings, and challenges that can, over time, cause us to lose heart or lose our way. Perseverance is a day-by-day decision not to give up. We have to notice the moments when we feel lost or overwhelmed or betrayed or exhausted and note how we respond to them. And we have to notice the rewarding times, when we experience the joy of working together on something hard but worthwhile, when we realize we've made a small difference. In a series of concise and compassionate essays Wheatley names a behavior or dynamic—such as fearlessness, guilt, joy, jealousy—that supports or impedes our efforts to persevere. She puts each in a broader human or timeless perspective, offering ways to either live by or transcend each one. These essays are self-contained—you can thumb through the book and find what attracts you in the moment. Perseverance helps you to see yourself and your situation clearly and assume responsibility for changing a situation or our reaction to it if it's one that troubles us. There deliberately are no examples of other people or their experiences. You are the example—your personal experiences are the basis for change. In addition to Wheatley's graceful essays there are poems and quotations drawn from traditions and cultures around the world and throughout history. The book is deeply grounded spiritually, accessing human experience and wisdom from many sources. This grounding and inclusiveness support the essential message—human beings throughout time have persevered. We're just the most recent ones to face these challenges, and we can meet them as those who came before us did. As Wheatley quotes the elders of the Hopi Nation: "We are the ones we have been waiting for." If someone were to ask what was standing between you and your dreams, would you look outside yourself to find excuses or inside yourself to find answers? The personal, financial and emotional obstacles everyone deals with on a daily basis aren't what keep your goals out of reach; instead, it's a combination of internal roadblocks that have been holding you back and preventing you from persevering. In *Developing Perseverance*, I'll show you how to break through these self-imposed obstacles so you can clear the way to begin

moving along your true path. By the end of this book, not only will you understand what you need to do in order to reach your goals, you'll be able to take those first few steps toward them--steps that will take you further than you ever dreamed. Teach your child to embrace the challenges that life throws at them and equip them with the mindset to never give up. So why is it important to teach children to be patient and to believe in oneself when faced with life's daily challenges? Nowadays, in our diverse society where we are presented with adversity

on a daily basis, it is vital that we equip our children with the mentality to overcome these difficulties. Children who practice perseverance and have self-belief are less likely to give up when presented with complex situations and therefore, move forward to achieve success. The Elephant and the Rope is the perfect, motivational book that will help you teach your children the importance of never giving up and the possible positive outcomes of their perseverance and persistence. An inspiring story of beating the odds and learning to overcome--no matter what life hands you. After

starting a family and flourishing in his career, Tim Hague was struck by misfortune. The irritating tremor in his foot turned out to be early onset Parkinson's disease. He was only 46 years old. But what seemed to be an end became a new beginning. Just three years later, Hague won the inaugural The Amazing Race Canada (with his son, Tim Jr., as his teammate). His remarkable life story shows that perseverance is not just a matter of willpower: it is a skill that can be learned and honed. And perseverance is the theme of his life. From the day he was born, Hague has gone from one struggle to another. Yet, remarkably, he doesn't have a trace of self-pity. In fact, he feels blessed. From his tough start in life as an unwanted mixed-race baby born in Texas in 1964, to his eventual move to the unforgiving climate of Winnipeg, Canada, to start a family under difficult circumstances, and his continuing battle with Parkinson's--Hague's life is a roadmap of perseverance. Parkinson's has forced him to retire early from the work he loves as a registered nurse. But as a healthcare professional, and now suffering from a challenging disease himself, Hague discusses living with Parkinson's like no one else could. He now works with charities to help promote Parkinson's awareness and his "Live Your Best" message. Drawing on his experience winning The Amazing Race, and referencing cutting-edge research and studies, Hague weaves a moving story of failure and success, outlining the elements of his philosophy that anyone can apply to their own lives, including: * The nature of luck: Luck comes to those who keep trying until the end--never stop until the race is over. * Find community: As a nurse, a husband and father, and a man living with Parkinson's, Hague knows better than most that we all need to ask for help sometimes, and that's a good thing. * Accept limits: By focusing on what we can do, we accomplish more than we ever thought possible. * Cease striving: We think of striving as a positive attribute, but all we end up doing is banging our heads against the wall. Have goals, but have fun. Do not create anxiety out of nothing and maintain perspective. * Live Your Best: No such thing as giving 110%--can only do your best. Inspirational and entertaining, Hague's message is both simple and profound: perseverance isn't just something a person has, or a trait we admire in

others. Hague's book, like his life, is a guide to how we can all learn to persevere in the face of daily struggles--or even life-changing illness.
