A Love Like Ours (A Porter Family Novel Book #3) May 13 2020 2016 RITA Award Finalist Former Marine Jake Porter has far deeper scars than the one that marks his face. He struggles with symptoms of PTSD, lives a solitary life, and avoids relationships. When Lyndie James, Jake's childhood best friend, lands back in Holley, Texas, Jake cautiously hires her

to exercise his Thoroughbreds. Lyndie is tender-hearted, fiercely determined, and afraid of nothing, just like she was as a child. Jake pairs her with Silver Leaf, a horse full of promise but lacking in results, hoping she can solve the mystery of the stallion's reluctance to run. Though Jake and Lyndie have grown into very different adults, the bond that existed during their childhood still ties them together. Against Jake's will, Lyndie's sparkling, optimistic personality begins to tear down the walls he's built around his heart. A glimmer of the hope he'd thought he'd lost returns, but fears and regrets still plague him. Will Jake ever be able to love Lyndie like she deserves, or is his heart too shattered to mend? Mr. Dickens and His Carol Aug 16 2020 "A charming, comic, and ultimately poignant story about the creation of the most famous Christmas tale ever written. It's as foggy and haunted and redemptive as the original; it's all heart, and I read it in a couple of ebullient, Christmassy gulps." —Anthony Doerr, #1 New York Times bestselling author of *All The Light We Cannot See* Laced with humor, rich historical detail from Charles Dickens' life, and clever winks to his work, Samantha Silva's *Mr. Dickens and His Carol* is an irresistible new take on a cherished classic. Charles Dickens is not feeling the Christmas spirit. His newest book is an utter flop, the critics have turned against him, relatives near and far hound him for money. While his wife plans a lavish holiday party for their ever-expanding family and circle of friends, Dickens has visions of the poor house. But when his publishers try to blackmail him into writing a Christmas book to save them all from financial ruin, he refuses. And a serious bout of writer's block sets in. Frazzled and filled with self-doubt, Dickens seeks solace in his great palace of thinking, the city of London itself. On one of his long night walks, in a once-beloved square, he meets the mysterious Eleanor Lovejoy, who might be just the muse he needs. As Dickens' deadlines close in, Eleanor propels him on a Scrooge-like journey that tests everything he believes about generosity, friendship, ambition, and love. The story he writes will change Christmas forever.

Invitation to Psychology Apr 04 2022 *Invitation to Psychology* provides an introduction to fundamental concepts in psychology. It seeks to address the need of both teachers and students by offering two different kinds of chapters. The first variety covers the basic data and research within each of the traditional areas of psychology. In these "basic" chapters, the authors provide up-to-date and complete coverage of important developments in each area. The second type of chapter is innovative. These "exploring" chapters examine some of the practical applications and implications of the findings discussed in the basic chapters. These describe how basic psychological data are being used in the outside world, and discuss ongoing, often controversial explorations into some frontier areas of psychology. In other words, information about explorations and applications that is often scattered through the pages of other texts is brought together into systematic chapters in this text. The dual-chapter approach helps resolve the dilemma of differing expectations of teachers and students. Key topics covered include the definition of psychology; the psychological basis of behavior; sensation and perception; states of awareness; learning, memory, and cognition; motivation and emotion; abnormal psychology and social behavior.

Mismeasure of Woman Jul 27 2021 When "man is the measure of all things," woman is forever trying to measure up. In this enlightening book, Carol Tavris unmask the widespread but invisible custom -- pervasive in the social sciences, medicine, law, and history --

of treating men as the normal standard, women as abnormal. Tavris expands our vision of normalcy by illuminating the similarities between women and men and showing that the real differences lie not in gender, but in power, resources, and life experiences.
