Contrary to the common saying: we do want you to judge this new edition of Organizational Behavior by its front cover. Specifically, featured is that this is the 14th edition, it takes an "Evidence-Based Approach," and similar to the previous edition there are now three Luthans authors. This 14th edition is based on the foundation provided by the first mainline text which has become the classic for the study and understanding of organizational behavior. However, by taking an evidence based approach, this insures that, even though a classic, this new edition adds the most recent and relevant research to the most extensive, up-to-date reference-base of any organizational behavior text. By adding the two closely related authors (professor sons) literally pumps "new blood" into the sustainability of this classic text by Fred Luthans. Importantly, Fred has recently been recognized with: 1) Lifetime Achievement Award in Organizational Behavior; 2) Top 1% of Citation Count of all researchers in the world; and 3) the #1 most cited author in Organizational Behavior textbooks. Finally, this new edition recognizes that even though the theoretical framework and coverage largely remains, the context of organizational behavior is rapidly changing. This new edition reflects the "New Age" environment, but still holds to the premise that in today's organizations, success and competitive advantage still comes from the understanding, prediction, and effective management of human resources. With this new edition we invite you to continue the never-ending journey guided by the best organizational behavior theory, research, and application. Earn the grade you want in your course with the help of this invaluable tool. This Study Guide lists key learning objectives for each chapter, outlines key sections, provides self-test questions, and a set of problems similar to those in the book and those that may be used on

tests, with fully worked-out solutions. First published in 1913, Richard Parry's Valuation and Investment Tables has since become an essential tool for students and professionals in the study and practice of valuation and appraisal. The book provides a comprehensive set of some 30 different valuation and investment tables in one volume. In practice today, calculations are required for a variety of purposes which often justify more than one approach. With this in mind, Internal Rates of Return tables have been retained in a modified form. Using these tables, both growth and non-growth scenarios can be analysed for a more detailed appraisal of specific freehold property investments and to provide a basis for more in-depth investment advice. The Life Tables have been removed and replaced with a guide to calculating life interests from up to date census data. Although the tables will be used mainly by students and practising surveyors, they will also be useful to accountants and others concerned with various types of investment and financial calculations. That the book has reached its centenary year and thirteenth edition is a testament to its acclaim by the valuation and property professions in an era of calculators, smartphones and sophisticated spread sheet software and furthermore a tribute to the historical importance of Parry's original vision and continued legacy. In celebration of this milestone year there will be a limited edition leather slip cased version of the book available. Management: Skills and Application, 14e is a short, value-priced paperback that presents the fundamentals of management principles to undergraduate students. It continues its tradition of presenting principles of management in a straightforward and accessible manner, focusing on the essential skills that are needed to become a successful manager.
