Eschatology as Imagining the End

This book provides a comparative traditio-historical study of the full range of Qumran texts and recensions now available and of New Testament texts with regard to ideas about the final age, resurrection, apocalypticism, and messianism. The study of eschatology can be a daunting task, especially since the book of Revelation is one of the more difficult sections of the Bible to understand. As Steve Regnault makes clear in *The Study of Eschatology*, however, wrestling with the various approaches to end times theology doesn't have to be an overwhelming chore. By compiling pertinent passages and examining them through the lenses of the major perspectives on the subject, he makes the analysis of this important doctrine accessible to all believers. User-friendly grading charts assist readers in evaluating their own eschatological viewpoint. Appropriate for personal or group study, *The Study of Eschatology* lends an enlightening voice to a critical conversation. Fathers, sons, brothers, kings. Does the predominantly masculine symbolism of the Biblical writings exclude women or overlook the riches of their spiritual life? Janet Martin Soskice opens up the Bible's imagery for sex, gender, and kinship, by discussing its place in the central teachings of Christian theology. Discipleship is eschatological in nature, because the church that makes and receives disciples is eschatological in nature. Often eschatology is thought to refer only to "last things" doctrines. However, eschatology in its broader sense encompasses the Christian view of time and the future of the world, informing both one's evangelism and ecclesiology. Failing to relate the eschatological dimension to discipleship leaves one with an incomplete worldview, imbalanced discipleship, and eventually, a tragic inability to model the Christian way of life. By answering questions like "What time is it?" and "Where is history going?" Trevin Wax helps Christians view the past, present, and future biblically, and shapes their understanding of following Jesus. The 'temple action' of Jesus, popularly known as 'temple cleansing,' has been subjected to meticulous studies. Nevertheless, studies focussing on the Johannine version of the 'temple action' are surprisingly very few. The present work concentrates on the Johannine 'temple action' (Jn 2,13-22). The unique contribution of this book is that it has ventured to situate the 'temple action' of Jesus in contexts which have hitherto not been adequately considered in this respect. These significant contexts include the Pre-70 C. E. Jewish hopes concerning the eschatological temple and the Post-70 C.E. private, apocalyptic, rabbinic and political responses to the destruction of the Jerusalem temple. By placing the 'temple action' in the aforesaid contexts, and also in the context of the synoptic versions of the 'temple action,' this study clarifies why John presents Jesus as the temple, and what it means to say that Jesus' body is the temple. These contexts, besides throwing light to the 'temple action' of Jesus, also turn to be a powerful key to unravel the subtle nuances of much of the Johannine materia

Walter Kasper, Gerald O'Collins and Raymond E. Brown contribute to this book an initial overview of some eschatological themes and help to shed light on the complexities of reflection on this often neglected area of theology. Excerpt from *The Other Side of Death: A Study in Christian Eschatology* The following pages are an attempt to restate the doctrine of Christian eschatology in a systematic form, covering the field as a whole. It is not my purpose to deal with the general question of immortality, but only with those aspects of it leading up to and embraced within the Christian Revelation. The volume is addressed to the Christian mind and heart, and it is respectfully offered to my brethren of the Ministry, to whom these problems are very pressing, and to that large class of intelligent Christian laity who are rightly demanding from the Church some definite teaching on this subject. The minds of many within and without the Church are urgently asking for guidance on these matters, and it is due to these troubled souls to tell them as clearly and definitely as possible what the Bible has to say, and what are the principles it enunciates. This monograph discusses the rich variety of early Christian speculations on eschatological opponents as well as the Jewish roots of these speculations, showing both the continuity and the discontinuity between early Christianity and contemporary Judaism. Eschatology is the study of the last things: death, judgment, the afterlife, and the end of the world. Through centuries of Christian thought from the early Church fathers through the Middle Ages and the Reformation these issues were of the utmost importance. In other religions, too, eschatological concerns were central. After the Enlightenment, though, many religious thinkers began to downplay the importance of eschatology which, in light of rationalism, came to be seen as something of an embarrassment. The twentieth century, however, saw the rise of phenomena that placed eschatology back at the forefront of religious thought. From the rapid expansion of fundamentalist forms of Christianity, with their focus on the end times; to the proliferation of apocalyptic new religious movements; to the recent (and very public) debates about suicide, martyrdom, and paradise in Islam, interest in eschatology is once again on the rise. In addition to its popular resurgence, in recent years some of the world's most important theologians have returned eschatology to its former position of prominence. The *Oxford Handbook of Eschatology* will provide an important critical survey of this diverse body of thought and practice from a variety of perspectives: biblical, historical, theological, philosophical, and cultural. This volume will be the primary resource for students, scholars, and others interested in questions of our ultimate existence. "Death, judgement, heaven and hell - these are the 'Four Last Things' traditionally linked together under the heading of 'Eschatology'. In this book, John Robinson examines them all with trenchancy and lucidity, providing a new and vital understanding of how these themes relate to contemporary Christian life. In the End, God ... identifies a gap that exists in the treatment of eschatology within the Christian faith. As Robinson points out, eschatology had traditionally dealt with the last things in a way that is remote and removed from everyday life and Christianity, and the goal of his book is to make eschatology fully relevant to the modern world. Although it is commonly held that eschatology within modern Christianity is centred on the fact and moment of death, Robinson shows that the true nature of eschatology is something quite different. It is not about the last things after everything else, but rather is about the relation of all things to the 'last things' or, as it were, about the 'lastness' of all things. Revealing the foundation of biblical eschatology to be the experience of God by the community of faith, Robinson calls readers to embrace the eschatological vision of the Bible, but to do so in a way that is alert to its mythic character. In the course of these explorations he also lays bare his own theology of universal salvation. However, contrary to what one may expect, this universalism is one that seeks to take both human freedom and the reality of hell with the utmost seriousness. This special edition of John A.T. Robinson's classic text also includes an extended introductory essay by Professor Trevor Hart of the University of St Andrews, and an exchange between Robinson and Thomas F. Torrance, first published in 1949 in the *Scottish Journal of Theology*." The early part of this book is concerned with what it is in human existence that is addressed by the message of hope in the Scriptures. The final four chapters present that divine promise for human destiny and the understanding of it as it is reflected on in contemporary theology. Although directed mainly to advanced students of theology, this book discusses issues which are of interest to many believers today whose knowledge about matters of religion has not kept pace with their knowledge of the secular disciplines. deserve to be made available for future generations to enjoy. In-depth exegetical studies of five key biblical prophecy passages: Daniel's Seventy Weeks (Dan 9: 24-27); Jesus' Olivet Discourse (Matt 24:1-36); Paul's Man of Sin (2 Thess. 2:1-10); Revelation's the Beast (Rev. 13); and Revelation's Babylonian Harlot (Rev. 17). In these studies the author shows that each of these prophecies were fulfilled in the first century and were closely linked to the destruction of the Jewish temple in AD 70. The presentations are thoroughly evangelical and rigorously biblical. A traditio-historical study of three Pauline ideas concerning the eschatological resurrection. It sheds new light on both the continuity and discontinuity between early Christianity and Judaism with regard to eschatological expectations. A trusted theologian analyzes what Jesus said about his return and the last days. Stay current on eschatological issues in theology, biblical studies, and ethics with these essays from leading evangelical scholars. The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerical predictions. According to these, empires will fall, the "Beast" will be destroyed and Christ will rule a new Jerusalem. With an introduction by Will Self. Christians have often wondered about what might take place at the end of history. To answer their questions, they have turned to the Book of Revelation. This is a study of Emily Dickinson's religious poetry, which is chiefly eschatological. She probed intently the four Last Things: Death, Judgment, Hell, and Heaven. She valued mortality chiefly because of its relationship to immortality, considering death a concomitant of immortality but not necessarily a temporal one. Ignoring traditional views of Heaven and neglecting self-fulfillment in a worldly sense, she came to believe that eternity is immanent in time and that immortality is encompassed with time proleptically in eternity. This collection of essays explores the rhetoric and practices surrounding views on life after death and the end of the world, including the fate of the individual, apocalyptic speculation and hope for cosmological renewal, in a wide range of societies from Ancient Mesopotamia to the Byzantine era. The 42 essays by leading scholars in each field explore the rich spectrum of ways in which eschatological understanding can be expressed, and for which purposes it can be used. Readers will gain new insight into the historical contexts, details, functions and impact of eschatological ideas and imagery in ancient texts and material culture from the twenty-fifth century BCE to the ninth century CE. Traditionally, the study of "eschatology" (and related concepts) has been pursued mainly by scholars of Jewish and Christian scripture. By broadening the disciplinary scope but remaining within the clearly defined geographical milieu of the Mediterranean, this volume enables its readers to note comparisons and contrasts, as well as exchanges of thought and transmission of eschatological ideas across Antiquity. Cross-referencing, high quality illustrations and extensive indexing contribute to a rich resource on a topic of contemporary interest and relevance. Eschatology in Antiquity is aimed at readers from a wide range of academic disciplines, as well as non-specialists including seminary students and religious leaders. The primary audience will comprise researchers in relevant fields including Biblical Studies, Classics and Ancient History, Ancient Philosophy, Ancient Near Eastern Studies, Art History, Late Antiquity, Byzantine Studies and Cultural Studies. Care has been taken to ensure that the essays are accessible to undergraduates and those without specialist knowledge of particular subject areas. "Eschatology is the explication of what must be true of the end, both of history and of the individual, if God is to be the God of the biblical faith. All eschatological statements can finally be reduced to, and their validity tested by, sentences beginning: 'In the end, God . . .'" J. A. T. Robinson The God revealed in Israel's story is the Lord of history--a God with good purposes for his creation and a God capable of bringing those purposes to pass. All biblical eschatology arises from this fundamental theological insight. If God is this God then what shape must the future have? John A. T. Robinson explores biblical eschatology with an eye both to the text and to contemporary culture. Revealing the foundation of eschatology to be the experience of God by the community of faith, he calls readers to embrace the eschatological vision of the Bible, but to do so in a way that is alert to its mythic character. In the course of these explorations Robinson also lays bare his own theology of universal salvation. But, contrary to what one may expect, this universalism is one that seeks to take both human freedom and the reality of hell with the utmost seriousness. This special edition of John A. T. Robinson's classic text also includes a debate between Robinson and Thomas F. Torrance (played out across three articles from the Scottish Journal of Theology in 1949), an extended introduction by Professor Trevor Hart (University of St Andrews, Scotland), and a foreword by Gregory MacDonald (author of The Evangelical Universalist). Because of the prominence of prophecy in Scripture, many excellent books have appeared dealing with prophetic subjects. Until recently, however, the treatment of prophecy has been either apologetic or expository, and prophetic themes have been developed individually apart from their relation to the whole revealed prophetic program. Much of our knowledge has been only fragmentary and unrelated. Dr. Dwight Pentecost's monumental text, Things to Come, has changed all that. In this massive, highly successful book, Dr. Pentecost has synthesized the whole field of prophecy into a unified biblical doctrine, a systematic and complete biblical eschatology. With nearly a quarter of a million copies sold, Things to Come has earned its place in the library of the pastor, the scholar, and the seminarian or Bible institute student. In addition, it offers a comprehensive and accessible study for anyone interested in the important subject of biblical prophecy. As society becomes more concerned with the future of our planet, the study of apocalypse and eschatology become increasingly pertinent. Whether religious or not, peoples' views on this topic can have a profound effect on their attitudes to issues such as climate change and social justice and so it cannot be ignored. This book investigates how different approaches in historical and contemporary Christian theology make sense in reflecting about the final things, or the eschata, and why it is so important to consider their multi-faceted impact on our lives. A team of Nordic scholars analyse historical and contemporary eschatological thinking in a broad range of sources from theology and other related disciplines, such as moral philosophy, art history and literature. Specific social and environmental challenges, such as the Norwegian Breivik massacre in 2011, climatic change narratives and the ambiguity of discourses about euthanasia are investigated in order to demonstrate the complexity and significance of modes of thinking about the end times. This book addresses the theology of the end of the world in a more serious academic tone than it is usually afforded. As such, it will be of great interest to academics working in eschatology, practical theology, religious studies and the philosophy of religion. This study reconstructs the apocalyptic eschatology in Matthew's Gospel so we may understand his time and concerns. Sociological analysis of apocalypticism in Judaism and early Christianity shows that such a world view is adopted by a minority group in a time of great crisis. Matthew's distinctive and often vengeful vision must be set against his community's conflict with Judaism, Gentiles and the larger Christian movement and his acute need to enhance his community's sense of identity and out of pastoral concern. Schwarz guides readers through the range of opinions on the subject of the future, telling how readers' understanding of eschatology has developed and laying out the factors that must be considered when speaking meaningfully about the Christian hope in the 21st century. He surveys the teachings about the future in the Old and New Testaments and addresses the views of Christian and secular thinkers throughout history.
