[It Happened Tomorrow](#) Jun 20 2023 This anthology of 19 select stories presents the trends in Indian science fiction where the basic theme, be it any language, is primarily anthropocentric, dealing with the interplay between scientific developments and human emotions or societal foundations.

[Diary of a Short-sighted Adolescent](#) Apr 18 2023 The short-sighted adolescent is a passionate reader who takes various cultural figures as models, trying to emulate both their lives or their works. The pupil protagonist is a poor student, who likes science and reads a lot of books, sometimes staying up all night to do so. At the age of 17, he decides to write a novel to demonstrate to his teachers that he is not as mediocre as his other classmates, and that he is prepared to give up everything he holds dear in order to do so. The novel is written in a number of notebooks - the 'diary' of the title - but our myopic hero ultimately fails 3 subjects and has to repeat the school year. Set in the Romanian capital in the early 20th century, from the perspective of a schoolboy's diary of his daily life, - his teachers, his classmates' academic and amorous rivalries, his first sexual experiences - we are introduced to the themes of religion, self-knowledge, erotic sensibility, artistic creation and otherness, ideas which would preoccupy him until the end of his life. *Diary of a Short-Sighted Adolescent* was written by the young Mircea Eliade - one of Romania's greatest writers and intellectuals. The book can be viewed as an early 20th century 'Catcher in the Rye', and allows us an intimate view of the developing genius, whose literary output has been neglected in the English language for too long.

[Hybrid Conflicts and Information Warfare](#) Oct

20 2020 "What is hybrid warfare? And what role does information play in today's conflicts? In the context of the technological/information revolution of the last two decades—which has greatly amplified the danger posed by nonmilitary means of political struggle—Hybrid Conflicts and Information Warfare addresses these questions from the perspectives of both Western and Russian experts. Incorporating both theory and contemporary realities, including the case of the Islamic State, the authors offer a unique dialogue on the nature of conflict in the second decade of the twenty-first century."--Publisher's description.

[The Digitalization of the 21st Century Supply Chain](#) Apr 25 2021 The goal of this book is to gain a clear picture of the current status and future challenges with regard to the digitalization of the supply chain - from the perspective of the suppliers, the manufacturers, and the customers. They were the target groups of the book. Digitization has touched upon all aspects of businesses, including supply chains. Technologies such as RFID, GPS, and sensors have enabled organizations to transform their existing hybrid (combination of paper-based and IT-supported processes) supply chain structures into more flexible, open, agile, and collaborative digital models. Unlike hybrid supply chain models, which have resulted in rigid organizational structures, unobtainable data, and disjointed relationships with partners, digital supply chains enable business process automation, organizational flexibility, and digital management of corporate assets. In order to reap maximum benefits from digital supply chain models, it is important that companies internalize it as an integral part of the overall business model and organizational structure. Localized disconnected projects and silo-based operations pose a serious threat to competitiveness in an increasingly digital world. The technologies discussed in this text - artificial intelligence, 3D printing, Internet of things, etc. - are beginning to come together to help digitize, automate, integrate, and improve the global supply chains. It's certainly an exciting and challenging time for both new supply chain professionals and long-time supply chain professionals.

**The Geography of the Imagination** Jan 15 2023 In the 40 essays that constitute this collection, Guy Davenport, one of America's major literary critics, elucidates a range of literary history, encompassing literature, art, philosophy and music, from the ancients to the grand old men of modernism.

[Nurturing Dreams](#) Jul 29 2021 Unavailable as a collection until now, these essays document both the intellectual journey of one of the world's leading architects and a critical period in the evolution of architectural thought. Born in Tokyo, educated in Japan and the United States, and principal of an internationally acclaimed architectural practice, celebrated architect Fumihiko Maki brings to his writings

on architecture a perspective that is both global and uniquely Japanese. Influenced by post-Bauhaus internationalism, sympathetic to the radical urban architectural vision of Team X, and a participant in the avant-garde movement Metabolism, Maki has been at the forefront of his profession for decades. This collection of essays documents the evolution of architectural modernism and Maki's own fifty-year intellectual journey during a critical period of architectural and urban history. Maki's treatment of his two overarching themes—the contemporary city and modernist architecture—demonstrates strong (and sometimes unexpected) linkages between urban theory and architectural practice. Images and commentary on three of Maki's own works demonstrate the connection between his writing and his designs. Moving through the successive waves of modernism, postmodernism, neomodernism, and other isms, these essays reflect how several generations of architectural thought and expression have been resolved within one career.

**Man Down** Feb 21 2021 Ladies and gentlemen of the jury, everyone is familiar with the tired clichés: women are bad drivers and are not good with money; only guys play video games and they give bad directions. Dan Abrams tackles the toughest case of his career in *Man Down*. Drawing on years of legal experience and research studies, Abrams explains step-by-step why women are better than men in just about every way imaginable, from managing money to flying planes to living longer. Abrams uses his trademark charm to get his point across without opining on the issue himself. Chock-full of fun facts and conversation starters, this book may not end the debate of men versus women, but it will definitely make it more interesting. Praise for *Man Down*: "a provocative collection of bite-size pro-women essays" -Wall Street Journal "compelling, controversial" -Glamour "I've always liked Dan Abrams. And now that he's charmingly admitted what we all knew anyway, I like him even more!" -Liz Smith

*Multicultural Education* Mar 05 2022

Multicultural education is a set of strategies and materials in education, developed to assist teachers in promoting democracy while responding to the many issues created by the rapidly changing demographics of their students. Multicultural education means to ensure the highest levels of academic achievement for all students: it helps students develop a positive self-concept by providing knowledge about the histories, cultures, and contributions of diversity groups. Multicultural Education: From Theory to Practice - which includes the contributions of academics and researchers from two continents and 14 culturally-challenged countries - aims to provide a platform for multicultural education researchers to present new research and developments in the area. The contributors to the book approach the foundations of multicultural education, the political context of multicultural education, classroom practices in multicultural education, and language education in a multicultural context. This volume will appeal to a wide range of academic readership, including educators, researchers, social students, teacher trainers, and teachers of all subjects and of all levels, who wish to develop personally and professionally. It will also be useful to all those who interact, one way or another, with both students and teachers in a multicultural context.

**De Rerum Natura III** Nov 20 2020

Lucretius' poem, for which Epicurean philosophy provided the inspiration, attempts to explain the nature of the universe and its processes with the object of freeing mankind from religious fears. The third book not only seeks to demonstrate that, since the soul is mortal, there can be no after-life, but also aims to reconcile the reader to the prospect of the end of his consciousness. This edition incorporates a new text and prose translation and is designed to set the book in the context of the whole poem and of the Epicurean philosophical system, to explain and elucidate its argument, and at the same time to analyse some of the literary and artistic features which contribute to Lucretius' poetic achievement and stature. Latin text with facing page translation.
