makes a great Christmas Gift, back to school holiday, graduation, beginning of the school year gift for family, friends, your mother, sister, girlfriend, girl, boy, children

What clutter-busting need was behind the invention of the World Wide Web? Which stain-fighting chemical got its start when a lab assistant dropped a beaker on a lab floor? In S is for Scientists: A Discovery Alphabet, the origins behind some of the most important scientific discoveries are explored. Budding young scientists will learn what Galileo witnessed in a church that led to his theory of measurement; how biologist Rachel Carson's book, Silent Spring, helped to spur the first call to action in the environmental movement; and why Ivan Pavlov's study of a drooling dog laid the foundations for a new branch of psychology. From discoveries that fundamentally changed scientific methods to everyday inventions that are now taken for granted, S is for Scientists sheds light on the events and people who have shaped our lives today. A former teacher, Larry Verstraete now spends his time writing, visiting schools and libraries, and presenting at conferences and festivals. S is for Scientists: A Discovery Alphabet is his second picture book with Sleeping Bear Press. He lives in Winnipeg. David Geister's fascination with American history is celebrated in his work, and his paintings have been featured in The Saturday Evening Post. Dave's books for Sleeping Bear Press include B is for Battle Cry: A Civil War Alphabet and Riding to Washington. He lives in Minneapolis, Minnesota. Get ready for some royal alphabet fun with this Sofia the First board book! On each page, Sofia and her friends introduce a new letter of the alphabet with a sturdy die-cut letter to trace and colorful flaps to explore! Beneath each flap is a new word that connects characters to the featured letter. With over 100 flaps, this beautiful board book is sure to delight any young reader and Sofia the First fan! A guide to using the power of S-PLUS to perform statistical analyses, providing both an introduction to the program and a course in

modern statistical methods. Readers are assumed to have a basic grounding in statistics, thus the book is intended for would-be users, as well as students and researchers using statistics. Throughout, the emphasis is on presenting practical problems and full analyses of real data sets, with many of the methods discussed being modern approaches to topics such as linear and non-linear regression models, robust and smooth regression methods, survival analysis, multivariate analysis, tree-based methods, time series, spatial statistics, and classification. This second edition is intended for users of S-PLUS 3.3, or later, and covers both Windows and UNIX. It treats the recent developments in graphics and new statistical functionality, including bootstrapping, mixed effects linear and non-linear models, factor analysis, and regression with autocorrelated errors. The authors have written several software libraries which enhance S-PLUS, and these, plus all the datasets used, are available on the Internet.

Notebook Planner Bassquatch Bass Fishing s For Men Premium. This Notebook Planner Bassquatch Bass Fishing s For Men Premium is room for writing notes, stories, and ideas. The Sunshine State gets its own alphabet book! Florida, where "B is for Beaches, P is for Pirates, and V is for Vacationers," comes to life with playful, vivid illustrations by Michael Monroe and a conch shell full of fun facts and poems by Florida author and

educator Carol Crane. Do you know which city is the state capitol? Which fragrant blossom is the state flower? Learn all this and more with S is for Sunshine: A Florida Alphabet. From the manmade glitter of the Las Vegas strip to the natural splendor of Lake Tahoe, Nevada's riches go beyond the silver and gold found in Virginia City. S is for Silver showcases the hardy wildlife (the Desert Bighorn Sheep and the desert tortoise) and even harder pioneers (the builders of the Hoover Dam) who shaped Nevada's landscape and character. Eleanor Coerr began her professional life as a newspaper reporter and editor of a column for children. She taught children's literature at Monterey Peninsula College and creative writing at Chapman College in California. For the past 25 years, Eleanor has been writing children's books, lecturing, and visiting schools across the United States and abroad. Her previous children's books include Sadako and the Thousand Paper Cranes and The Big Balloon Race. Eleanor shares her time between Henderson, Nevada and Pebble Beach, California. Darcie Park was born and raised in Long Beach, California, and started drawing when she was five years old. She graduated with a BFA in illustration from California State University, Long Beach. She started her freelance illustration career in college and illustrated her first children's book, The Reluctant Dragon, her first year out of college. Darcie makes her home in Lake Tahoe. From the New York Times bestselling authors at Garden & Gun comes a lively compendium of Southern tradition and contemporary culture. The American South is a diverse region with its own vocabulary, peculiarities, and complexities. Tennessee whiskey may technically be bourbon, but don't let anyone in Kentucky hear you call it that. And while boiling blue crabs may be the norm across the Lowcountry in South Carolina and Georgia, try that in front of Marylanders and they're likely to put you in the pot. Now, from the editors of Garden & Gun comes this illustrated encyclopedia covering age-old traditions and

current culture. **S** Is for Southern contains nearly five hundred entries spanning every letter of the alphabet, with essays from notable Southern writers including: Roy Blount, Jr., on humidity Frances Mayes on the magnolia Jessica B. Harris on field peas Rick Bragg on Harper Lee Jon Meacham on the Civil War Allison Glock on Dolly Parton Randall Kenan on Edna Lewis The Lee Brothers on boiled peanuts Jonathan Miles on Larry Brown Julia Reed on the Delta This is the story of open access publishing - why it matters now, and for the future. In a world where information has never been so accessible, and answers are available at the touch of a fingertip, we are hungrier for the facts than ever before - something the Covid-19 crisis has brought to light. And yet, paywalls put in place by multi-billion dollar publishing houses are still preventing millions from accessing quality, scientific knowledge - and public trust in science is under threat. On 4 September 2018, a bold new initiative known as 'Plan S' was unveiled, kickstarting a world-wide shift in attitudes towards open access research. For the first time, funding agencies across continents joined forces to impose new rules on the publication of research, with the aim of one day making all research free and available to all. What followed was a debate of global proportions, as stakeholders asked: Who has the right to access publicly-funded research? Will it ever be possible to enforce change on a multi-billion dollar market dominated by five major players? Here, the scheme's founder, Robert-Jan Smits, makes a compelling case for Open Access, and reveals for the first time how he set about turning his controversial plan into reality - as well as some of the challenges faced along the way. In telling his story, Smits argues that the Covid-19 crisis has exposed the traditional academic publishing system as unsustainable.-- Presents words related to school for each letter of the alphabet, from alphabet to zero. The bestselling workbook and grammar guide, revised and updated! Hailed as one of the best books around for

teaching grammar, The Blue Book of Grammar and Punctuation includes easy-to-understand rules, abundant examples, dozens of reproducible quizzes, and pre- and post-tests to help teach grammar to middle and high schoolers, college students, ESL students, homeschoolers, and more.
