Ruffled Feathers Jan 25 2021 Nonso is thrilled that his time spent loafing at home is coming to an end. Two years after his secondary education is complete, he receives admittance to the University of Cottonfield to study economics. As he prepares to leave Enugu, it seems Nonso has finally put his academic struggles behind him. But what no one knows is that Nonso did not rely on his own merits to pass the university examination. Nonso quickly immerses himself in university life, becomes acquainted with

his roommates Tony, Max, and Tunde, and starts a sizzling love affair with Sandra, a fellow student. But when Nonso is attacked by two frat men one night, he begins a quest for protection that, with Tony's help, leads him to join a secret cult. After he is exposed to violent acts that threaten the university and his own life, Nonso journeys through evil where he learns what he is capable of as he becomes active in politics, finds self-confidence, and discovers that there are consequences for every choice in life. *Ruffled Feathers* is the riveting coming-of-age tale of a Nigerian undergraduates transformation as he matures from an unsure adolescent to a diehard cultist and finally to a philosophical man.

Software Engineering and Computer Systems, Part II May 09 2022 This Three-Volume-Set constitutes the refereed proceedings of the Second International Conference on Software Engineering and Computer Systems, ICSECS 2011, held in Kuantan, Malaysia, in June 2011. The 190 revised full papers presented

together with invited papers in the three volumes were carefully reviewed and selected from numerous submissions. The papers are organized in topical sections on software engineering; network; bioinformatics and e-health; biometrics technologies; Web engineering; neural network; parallel and distributed e-learning; ontology; image processing; information and data management; engineering; software security; graphics and multimedia; databases; algorithms; signal processing; software design/testing; e-technology; ad hoc networks; social networks; software process modeling; miscellaneous topics in software engineering and computer systems.

Ultimate FE Lecturer's Handbook May 17 2020
This invaluable handbook is designed for more experienced teachers in FE who have mastered the basics and are ready to re-visit their professional skills in the classroom. Written by two experienced teacher trainers with over 35 years of experience of FE between them, this practical guide is divided into three key areas: teaching and learning, working with learners and managing the learning process. Ros Clow and Trevor Dawn tackle key issues such as gaining learner interest, using role

play, working with the individual learner, managing disruptive behavior, juggling a busy workload, lesson preparation and team-teaching.

Proceedings of The Focus Conference (TFC 2022) Mar 27 2021 This is an open access book. It is a common cause globally that the abrupt emergence of Covid-19 wreaked havoc in all sectors, including the higher

education system. The sudden closure of campuses as a social distancing measure to prevent community transmission has shifted face-to-face classes to online teaching and learning, a transformative experiment for academics and students in most institutions. This has thrown the focus on utilising Learning Management Systems (LMS), eLearning tools and platforms for effective student engagement, which may have limitations of accessibility and affordability for many students. The pandemic has exposed the shortcomings of the current higher education system and the need for more training of academics and practitioners in digital technology to adapt to the rapidly changing educational climate. In the post-pandemic situation, eLearning and virtual education may become an integral part of the higher education system, hence the question of re-inventing higher education. The higher education institutions and universities need to plan the post-pandemic education and research strategies to ensure student learning outcomes and standards of educational quality. With the move to online teaching and learning, subsequently, traditional assessments followed and were adapted and adopted for online assessment.

Assessments lie at the heart of the teaching process. It shapes students' understanding of the curriculum and determines their ability to progress. Reflections on assessments during Covid-19 abounded with the challenges that both academics and students faced regarding online assessments, including cheating and quality assurance issues. The focus on quality extended to the quality of teaching and learning in general. Moreover, the pandemic brought about the question of staff and student health and psychosocial support also became important. For academics, the abrupt shift to adapt to working from home and implementing online learning has led to over-work, low work-life balance and compromised mental health. With a view on constructive and futuristic discourse, the sub-themes of the 2022 Focus conference encapsulate the current realities in the higher education sector and beyond. It further provides opportunities for an in-depth analysis based on the benefit of hindsight and foresight. The Organising Committee specifically coined the theme, *Re-inventing higher education: Insights, trends and lessons learnt from, specifically for the conference to reflect on and address the matters mentioned earlier. Academics,*

scholars, and practitioners in the higher education sector are called upon to share their research and express their perspectives on the reinvention of higher education.

Professor's Diary Dec 24 2020 An amazing first person narrative of one man's journey through life... Starting out as a very ordinary child, full of childish pranks, and an average student, who is not above playing truant from classes, or skipping studies till just before the exams, this is the story of the author's gradual growth into a rank-winner, an esteemed teacher, and a much regarded Professor and Principal, who goes on to win several national and international

awards and recognitions. Throughout the story, his commitment to truth and ethical standards, and his faith in his students and the genuine desire for their well - being stands out.. Unconditional faith in the Supreme, and a deep vein of spirituality, sustain him in times of crises, and he comes out of many trials unscathed..

Taylor's 7th Teaching and Learning Conference 2014 Proceedings Oct 14 2022
These conference proceedings showcase a rich and practical exchange of approaches and vital evidence-based practices taking place around the world. They clarify the complex challenges involved in bringing about a holistic educational environment in schools and institutes of higher learning that fosters greater understanding and offer valuable insights on how to avoid the pitfalls that come with rolling out holistic approaches to education. To do so, the proceedings focus on the subthemes Support and Development, Mobility and Diversity and Networking and Collaboration in Holistic Education.
