The 10th Edition of Confederate States Paper Money covers both Confederate and Southern States issues of the American Civil War (1861 - 1865) and the Reconstruction period & Know the value of your notes; prices are listed for six grades. & Exclusive photographs & Date on uncut sheets, advertising notes, errors, bogus and enigmatical issues. & The most complete coverage of Upham and other facsimile notes. & Fascinating information about the Confederacy and the individual Southern States. & Fore more than 40 years this catalog has been a primary source of data on Confederate currency. Confederate newspapers were beset by troubles: paper shortages, high ink prices, printers striking for higher pay, faulty telegraphic news service, and subscription prices insufficient to support their operations. But they also had the potential to be politically powerful, and their reporting of information--accurate or biased--shaped perceptions of the Civil War and its trajectory. The Atlanta Daily Intelligencer Covers the Civil War investigates how Atlanta's most important newspaper reported the Civil War in its news articles, editorial columns, and related items in its issues from April 1861 to April 1865. The authors show how The Intelligencer narrated the war's important events based on the news it received, at what points the paper (and the Confederate press, generally) got the facts right or wrong based on the authors' original research on the literature, and how the paper's editorial columns reflected on those events from an unabashedly pro-Confederate point of view. While their book focuses on The Intelligencer, Stephen Davis and Bill Hendrick also contribute to the scholarship on Confederate newspapers, emphasizing the papers' role as voices of Confederate patriotism, Southern nationalism, and contributors to wartime public morale. Their well-documented, detailed study adds to our understanding of the relationship between public opinion and misleading propaganda Turns to the written record to re-examine the building blocks of a nation Picking up where most historians conclude, Chelsea Stieber explores the critical internal challenge to Haiti's post-independence sovereignty: a civil war between monarchy and republic. What transpired was a war of swords and of pens, waged in newspapers and periodicals, in literature, broadsheets, and fliers. In her analysis of Haitian writing that followed independence, Stieber composes a new literary history of Haiti, that challenges our interpretations of both freedom struggles and the postcolonial. By examining internal dissent during the revolution, Stieber reveals that the very concept of freedom was itself hotly contested in the public sphere, and it was this inherent tension that became the central battleground for the guerre de plume—the paper war—that vied to shape public sentiment and the very idea of Haiti. Stieber's reading of post-independence Haitian writing reveals key insights into the nature of literature, its

relation to freedom and politics, and how fraught and politically loaded the concepts of "literature" and "civilization" really are. The competing ideas of liberté, writing, and civilization at work within postcolonial Haiti have consequences for the way we think about Haiti's role—as an idea and a discursive interlocutor—in the elaboration of black radicalism and black Atlantic, anticolonial, and decolonial thought. In so doing, Stieber reorders our previously homogeneous view of Haiti, teasing out warring conceptions of the new nation that continued to play out deep into the twentieth century. There is an expectation as part of the political landscape on how elected officials will behave, how they will conduct business, and how they will be a voice of the people. White Paper delves deep into the different types of leadership and how the character and decisions that

are made effect and preserve democracy. We are in need of a political reform that can be fulfilled by looking at the "old school political machine," a machine that many desire to no longer exist, as the people have spent years trying to defeat it in order to preserve democracy. Democracy is an outcome of the development of the political civilization of mankind. It is the common desire of people to be represented by legislatures that keep to the thinking, For the People, Of the People, By the People. These are the principles desired in politicians with the hope of finding a modern-day Lincoln re-emerge, and to end an already existing political Civil War. This book presents the little-studied story of the history and documents of the pardons, passes, paroles and promises of loyalty used by both North and South. The words of the loyalty oaths required for passes, paroles and pardons grew over time from a few simple lines to several paragraphs. Conditions were added and pre-qualifications modified. This history provides insights into the politics, culture and battlefield realities present during the conduct of the war. This two-volume collection of newspapers is one of the most important Civil War publications ever produced, and it brings the events of the war vividly in focus. A unique, of-the-moment perspective, it begins with the Nat Turner slave insurrection and covers every battle -- many by the local papers for a truly firsthand, up-close view. Lincoln's election, inauguration, and assassination are given full coverage. Caren's extensive collection includes many extremely rare Southern editions which would never be seen except in this remarkable publication. Loaded with engravings depicting battles, military leaders, and maps, this is an absolutely essential addition to any enthusiast's collection. Intriguing and Authoritative! Recapture the flavor and drama of American life in 1860 with a family of 9 paper dolls and their 36 authentic costumes. Formal and everyday attire includes hoop skirts and off-the-shoulder dresses for the ladies and military uniforms, cravats, and waistcoats for the gentlemen. "Very detailed, and quite lovely to look at." — The Civil War News. On February 4, 1861, the Confederate States of America was formed, and almost immediately the first Confederate notes were printed - the famous "Montgomery" notes. These would be followed by many designs over the next four years. The seventy different designs or "type" notes are eagerly sought today by collectors, historians and family historians, and a collection of Confederate currency offers fascinating insights into the tumultuous Civil-War period. Pierre Fricke examines these series of Confederate notes, highlighting the history and circumstances in which they were created. This easy-to-read, fun and educational book offers an introduction to the often beautiful notes that financed the Confederacy. Examines Abraham Lincoln's relationship with the press, arguing that he used such intimidation and manipulation techniques as closing down dissenting newspapers, pampering favoring newspaper men, and physically moving official telegraph lines. Drawings of soldiers and their foe can be cut out and set up. A description accompanys each figure. In the 'Battle in America' series well-known historical illustrator Peter Dennis breathes life back into the 19th century paper soldier, supplying all the artwork needed to create the armies which fought for and against the Union across the United States. Here the blue and the grey regiments can clash again, using simple rules from Veteran wargamer Andy Callan. Although the figures can be used with any of the

commercial sets of wargame rules, an introduction to wargaming and a simple set of rules by veteran wargamer Andy Callan is included, along with buildings, trees and even artillery along with daring rebel cavalry and colorful Zouaves. In Civil War Humor, author Cameron C. Nickels examines the various forms of comedic popular artifacts produced in America from 1861 to 1865, and looks at how wartime humor was created, disseminated, and received by both sides of the conflict. Song lyrics, newspaper columns, sheet music covers, illustrations, political cartoons, fiction, light verse, paper dolls, printed envelopes, and penny dreadfuls—from and for the Union and the Confederacy—are analyzed at length. Nickels argues that the war coincided with the rise of inexpensive mass printing in the United States and thus subsequently with the rise of the country's widely distributed popular culture. As such, the war was as much a "paper war"—involving the use of publications to disseminate propaganda and ideas about the Union and the Confederacy's positions—as one taking place on battlefields. Humor was a key element on both sides in deflating pretensions and establishing political stances (and ways of critiquing them). Civil War Humor explores how the combatants portrayed Jefferson Davis and Abraham Lincoln, life on the home front, battles, and African Americans. Civil War Humor reproduces over sixty illustrations and texts created during the war and provides close readings of these materials. At the same time, it places this corpus of comedy in the context of wartime history, economics, and tactics. This comprehensive overview examines humor's role in shaping and reflecting the cultural imagination of the nation during its most tumultuous period. "Anyone who is interested in Civil War logistics, wartime railroads, and the Cumberland Valley of Pennsylvania needs to read this study." —Eric J. Wittenberg, award-winning historian and author The Civil War was the first conflict in which railroads played a major role. Although much has been written about their role in general, little has been written about specific lines. The Cumberland Valley Railroad, for example, played an important strategic role by connecting Hagerstown, Maryland to Harrisburg, Pennsylvania. Its location enhanced its importance during some of the Civil War's most critical campaigns. Because of its proximity to major cities in the Eastern Theater, the Cumberland Valley Railroad was an enticing target for Confederate leaders and an invaluable resource for the Union Army. In October 1859, abolitionist John Brown used the CVRR in his fateful Harpers Ferry raid. The line was under direct threat by invading Confederates during the Antietam Campaign, and the following summer suffered serious damage during the Gettysburg Campaign. In 1864, Rebel raiders burned much of its headquarters town, Chambersburg, including the homes of many CVRR employees. The railroad was as vital to residents of the bustling and fertile Cumberland Valley as it was to the Union war effort. Targeted Tracks is grounded on the railway's voluminous reports, the letters and diaries of local residents and Union and Confederate soldiers, official reports, and newspaper accounts. The primary sources, combined with the expertise of the authors, bring this largely untold story to life. "Mingus and Wingert have done a splendid job telling the story of the industrial, economic, social, and military history of the CVRR . . . engaging." —Ted Alexander, chief historian (ret.), Antietam National Battlefield Comprises 165 letters written by the editor's great-great-grandfather, Oscar A. Stearns, his fiancée, Jennette L. Persons, and various members of their families. Most of the letter-writers were from Warren, Waitsfield, and Fayston, Vermont. From periscopes to homemade paper, uniforms to telegraphs, Great Civil War Projects You Can Build Yourself explores the Civil War era through hands-on building projects and activities using common household and craft store items. Detailed step-by-step instructions, diagrams, and templates for creating 25 Civil War projects, combined with historical background, facts and anecdotes, and biographies and trivia, give kids a hands-on way to experience the fascinating history of one of the most important eras in American history. 24 large — approximately 4 1/2" tall — two-sided, free-standing paper soldiers representing many different Union Army fighting units. Accurate, detailed recreations in full color. The National Tribune was the premier Union veterans' newspaper of the post-Civil War era. Launched in 1877 by a New York veteran to help his comrades and sway Congress to pass better pension laws, a short time later the National Tribune began publishing firsthand accounts penned by the veterans themselves, and did so for decades thereafter. This rich, overlooked, and underused source of primary material offers a gold mine of eyewitness accounts of battles, strategy, tactics, camp life, and much more. From generals to privates, the paper printed articles and long serials on everything from major battles such as Gettysburg and Antietam, to arguments about which battery fired the shot that killed General

Leonidas Polk, whether Grant's army was surprised at Shiloh, and just about every topic in between. Unbeknownst to many, a number of Confederate accounts were also published in the paper. Decades in the making, Dr. Rick Sauers' unique multi-volume reference work *The National Tribune Civil War Index: A Guide to the Weekly Newspaper Dedicated to Civil War Veterans, 1877-1943* lists every article (1877-1943). The first two volumes are organized by author, his unit, title, and page/column location. The third volume—the main index—includes a subject, author, and unit guide, as well as a “Unit as Sources” index that lists articles that mention specific commands but are written by soldiers who were not members of that unit. As an added bonus, this reference guide includes the contents of both the *National Tribune Scrapbook* and the *National Tribune Repository*, two short-lived publications that included articles by veterans, and a listing of the major libraries that have *National Tribune* holdings. Thanks to Dr. Sauers, Civil War researchers and writers worldwide now have easy access to the valuable contents of this primary source material. *A Press Divided* provides new insights regarding the sharp political divisions that existed among the newspapers of the Civil War era. These newspapers were divided between North and South, and also divided within the North and South. These divisions reflected and exacerbated the conflicts in political thought that caused the Civil War and the political and ideological battles within the Union and the Confederacy about how to pursue the war. In the North, dissenting voices alarmed the Lincoln administration to such a degree that draconian measures were taken to suppress dissenting newspapers and editors, while in the South, the Confederate government held to its fundamental belief in freedom of speech and was more tolerant of political attacks in the press. This volume consists of eighteen chapters on subjects including newspaper coverage of the rise of Lincoln, press reports on George Armstrong Custer, Confederate women war correspondents, Civil War photojournalists, newspaper coverage of the Emancipation Proclamation, and the suppression of the dissident press. This book tells the story of a divided press before and during the Civil War, discussing the roles played by newspapers in splitting the nation, newspaper coverage of the war, and the responses by the Union and Confederate administrations to press criticism. 24 large — approximately 4 1/2 inches tall — 2-sided free-standing Confederate soldiers from many different units. Detailed, accurate recreations in full color. Lawrence A. Kreiser, Jr.'s *Marketing the Blue and Gray* analyzes newspaper advertising during the American Civil War. Newspapers circulated widely between 1861 and 1865, and merchants took full advantage of this readership. They marketed everything from war bonds to biographies of military and political leaders; from patent medicines that promised to cure almost any battlefield wound to “secession cloaks” and “Fort Sumter” cockades. Union and Confederate advertisers pitched shopping as its own form of patriotism, one of the more enduring legacies of the nation's largest and bloodiest war. However, unlike important-sounding headlines and editorials, advertisements have received only passing notice from historians. As the first full-length analysis of Union and Confederate newspaper advertising, Kreiser's study sheds light on this often overlooked aspect of Civil War media. Kreiser argues that the marketing strategies of the time show how commercialization and patriotism became increasingly intertwined as Union and Confederate war aims evolved. Yankees and Rebels believed that buying decisions were an important expression of their civic pride, from “Union forever” groceries to “States Rights” sewing machines. He suggests that the notices helped to expand American democracy by allowing their diverse readership to participate in almost every aspect of the Civil War. As potential customers, free blacks and white women perused announcements for war-themed biographies, images, and other material wares that helped to define the meaning of the fighting. Advertisements also helped readers to become more savvy consumers and, ultimately, citizens, by offering them choices. White men and, in the Union after 1863, black men might volunteer for military service after reading a recruitment notice; or they might instead respond to the kind of notice for “draft insurance” that flooded newspapers after the Union and Confederate governments resorted to conscription to help fill the ranks. *Marketing the Blue and Gray* demonstrates how, through their sometimes-messy choices, advertising pages offered readers the opportunity to participate—or not—in the war effort. Meticulously rendered toy soldier collection in paper form includes easy-to-assemble, free-standing Union and Confederate soldiers, cannons, tents, flags, more — all in full color. 16 color plates.
