45 Medical School Recommendation Letters Apr 24 2023 When they prepare for medical school, few candidates take the time to acquire the caliber of recommendation letters they will need to distinguish themselves in a highly competitive applicant pool. This book, which was written by an Ivy League admissions expert, offers detailed advice to write (and get) persuasive letters that highlight the personal, academic and professional strengths the committee expects to see. It also includes 45 successful recommendation letters, including several that "explain" extenuating circumstances in a candidate's history (such as disappointing grades, a gap in employment, and low MCAT scores). At top medical schools, where the competition is fierce, the quality and depth of a candidate's reference letters can make the difference between acceptance and rejection. Whether you are an applicant who needs a persuasive letter of recommendation, or someone who has been asked to write one, this exceptional book is mandatory reading.

Atomic Habits Dec 28 2020 The #1 New York Times bestseller. Over 10 million copies sold! Tiny Changes, Remarkable Results No matter your goals, Atomic Habits offers a proven framework for improving--every day. James Clear, one of the world's leading experts on habit formation, reveals practical strategies that will teach you exactly how to form good habits, break bad ones, and master the tiny behaviors that lead to remarkable results. If you're having trouble changing your habits, the problem isn't you. The problem is your system. Bad habits repeat themselves again and again not because you don't want to change, but because you have the wrong system for change. You do not rise to the level of your goals. You fall to the level of your systems. Here, you'll get a proven system that can take you to new heights. Clear is known for his ability to distill complex topics into simple behaviors that can be easily applied to daily life and work. Here, he draws on the most proven ideas from biology, psychology, and neuroscience to create an easy-to-understand guide for making good habits inevitable and bad habits impossible. Along the way, readers will be inspired and entertained with true stories from Olympic gold medalists, award-winning artists, business leaders, life-saving physicians, and star comedians who have used the science of small habits to master their craft and vault to the top of their field. Learn how to: make time for new habits (even when life gets crazy); overcome a lack of motivation and willpower; design your environment to make success easier; get back on track when you fall off course; ...and much more. Atomic Habits will reshape the way you think about progress and success, and give you the tools and strategies you need to transform your habits--whether you are a team looking to win a championship, an organization hoping to redefine an industry, or simply an individual who wishes to quit smoking, lose weight, reduce stress, or achieve any other goal.

The New Rules of Work Sep 17 2022 "In this definitive guide to the ever-changing modern workplace, Kathryn Minshew and Alexandra Cavoulacos, the co-founders of popular career website TheMuse.com, show how to play the game by the New Rules. The Muse is known for sharp, relevant, and get-to-the-point advice on how to figure out exactly what your values and your skills are and how they best play out in the marketplace. Now Kathryn and Alex have gathered all of that advice and more in The New Rules of Work. Through quick exercises and structured tips, the authors will guide you as you sort through your countless options; communicate who you are and why you are valuable; and stand out from the crowd. The New Rules of Work shows how to choose a perfect career path, land the best job, and wake up feeling excited to go to work every day-- whether you are starting out in your career, looking to move ahead, navigating a mid-career shift, or anywhere in between"--

The Flood Girls Aug 24 2020 "Welcome to Quinn, Montana, population: 956. A town where nearly all of the volunteer firemen are named Jim, where The Dirty Shame--the only bar in town--refuses to serve mixed drinks (too much work), where the locals hate the newcomers (then again, they hate the locals, too), and where the town softball team has never even come close to having a winning season. Until now. Rachel Flood has snuck back into town after leaving behind a trail of chaos nine years prior. She's here to make amends, but nobody wants to hear it, especially her mother Laverna. But with the help of a local boy named Jake and a little soul-searching, she just might make things right."--Amazon.com.

National Survey Data on Food Consumption: Uses and Recommendations May 01 2021

Letter of Recommendation for Mr. Porter, an Agent for the Sale of Books Feb 22 2023

Dear Committee Members May 25 2023 "Like Richard Russo's Straight Man this book has a lot to say about the humanities in American colleges and universities.... Very funny and also moving." —Tom Perrotta, New York Post A BEST BOOK OF THE YEAR: NPR and Boston Globe Finally a novel that puts the "pissed" back into "epistolary." Jason Fitger is a beleaguered professor of creative writing and literature at Payne University, a small and not very distinguished liberal arts college in the midwest. His department is facing draconian cuts and squalid quarters, while one floor above them the Economics Department is getting lavishly remodeled offices. His once-promising writing career is in the doldrums, as is his romantic life, in part as the result of his unwise use of his private affairs for his novels. His star (he thinks) student can't catch a break with his brilliant (he thinks) work Accountant in a Bordello, based on Melville's Bartleby. In short, his life is a tale of woe, and the vehicle this droll and inventive novel uses to tell that tale is a series of hilarious letters of recommendation that Fitger is endlessly called upon by his students and colleagues to produce, each one of which is a small masterpiece of high dudgeon, low spirits, and passive-aggressive strategies. We recommend Dear Committee Members to you in the strongest possible terms. Don't miss Julie Schumacher's new novel, The English Experience, coming soon.

The Book Club Journal Jul 23 2020 Keep track of your book club selections and record your latest literary adventures with this reading journal to stay organized for your next meeting! Book clubs are a great way to read new books and discover different genres and new topics that you may not be too familiar with. You can share your thoughts in a social setting and enjoy interesting conversations that might open your eyes to other opinions about the book. But all too often we forget the best details once the book is finished and put back on the shelf. With The Book Club Journal, you can collect and remember all your important thoughts and feelings so that you can reflect on them for future meetings or rereadings. Made specifically for book club members, this journal has prompts for all the basic book stats, such as the title, author, and who suggested the book, along with book club specific questions like "How does this book compare with the titles we have read previously?" This fun and useful journal also includes reference pages with lists of classic book club must-reads, and room for you to create your very own to-read list.

Parallel Lives Apr 12 2022 In her study of the married couple as the smallest political unit, Phyllis Rose uses the marriages of five Victorian writers who wrote about their own lives with unusual candor: Charles Dickens, John Ruskin,

Thomas Carlyle, John Stuart Mill, and George Eliot--née Marian Evans.

Learning and Understanding Nov 07 2021 This book takes a fresh look at programs for advanced studies for high school students in the United States, with a particular focus on the Advanced Placement and the International Baccalaureate programs, and asks how advanced studies can be significantly improved in general. It also examines two of the core issues surrounding these programs: they can have a profound impact on other components of the education system and participation in the programs has become key to admission at selective institutions of higher education. By looking at what could enhance the quality of high school advanced study programs as well as what precedes and comes after these programs, this report provides teachers, parents, curriculum developers, administrators, college science and mathematics faculty, and the educational research community with a detailed assessment that can be used to guide change within advanced study programs.

How to Write Successful Letters of Recommendation Jul 27 2023 Letters of recommendation are a part of every standard school or job application. As an employer, professor, colleague, peer, or friend, chances are that at one point or another, you will be asked to put a person on paper and every word counts. How to Write Successful Letters of Recommendation is your one-stop source for painting the perfect picture in just one short letter. You will learn everything you need to know about writing the perfect letter of recommendation that will get your friend, colleague, or student accepted or hired. The most effective letters of recommendation are accurate, succinct, descriptive, and powerful, and include realistic evaluations of performance and capability. With ideas about how to start your letter and topics to include, this complete guide will teach you how to do just that, as you construct the perfect letter from start to finish. Outlined in ten easy steps, this complete guide gives you the tools you need to write reference letters that your employees, colleagues, students, and friends will appreciate. This book is filled with tips and tricks for personalizing the letter and making your friend, student, employee, or coworker shine. With a word bank of powerful phrases and descriptive words, you'll have everything you need to make your letter stand out at your fingertips. Sample letters of recommendation are also included, along with explanations of why each one is effective and tips for replicating these letters in just minutes. You will learn about the different types of recommendation letters, from employment to academic to volunteer, and how to direct your letter to the appropriate audience. You'll even learn what to do if someone you haven't worked with closely asks you to be a reference, or how to deal with being asked for hundreds of recommendations at once. This exhaustively researched book will even teach you how to politely avoid writing letters for those people you aren't quite comfortable recommending. The Companion CD-ROM is filled with templates, examples, word banks, and worksheets, so that you can easily learn to verify experience, confirm competence, build credibility, and bolster confidence with just a simple letter. A recommendation is more than just a letter; it's often make-or-break in a candidate's application for school, volunteering, or employment. With the step-by-step instructions and writing guidelines in this book, you will learn how to write introductions; opening statements; the body, including a well-written, vivid assessment of character and work ethic; and a strong conclusion. This new book will also teach you how to appropriately sign your letter, and will provide you with tips of re-reading and editing it to make sure you gave an effective recommendation. We spent hundreds of hours interviewing high school teachers, college professors, employers, and more who have nailed the art of composing effective communications. With How to Write Successful Letters of Recommendation, your employees, colleagues, students, and friends will see you as their go-to source to helping them succeed in their next big venture.

Guidelines for the Psychosocially Assisted Pharmacological Treatment of Opioid Dependence Dec 08 2021 "These guidelines were produced by the World Health Organization (WHO), Department of Mental Health and Substance Abuse, in collaboration with the United Nations Office on Drugs and Crime (UNODC) a Guidelines Development Group of technical experts, and in consultation with the International Narcotics Control Board (INCB) secretariat and other WHO departments. WHO also wishes to acknowledge the financial contribution of UNODC and the Joint United Nations Programme on HIV/AIDS (UNAIDS) to this project. " - p. iv

Getting Your First Job For Dummies Oct 06 2021 Find—and land—your first job! Finding a job can seem daunting, especially when it's a brand new experience. Soundbite Apr 19 2020 Crack the code to college admissions and help students craft the ultimate statement of self-identity and get into their school of choice with this groundbreaking guide from America's College Counselor. On average, an admissions committee takes seconds to decide whether to admit a student. They must sum up the student in one sentence that will tell them if a student is going to be a good fit for their program. What is the best way to transform this admissions process from a stressful, pressure-cooker arms race into an empowering journey that paves the way to the best individual outcome? Written by a college admissions insider turned consultant, Soundbite guides parents and students through the admissions process from start to finish. Armed with her knowledge of how the system works, Sara Harberson shares tried-and-tested exercises that have helped thousands of students gain admission to their school of choice. The soundbite, her signature tool, presents an opportunity for students to take the reins to craft their ultimate statement of self-identity and formulate their own personal definition of what is best. With this soundbite in place as their foundation, students achieve maximum impact when they present themselves to colleges. In doing so, the tables are turned: the student's fate no longer rests on a soundbite composed by an admissions officer. Instead, the student employs their own soundbite to define themselves on their own terms. Soundbite shifts the way we talk about the admissions process—from "Getting You In" to "Getting the Best You In."

How to Write Powerful Letters of Recommendation Aug 28 2023 Offers advice and suggestions to educators on how to write powerful letters of recommendation for students with post-secondary plans, and features fifty-two sample letters that highlight the special skills or qualities of different types of students.

The U.S. Commitment to Global Health Nov 26 2020 Health is a highly valued, visible, and concrete investment that has the power to both save lives and enhance the credibility of the United States in the eyes of the world. While the United States has made a major commitment to global health, there remains a wide gap between existing knowledge and tools that could improve health if applied universally, and the utilization of these known tools across the globe. The U.S. Commitment to Global Health concludes that the U.S. government and U.S.-based foundations, universities, nongovernmental organizations, and commercial entities have an opportunity to improve global health. The book includes recommendations that these U.S. institutions: increase the utilization of existing interventions to achieve significant health gains; generate and share knowledge to address prevalent health problems in disadvantaged countries; invest in people, institutions, and capacity building with global partners; increase the quantity and quality of U.S. financial commitments to global health; and engage in respectful partnerships to improve global health. In doing so, the U.S. can play a major role in saving lives and improving the quality of life for millions around the world.

The City Jun 14 2022

WHO Recommendations for Augmentation of Labour Aug 04 2021 Optimizing outcomes for women in labor at the global level requires evidence-based guidance of health workers to improve care through appropriate patient selection and use of effective interventions. In this regard, the World Health Organization (WHO) published recommendations for induction of labor in 2011. The goal of the present guideline is to consolidate the guidance for effective interventions that are needed to reduce the global burden of prolonged labor and its consequences. The primary target audience includes health professionals responsible for developing national and local health protocols and policies, as well as obstetricians, midwives, nurses, general medical practitioners, managers of maternal and child health programs, and public health policy-makers in all settings.

100 Winner Letters of Recommendation Jun 02 2021 Learn how to write a persuasive recommendation letter that makes a DIFFERENCE! At top universities and colleges, the competition among candidates is fierce. Therefore, the quality of a candidate's application plays the key role. If you're a college professor, the examples in this book will inspire you to support your students strongly as they apply to graduate programs. For every graduate student and teacher's bookshelf!

Destination Recommendation Systems May 13 2022 Bringing together the work of leading researchers, this book provides a clear and accessible overview of current research on destination recommendation systems. These systems guide consumer behaviour by enabling Internet users to quickly and effectively find relevant information about travel destinations, attractions, accommodation and transportation. The chapters in this book cover consumer behaviour, perceptual factors influencing consumer choice, and the design of destination recommendation systems. The book examines four different types of destination marketing system and concludes by analysing the future of recommendation systems for travellers.

Scientific Teaching Aug 16 2022 Seasoned classroom veterans, pre-tenured faculty, and neophyte teaching assistants alike will find this book invaluable. HHMI Professor Jo Handelsman and her colleagues at the Wisconsin Program for Scientific Teaching (WPST) have distilled key findings from education, learning, and cognitive psychology and translated them into six chapters of digestible research points and practical classroom examples. The recommendations have been tried and tested in the National Academies Summer Institute on Undergraduate Education in Biology and through the WPST. Scientific Teaching is not a prescription for better teaching. Rather, it encourages the reader to approach teaching in a way that captures the spirit and rigor of scientific research and to contribute to transforming how students learn science.

Recommendation Engines Jan 21 2023 How companies like Amazon and Netflix know what "you might also like": the history, technology, business, and social impact of online recommendation engines. Increasingly, our technologies are giving us better, faster, smarter, and more personal advice than our own families and best friends. Amazon already knows what kind of books and household goods you like and is more than eager to recommend more; YouTube and TikTok always have another video lined up to show you; Netflix has crunched the numbers of your viewing habits to suggest whole genres that you would enjoy. In this volume in the MIT Press's Essential Knowledge series, innovation expert Michael Schrage explains the origins, technologies, business applications, and increasing societal impact of recommendation engines, the systems that allow companies worldwide to know what products, services, and experiences "you might also like." Schrage offers a history of recommendation that reaches back to antiquity's oracles and astrologers; recounts the academic origins and commercial evolution of recommendation engines; explains how these systems work, discussing key mathematical insights, including the impact of machine learning and deep learning algorithms; and highlights user experience design challenges. He offers brief but incisive case studies of the digital music service Spotify; ByteDance, the owner of TikTok; and the online personal stylist Stitch Fix. Finally, Schrage considers the future of technological recommenders: Will they leave us disappointed and dependent—or will they help us discover the world and ourselves in novel and serendipitous ways?

Reinventing Government: Status of NPR Recommendations at 10 Federal Agencies May 21 2020 The Nat. Performance Rev. (NPR) was launched in Mar. 1993, when Pres. Clinton announced a 6-month review of the Fed. Gov't. to be led by V.P. Gore. This report is the 5th issued by NPR. It provides info. on NPR's 1993 and 1995 recommendations that related to 10 Fed. agencies: DoD, Energy, HUD, Nat. Weather Serv., Census Bureau, HCFA, FAA, and IRS; the Social Sec. Admin. and the GSA. This report: identifies and discusses the factors influencing NPR's reform efforts; provides info. on the implem. status of the recommend. NPR made to 10 agencies; and provides info. about the effects that the 10 agencies reported they achieved by implementing these recommendations.

The Elegant Pitch Jun 21 2020 "We're sorry but your recommendation wasn't approved." We've all heard those words; it's a sentence that swallows your hopes and crushes your confidence. Getting ideas or projects approved and securing the resources needed to implement them is one of the greatest challenges business leaders face. With multiple stakeholders, constrained budgets, and competing agendas, it's difficult to cut through the clutter and garner the required support. The Elegant Pitch provides a simple, proven process to go from idea to approval more quickly and effectively than ever before. This is the same method used by elite strategy consulting firms such as McKinsey & Co. and Bain Consulting. But you don't have to be a high-priced consultant to master a process that promises: Clearer and more compelling recommendations and ideas. Shorter and crisper communications. Greater efficiency. Shorter and fewer meetings. More efficient decision-making processes. A higher likelihood of getting your recommendations approved. Do less work, hold fewer and shorter meetings, and get ideas approved on the first pass? Sign me up! By using the methods in The Elegant Pitch, you can get to "yes" more quickly and drive the results that set you apart from the crowd.

The Professor Is In Jul 03 2021 The definitive career guide for grad students, adjuncts, post-docs and anyone else eager to get tenure or turn their Ph.D. into their ideal job Each year tens of thousands of students will, after years of hard work and enormous amounts of money, earn their Ph.D. And each year only a small percentage of them will land a job that justifies and rewards their investment. For every comfortably tenured professor or well-paid former academic, there are countless underpaid and overworked adjuncts, and many more who simply give up in frustration. Those who do make it share an important asset that separates them from the pack: they have a plan. They understand exactly what they need to do to set themselves up for success. They know what really moves the needle in academic job searches, how to avoid the all-too-common mistakes that sink so many of their peers, and how to decide when to point their Ph.D. toward other, non-academic options. Karen Kelsky has made it her mission to help readers join the select few who get the most out of their Ph.D. As a former tenured professor and department head who oversaw numerous academic job searches, she knows from experience exactly what gets an academic applicant a job. And as the creator of the popular and widely respected advice site The Professor is In, she has helped countless Ph.D.'s turn themselves into stronger applicants and land their dream careers. Now, for the first time ever, Karen has poured all her best advice into a single handy guide that addresses the most important issues facing any Ph.D., including: -When, where, and what to publish -Writing a foolproof grant application -Cultivating references and crafting the perfect CV -Acing the job talk and campus interview -Avoiding the adjunct trap -Making the leap to nonacademic work, when the time is right The Professor Is In addresses all of these issues, and many more.

Building Communities of Engaged Readers Feb 10 2022 Reading for pleasure urgently requires a higher profile to raise attainment and increase children's engagement as self-motivated and socially interactive readers. Building Communities of Engaged Readers highlights the concept of 'Reading Teachers' who are not only knowledgeable about texts for children, but are aware of their own reading identities and prepared to share their enthusiasm and understanding of what being a reader means. Sharing the processes of reading with young readers is an innovative approach to developing new generations of readers. Examining the interplay between the 'will and the skill' to read, the book distinctively details a reading for pleasure pedagogy and demonstrates that reader engagement is strongly influenced by relationships between children, teachers, families and communities. Importantly it provides compelling evidence that reciprocal reading communities in school encompass: a shared concept of what it means to be a reader in the 21st century; considerable teacher and child knowledge of children's literature and other texts; pedagogic practices which acknowledge and develop diverse reader identities; spontaneous 'inside-text talk' on the part of all members; a shift in the focus of control and new social spaces that encourage choice and children's rights as readers. Written by experts in the literacy field and illustrated throughout with examples from the project schools, it is essential reading for all those concerned with improving young people's enjoyment of and attainment in reading.

Recommendations for Reorganization of the Executive Branch Oct 26 2020

Perfect Phrases for Letters of Recommendation Jul 15 2022 Expert advice for helping an applicant's chances of acceptance by choosing the right words and phrases As a teacher, professor, or an employer, you are often called upon for letters of recommendation--and probably as often find yourself stumped about what to say. It can be a daunting task when someone's future is in the balance. Finally, you will discover how average individuals became celebrities through the power of recommendation! This book is a must read for anyone and everyone wanting to increase their recognition and start gaining valuable recommendations!

Recommendation of the Council on Regulatory Policy and Governance Mar 23 2023 This set of guidelines provides the measures by which governments can implement or advance regulatory reform.

The New PhD Mar 11 2022 By fixing the PhD, we can benefit the entire educational system and the life of our society along with it.

Dietary Reference Intakes for Vitamin A, Vitamin K, Arsenic, Boron, Chromium, Copper, Iodine, Iron, Manganese, Molybdenum, Nickel, Silicon, Vanadium, and Zinc Mar 31 2021 This volume is the newest release in the authoritative series issued by the National Academy of Sciences on dietary reference intakes (DRIs). This series provides recommended intakes, such as Recommended Dietary Allowances (RDAs), for use in planning nutritionally adequate diets for individuals based on age and gender. In addition, a new reference intake, the Tolerable Upper Intake Level (UL), has also been established to assist an individual in knowing how much is "too much" of a nutrient. Based on the Institute of Medicine's review of the scientific literature regarding dietary micronutrients, recommendations have been formulated regarding vitamins A and K, iron, iodine, chromium, copper, manganese, molybdenum, zinc, and other potentially beneficial trace elements such as boron to determine the roles, if any, they play in health. The book also: Reviews selected components of food that may influence the bioavailability of these compounds. Develops estimates of dietary intake of these compounds that are compatible with good nutrition throughout the life span and that may decrease risk of chronic disease where data indicate they play a role. Determines Tolerable Upper Intake levels for each nutrient reviewed where adequate scientific data are available in specific population subgroups. Identifies research needed to improve knowledge of the role of these micronutrients in human health. This book will be important to professionals in nutrition research and education.

First Day to Final Grade Feb 27 2021 Publisher description

College Essay Essentials Sep 05 2021 Writing an amazing college admission essay is easier than you think! So you're a high school senior given the task of writing a 650-word personal statement for your college application. Do you tell the story of your life, or a story from your life? Do you choose a single moment? If so, which one? The options seem endless. Lucky for you, they're not. College counselor Ethan Sawyer (aka The College Essay Guy) will show you that there are only four (really, four!) types of college admission essays. And all you have to do to figure out which type is best for you is answer two simple questions: 1. Have you experienced significant challenges in your life? 2. Do you know what you want to be or do in the future? With these questions providing the building blocks for your essay, Sawyer guides you through the rest of the process, from choosing a structure to revising your essay, and answers the big questions that have probably been keeping you up at night: How do I brag in a way that doesn't sound like bragging? and How do I make my essay, like, deep? Packed with tips, tricks, exercises, and sample essays from real students who got into their dream schools, *College Essay Essentials* is the only college essay guide to make this complicated process logical, simple, and (dare we say it?) a little bit fun.

Hands-On Recommendation Systems with Python Oct 18 2022 With *Hands-On Recommendation Systems with Python*, learn the tools and techniques required in building various kinds of powerful recommendation systems (collaborative, knowledge and content based) and deploying them to the web Key Features Build industry-standard recommender systems Only familiarity with Python is required No need to wade through complicated machine learning theory to use this book Book Description Recommendation systems are at the heart of almost every internet business today; from Facebook to Netflix to Amazon. Providing good recommendations, whether it's friends, movies, or groceries, goes a long way in defining user experience and enticing your customers to use your platform. This book shows you how to do just that. You will learn about the different kinds of recommenders used in the industry and see how to build them from scratch using Python. No need to wade through tons of machine learning theory—you'll get started with building and learning about recommenders as quickly as possible. In this book, you will build an IMDB Top 250 clone, a content-based engine that works on movie metadata. You'll use collaborative filters to make use of customer behavior data, and a Hybrid Recommender that incorporates content based and collaborative filtering techniques With this book, all you need to get started with building recommendation systems is a familiarity with Python, and by the time you're finished, you will have a great grasp of how recommenders work and be in a strong position to apply the techniques that you will learn to your own problem domains. What you will learn Get to grips with the different kinds of recommender systems Master data-wrangling techniques using the pandas library Building an IMDB Top 250 Clone Build a content based engine to recommend movies based on movie metadata Employ data-mining techniques used in building recommenders Build industry-standard collaborative filters using powerful algorithms Building Hybrid Recommenders that incorporate content based and collaborative filtering Who this book is for If you are a Python developer and want to develop applications for social networking, news personalization or smart advertising, this is the book for you. Basic knowledge of machine learning techniques will be helpful, but not mandatory.

Letters of Recommendation Jun 26 2023 Here is an antidote to the talk about failing schools, education reform, test scores, teacher-value, curricular controversies, school choice. It is about what counts—a young person's self-formation and a teacher's work to support it. It's a quiet book, an illustration of what happens as thoughtful students interact with sensitive adults. Its title, *Letters of Recommendation*, hints at the angst felt about getting accepted by college, employer, and the world at large. But that angst hides the real challenge—forming an aware, purposeful sense of self. *Letters of Recommendation* shows this pedagogical problem when all the externals are right. Emilia, a girl who seemingly has it all, asks an admired teacher, Doc, for a letter of recommendation supporting early admission to a top college. Emilia withdraws the request, beginning to doubt what she's doing, and why, and what she really wants in life. Doc senses her unease. Letters result, back and forth through the school year, with subtle attention to the girl's emerging sense of self and the teacher's presence, both humane and professional. The year ends, the exchange stops; life's externals appear settled for now, with the larger questions deepened, but still open, as they always are. Letters offers no easy steps, no how-to's, no magic methods. Instead, it heightens awareness of what goes on as good education takes place. It affirms a student's self-reliance in the face of felt uncertainties and a teacher's trust that her presence as a full, human person has value and meaning in the work of education. The letters themselves do not exemplify an instructional method, but serve to direct attention to the inner lives of a student and her teacher. The letters create a thought-provoking book, a pedagogical dialogue. And the dialogue's privileged setting does not celebrate the rich and famous. It is a way to set aside the material complications, which intrude in our lives and make it difficult to concentrate on what is essential, not only for the few, but for each and all.

The Health Effects of Cannabis and Cannabinoids Jan 09 2022 Significant changes have taken place in the policy landscape surrounding cannabis legalization, production, and use. During the past 20 years, 25 states and the District of Columbia have legalized cannabis and/or cannabidiol (a component of cannabis) for medical conditions or retail sales at the state level and 4 states have legalized both the medical and recreational use of cannabis. These landmark changes in policy have impacted cannabis use patterns and perceived levels of risk. However, despite this changing landscape, evidence regarding the short- and long-term health effects of cannabis use remains elusive. While a myriad of studies have examined cannabis use in all its various forms, often these research conclusions are not appropriately synthesized, translated for, or communicated to policy makers, health care providers, state health officials, or other stakeholders who have been charged with influencing and enacting policies, procedures, and laws related to cannabis use. Unlike other controlled substances such as alcohol or tobacco, no accepted standards for safe use or appropriate dose are available to help guide individuals as they make choices regarding the issues of if, when, where, and how to use cannabis safely and, in regard to therapeutic uses, effectively. Shifting public sentiment, conflicting and impeding scientific research, and legislative battles have fueled the debate about what, if any, harms or benefits can be attributed to the use of cannabis or its derivatives, and this lack of aggregated knowledge has broad public health implications. *The Health Effects of Cannabis and Cannabinoids* provides a comprehensive review of scientific evidence related to the health effects and potential therapeutic benefits of cannabis. This report provides a research agenda—outlining gaps in current knowledge and opportunities for providing additional insight into these issues—that summarizes and prioritizes pressing research needs.

Review of the Draft Research and Restoration Plan for Arctic-Yukon-Kuskokwim (Western Alaska) Salmon Jan 29 2021 Declines in the abundance of salmon in the Arctic-Yukon-Kuskokwim (AYK) region of western Alaska in the late 1990s and early 2000s created hardships for the people and communities who depend on this resource. Based on recommendations from a 2004 National Academies report, the AYK Sustainable Salmon Initiative (SSI)

developed a research and restoration plan to help understand the reasons for this decline and to help support sustainable management in the region. This report reviews the draft plan, recommending some clarification, shortening, and other improvements, with a better focus on the relationship between the underlying intellectual model and the research questions, and a clearer discussion of local and traditional knowledge and capacity building.

The Rabbit Who Wants to Fall Asleep Dec 20 2022 "The magical book that will have your kids asleep in minutes." —The New York Post This groundbreaking #1 international bestseller is sure to calm racing minds and make bedtime easy and fun for kids and parents! Do you struggle with getting your child to fall asleep? Do anxiety or worries ever interfere with bedtime? Join parents all over the world who have embraced *The Rabbit Who Wants to Fall Asleep* as their new nightly routine. When Roger can't fall asleep, Mommy Rabbit takes him to see Uncle Yawn, who knows just what to do. Children will join Roger on his journey and be lulled to sleep alongside their new friend. Carl-Johan Forssén Ehrlin's simple story uses a unique and distinct language pattern that will help your child relax and fall asleep—at bedtime or naptime. Reclaim bedtime today! "A book whose powerfully soporific effects my son is helpless to resist." —The New York Times New York Times Bestseller USA Today Bestseller Publishers Weekly Bestseller Translated into 46 Languages "On the cover of [*The Rabbit Who Wants to Fall Asleep*] there's a sign that reads, 'I can make anyone fall asleep'—and that's a promise sleep-deprived parents can't resist." —NPR "For many parents, getting kids to fall asleep can be a nightmare. But [*The Rabbit Who Wants to Fall Asleep*] . . . promises to make the process easier and help kids to drift off to sleep faster." —CBS News
