**Red Green's wisdom, wit and whimsy on mankind's  
greatest challenge . . . now in paperback. Red Green is  
celebrated as one of the handiest men in North  
America. But as well as being a purveyor of inventive  
practical advice on, for example, making a jetpack from  
two propane tanks, a hybrid car from recycled golf  
carts and satellite dishes, and a kiddie ride from a bar  
stool attached to the agitator of a washing machine,  
Red Green is also noted for his insights into that most  
difficult of assembly jobs, human relationships. His  
previous bestselling tome, *How to Do Everything*,  
showed Red dipping his toe into the self-help genre  
with such items as "How to make dinner more  
romantic" and "The easy way to raise children." Now  
Red Green--a veteran husband (of Bernice), father, soul-**

searcher, philosopher and observer--has devoted an entire book to sharing with other battle-weary and confused males all he has learned about the differences between the sexes. Set out in approximately chronological order, from teen dating to the last words of men ("You know, honey, in the last couple of years, you've really packed on the beef"), this is the testosterone owner's manual to every aspect of finding a mate and then learning to deal with her growing disappointment in you. The man who has already shared such morsels as "If you can't be handsome, be handy," and "Quando omni flunkus moritati," ("When all else fails, play dead") here presents a Ph.D. in life-lessons about the most vexing problem facing mankind today, or any day: women. More than 100,000 entrepreneurs rely on this book. The National Science Foundation pays hundreds of startup teams each year to follow the process outlined in the book, and it's taught at Stanford, Berkeley, Columbia and more than 100 other leading universities worldwide. Why? The Startup Owner's Manual guides you, step-by-step, as you put the Customer Development process to work. This method was created by renowned Silicon Valley startup expert Steve Blank, co-creator with Eric Ries of the "Lean Startup" movement and tested and refined by him for more than a decade. This 608-page how-to guide includes over 100 charts, graphs, and diagrams, plus 77 valuable checklists that guide you as you drive your

**company toward profitability. It will help you: Avoid the 9 deadly sins that destroy startups' chances for success Use the Customer Development method to bring your business idea to life Incorporate the Business Model Canvas as the organizing principle for startup hypotheses Identify your customers and determine how to "get, keep and grow" customers profitably Compute how you'll drive your startup to repeatable, scalable profits. The Startup Owners Manual was originally published by K&S Ranch Publishing Inc. and is now available from Wiley. The cover, design, and content are the same as the prior release and should not be considered a new or updated product. In unabashed celebration of Captain James T.
