Eureka helps students to truly understand math, connect it to the real world, and prepare them to solve problems they haven't encountered before. The team of teachers and mathematicians who created Eureka Math believe that it is not enough for students to know the process for solving a problem; they need to know why that process works. Eureka presents math as a story, one that develops from grades PK through 12. In A Story of Ratios, our middle school curriculum, this sequencing has joined with the methods of instruction that have been proven to work, in this nation and abroad. New Unit: Data Distributions focuses on distributions of data, variability, measures of center, and comparing data sets New resource: CMP Strategies for English Language Learners Video Tutors available on-line Academic vocabulary support added in each Student Unit Middle and high school level curriculum allows your child to really delve deep into various educational subjects, including English/language arts. Prior to this, your child likely studied English as a whole in order to grasp key foundational points. Doing so was important to helping him or her develop English/language arts skills. However, now that he or she is ready for more challenging work, you can focus your child's English education. The Prentice Hall Writing and Grammar curriculum for homeschooling will help you do so. This program emphasizes Writing and Grammar specifically, giving your child a comprehensive look at the concepts. Additionally, Prentice Hall Writing and Grammar naturally follows Reading Street, an elementary homeschool program. In Grade 7 of the Prentice Hall curriculum, your child will continue to learn important lessons in Writing and Grammar. The program is broken into three main categories: Writing, Grammar Usage and Mechanics, and Academic and Workplace Skills. The first two categories emphasize English topics while the last develops your child's critical-thinking and test-taking abilities. All the activities your child completes throughout the course will further the goals expressed in each category. During Prentice Hall Writing and Grammar: Grade 7, your child can focus on developing these skills: Write papers that are longer than a single page and include proper Grammar and Spelling. Identify appropriate sources and use them to write a research paper. Understand and use English Grammar conventions. Use well-planned and effective arguments

when conducting an essay. Using the materials included in Prentice Hall Writing and Grammar: Grade 7, you can begin to design dynamic lesson plans that achieve these and other goals. GO Math! offers an engaging and interactive approach to covering the Common Core State Standards. This Grade 1 student edition is organized into individual chapter booklets and comes with a student resource book. It is designed to help the teacher make informed instructional decisions and track students' reading comprehension and social development as they teach the Making Meaning lesson. Consumable. New Unit: Data Distributions focuses on distributions of data, variability, measures of center, and comparing data sets. New resource: CMP Strategies for English Language Learners Video Tutors available on-line. Academic vocabulary support added in each Student Unit. Based on the Cornell note-taking format, this resource incorporates writing into the learning process. Directly linked to the student text, this notebook provides a systematic approach to learning science by encouraging students to engage by summarizing and synthesizing abstract concepts in their own words.
