Two children are swept up in an imaginative quest to save the king and his realm from dark forces when the king emerges from a magical door at the park and presses a map and strange objects into their hands before being captured and disappearing. Presents a spellbinding chronicle of the centuries of searching by explorers convinced that the bottom of the world must contain a great Terra Incognita, whose mass balanced the land at the top, a conviction that led to the discovery of Australia. "What we intend to present here is a representative sample of utopian thought in Western civilization. Very few utopias

could be packed into our available space, and we agreed to the outset on three criteria to determine selection from the great abundance of material in this field"--preface. Three thrilling tales from one of the masters of frontier fiction! In "Paradise Al," Brand tells the first of two stories about Paradise Al, a drifter and rambler who has been riding the rails when he jumps off a passenger train just outside of town. He's caught and thrown in jail, but his resemblance to the Pendletons, a local family, gets him out. Suddenly Al is caught in the middle of the Pendletons' long-standing feud with the Draytons, another local clan that has a wild,

untamed stallion and has boasted it will give the horse to anyone who can ride him. Paradise Al, clearly a novice when it comes to horses, takes up the challenge, with two conditions: he gets to keep the horse on the Pendleton Ranch for a week and he gets to marry young Molly Drayton. "Paradise Al's Confession" is another chapter in the saga of Paradise Al, masquerading as Al Pendleton. He's now planning on marrying Molly Drayton and is busy at work starting up a ranch when an... "Beware a mermaid's wrath!" the mermaid Soop warns the water-talent fairy Rani. Soop has grown tired of waiting for the magic wand that Rani

promised her in exchange for her help saving Never Land. And though Rani would love to fulfill her promise and bring Soop a wand, Mother Dove, the wisest creature in Never Land, has forbidden it. Her patience at an end, Soop sends a flood to destroy Fairy Haven. Now the only thing that can save the fairies' home is the arrival of the wand. Rani, Tinker Bell, and the fairy queen, Clarion, set off on a perilous quest to find a wand, a journey that takes them across an ocean, to the palace of the Great Wanded fairies. Many obstacles stand between the Never fairies and their desire for peace in Fairy Haven, not the least of which are their own secret dreams.

For a wand can easily tempt a fairy into making a foolish wish, with terrible consequences. In this thrilling sequel to *Fairy Dust* and the *Quest for the Egg*, Newbery Honor-winning author Gail Carson Levine and illustrator David Christiana have conspired to spin a riveting fairytale about the dangers of dreams come true. More than 100,000 copies sold! Millions of Americans know yoga as a superb form of exercise and as a potent source of calm in our stress-filled lives. Far fewer are aware of the full promise of yoga as a 4,000-year-old practical path of liberation—a path that fits the needs of modern Western seekers with

startling precision. Now Stephen Cope, a Western-trained psychotherapist who has lived and taught for more than ten years at the largest yoga center in America, offers this marvelously lively and irreverent "pilgrim's progress" for today's world. He demystifies the philosophy, psychology, and practice of yoga, and shows how it applies to our most human dilemmas: from loss, disappointment, and addiction, to the eternal conflicts around sex and relationship. And he shows us that in yoga, "liberation" does not require us to leave our everyday lives for some transcendent spiritual plane—life itself is the path.

Above all, Cope shows how yoga can heal the suffering of self-estrangement that pervades our society, leading us to a new sense of purpose and to a deeper, more satisfying life in the world. #1 NEW YORK TIMES BESTSELLER • Everybody tells you to live for a cause larger than yourself, but how exactly do you do it? The author of *The Road to Character* explores what it takes to lead a meaningful life in a self-centered world. “Deeply moving, frequently eloquent and extraordinarily incisive.”—*The Washington Post* Every so often, you meet people who radiate joy—who seem to know why they were

put on this earth, who glow with a kind of inner light. Life, for these people, has often followed what we might think of as a two-mountain shape. They get out of school, they start a career, and they begin climbing the mountain they thought they were meant to climb. Their goals on this first mountain are the ones our culture endorses: to be a success, to make your mark, to experience personal happiness. But when they get to the top of that mountain, something happens. They look around and find the view . . . unsatisfying. They realize: This wasn’t my mountain after all. There’s another, bigger mountain out there that is actually my

mountain. And so they embark on a new journey. On the second mountain, life moves from self-centered to other-centered. They want the things that are truly worth wanting, not the things other people tell them to want. They embrace a life of interdependence, not independence. They surrender to a life of commitment. In *The Second Mountain*, David Brooks explores the four commitments that define a life of meaning and purpose: to a spouse and family, to a vocation, to a philosophy or faith, and to a community. Our personal fulfillment depends on how well we choose and execute these commitments. Brooks looks at a range of

people who have lived joyous, committed lives, and who have embraced the necessity and beauty of dependence. He gathers their wisdom on how to choose a partner, how to pick a vocation, how to live out a philosophy, and how we can begin to integrate our commitments into one overriding purpose. In short, this book is meant to help us all lead more meaningful lives. But it's also a provocative social commentary. We live in a society, Brooks argues, that celebrates freedom, that tells us to be true to ourselves, at the expense of surrendering to a cause, rooting ourselves in a neighborhood, binding ourselves to others by social

solidarity and love. We have taken individualism to the extreme—and in the process we have torn the social fabric in a thousand different ways. The path to repair is through making deeper commitments. In *The Second Mountain*, Brooks shows what can happen when we put commitment-making at the center of our lives. "Revealing the true nature of masculinity, Toltec warrior and seer Theun Mares shows men how to get back in touch with the essential core of their maleness ; a core that is nothing less than the untapped power of creativity. He describes how to access and release power that is the right and duty of every true male to

exercise. He shows how, by doing this, you will find the wisdom, vision and sense of purpose to be a true leader, and to stand proud in your masculinity."--Back Cover. A retelling of the Arthurian legend in which Parzival, unaware of his noble birth, comes of age through his quest for the Holy Grail. One day in 1925 a friend asked A. J. A. Symons if he had read Fr. Rolfe's *Hadrian the Seventh*. He hadn't, but soon did, and found himself entranced by the novel -- "a masterpiece"-- and no less fascinated by the mysterious person of its all-but-forgotten creator. *The Quest for Corvo* is a hilarious and heartbreaking portrait of the

strange Frederick Rolfe, self-appointed Baron Corvo, an artist, writer, and frustrated aspirant to the priesthood with a bottomless talent for self-destruction. But this singular work, subtitled "an experiment in biography," is also a remarkable self-portrait, a study of the obsession and sympathy that inspires the biographer's art. "This volume accompanies an exhibition of the same name, which includes artefacts from nearly 2000 years before the Christian era. Objects such as coffins, tombs, masks, jewellery, papyri, sarcophagi and monumental and small-scale sculpture reveal the reverence and awe with which the Egyptians

considered the mystery of death. The essays in this book explore Egyptian art history, customs and worship, with specific focus on the Amduat, a book devoted to the pharaoh's 12-hour journey to the afterlife. Additional writings detail the background of the collection and focus upon the role of art in ancient Egypt."--Amazon. In this book, Emmy van Deurzen addresses the taboo subject of the moral role of psychotherapists and counselors. Asking when and why we decided that the aim of life is to be happy, she poses searching questions about the meaning of life. Psychotherapy and the Quest for Happiness seeks to define what a good life

consists of and how therapists might help their clients to live well rather than just in search of happiness. The Quest for Eastern Christians was first published in 1962. Minnesota Archive Editions uses digital technology to make long-unavailable books once again accessible, and are published unaltered from the original University of Minnesota Press editions. Most writers have considered that the great European explorations during the Age of Discovery were motivated primarily by a thirst for knowledge of other lands, desire for international trade, or missionary zeal. Professor Rogers demonstrates that there was another significant reason

why Europeans traveled to the East during the late medieval and Renaissance period. This was the dream of a Christian Indies, which in turn led to a quest for the Christians of the Farther East. The author specifically seeks to establish a direct relation between the knowledge of Indian and Ethiopian Christians which was available in Jerusalem from early Christian times onward and which returning pilgrims disseminated in the West, and the presence of the Portuguese in South India and the Ethiopian highlands in the early sixteenth century. Throughout his presentation of the evidence for the chain of events which links Palestinian

knowledge with Portuguese action, Professor Rogers places emphasis on the early printed books and tracts which circulated both accurate information and rumor. Specimen pages from some of these books are reproduced as illustrations, and there is a double-page chart showing the genealogy of the nations and the sects of the Christians. There is a list of the early printed books which the author has used in his study as well as a bibliography. BOOK 4 IN THE ICONIC ANCIENT EGYPTIAN SERIES, BY THE MASTER OF ADVENTURE, WILBUR SMITH 'Best historical novelist' - Stephen King 'A master storyteller' - Sunday Times

'Wilbur Smith is one of those benchmarks against whom others are compared' - The Times 'No one does adventure quite like Smith' - Daily Mirror AN ENEMY UNLIKE ANY OTHER THE GREAT KINGDOM OF EGYPT ON THE BRINK OF RUIN CAN THE ANCIENT MAGE TAITA SAVE HIS HOMELAND, BEFORE IT'S TOO LATE? Renowned magus Taita is now over a hundred years old and has ascended to a new level of wisdom and understanding about his world. But he must prepare himself for the biggest threat Egypt has ever faced: the great plagues and the failure of the Nile. Taita must find the cause before Egypt is ruined, but he

has no idea of the terrible enemy that awaits him: the fire witch Eos, an ancient force of sheer evil. Taita must risk his soul to battle her, or his homeland and everything he has ever loved will be lost forever. But there are other reasons for Taita to fight - since success could also mean rewards he could never have thought possible . . . Book 4 in the Ancient Egyptian series from the master historical adventure writer, Wilbur Smith. Book 4 in the series, Desert God, is available now. Book 7 in the series and book 1 in The New Kingdom sequence, The New Kingdom, also available now. Twenty-five years ago, Piers Anthony

fascinated us with the creation of Xanth-a wondrous land where magic rules supreme. Since then, the dazzling world of Xanth has delighted millions of readers. Now, here are the first three novels of this classic series to enthrall a whole new generation. . . . A SPELL FOR CHAMELEON "Winner of the British Fantasy Award for Best Novel of the Year Though every citizen of Xanth has a special spell only he or she can cast, Bink of North Village has no magic. But the Good Magician Humphrey and Beauregard the genie insist that Bink indeed is capable of enchantment- magic more powerful than the King himself, or even the evil magician Trent. Now if only

Bink can find his magic . . . before he is forced into exile. THE SOURCE OF MAGIC Curious about the source of Xanth's magic, the King sends Bink on a daring quest for truth. From the beginning, Bink and his companions are harried by an unseen creature determined to thwart them. But when some allies become enemies, it will take all Bink's ingenuity and luck to prevail on his mission, which takes an unexpectedly defiant turn. CASTLE ROOGNA Millie had been a ghost for eight hundred years. But now, restored by the magic of Xanth, she is again a beautiful living woman. She can have any man she desires . . . except one: Jonathan the

zombie. To help Millie, young Magician Dor embarks on a journey for the elixir that will restore Jonathan to full life-an adventure that will take him to the past, where his intentions are thwarted by a surprising encounter. "Discover a magical world of dazzling imagination! A landmark biography by the New York Times bestselling author of Genghis Khan and the Making of the Modern World that reveals how Genghis harnessed the power of religion to rule the largest empire the world has ever known. Throughout history the world's greatest conquerors have made their mark not just on the battlefield, but in the societies they have

transformed. Genghis Khan conquered by arms and bravery, but he ruled by commerce and religion. He created the world's greatest trading network and drastically lowered taxes for merchants, but he knew that if his empire was going to last, he would need something stronger and more binding than trade. He needed religion. And so, unlike the Christian, Taoist and Muslim conquerors who came before him, he gave his subjects freedom of religion. Genghis lived in the 13th century, but he struggled with many of the same problems we face today: How should one balance religious freedom with the need to reign in fanatics?

Can one compel rival religions - driven by deep seated hatred-- to live together in peace? A celebrated anthropologist whose bestselling Genghis Khan and the Making of the Modern World radically transformed our understanding of the Mongols and their legacy, Jack Weatherford has spent eighteen years exploring areas of Mongolia closed until the fall of the Soviet Union and researching The Secret History of the Mongols, an astonishing document written in code that was only recently discovered. He pored through archives and found groundbreaking evidence of Genghis's influence on the founding fathers and his essential impact on Thomas

Jefferson. Genghis Khan and the Quest for God is a masterpiece of erudition and insight, his most personal and resonant work. At the dawn of time, Brahma sat in trance, seeking inspiration to create the universe. Who am I? he wondered. Where have I come from? What should I do? Then the Supreme Being, Krsna, revealed Himself, flooding Brahma's heart with transcendental knowledge. Passed down since Brahma's time through an unbroken chain of gurus and disciples, that same profound knowledge is ours in The Quest for Enlightenment. The author of Quest is His Divine Grace A.C. Bhaktivedanta Swami

Prabhupada, whom scholars and spiritual leaders worldwide recognize as the most distinguished teacher of Indian culture and philosophy of the modern age. With his spiritual lineage reaching back through Brahma to Sri Krsna, Srila Prabhupada is uniquely qualified to present the timeless Vedic teachings on yoga, meditation, reincarnation, and self-realization that have helped countless seekers in their search for ultimate peace and happiness. More than a military history, this book explains how Scott's aristocratic pretensions were out of place with emerging notions of equality in Jacksonian America and made

him an unappealing political candidate in his bid for the presidency. Johnson recounts the details of Scott's personality that alienated nearly every one who knew him, as well as the unsavory methods Scott used to promote his career and the scandalous ways he attempted to alleviate his lifelong financial troubles. "A sprawling story richly textured with original material, quirky details and amusing anecdotes . . ." —Wall Street Journal "It is a cause for celebration that Yergin has returned with his perspective on a very different landscape . . . [I]t is impossible to think of a better introduction to the essentials of energy in the 21st

century. The Quest is . . . the definitive guide to how we got here.” —The Financial Times

This long-awaited successor to Daniel Yergin’s Pulitzer Prize-winning *The Prize* provides an essential, overarching narrative of global energy, the principal engine of geopolitical and economic change. A master storyteller as well as a leading energy expert, Daniel Yergin continues the riveting story begun in his Pulitzer Prize-winning book, *The Prize*. In *The Quest*, Yergin shows us how energy is an engine of global political and economic change and conflict, in a story that spans the energies on which our civilization has been built and the new energies that

are competing to replace them. *The Quest* tells the inside stories, tackles the tough questions, and reveals surprising insights about coal, electricity, and natural gas. He explains how climate change became a great issue and leads readers through the rebirth of renewable energies, energy independence, and the return of the electric car. Epic in scope and never more timely, *The Quest* vividly reveals the decisions, technologies, and individuals that are shaping our future. The work of dramatists such as George Chapman, Thomas Heywood, Cyril Tourneur, John Webster, Thomas Middleton and John Ford can profitably be studied

as attempts to construct a new moral order in response to the absence or weakening of the religious sanction. In this study, first published in 1962, the author examines these texts in detail, and throws a great deal of light on the plays as plays. This title will be of interest to students of English Literature, Drama and Performance. What Socrates’s greatest failure reveals about an ancient question: Can we teach our leaders to be better people? Is good character something that can be taught? In 430 BCE, Socrates set out to teach the vain, power-seeking Athenian statesman Alcibiades how to be a good person—and failed spectacularly. Alcibiades

went on to beguile his city into a hopeless war with Syracuse, and all of Athens paid the price. In *The Quest for Character*, philosophy professor Massimo Pigliucci tells this famous story and asks what we can learn from it. He blends ancient sources with modern interpretations to give a full picture of the philosophy and cultivation of character, virtue, and personal excellence—what the Greeks called arete. At heart, *The Quest for Character* isn't simply about what makes a good leader. Drawing on Socrates as well as his followers among the Stoics, this book gives us lessons perhaps even more crucial:

how we can each lead an excellent life. *The Christians* is the history of Christianity, told chronologically, epoch by epoch, century by century, beginning at Pentecost and concluding with Christians as we find ourselves in the twenty-first century. It will consist of approximately twelve volumes, produced over a 10-year period at the beginning of the third Christian millennium. It is written and edited by Christians for Christians of all denominations. Its purpose is to tell the story of the Christian family, so that we may be knowledgeable of our origins, may well know and wisely profit from the experiences of our past both good and bad,

and may find strength and inspiration to face the challenges of our era from the magnificent examples set for us by those who went before. - Back cover. Rodrigo Díaz, the legendary warrior-knight of eleventh-century Castile known as El Cid, is still honored in Spain as a national hero for liberating the fatherland from the occupying Moors. Yet, as this book reveals, there are many contradictions between eleventh-century reality and the mythology that developed later. By placing El Cid in a fresh, historical context, Fletcher shows us an adventurous soldier of fortune who was of a type, one of a number of "cids," or "bosses,"

who flourished in eleventh-century Spain. But the El Cid of legend--the national hero -- was unique in stature even in his lifetime. Before his death El Cid was already celebrated in a poem; posthumously he was immortalized in the great epic Poema de Mío Cid. When he died in Valencia in 1099, he was ruler of an independent principality he had carved for himself in Eastern Spain. Rather than the zealous Christian leader many believe him to have been, Rodrigo emerges in Fletcher's study as a mercenary equally at home in the feudal kingdoms of northern Spain and the exotic Moorish lands of the south, selling his martial skills to

Christian and Muslim alike. Indeed, his very title derives from the Arabic word sayyid, meaning 'lord' or 'master.' And as there was little if any sense of Spanish nationhood in the eleventh century, he can hardly be credited for uniting a medieval Spanish nation. This ground-breaking inquiry into the life and times of El Cid disentangles fact from myth to create a striking portrait of an extraordinary man, clearly showing how and why legend transformed him into something he was not during his lifetime.--From publisher description. "One day Will and Cameron are headed to California on a father-son motorcycle trip. The next, after

both have an inexplicable sense that they should go north, they change course. Later, they find themselves sitting in a Wyoming diner with Great Thunder, who speaks insightful truths about Will's life when they have known each other only a few short minutes. The Quest details Will's real-life journey of self-discovery that begins with a fortuitous meeting with a special mentor, and continues through the following years as he learns to apply Great Thunder's lessons about simplifying life and trusting intuition"--Back cover. After more than fifty years of blockbuster drug development, skeptics are beginning to fear we are reaching the end of

drug discovery to combat major diseases. In this engaging book, Brent R. Stockwell, a leading researcher in the exciting new science of chemical biology, describes this dilemma and the powerful techniques that may bring drug research into the twenty-first century. Filled with absorbing stories of breakthroughs, this book begins with the scientific achievements of the twentieth century that led to today's drug innovations. We learn how the invention of mustard gas in World War I led to early anti-cancer agents and how the efforts to decode the human genome might lead to new approaches in drug design. Stockwell then turns to the

seemingly incurable diseases we face today, such as Alzheimer's, many cancers, and others with no truly effective medicines, and details the cellular and molecular barriers thwarting scientists equipped with only the tools of traditional pharmaceutical research. Scientists such as Stockwell are now developing methods to combat these complexities technologies for constructing and testing millions of drug candidates, sophisticated computational modeling, and entirely new classes of drug molecules all with an eye toward solving the most profound mysteries of living systems and finding cures for intractable diseases.

If successful, these methods will unlock a vast terrain of untapped drug targets that could lead to a bounty of breakthrough medicines. Offering a rare, behind-the-scenes look at this cutting-edge research, *The Quest for the Cure* tells a thrilling story of science, persistence, and the quest to develop a new generation of cures. *The Quest for Compromise* is an interdisciplinary study of the imperial court in late sixteenth-century Vienna, and a detailed examination of a fascinating moment of religious moderation. Against a backdrop of rising religious and confessional dogmatism, the Emperor Maximilian II

(1564-1576) assembled a remarkable cast of courtiers who resisted extremes of both Reformation and Counter-Reformation. This book investigates the rise and fall of an irenic movement through four individuals whose work at the imperial court reflected the ideals of religious compromise and moderation. An Italian artist (Jacopo Strada), a Silesian physician (Johannes Crato), a Dutch librarian (Hugo Blotius), and a German soldier (Lazarus von Schwendi) sought peace and accommodation through a wide range of cultural, intellectual, and political activity. With Foreword by Heidi Hayes Jacobs It's crucial for 21st

century teachers and students to determine together what a student will learn and at what pace. This book dives deep into quest learning, a customizable inquiry model tailored to a student's interests, needs, and abilities. Learn how to use questing to engross students in emotionally gripping learning experiences, engage them with actionable goals, build 21st century skills, and promote collaboration in online and physical spaces. Learn how to motivate students using the education quest model: - Foster students' 21st century learning by engaging critical thinking, creativity, collaboration, and self-direction. - Form learning partnerships with students that

lead to co-teaching and co-learning. - Explore the three main design types through which students can quest to learn: (1) inquiry, (2) network, and (3) game. - Investigate the guided inquiry design decisions involved in identifying a quest, determining checkpoints, and helping students reflect on their quest. - Use formative assessment templates for engaging students in learning. Contents: Foreword by Heidi Hayes Jacobs Introduction Part I: Establishing Chapter 1: Making the Case for Questing Chapter 2: Identifying Questing Components Chapter 3: Inquiring With Question Design Chapter 4: Playing With Game Design Chapter 5: Building

References and Resources  
Index The author presents with  
this intellectual biography of  
the Lutheran alchemist Count  
Michael Maier an academic  
study of western esotericism in  
general and to the study of  
alchemy and rosicrucianism in  
particular. The author charts

the development of Maier's  
Hermetic worldview in the  
context of his service at the  
courts of Emperor Rudolf II and  
Moritz of Hessen-Kassel. The  
problem of the nature of early  
Rosicrucianism is addressed in  
detail with reference to Maier's  
role in the promotion of this  
"serious jest" in the years  
immediately prior to the  
outbreak of the Thirty Years'  
War. The work is set in the  
context of ongoing debates  
concerning the nature of early  
modern alchemy and its role in  
the history of Western  
esotericism. While the world  
knows Matthew Henry best for  
his time-enduring Exposition of  
the Old and New Testaments,  
the cultivation of personal piety

in himself and others was the  
great business of his practical  
life; and his treatises on the  
godly life, while little known  
today, are among the finest  
ever written. Rich in and alert  
to the things of the spirit, they  
reveal, as so impressively  
shown in this volume, a  
spiritual mind of preeminent  
degree in the full and  
deliberate worship of God. The  
author here pleads with us to  
avail ourselves of the ornament  
of a meek and quiet spirit, and  
to apply this precious and  
comely grace in all our  
contacts in everyday living. No  
message could be more  
practical or fitting for this age,  
when the world, more than  
ever, is too much with us. This

is a deep and tender,  
altogether winsome plea.  
Would you know the nature,  
excellence, and application of  
this meekness and quietness?  
Come then with the author to  
Him who said, . . . learn of me,  
for I am meek and lowly. And  
all the world will see and know  
that we have been with Jesus.  
Living and dying, let us be  
found among the quiet in the  
land. We all wish to see quiet  
families, and quiet churches,  
and quiet neighborhoods, and  
quiet nations; and it will be so  
if there be quiet hearts; and not  
otherwise. The Prize recounts  
the panoramic history of oil --  
and the struggle for wealth  
power that has always  
surrounded oil. This struggle

has shaken the world economy,  
dictated the outcome of wars,  
and transformed the destiny of  
men and nations. The Prize is  
as much a history of the  
twentieth century as of the oil  
industry itself. The canvas of  
this history is enormous -- from  
the drilling of the first well in  
Pennsylvania through two  
great world wars to the Iraqi  
invasion of Kuwait and  
Operation Desert Storm. The  
cast extends from wildcatters  
and rogues to oil tycoons, and  
from Winston Churchill and Ibn  
Saud to George Bush and  
Saddam Hussein. The definitive  
work on the subject of oil and a  
major contribution to  
understanding our century, The  
Prize is a book of extraordinary

breadth, riveting excitement --  
and great importance. In *The  
Quest for Meaning*, Tariq  
Ramadan, philosopher and  
Islamic scholar, invites the  
reader to join him on a journey  
to the deep ocean of religious,  
secular, and indigenous  
spiritual traditions to explore  
the most pressing  
contemporary issues. Along the  
way, Ramadan interrogates the  
concepts that frame current  
debates including: faith and  
reason, emotions and  
spirituality, tradition and  
modernity, freedom, equality,  
universality, and civilization.  
He acknowledges the greatest  
flashpoints and attempts to  
bridge divergent paths to a  
common ground between these

religious and intellectual traditions. He calls urgently for a deep and meaningful dialogue that leads us to go beyond tolerant co-existence to mutual respect and enrichment. Written in a both direct and meditative style this is an important, timely and intelligent book that aims to direct and shape debate around the most important questions of our time. Learn to incorporate spiritual principles in everyday living through exercises and activities suggested in the activity guidebook *Adventures on the Quest*. Returning home from his first year at space academy, Oliver finds that his parents have been kidnapped. He and

his siblings must rescue them and thwart the plans of the evil Society of bel, in the first of five books about the Wikk family which weaves the future into an adventure of archeology and mystery. Essays by a contemporary American philosopher on secularism, religion, moral freedom, etc., published in journals covering the years 1934-1960.
