Listening to Fellini Mar 27 2021 "The editing of music in Fellini's first films represents an entirely new approach to cinematic sound. The sophistication and complexity of Fellini's soundtracks far surpasses the neorealist models that are often assumed to form the practical foundation of Fellini's earliest works, and an analysis of the editing of music in these films reveals extraordinary innovation in the pairing of music and visual image."--BOOK JACKET.

Federico Fellini Jul 19 2020 A lively and authoritative journey into the world of a cinema master With the revolutionary 8 1/2, Federico Fellini put his deepest desires and anxieties before the lens in 1963, permanently impacting the art of cinema in the process. Now, more than forty years later, film critic and Fellini confidant Tullio Kezich has written the work by which all other biographies of the filmmaker are sure to be measured. In this moving and intimately revealing account of a lifetime spent in pictures, Kezich uses his friendship with Fellini as a means to step outside the frame of myth and anecdote that surrounds him—much, it turns out, of the director's own making. A great lover of women and a meticulous observer of dreams, Fellini, perhaps more than any other director of the twentieth century, created films that embodied a thoroughly modern sensibility, eschewing traditional narrative along with religious and moral precepts. His is an art of delicate pathos, of episodic films that directly address the intersection of reality, fantasy, and desire that exists as a product of mid-century Italy—a country reeling from a Fascist regime as it struggled with an outmoded Catholic national identity. As Kezich reveals, the dilemmas Fellini presents in his movies reflect not only his personal battles but those of Italian society. The result is a book that explores both the machinations of cinema and the man who most grandly embraced the full spectrum of its possibilities, leaving his indelible mark on it forever.

The Italian Madrigal Mar 19 2023 Volume 2 of 3. This monumental three-volume work on the Italian madrigal from its beginnings about 1500 to its decline in the 17th century is based on the research of 40 years, and is a cultural history of the development of Italian music. Mr. Einstein, renowned musicologist, supplies a background and a sense of proportion to the field: he gives the right order to the single composers in the evolution fo the madrigal, attaches new values to old names, and places in the foreground the outstanding, but until now rather neglected, personality of Cipriano de Rore. His work is not, however, purely musicological; his object is to inquire into the functions of secular music in Italian life during the Cinquecento, and to contribute to our knowledge and understanding of that great century in general. Translated from the German by Oliver Strunk, Roger Sessions and Alexander H. Krappe. Originally published in 1948. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. Roman Monody, Cantata, and Opera from the Circles Around Cardinal Montalto: Text May 21 2023 The subject of this book arises from the author's discovery or identification of ten important manuscripts of early seventeenth-century Italian solo song (monody) previously unexplored by modern scholars. Almost by coincidence, the author's research shows that all ten manuscripts preserve portions of Roman repertoire largely by composers associated with the most significant music patron of the period, Alessandro Peretti, Cardinal Montalto. Through extensive archival documentation, Cardinal Montalto's patronage of music is set in the broader context of the network of political, economic, and cultural clientela to which Montalto belonged. Hill documents new explanations of the origin of monody, focusing on the roles of Naples and Rome and their unwritten traditions. A thorough analysis of the repertoire itself reveals and explains distinct subgenres of monody that have not previously been distinguished. Music for

Battista Guarini's last stage work and for the first Roman opera brought forth. Thus, identified, examined, analyzed and placed in context, this repertoire and its genesis call forth a fundamental revision of existing narratives and explanations of the early Baroque vocal music in Rome and the rise of the Italian chamber cantata, next to opera, the most significant musical genre of the seventeenth century.

The Italian Madrigal in the Early Sixteenth Century Mar 07 2022 This 1988 book examines the genesis and dissemination of the Italian madrigal in its formative stages. Iain Fenlon and James Haar have analysed this vast repertoire as it is found in manuscript and print offer information concerning the date and provenance of many fundamental sources together with a view of the subject which differs radically from previous treatments. Their study is divided into two parts. The first covers the rise and early cultivation of the madrigal, chiefly in Florence and Rome. The second contains a detailed descriptive inventory of all known manuscripts and printed editions, finishing with lists of contents and concordances in each case. This important study will serve those with an interest in Renaissance music and the changing cultural ambience of early sixteenth-century Florence and Rome.

A Selection of Modern Italian Poetry in Translation Jan 05 2022 What was Italian poetry like in the years of extraordinary historical, intellectual, aesthetic, and spiritual change between the 1860s and the Unification of Italy in the 1960s? In *A Selection of Modern Italian Poetry in Translation* Roberta Payne provides a bilingual collection of ninety-two poems by thirty-five Italian poets, including works of classicism and passionate decadentism, examples of crepuscularism, and poetry by Ungaretti, Montale, and Quasimodo. Payne pays particular attention to poets of the fifties and sixties, futurists, and female poets. She notes that the futurists, who have rarely been translated, were particularly important as they were truly original, attempting to develop new notions of word, line, sound, and phrase. Such new notions make translating them particularly challenging. She also offers a large sampling from poets of the fifties and sixties, many of whom have won the Viareggio Prize. Poems by women in this volume reflect diverse schools and directions while maintaining a distinctly female voice. Containing the original Italian and the translation side-by-side, this volume offers a wonderful introduction to Italian poetry to scholars and general readers alike.

The Canzoniere Nov 03 2021 Francesco Petrarca (1304-74) has been described as the 'first modern man of letters' and his influence on the European lyric tradition has been widespread. The poems of his *Canzoniere*, closely associated as they are with the enigmatic figure of Laura, were soon to become the models for love-poetry in nearly all major European literatures in the Renaissance. The new translations here use the same rhyme schemes and broadly the same metres as those used by Petrarch himself. The facing English texts are thus not intended to be absolutely literal, but to reflect the inner meanings and moods of the originals, with some further literal translations of difficult passages added in the notes. The notes to the poems also cover their likely dates, mythological allusions, certain background settings, and a number of other calendrical and structural features which appear to emerge from the actual sequencing of the collection itself. There is also a section on old Italian syntax and other linguistic aids. The new translation of Petrarch's *Rerum Vulgarium Fragmenta* is in two separate volumes.

Singing Games in Early Modern Italy Aug 20 2020 In Italy during the late cinquecento, printed music could be found not only in the homes of the wealthy or the music professional, but also in lay homes, courts, and academies. No longer confined to the salons of the elite, music took on the role of social play and recreation. Paul Schleuse examines these new musical forms through a study of the music books of Italian priest, poet, and composer, Orazio Vecchi. Composed for minor patrons and the wider music-buying public, Vecchi's madrigals took as their subjects game-playing, drinking, hunting, battles, and the life of the street. Schleuse looks at how music and game-playing allowed singers and performers to play the roles of exemplary pastoral characters and also comic, foreign, and "rustic" others in ways that defined and ultimately reinforced social norms of the times. His findings reposition Orazio Vecchi as one of the most innovative composers of the late 16th century.

Music Printing in Renaissance Venice Jul 23 2023 Venetian music print culture of the mid-sixteenth century is presented here through a study of the Scotto press, one of the foremost dynastic music publishers of the Renaissance. For over a century, the house of Scotto played a pivotal role in the international book trade, publishing in a variety of fields including philosophy, medicine, religion, and music. This book examines the mercantile activities of the firm through both a historical study, which illuminates the wide world of the Venetian music printing industry, and a catalog, which details the music editions brought out by the firm during its most productive period. A valuable reference work, this book not only enhances our understanding of the socioeconomic and cultural history of Renaissance Venice, it also helps to preserve our knowledge of a vast musical repertory.

La Dolce Vita Aug 12 2022 "Italian-born Silvia Colloca is a firm believer that anyone can enjoy la dolce vita, the sweet life, no matter where you live. It's all in the attitude. Life is for celebrating, and for an Italian, this means offering generous amounts of food that can be enjoyed by one and all. In her third cookbook Silvia embraces the Mediterranean food she grew up with, taking us far beyond the heavy pasta dishes and rich cakes that Italian cuisine is often (mistakenly) associated with. Italian home cooks are more likely to cook simply, allowing fresh fruit and vegetables, legumes and fish to shine, with sparing use of dairy, meat, animal fats and sugars. The recipes are authentic and nutritious, catering to those with vegan, vegetarian, gluten-, grain-, egg- and dairy-free dietary preferences. The perfect way to love and nurture your favourite people, and celebrate the sweet life together. "

Savonarola's Women Oct 22 2020 Girolamo Savonarola (1452–1498), the religious reformer, preacher, and Florentine civic leader, was burned at the stake as a false prophet by the order of Pope Alexander VI. Tamar Herzig here explores the networks of Savonarola's female followers that proliferated in the two generations following his death. Drawing on sources from the fifteenth and sixteenth centuries, many never before studied, transcribed, or contextualized in Savonarolan scholarship and religious history, Herzig shows how powerful public figures and clerics continued to ally themselves with these holy women long after the prophet's death. In their quest to stay true to their leader's teachings, Savonarola's female followers faced hostile superiors within their orders, local political pressures, and the deep-rooted misogynistic assumptions of the Church establishment. This unprecedented volume demonstrates how reform circles throughout the Italian peninsula each tailored Savonarola's life and works to their particular communities' regionally specific needs. *Savonarola's Women* is an important reconstruction of women's influence on one of the most important and controversial religious movements in premodern Europe.

Music, Authorship, Narration, and Art Cinema in Europe Dec 04 2021 *Music, Authorship, Narration, and Art Cinema in Europe: 1940s to 1980s* investigates the function of music in European cinema after the Second World War up to the fall of the Berlin wall, a period when composers and directors embraced experimentation. Through analyses of music and sound in a wide range of iconic films from across Europe, the essays in this book provide a nuanced reconsideration of three core themes: auteur theory, art house film, and national cinema. Chapters written by an international array of contributors focus on case studies of music in the cinema of Carlos Saura, Jean-Pierre Melville, the Polish School, and Romanian directors, as well as collaborations between directors and composers, including Michelangelo Antonioni and Giovanni Fusco, Federico Fellini and Nino Rota, Leo Arnshtam and Dmitry Shostakovich, and Peter Greenaway and Michael Nyman. The contributors shift the emphasis from a director-centered view to the working relationship between director and composer, and from the visual component to the sonic aspects of these films, without ignoring the close correlation between soundtrack and visual elements. Enriching our understanding of the complex, intertwined nature of authorship in film, the role of film music, and sound, nation-state and art cinema, and European cinematic history, this volume offers a valuable addition to research across music and film studies.

Fellini's Eternal Rome May 09 2022 *** Winner of the 2019 Flaiano Prize in the category Italian Studies *** In *Fellini's Eternal Rome*, Alessandro Carrera explores the co-existence and conflict of paganism and Christianity in the works of Federico Fellini. By combining source analysis, cultural history and jargon-free psychoanalytic film theory, Carrera introduces the reader to a new appreciation of Fellini's work. Life-affirming Franciscanism and repressive Counter-Reformation dogmatism live side by side in Fellini's films, although he clearly tends toward the former and resents the latter. The fascination with pre-Christian Rome shines through *La Dolce Vita* and finds its culmination in *Fellini-Satyricon*, the most audacious attempt to imagine what the West would be if Christianity had never replaced classical Rome. Minimal clues point toward a careful, extremely subtle use of classical texts and motifs. Fellini's interest in the classics culminates in *Olympus*, a treatment of Hesiod's *Theogony* for a never-realized TV miniseries on Greek mythology, here introduced for the first time to an English-speaking readership. Fellini's recurrent dream of the Mediterranean Goddess is shaped by the phantasmatic projection of paganism that Christianity created as its convenient Other. His characters long for a "maternal space" where they will be protected from mortality and left free to roam. Yet Fellini shows how such maternal space constantly fails, not because the Church has erased it, but because the utopia of unlimited enjoyment is a self-defeating fantasy.
