La précision déjà impressionnante des lignes s'est considérablement améliorée. Ce dernier volet, montre à quel point, tout prédestinait l'auteur à découvrir ce code parisien. Depuis sa naissance, les grandes étapes de sa vie étaient inscrites à travers un impressionnant alignement d'une trentaine de paramètres... elles attendaient d'être découvertes !" The Clichy-Batignolles stand as a new urban landscape liaison element, an essential urban portal along the peripheric territorial arc, just by the historic city. The site thus becomes an important urban platform, a place of exchange in the relational-spaces web organization of Paris. It shall serve as connection point for the various territorial, urban, environmental, social and cultural scales. The aim of the book comes from the relations that are given between both buildings done on the sustainable Clichy-Batignolles neighborhood in Paris build by Gausa-Raveau actarchitecture & Avenier-Cornejo Architectes. The concept and material display of the book arises because of the visual quakes that present the materiality of the two towers. Finally, the idea of vibration is given between the buildings and the environment. La obra maestra del escritor cubano Emilio Bobadilla como narrador es A fuego lento. La primera parte de la novela transcurre en Ganga, inspirada en la ciudad colombiana de Barranquilla, donde Bobadilla vivió algunos meses en 1898. El cuadro que traza A fuego lento es esperpéntico. Por entonces Barranquilla era un puerto principal de Colombia y era llamada "La Nueva York de Colombia", "La Nueva Barcelona" o "La Nueva Alejandría". Tenía varios cines, y las compañías de ópera italianas y de teatro españolas se presentaban allí. A ese lugar llega el doctor Eustaquio Baranda, un exiliado dominicano que ha estudiado medicina en París. El personaje atrae a las poderes locales, los mismos que después lo aborrecen despechados porque ha conquistado los favores de Alicia, deseada por uno de los prohombres lugareños. Baranda se va a París con Alicia. Y allí se consume su vida en el apetito social de Alicia —exaltado por sus ambiciones y la influencia provinciana de los antiguos conocidos de Ganga—. Muere a pesar de la presencia balsámica de una francesa fina, culta, delicada y distinguida a la que el doctor Baranda renuncia por no tener el valor de separarse de Alicia. The Invention of Paris is a tour through the streets and history of the French capital under the guidance of radical Parisian author and publisher Eric Hazan. Hazan reveals a city whose squares echo with the riots, rebellions and revolutions of the nineteenth and twentieth centuries. Combining the raconteur's ear for a story with a historian's command of the facts, he introduces an incomparable cast of characters: the literati, the philosophers and the artists—Balzac, Baudelaire, Blanqui, Flaubert, Hugo, Maney, and Proust, of course; but also Doisneau, Nerval and Rousseau. It is a Paris dyed a deep red in its convictions. It is haunted and vitalized by the history of the barricades, which Hazan retells in rich detail. The Invention of Paris opens a window on the forgotten byways of the capital's vibrant and bloody past, revealing the city in striking new colors. Accomodation - Eating and drinking - Shops and markets - Music and night life - Festivals and events - Paris suburbs_ A new perspective on Impressionist art that offers revealing, fresh interpretations of familiar paintings In this handsome book, a leading authority on Impressionist painting offers a new view of this admired and immensely popular art form. John House examines the style and technique, subject matter and imagery, exhibiting and marketing strategies, and social, political, and ideological contexts of Impressionism in light of the perspectives that have been brought to it in the last twenty years. When all of these diverse approaches are taken into account, he argues, Impressionism can be seen as a movement that challenged both artistic and political authority with its uncompromisingly modern subject matter and its determinedly secular worldview. Moving from the late 1860s to the early 1880s, House analyzes the paintings and career strategies of the leading Impressionist artists, pointing out the ways in which they countered the dominant conventions of the contemporary art world and evolved their distinctive and immediately recognizable manner of painting. Focusing closely on the technique, composition, and imagery of the paintings themselves and combining this fresh appraisal with recent historical studies of Impressionism, House explores how pictorial style could generate social and political meanings and opens new ways of looking at this luminous art.
