**Charlie's Charts** Dec 28 2020 This cruising guide is a proven reference for safe navigation of the challenges for travel along the US Pacific Coast. It clearly describes the choices of routes for travel along the coast: harbor-hopping, inshore and offshore routes and discusses weather, crossing bars and safety issues. A safe approach to all major facilities is described and sketched in detail as well as the anchorages in the Channel Islands. Many cruisers have found the detailed information invaluable when approaching both planned stop-overs or when making an unexpected approach to the coast as a result of engine or equipment failure or a health emergency. Detailed drawings of marina facilities takes the worry out of approaching an unfamiliar marina especially if the crew is fatigued following a tiring spell at sea. GPS waypoints on each page are intended to assist a cruiser to locate offshore approach buoys and avoid reefs, points and capes by a safe margin. Waypoints are not given following the channel into marinas since channel markers are regularly moved to indicate the best water as a result of constant shoaling and scouring. This 6th edition is filled with QR codes, providing added information such as riverbar cameras, tide tables, weather cams, informational links to harbor websites and the like. The use of these QR codes is not required to use the guide, but provide additional information to the cruiser when within cell phone coverage. The codes can be scanned by a smart phone or iPad.

*Cruising Under Power - Pacific Coasts of Mexico and Central America* May 01 2021 Are you planning to cruise the Pacific Coast of Mexico or Central America? Are you buying a trawler and confused about how to equip the boat? Have you wondered what it is like to retire and spend months living on a trawler? Composited from the cruising blogs of the author, while cruising from San Diego to Costa Rica, this book is far more than a travelogue. The author has dedicated himself to spreading his passion about long-distance cruising and exploration. The Pacific coast, with its' beautiful beaches and resorts, provides an entertaining background as he describes the equipment and techniques he employs for successful passage making. You will be amused and educated as he holds nothing back, while describing his experiences with flopper stoppers, surfing sand bars, anchoring in "unusual" conditions, fishing, greedy foreign officials, jungle cruises, pirates, groundings, high winds, stubborn currents, mechanical failures, mechanical successes and more!
