Attack of the 50 Foot Indian

Aug 19 2020 Sharp, searing, with a masterful use of language, *Attack of the 50 Foot Indian* is a brilliant satire of the portrayal of American Indians from breakout author Stephen Graham Jones. *A Tale of Two Moons*. Every government of every nation debates what to do when a fifty-foot tall man, dressed in a loincloth and dripping from the sea, appears off the Siberian coast. As the American people puzzle over how he came to be and what to do next, the news outlets start calling the titan “Two Moons,” social media abducts him into the memesphere, and the military, well, they have their own action-plan for dealing with threats to what they

mistakenly consider their homeland. With unapologetic honesty and wit, Stephen Graham Jones cuts to the bone of the stereotypes used for American Indians, showcasing his talent as a humorist and as one of our great American writers in this short story.

Attack of the Fluffy Bunnies Jan

04 2022 "A lighthearted, clever

send-up of zany horror

conventions, this book is just

the thing for kids about ready for M. T. Anderson's Whales on Stilts." —Booklist When Joules and Kevin Rockman's parents drop them off at Camp

Whatsitooya on their way to an International Spamathon, the

twins expect a summer of marshmallows, campfires, and

canoe trips. What they do not expect is to defend the earth

from an invasion of sugar-addicted, murderous, seven-

foot-tall rabbits from another galaxy. Happily, the Rockman

twins, veteran watchers of the Late, Late, Late Creepy Show

for Insomniacs, are unusually well-prepared for dealing with

monstrous beings from outer space. If only their fellow

campers were so lucky. Andrea

Beaty, New York

Times—bestselling author of several very funny picture books and a mystery novel, here reaches new heights of hilarity and verbal dexterity in a novel sure to become a camp—ba-dum-dum—classic.

"Beaty's tale of high silliness is sure to please, and it's dotted with Santat's mini-comics and spot illustrations, which move the story along." —Kirkus

Reviews "Beaty's storytelling is lighthearted and fast-paced . . .

her unconventional and entertaining narrative make it a wholly fun read."

What's the sound coming from upstairs? Could it be a ghost? Who's that skulking in the woods? Must be a vampire. Is the new neighbor a witch? Probably. With short chapters, easy-to-read text, and enhanced back matter, *Boo Books* deliver just-right frights (without the sleepless nights) for the earliest readers. *Love Your Enemies* Feb 22 2021 NATIONAL BESTSELLER To get ahead today, you have to

be a jerk, right? Divisive politicians. Screaming heads on television. Angry campus activists. Twitter trolls. Today in America, there is an "outrage industrial complex" that prospers by setting American against American, creating a "culture of contempt"—the habit of seeing people who disagree with us not as merely incorrect, but as worthless and defective. Maybe, like more than nine out of ten Americans, you dislike it. But hey, either you play along, or you'll be left behind, right? Wrong. In *Love Your Enemies*, social scientist and author of the #1 New York Times bestseller *From Strength to Strength* Arthur C. Brooks

shows that abuse and outrage are not the right formula for lasting success. Brooks blends cutting-edge behavioral research, ancient wisdom, and a decade of experience leading one of America's top policy think tanks in a work that offers a better way to lead based on bridging divides and mending relationships. Brooks' prescriptions are unconventional. To bring America together, we shouldn't try to agree more. There is no need for mushy moderation, because disagreement is the secret to excellence. Civility and tolerance shouldn't be our goals, because they are hopelessly low standards. And our feelings toward our foes

are irrelevant; what matters is how we choose to act. Love Your Enemies offers a clear strategy for victory for a new generation of leaders. It is a rallying cry for people hoping for a new era of American progress. Most of all, it is a roadmap to arrive at the happiness that comes when we choose to love one another, despite our differences.

Attack of the 50 Foot Blockchain Sep 19 2020 An experimental new Internet-based form of money is created that anyone can generate at

home; people build frightening firetrap computers full of video cards, putting out so much heat that one operator is hospitalised with heatstroke and brain damage. A young physics student starts a revolutionary new marketplace immune to State coercion; he ends up ordering hits on people because they might threaten his great experiment, and is jailed for life without parole. Fully automated contractual systems are proposed to make business and the law work better; the contracts people actually write are unregulated penny stock offerings whose fine print literally states that you are buying nothing of any value. The biggest

crowdfunding in history attracts \$150 million on the promise that it will embody “the steadfast iron will of unstoppable code”; upon release it is immediately hacked, and \$50 million is stolen. How did we get here? David Gerard covers the origins and history of Bitcoin to the present day, the other cryptocurrencies it spawned including Ethereum, the ICO craze and the 2017 crypto bubble, and the attempts to apply blockchains and smart contracts to business. Plus a case study on blockchains in the music industry. Bitcoin and blockchains are not a technology story, but a psychology story. Remember: if

it sounds too good to be true, it almost certainly is. “A sober riposte to all the upbeat forecasts about cryptocurrency” — New York Review of Books “A very convincing takedown of the whole phenomenon” — BBC News
