The priority program 'The educational quality of schools' has been established seven years ago by the German Research Foundation (DFG). The projects in this program investigated conditions inside and outside of school and their impact on the development of mathematical, scientific, and cross-curricular competencies. In this book major findings of the program are presented. The projects not only give an overview of their research questioning methods and findings, but also of approaches and materials that have been developed to support learning and teaching in mathematics and science class rooms. The studies reported here identify factors for weaknesses in the educational outcomes that became apparent in the international comparisons like

TIMSS and PISA. The projects, however, provide empirically substantiated units on approaches that can help to improve the educational quality of schools. [Publisher, ed]. Success in careers outside the university setting depends on an individual's capacity to master professional skills and respond appropriately to dynamic situations with flexibility, adaptation, and innovative thinking. This book describes a simple, common sense method of how to include professional skills training in any curricula without compromising academic rigor. It relies on introduction of unanticipated yet manageable crises simulating scenarios commonly experienced in the workplace. The method promises to inspire both students and their teachers to conquer new territory outside their comfort zones. Examples include how to respond to a demand for innovation and teamwork, a lay-off, a re-organization, or switching jobs and projects. These situations are bound to occur for most

people and in most jobs they often create stress and, perhaps, despair. Preparing and practicing a mindful and healthy response is beneficial, and now this process can be performed in the classroom, while it serves as a platform for character building prior to unexpected real-life events.

Key Features: - Description of the importance of, incentives for, and rewards of exiting the comfort zone - Principles for teaching and learning professional skills - Student anecdotes and reflection - Rubric entries and assessment of learning Table of Contents: The Comfort Zone and "Being out of It" / Exiting the Comfort Zone: Reasons and Impact / Getting Educators and Students out of the Comfort Zone / Principles of "Out-of-the-Comfort-Zone" (OOC) Teaching / Anecdotes of OOC Learning / Measuring the Outcome Holiday Messages levels 1 and 2 provide grammar and vocabulary practice for lower secondary students. Whichever Exam Board you are working for you will find this book useful for Functional skills Maths level 2. In the actual test although the use of calculators is allowed it is sometimes useful to do simple sums with confidence without using calculators. In addition to basic addition, subtraction, multiplication and division you are expected to be familiar with fractions, decimals, percentages, ratios and proportions in everyday context. Everyday problems often involve being able to estimate as well as being able to work with simple formulas like Speed, Distance and Time

and of course conversions from one type of currency to another when you go on holiday! Also, basic Data Interpretation or Statistics is useful to make sense of data that is presented numerically or visually in a workplace or in newspaper articles. There are also chapters on basic shapes and spaces since you also need to be know how to work out perimeters, areas and volumes of basic shapes as well as be familiar with plans and drawing nets! Although the examples in this book start simply they gradually build up to Level 2. Finally the test questions at the end contain detailed answers. **2014 UPDATE * Third Edition Published April 2014 * 1,500 New Questions Added * Level 2 Only - Anatomy & Physiology, Skin & Eye Treatments, Manicure & Pedicure Treatments, Waxing Services, Make Up Treatments, Health & Safety * Fully Interactive Kindle Version - Links Between all Questions and Answers This book has been designed for those studying Beauty Therapy
