Behind the Lines is W. E. B. Griffin's powerful novel of World War II -- and the courage, patriotism, and sacrifice of those who fought it. By 1942, the Japanese have routed the outnumbered American forces and conquered the Philippines. But deep in the island jungles, the combat continues. Refusing to surrender, a renegade Army officer organizes a resistance force and vows to fight to the last man. A Marine leads his team on a mission through the heart of enemy territory. And the nation's proudest sons fight uncelebrated battles that will win -- or lose -- the war . . . Introduction: The heat of battle can be unpredictable, and in the midst of chaos, anything can happen. For Sergeant Jack Wilson, his worst nightmare became a reality when he found himself stranded behind enemy lines. With no backup, limited resources, and the enemy closing in, Jack must use all his training and instincts to survive and make it back to his team. Fuchsian groups play a central role in various important fields of mathematics. The current book is based on what became known as the famous Fenchel-Nielsen manuscript. Jakob Nielsen (1890-1959) started this project well before World War II, Werner Fenchel (1905-1988) joined later and overtook the much of the preparation of the manuscript. Professor Asmus Schmidt (University of Copenhagen) is the editor of this first publication in book form of the Fenchel-Nielsen notes. It is on his initiative that the long and difficult way of getting the original notes into the proper shape ready for publication succeeded. For all the heroism and military prowess shown on the battlefields of the Civil War, many of its key operations took place far from the front. Behind Enemy Lines exposes the hidden, often unknown initiatives of the War Between the States and brings their architects and executors to light. Captured by the Goa'uld Lugh, Carter faces a hard choice: help repair a cloaking device that would give Lugh a dangerous advantage or allow SG-1 to be handed over to the System Lords. 38 papers on Aegean Bronze Age pottery in honour of Jeremy Rutter. They range from specific site reports, to technical reports, and issues of chronology, to analysis of the social and religious functions of particular vessel types, and studies of trade and cultural contacts. A deadly race across 1,001 planets will determine more than just the fate of the empire. This explosive first book in a duology jam-packed with tension and thrills is perfect for fans of The Hunger Games, Aurora Rising, and Three Dark Crowns. Alyssa Farshot has spent her whole life trying to outrun her family legacy, even leaving behind the Kingship and her uncle, the emperor, for a life of exploring. But when her dying uncle announces a crownchase—a search for the royal seal hidden in the empire that will determine the next ruler—Alyssa is thrust into her greatest, most dangerous adventure yet. During the two-and-a-half years fighting in the Western Desert of North Africa, which began with the Italian declaration of war in June 1940 and ended in 1943, the Long Range Desert Group became the acknowledged master of the vast desert. This small, highly mobile force was engaged in daring exploits and reconnaissance far behind the enemys lines. Emerging suddenly from the depths of the desert, the LRDG would raid important airfields or attack Axis lines of communication along the Mediterranean coast, and then vanish back into the desert, to reappear hundreds

of miles away. With its brilliant description of the harsh beauty of the desert, and its exiting chronicle of the LRDG activities, this book is as fascinating today as it was when was first published in 1945, after being vetted by the War Office. 'Moving, exciting and authentic' The Observer 'The British genius for exploration, hard living and insolently bold guerrilla warfare has never been better demonstrated than by the Long Range Desert Group [Kennedy Shaws book is] a remarkable record, told simply, unpretentiously and with engaging humour One cannot remember a better war book.' The Manchester Guardian Serving as a comprehensive introduction for those who are just starting to watch, while also providing long-time viewers with an episode-by-episode guide to the entire eight seasons, this book is a must-have addition to any Stargate SG-1 fan's library. And his clone must decide how much he's willing to trust the friends who walked away from him ten years earlier. As tensions rise off-world, the young O'Neill is forced to confront who he really is--and to decide whether his new life is worth fighting for... With three Military Crosses, three Croix de guerre, a Legion d'honneur and a papal knighthood for his heroics during the Second World War, Sir Tommy Macpherson is the most decorated soldier in the history of the British Army. But the price of heroism may be more than they can pay... Returning to Stargate Command, Colonel Jack O'Neill and his team find more has changed in their absence than they had expected. Nonetheless, O'Neill is determined to face the consequences of their unauthorized activities, only to discover the penalty is far worse than anything he could have imagined. With the fate of Colonel O'Neill and Major Samantha Carter unknown, and the very survival of the SGC threatened, Dr. Daniel Jackson and Teal'c mount a rescue mission to free their team-mates and reclaim the SGC. Yet returning to the Kinahhi homeworld, they learn a startling truth about its ancient foe. And uncover a horrifying secret... The Cost of Honor "Damn it!" Watts yelled from the DHD. "This is pointless, sir! It won't stay open!" Standing up slowly, Major Henry Boyd glanced up at the twisting nightmare in the sky. It looked like some hideous creature come to tear them to pieces. "Keep trying," he told the Captain. "Sir?" Lieutenant Jessica McLeod ripped her gaze from the sky, voice shaking. "I've been thinking about why the gate won't activate. The gravitational force of the-" She stammered over the word. "Of the black hole would create a massive time distortion effect." He stalked toward her, frowning. "A what?" "Time here will be moving much slower than back on Earth, sir. Much slower. The gate was probably open for half an hour at the SGC, but here...just a second." Boyd felt his heart clench tight. "What are you saying, Lieutenant?" She looked bleak. "I don't think we're getting out of this one, sir." Lucy. His daughter was the first thought in his head. Sweet, innocent, adoring Lucy. Her little arms around his neck, her delighted smile when he came home. Daddy! He swallowed hard. "I won't accept that, Lieutenant." Lucy, barely old enough to understand. Heather, having to explain why he was never coming home again. "They'll find a way to come get us. They won't leave us here." It is 1941 and Britain is pressed on all sides. With Japan in the war and convoys being sunk by submarines and surface raiders the last bastion fighting Hitler is beleaguered. The Commandos are the only ones who can fight beyond the Atlantic Wall. Tom Harsker and his section are sent behind enemy lines to destroy gun emplacements and then rescue a captured Resistance leader. Then they are given the task of joining the Campbelltown Raid on St. Nazaire. There they find themselves in greater danger than ever before. With his special forces training completed, Sergeant Roland Barker was allocated to Operation Arundel as its radio operator. Led by Major Bill Smallwood, he was parachuted into the Dolomites in 1944. The team's brief was to cause havoc in the

area around the Italian border and to infiltrate into Austria. During the mission, Major Smallwood was injured in a fall and was unable to move rapidly. Despite their best efforts, both Smallwood and Barker were subsequently captured by pursuing German troops who they were unable to outpace. Barker provides a vivid account of being 'interrogated' by the SS and Gestapo and despite the threats and the terrible conditions, the true nature of their mission was never revealed to the enemy. Having survived these experiences, he was incarcerated in Stalag Luft XVIII in Southern Austria. Ever defiant, Barker escaped by having himself admitted to the camp hospital and made his way into Hungary, from where, as this account of his wartime service reveals, he was eventually repatriated to the UK. After the war Barker opted to remain in the Army, at which point he took a commission. Promoted to Major, Barker became the Officer Commanding 22 SAS in Malaya. He was killed in a helicopter crash in Malaya in 1953, before he could see through his plan to have his memoir published. Author Bio I have been blessed as a 4th Degree Black Belt and Master Instructor in Taekwondo, certified by the World Taekwondo Federation in Soule, Korea. I am a School owner and instructor for over 22 years, the Head coach of the Maine Junior Olympic Tae-kwondo National teams (1993 to 2002), and assistant coach of the Senior team. My favorite time is relaxing with my adorable best friend and wife, Michelle. Fishing, hiking, or on a mission for God, I look forward to those special, quite moments to share. She's been a God send. One night a week I am devoted to a youth prison ministry in South Portland, two nights are spent teaching Taekwondo, and I work full time as a facility supervisor for a biomedical manufacturer. The most rewarding thing I have witnessed is another person accepting Jesus, seeing their smile and eyes after Jesus has removed their burden. This recently happened at the youth prison when a young man of 17 gave his life to Christ after he had read this book a couple of weeks earlier. What an answer to prayer because the sole purpose of this book is you. I love watching our sovereign God at work performing signs, wonders, and miracles. What an honor it is to be in God's presence. Years before the CIA was formed there was something called the Office of Strategic Services. Georgetown Township resident Al Johnson was a charter member of this clandestine group during World War II, joining forces with the French Underground and then fighting the Japanese occupation of China. The OSS conducted secret missions hundreds of miles behind enemy lines. Al Johnson who is 96 years old said one of the toughest part might have been "keeping a lid on" everywhere he was and everything he did. "It was such a hush-hush group. We couldn't talk about it when we got home on furloughs. We were strongly advised not to say anything. So for over 50 years Al Johnson had all these stories hidden away in his memory bank until one day when he received a letter from the United States government informing him the 50 years had expired and he was free to talk about his adventures in the OSS. This book was written as therapy for Al and to let his children and grandchildren know what he did during World War II.
