All the Power Apr 08 2022 An ambitious, accessible mix of history, autobiography, and how-to manual, this anti-manifesto challenges popular concepts of radical activism. A whirlwind tour across decades - through punk and student activism, identity and lifestyle politics, animal rights, armed struggle, patriotism, globalisation and beyond - this book seeks a radicalism that is both rigorously self-critical and genuinely populist. All the Power suggests how the seemingly most idealistic of enterprises - revolution - might be practically accomplished.

Reflections on the Revolution in Egypt Dec 16 2022 Offering insights on Egypt's failed revolution—how it happened and why it did not succeed—author Samuel Tadros argues that, as Egypt continues on its destructive downward path, it is important to examine the role that its revolutionaries played in that trajectory. He raises long-unanswered questions about those revolutionaries: Who were they and where did they come from? What was their ideological and organizational composition? Why were they angry with the Mubarak regime? What were their demands and aspirations for a new Egypt? And how did they attempt to achieve them?

The Clean Money Revolution May 29 2021 “[Joel is] a beloved local financial superhero, and this book is a brilliant roadmap to purposeful investing.” —Catherine Ludgate, Manager of Community Investment, Vancity By 2050, \$50 trillion will change hands in North America in the largest generational wealth transfer ever. It will remake the world and be the biggest money-making opportunity in history. “Business as usual,” founded on exploitation and environmental ruin, is over. Climate catastrophe, reactionary politics, and widening inequity have put the world on edge. Meanwhile innovations are shifting the economic ground, and an entire generation is pounding the table for real change. Capitalism is evolving into a force that can restore the planet, transform the global economy, and bring justice to people. Joel Solomon, impact investor and change agent, lays it on the line. The Clean Money Revolution is part memoir of an inspiring thought leader's journey from presidential campaigner to pioneering investor, part insider's guide to the businesses remaking the world, and part manifesto for a new vision of profit, power, and purpose. Meet some of the people behind this massive shift, and discover the role you can play in the \$50-trillion movement toward true prosperity. A must-read for investors, wealth advisors, aspiring entrepreneurs, and all who want their values and money to work together to transform the future. The Clean Money Revolution is on. Join it! “Good helpful stuff to do with your filthy lucre.” —Margaret Atwood, author of *The Handmaid's Tale* “Joel Solomon so eloquently lights the path society needs to take in order to ensure future generations can flourish on a sustainable planet earth.” —Reverend Yearwood, President of the Hip Hop Caucus

44 Days Mar 07 2022 Burnett was one of the few Westerners to stay and document the sudden fall of the Shah of Iran in 1978. "44 Days" re-creates the coup that led to a long hostage crisis, President Jimmy Carter's political demise, and an enmity still blazing after 30 years.

Revolutionary Power Nov 15 2022 In September 2017, Hurricane Maria hit Puerto Rico, completely upending the energy grid of the small island. The nearly year-long power outage that followed vividly shows how the new climate reality intersects with race and access to energy. The island is home to brown and black US citizens who lack the political power of those living in the continental US. As the world continues to warm and storms like Maria become more commonplace, it is critical that we rethink our current energy system to enable reliable, locally produced, and locally controlled energy without replicating the current structures of power and control. In *Revolutionary Power*, Shalanda Baker arms those made most vulnerable by our current energy system with the tools they need to remake the system in the service of their humanity. She argues that people of color, poor people, and indigenous people must engage in the creation of the new energy system in order to upend the unequal power dynamics of the current system. *Revolutionary Power* is a playbook for the energy transformation complete with a step-by-step analysis of the key energy policy areas that are ripe for intervention. Baker tells the stories of those who have been left behind in our current system and those who are working to be architects of a more just system. She draws from her experience as an energy-justice advocate, a lawyer, and a queer woman of color to inspire activists working to build our new energy system. Climate change will force us to rethink the way we generate and distribute energy and regulate the system. But how much are we willing to change the system? This unique moment in history provides an unprecedented opening for a deeper transformation of the energy system, and thus, an opportunity to transform society. *Revolutionary Power* shows us how.

Women, the State and Revolution Oct 14 2022 Focusing on how women, peasants and orphans responded to Bolshevik attempts to remake the family, this text reveals how, by 1936, legislation designed to liberate women had given way to increasingly conservative solutions strengthening traditional family values.

The Revolution Where You Live Jun 29 2021 Discover the Real Revolution Unfolding across America America faces huge challenges—climate change, social injustice, racist violence, economic insecurity. Journalist Sarah van Gelder suspected that there were solutions, and she went looking for them, not in the centers of power, where people are richly rewarded for their allegiance to the status quo, but off the beaten track, in rural communities, small towns, and neglected urban neighborhoods. She bought a used pickup truck and camper and set off on a 12,000-mile journey through eighteen states, dozens of cities and towns, and five Indian reservations. From the ranches of Montana to the coalfields of Kentucky to the urban cores of Chicago and Detroit, van Gelder discovered people and communities who are remaking America from the ground up. Join her as she meets the quirky and the committed, the local heroes and the healers who, under the mass media's radar, are getting stuff done. The common thread running through their work was best summed up by a phrase she saw on a mural in Newark: "We the People LOVE This Place." That connection we each have to our physical and ecological place, and to our human community, is where we find our power and our best hopes for a new America.

Remaking the Real Economy Jul 19 2020 Debunking the myths around the current economic belief systems, this book reveals how mainstream perspectives work for the benefit of the organised money establishment, while causing all manner of destructions, inequalities and frauds, all conspiring against the common good. Focused on the realities of organisational systems, Pearson offers a practical alternative to economic dogma. Written from a distinctive perspective that combines practitioner and academic expertise, this book is structured as a simple model of business strategy and identifies necessary systems change in order to achieve a truly sustainable future.

The Loyal Atlantic Apr 20 2023 Adding to a dynamic new wave of scholarship in Atlantic history, The Loyal Atlantic offers fresh interpretations of the key role played by Loyalism in shaping the early modern British Empire. This cohesive collection investigates how Loyalism and the empire were mutually constituted and reconstituted from the eighteenth century onward. Featuring contributions by authors from across Canada, the United States, and the United Kingdom, The Loyal Atlantic brings Loyalism into a genuinely international focus. Through cutting-edge archival research, The Loyal Atlantic contextualizes Loyalism within the larger history of the British Empire. It also details how, far from being a passive allegiance, Loyalism changed in unexpected and fascinating ways — especially in times of crisis. Most importantly, The Loyal Atlantic demonstrates that neither the conquest of Canada nor the American Revolution can be properly understood without assessing the meanings of Loyalism in the wider Atlantic world.

A Quiet Revolution Mar 19 2023 A probing study of the veil's recent return—from one of the world's foremost authorities on Muslim women—that reaches surprising conclusions about contemporary Islam's place in the West today In Cairo in the 1940s, Leila Ahmed was raised by a generation of women who never dressed in the veils and headscarves their mothers and grandmothers had worn. To them, these coverings seemed irrelevant to both modern life and Islamic piety. Today, however, the majority of Muslim women throughout the Islamic world again wear the veil. Why, Ahmed asks, did this change take root so swiftly, and what does this shift mean for women, Islam, and the West? When she began her study, Ahmed assumed that the veil's return indicated a backward step for Muslim women worldwide. What she discovered, however, in the stories of British colonial officials, young Muslim feminists, Arab nationalists, pious Islamic daughters, American Muslim immigrants, violent jihadists, and peaceful Islamic activists, confounded her expectations. Ahmed observed that Islamism, with its commitments to activism in the service of the poor and in pursuit of social justice, is the strain of Islam most easily and naturally merging with western democracies' own tradition of activism in the cause of justice and social change. It is often Islamists, even more than secular Muslims, who are at the forefront of such contemporary activist struggles as civil rights and women's rights. Ahmed's surprising conclusions represent a near reversal of her thinking on this topic. Richly insightful, intricately drawn, and passionately argued, this absorbing story of the veil's resurgence, from Egypt through Saudi Arabia and into the West, suggests a dramatically new portrait of contemporary Islam.

The Remaking of Modern Europe From the Outbreak of the French Revolution to the Treaty of Berlin, 1789-1878 Dec 24 2020 Excerpt from The Remaking of Modern Europe From the Outbreak of the French Revolution to the Treaty of Berlin, 1789-1878 This little book is intended primarily for students who are beginning the study of foreign history at Schools and Universities. Such students generally have an examination in view, but this is not a cram book. My hope is that it may be found

suggestive and stimulating, but not satisfying. That it will serve the less well, on that account, as a text-book for examinations I do not believe, since the best examiners do all in their power to discourage "cram". But it will fail of its main purpose if it does not stimulate a desire for bigger and better books and ampler information. Any one who has been set down to write the history of a crowded period in a given number of words will judge leniently its many imperfections. Such a task involves a perpetual choice between obscurity and incompleteness. As lucidity seems to me the one essential quality in an introductory sketch I have not hesitated to prefer it to every other consideration. The Country of Memory Aug 20 2020 "Hue-Tam Ho Tai's masterful collection of essays that explore how the past is being remade in contemporary Vietnam constitutes a welcome addition to the study of the larger problem of engineering memory, especially in political cultures where the identity of the nation-state is in a considerable state of flux . . . This book also suggests that the 'commemorative fever' that is sweeping Vietnam is about more than Vietnam's history. It also has a great deal to do with the problems premodern cultures presented to those who promoted the creation of contemporary states. In this regard both Vietnam and this book offer all scholars of nationalism and remembering in the West a fascinating perspective on their own nations."—John Bodnar, Chancellors' Professor of History at Indiana University, from the Foreword

The Revolution Will Not Be Funded Oct 22 2020 A trillion-dollar industry, the US non-profit sector is one of the world's largest economies. From art museums and university hospitals to think tanks and church charities, over 1.5 million organizations of staggering diversity share the tax-exempt 501(c)(3) designation, if little else. Many social justice organizations have joined this world, often blunting political goals to satisfy government and foundation mandates. But even as funding shrinks, many activists often find it difficult to imagine movement-building outside the non-profit model. The Revolution Will Not Be Funded gathers essays by radical activists, educators, and non-profit staff from around the globe who critically rethink the long-term consequences of what they call the "non-profit industrial complex." Drawing on their own experiences, the contributors track the history of non-profits and provide strategies to transform and work outside them. Urgent and visionary, The Revolution Will Not Be Funded presents a biting critique of the quietly devastating role the non-profit industrial complex plays in managing dissent. Contributors. Remake the World Apr 15 2020 Over the last decade, author and activist Astra Taylor has helped shift the national conversation on topics including technology, inequality, indebtedness, and democracy. The essays collected here reveal the range and depth of her thinking, with Taylor tackling the rising popularity of socialism, the problem of automation, the politics of listening, the possibility of rights for the natural and non-human world, the future of the university, the temporal challenge of climate catastrophe, and more. Addressing some of the most pressing social problems of our day, Taylor invites us to imagine how things could be different while never losing sight of the strategic question of how change actually happens. Curious and searching, these historically informed and hopeful essays are as engaging as they are challenging and as urgent as they are timeless. Taylor 's unique philosophical style has a political edge that speaks directly to the growing conviction that a radical transformation of our economy and society is required.

Leaders of the French Revolution Jan 05 2022 1789-1795 were years of revolutionary drama in France—of struggle protest, war-fever, exasperation, terror, ambition and bloodshed. Few of the many who are remembered from the time were great men, but they lived under the microscope of great times, which gave to their most insignificant qualities portentous proportions. Perhaps, too, their age and country encouraged variety and extravagance of character, few there are few periods of history so rich in personalities. Of the eleven men chosen by J. M. Thompson for study, only three (Sieyès, Lafayette and Dumouriez) survived the Revolution, and lived to see its cynical apotheosis in the Napoleonic Empire. Of the others, Mirabeau died in 1791 and Louvet in 1797, while the remainder—Brissot, Marat, Danton, Fabre, Robespierre and St. Just—were murdered, executed or put to death. J. M. Thompson writes in his introduction, 'But to all of them the Revolution was an overwhelming experience. What did they do in it? What did they think of it? Let us see.'

Remaking Black Power Apr 27 2021 In this comprehensive history, Ashley D. Farmer examines black women's political, social, and cultural engagement with Black Power ideals and organizations. Complicating the assumption that sexism relegated black women to the margins of the movement, Farmer demonstrates how female activists fought for more inclusive understandings of Black Power and social justice by developing new ideas about black womanhood. This compelling book shows how the new tropes of womanhood that they created--the "Militant Black Domestic," the "Revolutionary Black Woman," and the "Third World Woman," for instance--spurred debate among activists over the importance of women and gender to Black Power organizing, causing many of the era's organizations and leaders to critique patriarchy and support gender equality. Making use of a vast and untapped array of black women's artwork, political cartoons, manifestos, and political essays that they produced as members of groups such as the Black Panther Party and the Congress of African People, Farmer reveals how black women activists reimagined black womanhood, challenged sexism, and redefined the meaning of race, gender, and identity in American life.

Thomas Jefferson - Revolutionary Sep 13 2022 "In this lively and clearly written book, Kevin Gutzman makes a compelling case for the broad range and radical ambitions of Thomas Jefferson's commitment to human equality." - Alan Taylor, Pulitzer Prize winning author of *American Revolutions: A Continental History, 1750-1804* Though remembered chiefly as author of the Declaration of Independence and the president under whom the Louisiana Purchase was effected, Thomas Jefferson was a true revolutionary in the way he thought about the size and reach of government, which Americans who were full citizens and the role of education in the new country. In his new book, Kevin Gutzman gives readers a new view of Jefferson—a revolutionary who effected radical change in a growing country. Jefferson's philosophy about the size and power of the federal system almost completely undergirded the Jeffersonian Republican Party. His forceful advocacy of religious freedom was not far behind, as were attempts to incorporate Native Americans into American society. His establishment of the University of Virginia might be one of the most important markers of the man's abilities and character. He was not without flaws. While he argued for the assimilation of Native Americans into society, he did not assume the same for Africans being held in slavery while—at the same time—insisting that slavery should cease to exist. Many still accuse Jefferson of hypocrisy on the ground that he both held that “all men are created equal” and held men as slaves. Jefferson's true character, though, is more complex than that as Kevin Gutzman shows in his new book about Jefferson, a revolutionary whose accomplishments went far beyond the drafting of the Declaration of Independence.

Makers Feb 23 2021 3D Robotics co-founder and bestselling author Chris Anderson takes you to the front lines of a new industrial revolution as today's entrepreneurs, using open source design and 3-D printing, bring manufacturing to the desktop. Remaking the Revolution Mar 27 2021

Renaissance and Revolution Jan 17 2023 Originally published in 1967, this book discusses some key writers of the Renaissance: Machiavelli, Castiglione, Bacon and Hobbes and compares their work by relating it that of others in England and elsewhere. Chapters on Bacon contain references to Galileo and Descartes; the chapter on Castiglione also touches on Montaigne. The book also contrasts various currents of thought in the Renaissance with their medieval counterparts or forerunners. The volume isolates the great themes, or revolutionary shifts in as they manifest themselves in the work of important writers and thinkers.

Startup Rising Aug 24 2023 Identifies opportunities for Western investment while discussing a surprising surge of entrepreneurship that has accompanied recent uprisings in the Middle East, explaining that in spite of enduring politics, entrepreneurship is offering a less violent and potentially lasting vehicle of regional innovation and progress. 30,000 first printing.

The Color Revolution Jun 10 2022 A history of color and commerce from haute couture to automobile showrooms to interior design. When the fashion industry declares that lime green is the new black, or instructs us to “think pink!,” it is not the result of a backroom deal forged by a secretive cabal of fashion journalists, designers, manufacturers, and the editor of Vogue. It is the latest development of a color revolution that has been unfolding for more than a century. In this book, the award-winning historian Regina Lee Blaszczyk traces the relationship of color and commerce, from haute couture to automobile showrooms to interior design,

describing the often unrecognized role of the color profession in consumer culture. Blaszczyk examines the evolution of the color profession from 1850 to 1970, telling the stories of innovators who managed the color cornucopia that modern artificial dyes and pigments made possible. These “color stylists,” “color forecasters,” and “color engineers” helped corporations understand the art of illusion and the psychology of color. Blaszczyk describes the strategic burst of color that took place in the 1920s, when General Motors introduced a bright blue sedan to compete with Ford's all-black Model T and when housewares became available in a range of brilliant hues. She explains the process of color forecasting—not a conspiracy to manipulate hapless consumers but a careful reading of cultural trends and consumer taste. And she shows how color information flowed from the fashion houses of Paris to textile mills in New Jersey. Today professional colorists are part of design management teams at such global corporations as Hilton, Disney, and Toyota. The Color Revolution tells the history of how colorists help industry capture the hearts and dollars of consumers.

SUMMARY - Startup Rising: The Entrepreneurial Revolution Remaking The Middle East By Christopher M. Schroeder Jul 23 2023 * Our summary is short, simple and pragmatic. It allows you to have the essential ideas of a big book in less than 30 minutes. *As you read this summary, you will discover the Middle East from a perspective you may not have suspected. Christopher Schroeder, with his experience as an entrepreneur, introduces you to the entrepreneurial world of a region of the world known more for its political instability than for its economic dynamism. Yet he shows that this region has nothing to envy to the rest of the world when it comes to entrepreneurship and innovation. *You will also learn : that entrepreneurship can help change the world; how the changes at work emanate above all from individual initiatives; why the Arab Spring is a symptom of profound upheavals in society; that the businesses created in the Middle East are no different from those in Silicon Valley; that Islam is far from being incompatible with entrepreneurship. *In spite of the various Arab springs, little has changed at the political level in the Middle East. It is a different story when it comes to entrepreneurship and access to technology. Schroeder has witnessed in recent years a movement in this direction, on the part of investors who dare to move beyond uncertainty and instability. A second revolution is underway. It will transform the region into a center of economic opportunity. *Buy now the summary of this book for the modest price of a cup of coffee!

Memoirs of a Revolutionary Sep 20 2020 A New York Review Books Original Victor Serge is one of the great men of the 20th century—and one of its great writers too. He was an anarchist, an agitator, a revolutionary, an exile, a historian of his times, as well as a brilliant novelist, and in *Memoirs of a Revolutionary* he devotes all his passion and genius to describing this extraordinary—and exemplary—career. Serge tells of his upbringing among exiles and conspirators, of his involvement with the notorious Bonnot Gang and his years in prison, of his role in the Russian Revolution, and of the Revolution's collapse into despotism and terror. Expelled from the Soviet Union, Serge went to Paris, where he evaded the KGB and the Nazis before fleeing to Mexico. *Memoirs of a Revolutionary* recounts a thrilling life on the front lines of history and includes vivid portraits not only of Trotsky, Lenin, and Stalin but of countless other figures who struggled to remake the world. Peter Sedgwick's fine translation of *Memoirs of a Revolutionary* was abridged when first published in 1963. This is the first edition in English to present the entirety of Serge's book.

Remaking the Modern World 1900 - 2015 May 17 2020 The sequel and companion volume to C.A. Bayly's ground-breaking *The Birth of the Modern World, 1780-1914*, this wide-ranging and sophisticated study explores global history since the First World War, offering a coherent, comparative overview of developments in politics, economics, and society at large. Written by one of the leading historians of his generation, an early intellectual leader in the study of World History Weaves a clear narrative history that explores the themes of politics, economics, social, cultural, and intellectual life throughout the long twentieth century Identifies the themes of state, capital, and communication as key drivers of change on a global scale in the last century, and explores the impact of those ideas Interrogates whether warfare was really the pre-eminent driving force of twentieth-century history, and what other ideas shaped the course of history in this period Explores the causes behind the resurgence of local conflict, rather than global-scale conflict, in the years since the turn of the millennium Delves into the narrative of inequality, a story that has shaped and been shaped by the events of the last hundred years Part of The Blackwell History of the World Series The goal of this ambitious series is to provide an accessible source of knowledge about the entire human past, for every curious person in every part of the world. It will comprise some two dozen volumes, of which some provide synoptic views of the history of particular regions while others consider the world as a whole during a particular period of time. The volumes are narrative in form, giving balanced attention to social and cultural history (in the broadest sense) as well as to institutional development and political change. Each provides a systematic account of a very large subject, but they are also both imaginative and interpretative. The Series is intended to be accessible to the widest possible readership, and the accessibility of its volumes is matched by the style of presentation and production.

Passion, Betrayal, and Revolution in Colonial Saigon Jan 25 2021 "This book makes its entry into a field--modern Vietnamese history--that is quite starved of detailed social history.
