[Thinking, Observing and Mining the Universe](#) Dec 03 2021 This is a collection of review articles and more specialized papers on the main issues of early universe physics. Both theoretical and experimental fields of research are dealt with.

Collinearity-Preserving Functions between Desarguesian Planes Aug 31 2021 Using concepts from valuation theory, we obtain a characterization of all collinearity-preserving functions from one affine or projective Desarguesian plane into another. The case in which the planes are projective and the range contains a quadrangle has been treated previously in the literature. Our results permit one or both planes to be affine and include cases where the range contains a triangle but no quadrangle. A key theorem is that, with the exception of certain embeddings defined on planes of order 2 and 3, every collinearity-preserving function from one affine Desarguesian plane into another can be extended to a collinearity-preserving function between enveloping projective planes.

[Misfit in Love](#) Apr 07 2022 In this fun and fresh sequel to *Saints and Misfits*, Janna hopes her brother's wedding will be the perfect start to her own summer of love, but attractive new arrivals have her more confused than ever. Janna Yusuf is so excited for the weekend: her brother Muhammad's getting married, and she's reuniting with her mom, whom she's missed the whole summer. And Nuah's arriving for the weekend too. Sweet, constant Nuah. The last time she saw him, Janna wasn't ready to reciprocate his feelings for her. But things are different now. She's finished high school, ready for college...and ready for Nuah. It's time for Janna's (carefully planned) summer of love to begin—starting right at the wedding. But it wouldn't be a wedding if everything went according to plan. Muhammad's party choices aren't in line with his fiancée's taste at all, Janna's dad is acting strange, and her mom is spending more time with an old friend (and maybe love interest?) than Janna. And Nuah's treating her differently. Just when things couldn't get more complicated, two newcomers—the dreamy Haytham and brooding Layth—have Janna more confused than ever about what her misfit heart really wants. Janna's summer of love is turning out to be super crowded and painfully unpredictable.

STATISTICS IN PSYCHOLOGY AND EDUCATION Mar 06 2022 This extensively revised and fully

updated second edition is designed as a textbook for M.A. (Education), M.Ed., M.A. (Psychology and Sociology) and for research students pursuing courses in Statistics related to these subjects. It takes into account the present syllabi of various universities and institutes of education across the country. What's New to the Second Edition : Six new chapters added with emphasis on advanced statistical concepts and techniques such as the following : - Biserial correlation, point biserial correlation, tetrachoric correlation, phi coefficient, partial and multiple correlation. - Transfer of raw scores into standard scores, T, C and Stanine scores. - Non-parametric tests like the McNemar test, Sign test, Wilcoxon test, Median test, U test, Runs test, and KS test. - Analysis of covariance. Some chapters modified and reshuffled to reflect the new emphasis. Entire text thoroughly checked and marked improvements made to bring the topics up to date. **Safe** Apr 19 2023 A kidnapped girl survived twelve nightmarish years. Now she's safely back home . . . or is she? Jenny Kristal was six years old when she was snatched off the sidewalk from her quiet suburban neighborhood. Twelve years later, she's miraculously returned home after escaping her kidnappers—but as her parents and older brother welcome her back, the questions begin to mount. Where has she been all these years? Why is she back now? And is home really the safest place for her . . . or for any of them? “Fantastically good—dark yet compellingly upbeat, and insanely suspenseful . . . Even the twists have twists.”—Lee Child, #1 New York Times bestselling author “Dark, compulsive, full of OMG moments. If you think you know where it's going . . . YOU DON'T. This is one you won't forget in a hurry.”—Lisa Jewell, New York Times bestselling author of *Then She Was Gone*

Love by Night Feb 17 2023 More of a story than a collection of poetry, *Love by Night* will whisk you away from your world and into the dreamy romantic night. *Love by Night* begins with anxious hesitation and nervous attraction, grows into tender affection, blossoms into passionate love, delves deep into whimsical dreams, and finally builds an image of an idyllic future together, as the reader develops along with the two characters of this poetic story. Written as a conversation between two points of view in constant change and flux with each other, this book invites the reader into the conversation about the love that connects one person to another, but also all of us to each other. Through this written testament to the emotional journeys books can take us on, S. K. Williams breaks down stereotypes, sexism, relationship roles, and brings awareness to mental health, grief, anxiety, depression, how to move forward, how to love in a healthy way, and, most of all, how to love yourself when it feels impossible.

[The Fire Child](#) Aug 23 2023 THE PERFECT HUSBAND. THE PERFECT STEPSON. THE PERFECT LIE? "Tremayne...does a terrific job of building suspense until events reach their climax in the midst of a violent storm." -- Library Journal When Rachel marries dark, handsome David, everything seems to fall into place. Swept from single life in London to the beautiful Carnhallow House in Cornwall, she gains wealth, love, and an affectionate stepson, Jamie. But then Jamie's behavior changes, and Rachel's perfect life begins to unravel. He makes disturbing predictions, claiming to be haunted by the specter of his late mother - David's previous wife. Is this Jamie's way of punishing Rachel, or is he far more traumatized than she thought? As Rachel starts digging into the past, she begins to grow suspicious of her husband. Why is he so reluctant to discuss Jamie's outbursts? And what exactly happened to cause his ex-wife's untimely death, less than two years ago? As summer slips away and December looms, Rachel begins to fear there might be truth in Jamie's words: "You will be dead by Christmas."

Love from A to Z Apr 26 2021 Eighteen-year-old Muslims Adam and Zayneb meet in Doha, Qatar, during

spring break and fall in love as both struggle to find a way to live their own truths.

New England Reporter Jan 04 2022

Across the Void Sep 19 2020 A visceral space thriller—perfect for fans of *Arrival* and *The Martian*—following the sole survivor of a catastrophic accident in space that leaves her drifting in the void with only the voice of her estranged husband, a NASA scientist, to guide her back to Earth. Commander Maryam “May” Knox awakes from a medically induced coma alone, adrift in space on a rapidly failing ship, with little to no memory of who she is or why she’s there. Slowly, she pieces together that she’s the captain of the ship, *Hawking II*; that she was bound for Europa—one of Jupiter’s moons—on a research mission; and that she’s the only survivor of either an accident—or worse, a deliberate massacre—that has decimated her entire crew. With resources running low, and her physical strength severely compromised, May must rely on someone back home to help her. The problem is: everyone thinks she’s dead. Back on Earth, it’s been weeks since *Hawking II* has communicated with NASA, and Dr. Stephen Knox is on bereavement leave to deal with the apparent death of his estranged wife, whose decision to participate in the Europa mission strained their marriage past the point of no return. But when he gets word that NASA has received a transmission from May, Stephen comes rushing to her aid. What he doesn’t know is that not everyone wants May to make it back alive. Even more terrifying: she might not be alone on that ship. Featuring a twisting and suspenseful plot and compelling characters, *Across the Void* is a moving and evocative thriller that you won’t be able to put down.

Annual Report (1923/24, Report) of the Imperial Bacteriological Laboratory, Muktesar Jul 18 2020

Non-Instantaneous Impulses in Differential Equations Feb 05 2022 This monograph is the first published book devoted to the theory of differential equations with non-instantaneous impulses. It aims to equip the reader with mathematical models and theory behind real life processes in physics, biology, population dynamics, ecology and pharmacokinetics. The authors examine a wide scope of differential equations with non-instantaneous impulses through three comprehensive chapters, providing an all-rounded and unique presentation on the topic, including: - Ordinary differential equations with non-instantaneous impulses (scalar and n-dimensional case)- Fractional differential equations with non-instantaneous impulses (with Caputo fractional derivatives of order $q \in (0, 1)$)- Ordinary differential equations with non-instantaneous impulses occurring at random moments (with exponential, Erlang, or Gamma distribution) Each chapter focuses on theory, proofs and examples, and contains numerous graphs to enrich the reader’s understanding. Additionally, a carefully selected bibliography is included. Graduate students at various levels as well as researchers in differential equations and related fields will find this a valuable resource of both introductory and advanced material.

General Psychology Nov 02 2021 This book provides valuable insight into the nature and the background of the subject of Psychology. Designed basically as a textbook for general psychology courses of Indian universities, it will also prove useful to those working in the disciplines of sociology, education, social work and social sciences. The subject matter in the text has been presented in such a way that it can be easily grasped by a beginner and appreciated by an advanced reader.

Continental Scientific Drilling Project of the Cretaceous Songliao Basin (SK-1) in China Nov 14 2022

Continental Scientific Drilling Project of the Cretaceous Songliao Basin (SK-1) in China is the first reference to provide the results of the first part of scientific drilling project at the Songliao Basin in the Daqing oil field, the largest known oil field in China. The project has two major objectives: one is to correlate the oceanic and continental records and determine the principal drivers of climate change in order to assist in future climate change predictions and its influence on the earth's environment. The second is to further test the theory of terrestrial genesis of hydrocarbons, and to explore the formation of intra-continental sedimentary basins, as many are major hydrocarbon provinces. In addition, this project provides the scientific basis for exploration of the Daqing Oilfields, which have a yearly production of forty million tons of oil. The world is entering a new exciting era to explore in which scientific drilling will provide a quantum

leap in our understanding of its deep earth and history. Continental Scientific Drilling Project of the Cretaceous Songliao Basin (SK-1) in China will play an important role in promoting scientific drilling and earth system science research. Summarizes the geological background, seismic profile, and tectonic evolution of the Songliao Basin Provides detailed information on drilling technology of SK-1, which successfully obtained ~2500m core with a recovery rate of ~95% Includes detailed core information: stratigraphic charts, core photographs, and core photograph identification tables

The Assistant Jun 21 2023 Newly divorced Jo is delighted to move into her best friend's spare room almost rent-free. The high-tech luxury Camden flat is managed by a meticulous tech tool, a Home Assistant called Electra, who takes care of the heating and the lights - sometimes Jo even turns to her for company. Then, late one night, Electra speaks one sentence that rips Jo's fragile world in two: I KNOW WHAT YOU DID. Jo is horrified, because in her past she DID do something terrible. Something unforgivable. Only two other people in the whole world know her secret. And they would never tell anyone. Would they? As a fierce winter brings London to a standstill, Jo begins to understand that the Assistant on the shelf doesn't just want to control her; it wants to destroy her...

Once Upon an Eid Mar 18 2023 A joyous short story collection by and about Muslims, edited by New York Times bestselling author Aisha Saeed and Morris finalist S. K. Ali *Once Upon an Eid* is a collection of short stories that showcases the most brilliant Muslim voices writing today, all about the most joyful holiday of the year: Eid! Eid: The short, single-syllable word conjures up a variety of feelings and memories for Muslims. Maybe it's waking up to the sound of frying samosas or the comfort of bean pie, maybe it's the pleasure of putting on a new outfit for Eid prayers, or maybe it's the gift giving and holiday parties to come that day. Whatever it may be, for those who cherish this day of celebration, the emotional responses may be summed up in another short and sweet word: joy. The anthology will also include a poem, graphic-novel chapter, and spot illustrations. The full list of *Once Upon an Eid* contributors include: G. Willow Wilson (*Alif the Unseen*, *Ms. Marvel*), Hena Khan (*Amina's Voice*, *Under My Hijab*), N. H. Senzai (*Shooting Kabul*, *Escape from Aleppo*), Hanna Alkaf (*The Weight of Our Sky*), Rukhsana Khan (*Big Red Lollipop*), Randa Abdel-Fattah (*Does My Head Look Big in This?*), Ashley Franklin (*Not Quite Snow White*), Jamilah Thompkins-Bigelow (*Mommy's Khimar*), Candice Montgomery (*Home and Away*, *By Any Means Necessary*), Huda Al-Marashi (*First Comes Marriage*), Ayesha Mattu, Asmaa Hussein, and Sara Alfageeh.

Munson's System of Phonography Dec 23 2020

Saints and Misfits Dec 15 2022 Fifteen-year-old Janna Yusuf, a Flannery O'Connor-obsessed book nerd and the daughter of the only divorced mother at their mosque, tries to make sense of the events that follow when her best friend's cousin--a holy star in the Muslim community--attempts to assault her at the end of sophomore year.

Mr. DARK SIDE, número uno Jan 16 2023 CHAPTER 1 “In the beginning there was only Chaos. Then out of the void appeared Erebus, the unknowable place where death dwells, and Night. All else was empty, silent, endless, dark. Then, Love was born bringing along the beginning of order. From Love emerged Light,” greekmythology.com “Distal phalangeal fracture,” the too young Doctor stated, factually, as she pointed at my bare big toe. She glanced back at her computer screen. “Old injury.” I nodded. “Yeah. I don't remember doing it, the actual, ahh, event. But my Mother would tell the story about me, as a toddler, dropping Great Uncle Edger's model locomotive, either a Lionel or Märklin, the make changed each time she told the story, on my toe.” Uh oh, I getting ahead of myself. OK, let me start again. ... Mom, as in 'She Who Must Be Obeyed', had made it crystal clear. I was going to take advantage of our Heath Insurance Program's full medical exam and 'free' body scan. Part of her 'crystal clarity' was that I had no say in the matter. It had made me seriously think about giving up my rent-free living at home status. The small, semi-furnished, presently available, studio apartment just down the street from my favorite bar was looking better and better. A good deal better than sitting answering questions about the how and why of old injuries. In silence, I questioned 'why' it was so important to Mom that she'd have confirmation of me being a member of humanity. I did question though, in silence, for sure. Her demanding that she follow me in her car to the clinic and personally deliver me to the front desk, should have tipped me off to her motivation. Yup, it never

dawned on me, at that instant in time, what she was plotting. Clueless, I dutifully sat as she filled out forms which she then allowed me to sign. Surprisingly, she didn't insist on accompanying me down the hallway to a small health clinic type room. The young woman, to my eye way too young to be a medical doctor, introduced herself as Doctor Hickok. Well, of course I asked about the OK Coral. Didn't even get a smile. All business, Doc Hickok. Yup, 'High Noon'.

Linesman Aug 11 2022 First in a brand new thought-provoking science fiction series. The lines. No ship can traverse the void without them. Only linesmen can work with them. But only Ean Lambert hears their song. And everyone thinks he's crazy... Most slum kids never go far, certainly not becoming a level-ten linesman like Ean. Even if he's part of a small, and unethical, cartel, and the other linesmen disdain his self-taught methods, he's certified and working. Then a mysterious alien ship is discovered at the edges of the galaxy. Each of the major galactic powers is desperate to be the first to uncover the ship's secrets, but all they've learned is that it has the familiar lines of energy—and a defense system that, once triggered, annihilates everything in a 200 kilometer radius. The vessel threatens any linesman who dares to approach it, except Ean. His unique talents may be the key to understanding this alarming new force—and reconfiguring the relationship between humans and the ships that serve them, forever.
