Gold is one of the most stable precious metals; it is described as a protection for you and your family against financial uncertainty and inflation. This is one of the most recommended investment opportunities especially for someone who has never invested on anything before. The future for gold investments always have a golden lining since the price of the metal has increased for about three to four times its value in just a matter of a decade. Curious to know how investors like Warren Buffet are swimming in billions while the mass majority can not even break even? Keep reading... Stock market investments have the potential to yield exceptional returns. That we know. However, we fail to think that it can do that for us. Successful investors were not born with special abilities that you and I do not have. Everyone starts at a different place, but inherently, I couldn't think of a person that couldn't become a successful investor. Still, many people struggle to choose the right stocks and make a profit. Most people don't even break even; they lose money. Soon, they conclude that this "thing" isn't for them and give up. That doesn't have to be the case. You might want to invest part-time for an extra \$500 - \$1000 to supplement your current income. You might want to quit your job and get into it full time to try to make a living out of it. Or, in best cases, you're the type of person who wants to be financially free live a life without having to work another day in your life, i.e., make millions. Whatever the goal is, small or big, the possibilities are there. When I first got into investing, I struggled a lot. After years of frustration, disappointment, embarrassment, and, on one occasion, \$17739 in debt, I know it can be tough. It got to the point where I just thought that I wasn't made for it, and of course, as 99,9% of the population, I started making excuses. You're probably familiar with some of them. "It's too late to get started." "I don't have enough money to invest." "I don't have enough time." The excuses are endless. Companies keep growing. Most millionaire investors started from nothing, a few were born into wealthy families. You have the same 24 hours as everyone else. The upside is that even if you have made these excuses before, you can succeed now. It's just up to you to take the initiative. In this book, you'll discover some of the following: Stock Market Basics & Essentials Fundamental, Industry and Company Research Investment Styles Such as Value, Growth and Income Investing Short Selling, Buying on Margin, Day Trading Online Trading, and Portfolio Management Much, much more. Successful corporate executives face unique investing challenges, because their personal wealth is irrevocably tied to their company's performance, normal market ups and downs, and even unexpected events. An executive's investment portfolio may consist mostly of employer stock and stock options that are governed by rules the executive doesn't know about and can't control. And the executive also faces a variety of other financial landmines, ranging from taxes to corporate pension shortfalls. So the forward-thinking corporate executive badly needs effective financial management and investing strategies to build a financially secure future, designed with the special needs of a corporate executive in mind. That is what this guide will provide: the essence of what investments and investing strategies the executive should consider employing to achieve financial independence sooner, rather than later. The audience for this investing guide includes C-suite executives, middle managers, and those in supervisory positions with executive responsibilities or aspirations. It will also be useful for MBA students, those in executive education seminars, and others who are planning corporate careers. This book will teach the executive reader: How to set the proper goals before investing How to maximize corporate resources for your investing goals How to understand and choose from the different types of investments, including bank investments, stocks, mutual funds, exchange-traded funds (ETFs), venture capital investments, real estate investments, and alternative investments.
