Algorithm Trading 101 Jun 15 2022 Today's financial and capital markets are moving faster than ever before, and it is changing all the time. We have to trade faster, more swiftly than ever before. The need for a proven statistical trading edge that generates net abnormal returns in the long run is greater than ever. This new book is a guide to build algorithm trading models that can decipher market patterns and detect trends in the current rapidly changing market. With the concept and principles used by professionals in financial institutions, the book places everyone on level ground with institutional traders and profit just as much. This book discusses how this statistical trading edge can be built in your own designed do-it-yourself algorithmic technical trading model. What makes and marks an exceptional trader from an average trader is a proven statistical trading edge of producing positive net return in the long run. An exceptional trader is not born with a natural gaming talent to time purchases and sales.

Rather he or she is someone who is an extremely keen observer of market price patterns. The exceptional trader does his or her homework by researching the markets and backtesting technical algorithm trading systems. Anyone can be an exceptional trader if he or she dedicates and commits the time to study and practise technical analysis in the science of trading. Therefore, Algorithm Trading 101 begins with market data and technical analysis which are important components of market analysis because it is the cornerstone to timing each and every trade. Algorithm Trading 101 is all about guiding the average trader to use the right technical trading indicator in order to make abnormal profits. It is about how a beginner can distinguish herself or himself from the crowd and make exceptional profits using technical analysis, its indicators and algorithm models. This book is all about trading. Making profit has nothing to do with random luck. Luck can not be disguised and perceived as skill. Nothing is random. Everything is about patterns repeating themselves, in many different ways and in many different forms. This book is about the patterns in commodities and futures markets. This book is about how anyone can identify the patterns or trends and trade on them as much as possible with net positive return after accounting for transaction costs and precious time spent. It is about achieving the best possible returns for your capital, time and money. This book is about you, being at the right market, at the right time, timing your purchase or your sale in the equity, commodities, futures, currencies, cryptocurrencies, any market that trends directionally. Your chances of being right and riding on the right decision, timing and action all add up to net profitability over the years, after paying yourself for the time, effort and hard work. Trading is a serious profession. You can do as well as the experts - perhaps even better. This book is a succinct guide for the individual investor. The trading rule is: make huge unlimited profit and small limited loss. In increasingly competitive financial markets, knowing and applying the right indicators to tell you the signs of the times, gives you the trading edge, that is, the tool, technique and insight to decipher the patterns or trends in the markets before the formation is completed. You have to be ahead of the other equally competitive, well-informed traders to make your trade a winner and yourself a successful trader in the long run, in the years ahead when others have dropped out of this mad race. Welcome to the exciting world of trading. To have real fun in trading, you must have the know-how and the technique to make consistent profits for it to be a long term enjoyment, business and livelihood. Have fun. Enjoy your trading and your life. All the very best for your trading.

Forex Trading Made Simple Feb 11 2022 You will not find this education at you brokers how to section. Most likely you will not find this information anywhere on this book section, or on any other book store. I have paid thousands of dollars on exclusive groups and, on paid private forums to collect the information presented in this book. As you can imagine these are the highly guarded secrets of the elite FOREX traders. No one gives their living away, unless you pay them a price worth their living. However I have decided to make this information available for ridiculously low price, because I am fed up with the brokers and the big banks taking advantage of the regular retail trader like yourself. Let me ask you a question? When was the last time you made money with FOREX? Even further more, how much money you are willing to lose, until you give up? How long you will continue to give your hard earned money to the broker? Just like you I started 5 years ago with high hopes of quitting my job and leaving the live I deserve with FOREX. My hopes and aspirations were quickly crashed and my dreams went to the dump. First I lost 1000, then 5000, 10k, how much longer I could continue like that, how much longer, I could endure the ridicule the jokes of my family and the frown on the face of my wife. It was painful, sitting all day in front of the computer, until you can't see any longer and everything including the platform and your mind become blurry. I know the pain I have been there. This continued for year, until one morning I was ready to quit, I was going to give it a last try and throw that FOREX staff in the garbage, out the window. I stumbled on a rear tread, which since then has been banned, by the broker that was holding the forum. Luckily the tread continued under the brokers radar for while, and gathered a bunch of comments an support. Finally the tread from the trader X was discontinued. I was in despair, that was the only hope and light, I have seen for a long time. I was applying the advice from the trader and things were starting to work for me. Fortunately I was able to PM the trader and begged him to agree on a 20 min conversation on the phone. Trader X was not a guru, not your regular internet promoter mojo. He was quietly raking in thousands of dollars a month for years, he was not excited about the next trade, his heart beat was not raising before he pooled the trigger. See, he has been doing this trading staff for so long it has become a boring procedure, rather a morning an afternoon chore, something like putting the garbage out on garbage day. He explained that he learned from the MASTER, I did not proceed to ask him who was the MASTER, since I mainly was concerned with him teaching me every little bit of what he knew about trading. He didn't not agree to spend time teaching me, on our first conversation, regardless of how much I offered to pay him. See, for him money was not a issue. Finally on my third approach he agreed to show me what the MASTER had thought him many years ago. What is comprised in the pages of this book, will be worth pure gold to you. This book is down to the ground no non sense, real trading knowledge. It gives a step by step instructions with real trade examples. This book is not your regular hog wash advice that you will find from your broker and the other magic bullets and seven step series that you see on this site. This book teaches you how to trade like the pros. Shows you how the big banks and foreign nationals and institution trade. The book opens your eyes to how to piggy back on the big institutional traders and win. Ninety Five percent of the people that trade the Forex market lose money and give up. I have paid thousands of dollars on exclusive groups and paid forums to collect the information presented in this book. As you can imagine these are the highly guarded secrets of the elite of the FOREX traders, no one gives their living away, unless you pay them a price worth their living. However I have decided to make this information for ridiculously low price, because I am fed up with the brokers and the big banks taking advantage of the regular retail trader. Let me ask you a question? When was the last time you make money with FOREX? Even further more how much money you are willing to lose, until you give up? How long you will continue to give your hard earned money to the broker? Just like you I started 5 years ago with high hopes of quitting my job and leaving the live I deserve with FOREX. My hopes and aspirations were quickly crashed and my dreams went to the dump. First I lost 1000, then 5000, 10k , how much longer I could continue like that, how much longer I could endure the ridicule the jokes of my family and the frown on the face of my wife. It was painful, sitting all day in front of the computer, until you can't see any longer and everything including the platform and your mind become blurry. I know the pain I have been there. This continued for year, until one morning I was ready to quit, I was going to give it a last try and throw that FOREX staff in the garbage, out the window. I stumbled on a rear tread, which since then has been banned, by the broker that was holding the forum. Luckily the tread continued under the broker's radar for while, and gathered a bunch of comments an support. Finally the tread from the trader X was discontinued. I was in dis pare, that was the only hope and light, I have seen for a long time. I was applying the advice from the trade and things were starting to work for me. Fortunately I was able to PM the trader and begged him to agree on a 20 min conversation on the phone. Trader X was not a guru, not your regular internet promoter mojo. He was quietly raking in thousands of dollars a month for years, he was not excited about the next trade, his heart beat was not raising before he pooled the trigger. See, he has been doing this trading staff for so long it has become a boring procedure, rather a morning an afternoon chore, something like putting the garbage out on garbage day. He explained that he learned from the MASTER, I did not proceed to ask him who was the MASTER, since I mainly was concerned with him teaching him every little bit of what he knew about trading. He didn't not agree to spend time teaching me on our first conversation, regardless of how much I offered to pay him. See, for him money was not a issue. Finally on my third approach he agreed to show me what the MASTER had thought him many years ago. What is comprised in the pages of this book will be worth pure gold to you.This book is down to the ground no no sense, real trading knowledge. It gives step by step instructions with real trade examples. This book is not your regular hog wash advice that you will find from your broker and the other magic bullets and seven step series that you see on this site.
