This edition, which now includes fully classroom-tested case studies, covers the core aspects of the business strategy syllabus as well as reflecting the cutting edge of strategic management thought. Over the past ten years, there has been growing interest in the

process of strategic decision-making among both managers and researchers. Strategic decisions are important for five main reasons: They are large-scale, risky and hard to reverse; they are a bridge between deliberate and emerging strategies; they can be a major source of organizational learning; they play an important part in the development of individual managers and they cut across functions and academic disciplines. Strategic Decisions summarizes the current state of the art in research on strategic decision-making, with chapters prepared by leading strategy researchers. The editors also present implications for current application and proposed directions for future research. Strategic Management: Creating Competitive Advantages, 1st Edition, by Dess and Lumpkin, responds to the demands of today's rapidly changing and unpredictable global marketplace that students will face when they enter the business world.
