The luminous garden scenes and playful language in this tale of late-blooming self-discovery tell the story of Holly Bloom, a girl who wants nothing more than to be a great gardener but simply doesn't seem to have the knack. Despite suggestions and support from her green-thumbed mom and siblings, Holly just can't get her garden to bloom. She waters and fertilizes and uses all the right gardening tools, but her daffodils don't grow, and her daisies keep drooping. Armed with a positive attitude and unwavering perseverance, Holly finally realizes that she does not need to grow flowers with soil and seeds to be a success. Inspired by her artistic father, she taps into her natural creative abilities and surprises everyone by growing her own unique garden—from paper, paste, pipe cleaners, and paint. Virginia Woolf famously began one of her greatest novels: “Mrs Dalloway said she would buy the flowers herself.” Of course she would: why would anyone surrender the best part of the day to someone else? Flowers grace our lives at moments of celebration and despair. “We eat, drink, sing, dance, and flirt with them,” writes Kakuzo Okakura. Flowers brighten our homes, our parties, and our rituals with

incomparable notes of natural beauty, but the “nature” in these displays is tamed and conscribed. Randy Malamud seeks to understand the transplanted nature of cut flowers—of our relationship with them and the careful curation of their very existence. It is a picaresque, unpredictable ramble through the world of flowers, but also the world itself, exploring painting, murals, fashion, public art, glass flowers, pressed flowers, flowery church hats, weaponized flowers, deconstructed flowers, flower power, and much more. Describes more than four hundred perennials and grasses, providing information on each plant's origins, preferred conditions, and planting zones. Energetic, connected, marketing-savvy author with strong platform on social and in educator and bookseller communities. Heartwarming picture book with regional and national education and gift market appeal. Author says Ralph Waldo Emerson’s quote; “What is a weed? A plant whose virtues have not been discovered,” captures the essence of what she wanted to say with this book. Portrays SEL traits as well as diversity including: resilience; self-confidence; setting aside or looking past labels; standing up for those who are different; problem-solving; tolerance; empathy; kindness; inclusiveness; patience; perseverance; compassion; individuality; sportsmanship; standing up to bullies; self-esteem; self-reliance; respect; etc. Multi-generational and Multi-ethnic characters. Includes examples of: unconditional family love; caregiving; the circle of life; environment; ecosystems; gardening with young children; intergenerational friendships; community; unusual companions; beauty in nature; imagination and play; wonder and delight; the joy of love offered and love returned. Artist’s work in Glacier on the Move was called: “Absolutely charming... colorful... adorable” by School Library Journal Synopsis: A girl enters the town flower contest and learns an important lesson. The flower that she thinks is most beautiful isn’t the conventional choice. Book guide will be available. Lexile 610L. There was once a beautiful flower and a little girl who loved it. She talked to it every morning on her way to school. The owner of the flower shouted at her. The next day, the flower did not open. The angry man didn't understand. He tried watering it. He tried giving it shade and he tried talking to it. He told it how wonderful he was, how important his job was and how lonely he felt. But it still refused to open. So, he asked the little girl. "Why don't you tell it how wonderful it is and how much you love it?" she said. As he did so, his own heart filled with love. And the flower bloomed. When reclusive novelist Senna Richards wakes up on her thirty-third birthday, everything has changed. Caged behind an electrical fence, locked in a house in the middle of the snow, Senna is left to decode the clues to find out why she was taken. If she wants her freedom, she has to take a close look at her past. But, her past has a heartbeat...and her kidnapper is nowhere to be found. With her survival hanging by a thread, Senna soon realizes this is a game. A dangerous one. Only the truth can set her free. The Flower Book explores 60 flowers, bloom-by-bloom in stunning portraiture. In The Big Book of Blooms, the next installment in the wildly successful Big Book series, Yuval Zommer's charming illustrations bring to life some of the most colorful, flamboyant, and unusual flowers from across the globe. In the opening pages, readers will learn all about botany, including how to recognize different types of flowers. Subsequent pages illustrate the various habitats that are home to flora such as pitcher plants, the giant water lily, and the weirdly wonderful corpse flower. Readers will discover which flowers are endangered and why some blooms are fragrant or colorful, not to mention grisly details about carnivorous and poisonous flowers. This title pairs picture-book charm and concise, informative text to create a beautiful book for children to return to. Zommer's quirky illustrations appeal to young readers, who will relish these fun and amazing facts about the world's most exciting plants. What colors are you made of? In this collection of poetry and painted flowers, Angela Bell Julien explores attributes of the people who make up life's bouquet. As you wind your way through her verses, you may discover elements of yourself or of those you love. Do you recognize the green that allows you to face change with a sense of hope? Can you embrace red, both dangerous and passionate? Appreciate white, so easily overlooked yet so inspiring? Each poem is accompanied by commentary from Angela, as well as a place to write down your own impressions of people you have known. Enjoy celebrating the colorful nuances that make us unique! Join acclaimed photographer Georgianna Lane and explore the flower markets, gardens, and floral boutiques of London in this full-color celebration of the flora of England's capital. London in Bloom showcases the floral abundance of the city's extraordinary parks, gardens, florists, and flower markets. In this companion to her popular books Paris in Bloom and New York in Bloom, Georgianna Lane takes us on a romantic floral tour of London, juxtaposing luscious blooms with intricate floral details found in iconic architecture. spring tour of blossoms and blooms A field guide of common spring-blooming trees and shrubs Step-by-step instructions for creating a London-style bouquet And more Lane offers a practical travel guide for anyone planning to see London in bloom in real life. She plans out a tour of spring blossoms, with a field guide for identifying flowering trees and shrubs. She even includes a list of addresses for her favorite parks, gardens, floral boutiques, and flower markets. Lane writes, "No place, real or imagined, enchants quite like an English garden. The ornate gates, the tumbling roses, the winding paths, and the sunlight winking through branches of delicate blossoms have long inspired poetry and romance. . . . Some are intimate and secret, with secluded corners and mysterious pools where dragonflies hover or fantastic creatures might even dwell. Others are impressive and majestic, their rolling parklands reminiscent of an eighteenth-century landscape painting." For flower lovers and Anglophiles alike, *London in Bloom* offers a unique and irresistible view of London, a chance to bring "poetry and romance" to your home or to give it as a gift. #1 Amazon Best Seller — Welcome to the farm! *The Cut Flower Garden*: Erin Benzakein is a florist-farmer, leader in the locaflor farm-to-centerpiece movement, and owner of internationally renowned Floret Flower Farm in Washington's lush Skagit Valley. "The closer he got, the brighter that red became. It was a rose—a rose that had no earthly business growing there, right in the middle of all

that dust." Just as Jeremiah Goodbye is set to meet his fate in the electric chair, he is given a second chance at life. With the flip of a coin, he decides to return to his home town of Nowhere, Oklahoma, to settle the score with his twin brother Josiah. But upon his escape, he enters a world he doesn't recognize—one that has been overtaken by the Dust Bowl. And the gift he once relied on to guide him is as unrecognizable as the path back to Nowhere. On his journey home, he accidentally rescues a young boy, and the pair arrive at their destination where they are greeted by darkened skies and fearful townspeople who have finally begun to let the past few years of hardship bury them under the weight of all that dust. Unlikely heroes, Jeremiah and his new companion, Peter Cotton, try to protect the residents of Nowhere from themselves, but Jeremiah must face his nightmares and free himself from the guilt of his past and the secrets that destroyed his family. Filled with mystery and magic, this exquisite novel from award-winning author James Markert is a story of finding hope in the midst of darkness and discovering the beauty of unexpected kindness. "Get ready for a beauty overload. It's food for the soul, it's a book of dreams and details, of flowers so perfect you want to hug them to you." —Carla Coulson, author of *Paris Tango Paris—City of Love, City of Light, City of Flowers*. The brilliant, controversial, bestselling critique of American culture that “hits with the approximate force and effect of electroshock therapy” (The New York Times)—now featuring a new afterword by Andrew Ferguson in a twenty-fifth anniversary edition. In 1987, eminent political philosopher Allan Bloom published *The Closing of the American Mind*, an appraisal of contemporary America that “hits with the approximate force and effect of electroshock therapy” (The New York Times) and has not only been vindicated, but has also become more urgent today. In clear, spirited prose, Bloom argues that the social and political crises of contemporary America are part of a larger intellectual crisis: the result of a dangerous narrowing of curiosity and exploration by the university elites. Now, in this twenty-fifth anniversary edition, acclaimed author and journalist Andrew Ferguson contributes a new essay that describes why Bloom’s argument caused such a furor at publication and why our culture so deeply resists its truths today.

*Monitoring of Harmful Algae Blooms* is a timely guide to the research techniques in use to monitor visible algae blooms and through remote sensing, including infrared techniques, predict them through mathematical modeling. Drawing on current and future satellite data, the book presents visible perspectives on a more efficient HAB monitoring system for the future. It also emphasizes practical applications, impacting on marine ecology, national economy, health, food and safety and quality assurance. Takes readers on a journey across continents and cultures to discover the endless ways artists and image-makers have employed floral motifs throughout history. Showcasing the diversity of blooms from all over the world, *Flower* spans a wide range of styles and media - from art, botanical illustrations, and sculptures to floral arrangements, film stills, and textiles - and follows a visually stunning sequence with works, regardless of period, thoughtfully paired to allow interesting and revealing juxtapositions between them. There are three things you need to know about Ashley Winston: 1) She has six brothers and they all have beards, 2) She is a reader, and 3) She knows how to knit. Former beauty queen, Ashley Winston’s preferred coping strategy is escapism. She escaped her Tennessee small town, loathsome father, and six brothers eight years ago. Now she escapes life daily via her one-click addiction. However, when a family tragedy forces her to return home, Ashley can’t escape the notice of Drew Runous—local Game Warden, bear wrestler, philosopher, and everyone’s favorite guy. Drew’s irksome philosophizing in particular makes Ashley want to run for the skyscrapers, especially since he can’t seem to keep his exasperating opinions— or his soulful poetry, steadfast support, and delightful hands— to himself. Pretty soon the girl who wanted nothing more than the escape of the big city finds she’s lost her heart in small town Tennessee. *Beauty and the Mustache* is book #4 in the *Knitting in the City* series, and book #0.5 in the *Winston Brothers* series. Each book is a standalone, full length (110k words), contemporary romantic comedy novel, and follows the misadventures and exploits of seven friends in Chicago, all members of the same knitting group. Make a garden of paper flowers bloom with more than 25 sophisticated patterns designed by Jeffery Rudell, whose work has appeared everywhere from *Tiffany & Co.* to *Good Housekeeping* magazine. FINALIST FOR THE KIRKUS PRIZE • ONE OF THE BEST BOOKS OF THE YEAR: The Washington Post, NPR, Esquire, Marie Claire, Electric Lit, Ms. magazine, Kirkus Reviews, Booklist In late August 1619, a ship arrived in the British colony of Virginia bearing a cargo of twenty to thirty enslaved people from Africa. Their arrival led to the barbaric and unprecedented system of American chattel slavery that would last for the next 250 years. This is sometimes referred to as the country’s original sin, but it is more than that: It is the source of so much that still defines the United States. The New York Times Magazine’s award-winning 1619 Project issue reframed our understanding of American history by placing slavery and its continuing legacy at the center of our national narrative. This book substantially expands on that work, weaving together eighteen essays that explore the legacy of slavery in present-day America with thirty-six poems and works of fiction that illuminate key moments of oppression, struggle, and resistance. The essays show how the inheritance of 1619 reaches into every part of contemporary American society, from politics, music, diet, traffic, and citizenship to capitalism, religion, and our democracy itself. This book that speaks directly to our current moment, contextualizing the systems of race and caste within which we operate today. It reveals long-glossed-over truths around our nation’s founding and construction—and the way that the legacy of slavery did not end with emancipation, but continues to shape contemporary American life. Harmful algal blooms (HABs) - blooms that cause fish kills, contaminate seafood with toxins, or cause human or ecological health impacts and harm to local economies - are occurring more often, in more places and lasting longer than in past decades. This expansion is primarily the result of human activities, through increased nutrient inputs and various aspects of climate change. The Global Ecology and Oceanography of Harmful Algal Blooms (GEOHAB) programme promoted international collaboration to understand HAB population dynamics in various oceanographic regimes and to improve the prediction of HABs. This volume introduces readers to the overarching framework of the GEOHAB programme, factors contributing to the global expansion of harmful algal blooms, the complexities of HABs in different habitats, and the forward-looking issues to be tackled by the next generation of GEOHAB, GlobalHAB. The programme brought together an international team of contributing scientists and ecosystem managers, and its outcomes will greatly benefit the international research community. Harmful Algal Blooms: A Compendium Desk Reference provides basic information on harmful algal blooms (HAB) and references for individuals in need of technical information when faced with unexpected or unknown harmful algal events. Chapters in this volume will provide readers with information on causes of HAB, successful management and monitoring programs, control, prevention, and mitigation strategies, economic consequences of HAB, associated risks to human health, impacts of HAB on food webs and ecosystems, and

detailed information on the most common HAB species. Harmful Algal Blooms: A Compendium Desk Reference will be an invaluable resource to managers, newcomers to the field, those who do not have easy or affordable access to scientific literature, and individuals who simply do not know where to begin searching for the information needed, especially when faced with novel and unexpected HAB events. Edited by three of the world's leading harmful algal bloom researchers and with contributions from leading experts, Harmful Algal Blooms: A Compendium Desk Reference will be a key source of information for this increasingly important topic. Discusses why the jellyfish population has exploded in recent years and why their dominance is indicative of a declining ocean ecosystem.
