The Decline of Substance Use in Young Adulthood Feb 11 2022 This book is intended as a thoughtful extension to Bachman et al.'s well-received monograph Smoking, Drinking, and Drug Use in Young Adulthood. That volume showed that the new freedoms of young adulthood lead to increases in substance use, while the responsibilities of adulthood--marriage, pregnancy, parenthood--contribute to declines in substance use. The Decline of Substance Use in Young Adulthood examines how the changes in social and religious experiences and in attitudes toward substance use observed among young adults are related to changes in substance use, family transitions, living arrangements, college experience, and employment. The research uses a variety of analysis techniques and is based on the nationwide Monitoring the Future surveys of more than 38,000 young people followed from high school into adulthood. The research covers the last quarter of the 20th century, a period when drug use and views about drugs underwent many important changes. In spite of these shifts, the overall patterns of relationships reported in this book are impressive in their consistency across time and in their general similarity for men and women. Specific questions addressed include the following: *As young adults experience new freedoms and responsibilities, do their attitudes about drugs change? *Do their religious views and behaviors shift? *Do their new freedoms and responsibilities affect the amount of time they spend in social activities, including going to parties and bars? *And how are any of these changes linked to changes in cigarette use, alcohol use, marijuana use, and cocaine use?

Ethan Stowell's New Italian Kitchen Mar 15 2022 Welcome to Ethan Stowell's New Italian Kitchen--not so much a place as a philosophy. Here food isn't formal or fussy, just focused, with recipes that honor Italian tradition while celebrating the best ingredients the Pacific Northwest has to offer. We're talking about a generous bowl of steaming handmade pasta--served with two forks for you and a friend. Or perhaps an impeccably fresh crudo, crunchy cucumber and tangy radish accenting impossibly sweet spot prawns. Next up are the jewel tones of a beet salad with lush, homemade ricotta, or maybe a tangle of white beans and clams spiked with Goat Horn pepper--finished off with a whole roasted fish that begs to be sucked off the bones. Oh, some cheese, a gooseberry compote complementing your Robiola, or the bittersweet surprise of Campari sorbet. This layered approach is a hallmark of Ethan's restaurants, and in his New Italian

Kitchen, he offers home cooks a tantalizing roadmap for re-creating this style of eating. Prepare a feast simply by combining the lighter dishes found in “Nibbles and Bits”—from Sardine Crudo with Celery Hearts, Pine Nuts, and Lemon to Crispy Young Favas with Green Garlic Mayonnaise—or adding recipes with complex flavors for a more sophisticated meal. Try the luscious Corn and Chanterelle Soup from “The Measure of a Cook;” or the Cavatelli with Cuttlefish, Spring Onion, and Lemon from “Wheat’s Highest Calling.” Up the ante with a stunning Duck Leg Farrotto with Pearl Onions and Bloomsdale Spinach from “Starches to Grow On,” or choose one of the “Beasties of the Land,” like Skillet-Roasted Rabbit with Pancetta-Basted Fingerlings. Each combination will nudge you and your guests in new, unexpected, and unforgettable directions. Every page of Ethan Stowell’s *New Italian Kitchen* captures the enthusiasm, humor, and imagination that make cooking one of life’s best and most satisfying adventures. It’s got to be good—but it’s also got to be fun.

Merry Christmas; Dumpster Dog! Aug 27 2020 [This series] is for kids who can appreciate a little more action and a lot more voice in their reading. But this year, Dumpster Dog and Flat Cat have decided they're going to celebrate in a house instead of their trash can! But can they find a home for Christmas? Enter the Noel family. Dumpster Dog scratches at their door, which is opened by the young Marie. How wonderful, she thinks, to finally have a disgustingly dumpy dog to leave under the tree for my brother. With that, she opens the door...

Dictionary of the Undoing Jan 30 2021 For John Freeman—literary critic, essayist, editor, poet, “one of the preeminent book people of our time” (Dave Eggers)—it is the rare moment when words are not enough. But in the wake of the election of 2016, words felt useless, even indulgent. Action was the only reasonable response. He took to the streets in protest, and the sense of community and collective conviction felt right. But the assaults continued—on citizens’ rights and long-held compacts, on the core principles of our culture and civilization, and on our language itself. Words seemed to be losing the meanings they once had and Freeman was compelled to return to their defense. The result is his *Dictionary of the Undoing*. From A to Z, “Agitate” to “Zygote,” Freeman assembled the words that felt most essential, most potent, and began to build a case for their renewed power and authority, each word building on the last. The message that emerged was not to retreat behind books, but to emphatically engage in the public sphere, to redefine what it means to be a literary citizen. With an afterword by Valeria Luiselli, *Dictionary of the Undoing* is a necessary, resounding *cri de coeur* in defense of language, meaning, and our ability to imagine, describe, and build a better world.

Equal Rights in Practice May 17 2022 This thematic brochure is produced under the European Community Action Programme to combat discrimination (2001-2006). This programme was established by the European Commission's Directorate General for Employment and Social Affairs as a pragmatic support to ensuring effective implementation of the two Directives on "Race" and "Equal treatment in the workplace" (2000) emanating from Article 13 of the Amsterdam Treaty. The six-year Programme primarily targets all stakeholders capable of exerting influence on the development of appropriate and effective antidiscrimination legislation and policies, across the EU-25, EFTA and the EU candidate countries. The Action Programme has three main objectives. These are: 1. To improve the understanding of issues related to discrimination 2. To develop the capacity to tackle discrimination effectively 3. To promote the values underlying the fight against discrimination As such activities funded under the Programme analyse and evaluate, develop and raise awareness of measures that

combat discrimination on the grounds of race or ethnic origin, religion or belief, disability, age and sexual orientation. Discrimination on the grounds of gender is dealt with under separate legislative instruments. For more information on Community policies, legislation and activities on gender discrimination, please contact the Directorate for Gender Equality within DG Employment and Social Affairs.

Divided Loyalties Sep 28 2020 Historians have paid little attention to the fate of minorities at times of acute crises. This book addresses the case of two different types of Italians in Britain during the Second World War: the immigrants, who became 'enemy aliens' overnight, and the prisoners of war (POWs), who were brought to this country to compensate for the lack of manpower. The material life and the contrasting sentiments of both groups of Italians are studied against a background of changing government policies towards 'enemy aliens' and POWs. People with a weak sense of nationhood, the Italians' strongest loyalties are normally towards their own families and kin. A surrogate national sentiment was enhanced, in the case of immigrants by their condition of foreigners confined to the margin of society; in the case of the POWs, by their condition of men humiliated in defeat and captivity. Yet, in both instances ambiguity and dislocation of sentiments made the central issue of divided loyalties a complex and painful - albeit enriching - experience. The book is mainly based on archival - mostly unused - sources; direct private testimonies, both written and oral, are also taken into account.

Music Therapy Sep 01 2023 Music therapy is recognised as being applicable to a wide range of healthcare and social contexts. Since the first edition of *Music Therapy: An art beyond words*, it has extended into areas of general medicine, mainstream education and community practice. This new edition revises the historical and theoretical perspectives and recognises the growing evidence and research base in contemporary music therapy. Leslie Bunt and Brynjulf Stige document the historical evolution of music therapy and place the practice within seven current perspectives: medical, behavioural, psychoanalytical, humanistic, transpersonal, culture-centred and music-centred. No single perspective, individual or group approach is privileged, although the focus on the use of sounds and music within therapeutic relationships remains central. Four chapters relate to areas of contemporary practice across different stages of the lifespan: child health, adolescent health, adult health and older adult health. All include case narratives and detailed examples underpinned by selected theoretical and research perspectives. The final two chapters of the book reflect on the evolution of the profession as a community resource and the emergence of music therapy as an academic discipline in its own right. A concise introduction to the current practice of music therapy around the world, *Music Therapy: An art beyond words* is an invaluable resource for professionals in music therapy and music education, those working in the psychological therapies, social work and other caring professions, and students at all levels.

The Culture of Architecture in Enlightenment Rome Sep 20 2022 Beginning in the 1730s, Heather Minor tells us, Rome "began to resemble one huge construction site," with a series of ambitious and expensive new building campaigns that transformed the face and substance of the city. From renovations of the Santa Maria Maggiore and San Giovanni in Laterano and the restoration of the Arch of Constantine to the creation of the Capitoline Museum and the establishment of the papacy's Calcografia, the push for reform not only renewed papal and Church identity but also revived Italian culture as a whole. Based on extensive archival research and full of fascinating stories about the often stormy theological and intellectual debates central to the attempts at reform, *The*

Culture of Architecture in Enlightenment Rome brings to life the personalities of architects, theologians, and intellectuals and links the extensive architectural programs with powerful shifts in the intellectual climate of the time.

Disabling Obesity Apr 27 2023 Obesity is currently regarded as one of the major health challenges of the developed world. Excess body weight is an important risk factor for morbidity and mortality from cardiovascular diseases, diabetes, cancer, musculoskeletal disorders and even psychiatric problems and is estimated to cause nearly 3 million deaths per year worldwide. Obesity is not necessarily associated with comorbidities: there are indeed metabolically healthy obese individuals. Thus, we need to consider individuals presenting simple with obesity separately from those at risk of developing or who have already developed complex clinical states potentially leading to disability. Comorbidities can tip the balance of independence in patients who already have functional limitations mainly due to the excess of mass itself or who develop conditions such as diabetes, cardiovascular conditions, non-alcoholic fatty liver disease, where an abnormal metabolism of adipose tissue prevails. Morbid obesity with comorbidities leading to disability represents a real social and economic burden for National Health Systems worldwide. The presence of multiple and associated comorbidities often represents an obstacle to being admitted to hospitals for the treatment of metabolic diseases. On the other hand, clinical units with optimal standards for the treatment of pathological conditions in normal-weight patients are often structurally and technologically inadequate for the care of patients with extreme obesity. The aim of this book is to focus on the pathophysiological and rehabilitative aspects of disabling obesity, highlighting multidisciplinary rehabilitation interventions as key to counteracting the disabling aspects of complicated obesity.

Restoration of Coastal Dunes Nov 10 2021 The continuously growing human population along the world's coasts will exacerbate the impact of human activities on all coastal environments. Restoration activities will therefore become increasingly important. In particular, sandy shores and coastal dunes will require significant restoration efforts because they are preferred sites for human settlement, industrial and urban development and tourism. With this book experts in the field present a comprehensive review of restoration studies and activities, where 'successful' and 'failed' studies or approaches from around the world are contrasted and compared. A major asset the book provides is a compendium of studies showing that coastal dune restoration has many definitions and thus leads to many different actions. This volume addresses those with an interest in conservation ecology and biology, coastal dune dynamics and geomorphology, and coastal management who are seeking information on the different strategies for coastal dune restoration applied in different regions of the world. Finally, it will be a valuable resource for coastal scientists and planners, as well as for local and state officials, residents of coastal communities, environmental advocates and developers.

The Nearly Man Jun 17 2022 This is the true moving story of a young man growing up in the 1950's, of staunch Roman Catholic parents. Encouraged by family and teachers, the eleven years old holds a burning desire to become a Missionary Priest. His story unfolds against the backdrop of a Catholic Church going through massive change, yet stuck firmly in the past, with teachings and traditions going back hundreds of years. Leaving the love of his family he joins a junior seminary where he begins his progress towards becoming a priest. It describes his fears and concerns about his calling from God and his life at a boarding school. It tracks his adolescent life, desperately trying to come to terms with being a youth with normal feelings, whilst living in the unusual environment of a Monastery. It tells of his emotional turmoil and inability to make a definite decision about his future, as he becomes more and more institutionalised. It follows his time in a Scottish Monastery where he is initiated into strict Monastic ways, then moves onto a Seminary where he struggles with Monastic life, his studies and emotional relationships. Finally, illness and love are the catalysts for The Nearly Man making the decision of his lifetime.

Rome, Portus and the Mediterranean Sep 08 2021 One of the greatest consequences of Rome's expansion across the Mediterranean world in the course of the Republic and the earliest years of the Empire was an exponential growth in the population and extent of the city itself. The emperors of the first three centuries

AD faced major strategic challenges in ensuring a regular annual supply of food to the city, as well as other goods. This volume brings together various contributions, to assess how far Portus, as the maritime port of Imperial Rome from the mid-first century ad, was the principal conduit for supplying Rome and the extent to which the commercial links that fed Portus were part of a single overarching network or a series of interlinked networks that extended across the Mediterranean. The volume begins with a detailed reconsideration of Portus and its relationship to Ostia and Rome, which is complemented by studies considering aspects of the commercial roles of Portus and Ostia, and of transport up the Tiber to Rome. It continues with studies that deal with a range of broader issues concerning the relationship of Mediterranean ports to Rome, Portus and Ostia, routes of commerce, and the archaeological evidence for commercial activity at a selection of ports (in Italy, Sicily, Hispaniae, Africa and the East); before returning to more general considerations of connectivity, networks, coastal geo-archaeology and computational methods.

Italy's Eighteenth Century Jan 25 2023 In the age of the Grand Tour, foreigners flocked to Italy to gawk at its ruins and paintings, enjoy its salons and cafés, attend the opera, and revel in their own discovery of its past. But they also marveled at the people they saw, both male and female. In an era in which castrati were "rock stars," men served women as ciccisbei, and dandified Englishmen became macaroni, Italy was perceived to be a place where men became women. The great publicity surrounding female poets, journalists, artists, anatomists, and scientists, and the visible roles for such women in salons, academies, and universities in many Italian cities also made visitors wonder whether women had become men. Such images, of course, were stereotypes, but they were nonetheless grounded in a reality that was unique to the Italian peninsula. This volume illuminates the social and cultural landscape of eighteenth-century Italy by exploring how questions of gender in music, art, literature, science, and medicine shaped perceptions of Italy in the age of the Grand Tour.

Gaetano Salvemini Oct 29 2020 An outstanding scholar and political figure, Gaetano Salvemini had a reputation as one of the most courageous figures of his age. As a member of the Italian Socialist Party he championed social and political reform as a party activist, political commentator, and public officeholder. He fought for universal suffrage (including for women); in World War One he stood for his own version of a Wilsonian peace; and he is counted among the earliest and most effective opponents of Fascism. It was said that the Fascists were anti-Salvemini before he became anti-Fascist, and their efforts to silence him made his name synonymous with early Italian resistance to the new regime. A prominent exile in the United States, he resumed his scholarly work at Harvard through the help of friends and supporters. But never one to separate scholarship from political activity, he also continued to actively organize resistance to Mussolini, assisted others in escaping Italy, and played an important role in galvanizing both elite and public opinion in America against the Fascist regime. This groundbreaking biography is based on previously untapped archival resources.
