The highly successful New Integrated Science for the Caribbean, for use in lower secondary schools, has been revised for this second edition into a two-volume course. The series maintains its integrated and practical approach to science, but has been updated to account for the latest syllabus developments. Added freshness is provided by a re-designed layout, with new photographs and illustrations. The original features retained are: - Coverage of the syllabus in units which explore the world around us giving a varied and balanced insight into it, with an emphasis on making science fun. - The overall aim that students should gain the knowledge, awareness and skills-of-application necessary for sound scientific understanding and judgement. - A practical emphasis on science as it affects our daily lives in the Caribbean, backed up by information about scientists and scientific phenomena unique to our region. Features new to this edition include: - New and revised activities and 'On your own' section. - Revised and extended summaries and questions at the end of each unit. - Three end-of-term tests to evaluate student performance during the year. The Concise Revision Course CSEC(R) Integrated Science provides full coverage of the CSEC(R) Integrated Science syllabus. This book provides comprehensive and authoritative guidance for the course. It adopts a practical, supportive approach to help students with their learning. Providing revision exam and assessment questions to help this learning. Collins Concise Revision Course CSEC(R) Integrated Science follows the approach developed for the best-selling Collins concise revision courses for biology, chemistry and physics. Tens of thousands of students rely on these titles to help them achieve good grades in the CSEC(R) exams, and the same highly effective approach has now been applied to CSEC(R) Integrated Science. The Collins concise revision courses are written in a way that is clear and that avoids unnecessary repetition. They provide the facts required in a way that makes them easy for students to learn, with annotated diagrams, tables and bulleted lists throughout. This course is written according to the requirements of the new Zambia Basic Education Outcomes-based Syllabus.
