This is the first book to examine the sport participation policies of national governments across the world and to offer a comparative analysis of the

motives for, and successes and failures of those policies. Organized around a series of sixteen national case studies, including the UK, the US, Australia, China and India, the book enables students and practitioners to compare and contrast the development, implementation and impact of sport participation policies throughout the world. Sport and Nationalism in China Apr 16 2022 This book examines

the relationships between sport, nationalism and nation building in China. By exploring the last 150 years of Chinese history, it offers unparalleled depth and breadth of coverage and provides a clear grasp of Chinese sports nationalism from both macro and micro perspectives. Beginning with a discussion on the role of sport in the Qing Dynasty's Self-Strengthening Movement (1861-1895), the book examines how sport contributed to the shaping of the early forms of Chinese nationalism in the late 19th century. It identifies and defines the core functions of sport in the Chinese Nationalist Revolution which successfully transformed China from a culturally bound empire to a modern nation state in 1911. The following section, on the Republic of China Era (1912-1949), explores the interactions between sport and the construction of Chinese nationalism and national consciousness, illustrating how sport played its part in the building of the newly established nation state. Moving on to the Communist China Era (1949-present), the book scans the whole spectrum of both modern and contemporary Chinese nationalism and interprets the most important issues on the course of China's nation building, explaining why sport is so tightly bound up with nationalism and patriotism, and how sport became an essential part of nationalists', politicians' and educationalists' strategy to revive the Chinese nation.

Post-Beijing 2008: Geopolitics, Sport and the Pacific Rim Jul 28 2020 In 2008, as few in the world are unaware, China was host to the world via the Beijing Olympics. The world watched the metamorphosis of Beijing from insecure capital to confident metropolis but, aware of it or not, the world was also watching the symbolic assertion, via the Games, of a rising superpower. The

Pacific Rim will be the stage on which China initially displays its new hegemonic intentions, aspirations and ambitions. Thus in Post-Beijing 2008, the political, economic and cultural impact of Beijing 2008 on the geopolitical future of the Pacific Rim will be discussed. This perspective, analysed by some of the most distinguished academic commentators from some of the world's leading universities who are closely associated with the Pacific Rim (East and West), is original in focus and the analysis is pregnant with political possibilities. This book was previously published as a special issue of the International Journal of the History of Sport.

Chasing the Golden Treasure May 25 2020 Searching for something to make their game of "Find the Treasure" more exciting, Bradley takes an 1854 gold coin from his father's lockbox. In the thick woods of nearby Chicamauga National Battlefield, his cousin, Glen, slides down into a limestone cave to hide the gold piece for Brad to find. In the dark, he bends to place the coin on the faint glow of foxfire from a piece of rotting wood. Before he can stand, he gets dizzy and faints. When Brad goes inside looking for his cousin, the same thing happens to him. When they wake up, they discover they are on a steamboat in 1854 and the gold coin is missing. Even worse, the captain sends them out in a rowboat with a huge storm coming. Half the crew is down with fever, so the boys are recruited to join the First Mate in a small boat out ahead of the sternwheeler. They must probe for a spot deep enough for the steamboat to safely cross a shallow sand bar. The captain promises to reward each of them with a gold dollar. But that's not what they really want. When the storm rolls in, the cousins fear they might not get out alive, especially when

they all realize the steamboat is headed straight for their rowboat. One thing is for sure, they never expected to find this when they went looking for treasure.

Banners of Gold May 18 2022 The enchanting Alix of Wanthwaite returns in a suspenseful and richly textured adventure in which nothing less than the future of England is at stake. Alix is home at her beloved estate on the Scottish border when King Richard's soldiers march into her castle and demand to take her to the Continent with them. King Richard has been captured while on Crusade, and Alix is among the nobles whose lives will be collateral for the king's ransom. But when she's delivered to Queen Eleanor of Aquitaine, Richard's mother, she is dumbfounded to learn that the queen has other plans for her. King Richard needs an heir, Eleanor tells Alix. Repulsed by his queen, a homely religious fanatic, he has told his mother that the only woman he wants is the one he met on Crusade, when she was disguised as a boy. Richard wants Alix to be his mistress and the mother of the next Plantagenet king. Now a beguiling and irrepressible young woman, Alix faces more tribulations and romance on this trip to Europe, where affairs of the state and affairs of the heart are intricately intertwined.
