Swatch Reference Guide for Fashion Fabrics is an all-in-one text and swatch book that focuses on the unique needs of students in fashion design, apparel merchandising, and product development.

*Quilting* Jun 19 2022 Quilting, once regarded as a traditional craft, has broken through the barriers of history, art and commerce to become a global phenomenon, international multi-billion dollar industry and

means of gendered cultural production. In *Quilting*, sociologist and quilter Marybeth C. Stalp explores how and why women quilt. This close ethnographic study illustrates that women's lives can be transformed in often surprising ways by the activity and art of quilting. Some women who quilt as a leisure pastime are too afraid to admit to being a quilter for fear of ridicule; others boldly identify themselves as quilters and regard it as part of their everyday lives. The place of quilting in women's lives affects core family and personal identity issues such as marriage, childcare, friendship and aging. The book's

accessible and intimate portrayal of real quilters' lives provides a fabric for the sociology, anthropology and textile student to understand more about wider issues of cultural production and identity that stem from this very personal pastime.
