Audio Cassettes kept at counter. The DNA of Achievers: 10 Traits of Highly Successful Professionals is intended to be a business-oriented, motivational, and inspirational book all rolled into one. As the title suggests, it focuses on characteristics that are common among successful people from all walks of life. Throughout his long career, Mr. Knowles has encountered individuals who have motivated, inspired, and contributed to his success. The author's goal is to recount illustrative true-life experiences of ten traits commonly shared by successful people. His personal top ten are: 1) passion; 2) vision; 3) work ethic; 4) team-building; 5) planning; 6) talk-to-do ratio; 7) learning from failure; 8) giving back; 9) risk-taking; and 10) thinking outside the box. As a self-made entrepreneurial success story who came from a small town and became the top salesperson at Xerox Medical System, sold successful businesses he created, and became one of the world's top entertainment managers and executives in the music industry, the author embodied all of these traits. The DNA of Achievers features nearly thirty inspirational essays by luminaries in all areas of entrepreneurship, entertainment, sports, and philanthropy—not to mention a singer or two! Advisor of Leadership at Google and former vice president of leadership at LinkedIn claims that the biggest driver of motivation is the chance to serve a larger purpose beyond our careers and ourselves, rather than salary, benefits, bonuses, or other material incentives; companies that are able to successfully focus their people, their teams, and their culture around meaning outperform their competition. Fred Kofman's approach to leadership has little to do with the standard practices taught in business school and traditional books. Bringing together economics and business theory, communications and conflict resolution, family counseling and mindfulness mediation, Kofman argues in The Meaning Revolution that our most deep-seated, unspoken, and universal anxiety stems from our fear that our life is being wasted—that the end of life will overtake us when our song is still unsung. Material incentives—salary and benefits—account for perhaps 15 percent of employees' motivation at work. The other 85 percent is driven by a need to belong, a feeling that what we do day in and day out makes a difference, that how we spend our time on earth serves a larger purpose beyond just ourselves. Kofman claims that transcendental leaders, wherever they are in the hierarchy, are able to put aside their self-interests and help others to feel connected with others on a team or in an organization on a great mission and part of an ennobling purpose. He argues that every organization involved in work that is nonviolent and non addictive has what he calls an "immortality project" at its core. And the challenge for leaders is to identify and expand on that core, to inspire all stakeholders to take part. Featuring 75 never-before-published essays from the likes of Marianne Williamson, Gloria Steinem, Maya Angelou, Liz Caliborne, Geraldine Ferraro, and others, this inspirational book reads like a 7 Habits of Highly Effective People--aimed specifically at women. The upbeat tone and motivating stories will provide a call to action for many readers. 12 guiding principles for achieving success with honor and integrity in business and life Becoming Your Best includes inspiring and instructive business stories as well as a great deal of practical advice. The book's 12 principles can help any leader develop a culture of excellence and include Be True to Character; Use Your Imagination; Tap the Power of Knowledge; Never Give Up; Seek Peace & Balance; and Lead with a Vision. In this instant New York Times bestseller, Angela Duckworth shows anyone striving to succeed that the secret to outstanding achievement is not talent, but a special blend of passion and persistence she calls “grit.” “Inspiration for non-geniuses everywhere” (People). The daughter of a scientist who frequently noted her lack of “genius,” Angela Duckworth is now a celebrated researcher and professor. It was her early eye-opening stints in teaching, business consulting, and neuroscience that led to her hypothesis about what really drives success: not genius, but a unique combination of passion and long-term perseverance. In Grit, she takes us into the field to visit cadets struggling through their first days at West Point, teachers working in some of the toughest schools, and young finalists in the National Spelling Bee. She also mines fascinating insights from history and shows what can be gleaned from modern experiments in peak performance. Finally, she shares what she’s learned from interviewing dozens of high achievers—from JP Morgan CEO Jamie Dimon to New Yorker cartoon editor Bob Mankoff to Seattle Seahawks Coach Pete Carroll. “Duckworth’s ideas about the cultivation of tenacity have clearly changed some lives for the better” (The New York Times Book Review). Among Grit’s most valuable insights: any effort you make ultimately counts toward your goal; grit can be learned, regardless of IQ or circumstances; when it comes to child-rearing, neither a warm embrace nor high standards will work by themselves; how to trigger lifelong interest; the magic of the Hard Thing Rule; and so much more. Winningly personal, insightful, and even life-changing, Grit is a book about what goes through your head when you fall down, and how that—not talent or luck—makes all the difference. This is “a fascinating tour of the psychological research on success” (The Wall Street Journal). 6 Habits of Highly Successful Managers gives business owners and managers what they so desperately need: a clear, focused, laser-sharp tactical manual of what they need to know right now to make their organization a success. The authors' presentation of their six commonsense habits creates a systematic framework useful to managers, entrepreneurs, and executives, providing them with: Clear hard-hitting content that is easy to understand Numerous real-company anecdotes that bring the concepts to life The building blocks, neither faddish nor outdated, of a successful business A means of creating a company culture of achievement and accountability Detailed guidance on how to execute the key concepts, with a focus on goals In the 7 Habits series, international bestselling author Stephen R. Covey showed us how to become as effective as it is possible to be. In his long-awaited new book, THE 8th HABIT, he opens up an entirely new dimension of human potential, and shows us how to achieve greatness in any position and any venue. All of us, Covey says, have within us the means for greatness. To tap into it is a matter of finding the right balance of four human attributes: talent, need, conscience and passion. At the nexus of these four attributes is what Covey calls voice - the unique, personal significance we each possess. Covey exhorts us all to move beyond effectiveness into the realm of greatness - and he shows us how to do so, by engaging our strengths and locating our powerful, individual voices. Why do we need this new habit? Because we have entered a new era in human history. The world is a profoundly different place than when THE 7 HABITS OF HIGHLY EFFECTIVE PEOPLE was originally published in 1989. The challenges and complexity we face today are of a different order of magnitude. We enjoy far greater autonomy in all areas of our lives, and along with this freedom comes the expectation that we will manage ourselves, instead of being managed by others. At the same time, we struggle to feel engaged, fulfilled and passionate. Tapping into the higher reaches of human genius and motivation to find our voice requires a new mindset, a new skill-set, a new tool-set - in short, a whole new habit. The 10 Habits of Highly Successful Women is a collection of essays revealing the secret career habits and hard-won wisdom of a diverse group of accomplished women, selected by Rachel Sklar and Glynnis MacNicol, co-founders of TheLi.st, the well-known network dedicated to elevating professional women. Perhaps no group has experienced more upheaval in the last few decades than working women. In this series, each woman explores the one key habit or lesson that has made the difference in forging her career and attaining professional success. Whether it's CNN personality Sally Kohn's exploration of emotional correctness or What Not To Wear's Stacy London on the wear and tear of our aspirational "Culture of Extraordinary," why millennial Nisha Chittal won't tell you her age and what Cindy Gallop learned about sex while dating men half hers; how lessons from waitressing led Jenna Wortham to the New York Times or how Paula Froelich perfected the art of the "controlled burn" to start over after the end of a dream career--these essays uncover the challenges and delights of chasing, and finding, success in work and life as a professional woman. Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well. A new approach to time management focusing on how highly successful people get their work done without sacrificing the life they live. This entertaining volume has what no other time management book has: insights on how to manage time from high achievers such as Malcolm Forbes, Jr., Ted Turner, Sandra Day, Dr. Johnnetta Cole, and Home Depot CEO Bernie Marcus. Dr. B. Eugene Griessman has interviewed hundreds of contemporary peak performers (and researched dozens of historical high achievers) to unearth the secrets of their success. He presents their time management tactics in short "Bites" designed to inspire today's time-starved reader whether they're over worked managers, working moms, entrepreneurs on the go, or even newly unemployed people who must suddenly learn to structure their own time.
